ANNEX K –SONAR OP RQ S2 OJPR

CERTIFICATE OF QUALIFICATION RQ S2 SONAR Op

Name and Initials	Rank	SN

Date Training Started	Required Date of Completion (12 months from start date)

NOTES

- The OJPR must be completed in accordance with the instructions below.
- Incorrect or incomplete OJPR will be returned for re-submission.

INSTRUCTIONS

1. The current SONAR Operator RQ-SONAR OP-S2 OJPR is found within the RQ-SONAR OP-S3 QSP ANNEX K and is applicable to Surface Fleet SONAR Operators. Unit Training Petty Officers requiring an OJPR copy shall print off one from the QSP Annex or submit a request to their Naval Fleet School (Atlantic / Pacific) or the Naval Training Development Centre (Atlantic).

2. One copy of this OJPR, hereinafter referred to as the master copy, shall be made up for each individual beginning OJT. It shall be kept and maintained by the trainee and monitored regularly by the supervisor. The trainee's Training PO or Officer is responsible for the member's completion of the OJPR and must maintain Training Tracker fields as outlined in Monitor Mass (MM).

3. As the trainee completes each Performance Objective (PO) to the required standard, the Training PO or Officer will date and sign the applicable item on the master copies of the OJPR sheet and inform the individual of the action taken.

4. Upon posting or transfer, the losing unit will ensure the following:

   a. The trainee's OJPR is reviewed to ensure that all of the objectives which have been successfully completed are credited;
   b. A duplicate copy of the original should be made and entered into the member's PERs file for safe keeping; and
   c. The master copy OJPR is forwarded with the member to the new unit.

5. The gaining unit shall review both the master and duplicate copies of the OJPR package to become familiar with:

a. Percentage of objectives completed;
b. Remarks; and
c. OJT time elapsed.

6. The Training PO will develop an appropriate training plan to meet the Performance Objectives and assist the trainee in attaining ALFU qualification. The Training PO is to regularly review the plan (minimum once every 30 days) to ensure that the trainee is progressing appropriately. The trainee shall be counselled on this review and any training decisions.

PROGESS REVIEW

7. Progress review shall be carried out monthly by the Training Petty Officer and Section Head (NCMs).

8. Unsatisfactory progress is indicated by:

a. The trainee experiencing difficulty successfully completing the objectives; and/or

b. The trainee failing to complete this OJPR package within the allotted 12 month time period.

9. Trainees experiencing difficulty will be counselled on their performance.

10. Should a member require additional time to complete the OJPR, the Training Petty Officer will submit a request for approval on an extension of time to their Chain of Command and appropriate TE to include:

a. Justification for delay in completion;

b. Estimation of time of completion; and

c. Training Plan to meet the new time estimate.

11. Trainees experiencing difficulty will be counselled on their performance.

OJPR Reviewed By:	Comment	Signature	Date

INSTRUCTIONS AND CHECKLISTS

12. The following checklists are to be used to evaluate the trainee's ability to perform the tasks and demonstrate the skills necessary to fulfil the requirements of this OJPR:

a. OJPR PC 002 – Perform Noise Rounds;

b. OJPR PC 003A – Operate Ancillary Acoustic Equipment;

c. OJPR PC 003B – Communicate Externally on Underwater Telephone;

d. OJPR PC 004 – Launch Underwater Expendables (Sonobuoy & ESUS);

e. OJPR PC 006 – Operate Active SONAR Equipment;

f. OJPR PC 007 – Perform Basic Passive Acoustic Analysis;

g. OJPR PC 008 – Operate Passive Acoustic Equipment; and

h. OJPR PC 009 – Operate Surface Vessel Torpedo Tubes (SVTT) Weapon Systems.

13. Within the period of approximately 12 months, the trainee shall be required to perform all of the activities listed on the OJPR PC checklists under the observation, supervision, and evaluation of a supervisor. The OJT supervisor will debrief the trainee following each observed session.

14. The checklists reflect the required performance for the skills/tasks specified in the POs contained in chapter 2. The OJT supervisor shall complete the checklists for all observed activities until the trainee has successfully completed all activities without assistance, once an observed performance reach standard, the supervisor will complete the OJPR record sheet.

15. When for reasons of refits, sailing schedules, etc., it becomes impossible to carry out tasks on the trainee's own ship, he/she should be given every opportunity to carry on with his/her OJPR package on an operational ship or using TE's trainers.

16. A trainee must obtain a pass in all OJT EOs/POs to successfully complete this training package and be granted the Acoustic Sensor Operator (ALFU) qualification.

OJPR COMPLETION INSTRUCTIONS

17. Once the trainee has completed all of the Performance Objectives (POs) within the OJPR, the Training PO will ensure the following personnel sign the trainee's master copy OJPR:

a. UWW Officer / Director;

b. Operations Officer; and

c. Operations Chief / Unit Training Chief.

18. Once all signatures have been received, a duplicate copy of the OJPR will be made. The master copy being entered into the members PERs file and the duplicate copy to the member.

19. The Training PO / Officer or Unit Training Chief will complete the Training Tracker fields in Monitor Mass indicate the date the member completed the OJPR. This will send a message to the appropriate TE (NFS A or P) Scheduling MITE cell who will enter the MITE code 122419 for the completion of the OJPR and the member will be granted the National Qualification code ALFU.

20. The Unit Training Chief will also send an email with the members information (SN, Rank, Name, Trade, OJPR, and completion date) to the following personnel:

a. +NFSA MITE@NPTG NFSA@Halifax NFSAMITE@intern.mil.ca;

b. +ESQNPTG NFSP MITE@NPTG NFSP@Esquimalt

P-ESQ.NPTGNFSPMITE@intern.mil.ca; and

c. DMIL C 2-6-2 (Combat Operator S1 & Below Career Manager).

21. The Training PO / Officer and/or Unit Training Chief should check to ensure the members has received the MITE code in their Monitor Mass/MPRR or Guardian system. If the member has not received the qualification within 6 weeks of completion, contact the Training Establishment MITE cells listed above.

Note: Units at sea may have to wait until return to port for Monitor Mass Training Tracker to update and send the OJPR completion query to the appropriate TE MITE cells.

Performance Check PC 002 Perform Noise Rounds

PART I – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Ship or Submarine.

Arrangements and Procedures

2. PC 002 will be a practical assessment based on content from PO 002.

3. To pass this PC, the trainee must achieve 19/19 SATs.

4. References will be required.

PART II – PRACTICAL ASSESSMENT INSTRUCTIONS GIVEN TO TRAINEE

1. PC 002 will be a practical assessment based on content from PO 002.

2. During this practical assessment, you will be required to have a knowledge of the Noise Monitoring Organization, be aware of publications/logs, perform noise rounds (alongside, daily at sea, assuming a higher state) and correctly log any faults to be corrected. You must pass this PC to pass PO 002.

3. References will be provided.

4. Pass mark is 19/19 SATs IAW PCL 002.

5. Do you have any questions before you start?

PART III – PERFORMANCE CHECK NOTES

1. Assessment will occur on Ship or Submarines.

2. Trainees will be required to attend one CRR 12-3 Noise Organization Lecture, be aware of publications/logs, perform noise rounds (alongside, daily at sea, assuming a higher state) and correctly log any faults to be corrected.

PROTECTED B (when completed)

ITEM	PC 002 PERFORM NOISE ROUNDS	SAT	DATE	RANK / NAME (SONAR OP MS & above)	REMARKS
1. Noise Monitoring Organization					
Attend CRR 12-3 Noise Reduction		☐			
Identifies Department Noise Monitor		☐			
Identifies location(s) of Quiet State		☐			
2. Noise Monitoring Logs & Documents					
Knows location of Noise Rounds Log		☐			
Knows location of Noise Defect Log		☐			
Knows location of Ships Artifact Log		☐			
Knows location of Quiet Running Bill		☐			
Fills out Noise Defect form		☐			
3. Conducting Rounds					
Conducts Secure for Sea Rounds (add		☐			
Conducts Daily Sea Rounds (add date)		☐			
Conducts Daily Sea Rounds (add date)		☐			
Conducts Daily Sea Rounds (add date)		☐			
Fills out log for Daily Sea Rounds		☐			
Conducts rounds assuming a Higher Quiet state (add date)		☐			
Changes signs for assuming Higher Quiet State		☐			
Fills out log for assuming a Higher Quiet State		☐			
Identifies 3 noise defects during rounds		☐			
Rectifies noise defects during rounds		☐			
Reports rounds completed to DNM		☐			

Score: /19

The trainee must achieve all items on this checklist to pass this PC.

Performance Check – PC 003A Operate Ancillary Acoustic Equipment

PART I – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Ship or Submarine alongside or at sea.

Arrangements and Procedures

2. PC 003 will be a practical assessment based on content from PO 003A.

3. To pass this PC, the trainee must achieve 18/23 SATs.

4. References are allowed.

PART II – PRACTICAL ASSESSMENT INSTRUCTIONS GIVEN TO TRAINEE

1. PC 003 will be a practical assessment based on content from PO 003A.

2. During this practical assessment, you will be required to operate ancillary acoustic equipment and correctly draft and upload a Bathy Message. You must pass this PC to receive your signature.

3. References are allowed.

4. No assistance is permitted.

5. Pass mark is 18/23 SATs IAW PCL 003.

6. Do you have any questions before you start?

PART III – PERFORMANCE CHECK NOTES

1. PC Checklist for XBT/XSV launches from Submarine may be amended to reflect their launching SOP's.

PROTECTED B (when completed)

Item	PC 003A ANALYZE XBT/XSV FORMS	SAT	UNSAT	Remarks
1. Flash up MK-21 Bathythermograph:				
a. Turn on the computer		☐	☐	
b. Initialize WinMK21 program		☐	☐	
2. Set up operating parameters				
a. Open WinMK21 Main Window		☐	☐	
b. Ensure WinMK21 is in Data acquisition mode		☐	☐	
3. Initiate a new probe drop				
a. Click the New Drop button		☐	☐	
b. Choose New Drop from the File menu		☐	☐	
4. Select the probe type				
a. Choose Probe from the Options menu		☐	☐	
b. Choose Selection		☐	☐	
5. Verify the data file name				
a. Verify the correct file name for the data and the folder in which the file will be		☐	☐	
6. Load/Launch the probe				
a. Complete a full Load of probe		☐	☐	
b. Pulling the release pin out of the canister		☐	☐	
c. Wait for the probe to complete its descent or Stop data acquisition, by choosing *Terminate* from the *Actions* menu		☐	☐	
7. Record XBT/XSV information IAW METOC standards				
a. Select correct profile type		☐	☐	
b. Review data to ensure a successful launch		☐	☐	
8. Complete standard Bathymetric forms (C0045)				
a. Complete a digital IGOSS form		☐	☐	
b. Complete a digital VELO form		☐	☐	
9. Draft Bathy messages				
a. Input data (temperature, sound velocity)		☐	☐	
b. Input ship call sign		☐	☐	
c. Submit message for transmission		☐	☐	

10. Shut down MK-21 Bathythermograph:			
a. Choose Exit from the File menu	☐	☐	
b. Press Alt+F4	☐	☐	
c. Click the Windows Close button in the title bar	☐	☐	
d. Turn off the computer	☐	☐

Performance Check – PC 003B Communicate Externally on Underwater Telephone

PART I – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Ship or Submarine at sea; and

2. Another unit to communicate with.

Arrangements and Procedures

3. PC 003B will be a practical assessment based on content from SONAR OP RQ-S3 QSP PC 003B.

4. To pass this PC, the trainee must achieve 30/30 SATs.

5. References are allowed.

PART II – PRACTICAL ASSESSMENT INSTRUCTIONS GIVEN TO TRAINEE

1. PC 003B will be a practical assessment based on content from PC 003B.

2. During this practical assessment, you will be required to communicate externally on the Underwater Telephone. You must pass this PC to receive your signature.

3. References are allowed.

4. No assistance is permitted.

5. Pass mark is 30/30 SATs IAW PCL 003B.

6. Do you have any questions before you start?

PART III – PERFORMANCE CHECK NOTES

1. PC Checklist for Submarine UWT communications may be amended to reflect their launching SOP's

Item	PC 003B COMMUNICATE EXTERNALLY ON UNDERWATER TELEPHONE	SAT	UNSAT	Remarks
1. Conduct Flash-up/Shut-down				
a.	Ensure module is powered and push button "Power on".	☐	☐	
b.	Turn key "ON" in OPS and Bridge.	☐	☐	
c.	Plugged headset and Microphone.	☐	☐	
d.	Ensure Programmable Channel recording is active.	☐	☐	
e.	Selected channel is in passive mode.	☐	☐	
f.	Ensure "Status On" is green.	☐	☐	
2. Conduct messages transmission				
a.	Recording a message than TX to include;			
	• Press RECORD	☐	☐	
	• Push-to-Talk on microphone	☐	☐	
	• Press REPLAY than PLAY	☐	☐	
	• Press FILE than SAVE	☐	☐	
	• Choose DELAY	☐	☐	
	• Push CALL to transmit.	☐	☐	
b.	Choose Pre-set messages to TX to include;			
	• Push MESSAGE mode than OK	☐	☐	
	• Press FILE to choose msg than press OK	☐	☐	
	• Choose DELAY x2	☐	☐	
	• Choose a DELAY value between 30 and 300	☐	☐	
	• Press PLAY to confirm msg	☐	☐	
	• Press OK than CALL to tx	☐	☐	

3. Conduct UWT Communications (with another unit)			
a. Establish Communications (GERTRUDE CHECK)	☐	☐	
b. Utilize 3 letter codes (minimum 3 codes)	☐	☐	
4. Employ Mark-Snap ranging procedures (with another unit if available)			
a. Measure time	☐	☐	
b. Calculate ranges	☐	☐	
c. Calculate range to contact	☐	☐	
5. Conduct Emergency Communication Procedures			
a. Employ Uncle Joe Voice Procedure IAW AXP 1	☐	☐	
b. Employ Hooker Procedure IAW AXP 1	☐	☐	
c. Employ Uniform Procedure IAW AXP 1	☐	☐	
6. Log UWT communications			
a. Enter time of communication	☐	☐	
b. Enter unit(s) conducting communication	☐	☐	
c. Enter communication / response(s)	☐	☐	
7. Shut down UWT			
a. Switch off UWT	☐	☐

Performance Check – PO 006 Operate Active SONAR Equipment

PART I – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Ship or Submarine at sea;

2. Embedded Training System (ETS); or

3. SEACOT or Submarine Trainer.

Arrangements and Procedures

4. PC 006 will be a practical assessment based on content from PO 006.

5. To pass this PC, the trainee must achieve 10 accumulative hours of Operating time and 2 accumulative hours of In Contact time IAW PO 006 Active SONAR Time Log.

6. Surface ship Training PO's / Instructor may use RQ S3 PC 006 Checklist as reference for evaluating trainee's ability to operate Ship's Active SONAR Equipment.

7. References are allowed.

PART II – PRACTICAL ASSESSMENT INSTRUCTIONS GIVEN TO TRAINEE

1. PC 006 will be a practical assessment based on content from PC 006.

2. During this practical assessment, you will be required to set up, operate active SONAR equipment and correctly maintain logs. You must complete the require amount of operating and in contact time and pass this PC to receive your signature.

3. References are allowed.

4. No assistance is permitted.

5. Do you have any questions before you start?

Performance Check – PO 007 Perform Basic Passive Acoustic Analysis

PART I – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Limited Access Area, TRINITY ADAC training packages.

Arrangements and Procedures

2. PC 007 will be a practical assessment based on content from PO 007.

3. To pass this PC, the trainee must achieve 60% on 6 training packs.

4. References are allowed.

5. No assistance is permitted.

PART II – PRACTICAL ASSESSMENT INSTRUCTIONS GIVEN TO TRAINEE

1. PC 007 will be a practical assessment based on content from PO 007.

2. During this practical assessment, you will be required to perform basic passive acoustic analysis. You must receive the pass mark for 6 training packs to receive your signature for this PC.

3. References are allowed.

4. No assistance is permitted.

5. Pass mark is 60%.

6. Do you have any questions before you start?

PART III – ENABLING CHECK NOTES

1. Each training pack will be a mixed lab consisting of 4 Grams, passive aural listening (PAL) and TIES.

2. Logs need to be correctly filled out.

3. Trainee will be required to analyze a Gram IAW the assessment criteria below:

Performance Check – PO 009 Operate Surface Vessel Torpedo Tubes (SVTT) Weapon Systems

PART I – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Ship or Submarine.

Arrangements and Procedures

2. PC 009 will be a practical assessment based on content from PO 009.

3. To pass this PC, the trainee must achieve 43/43 SATs AND all critical items.

4. References will be required.

PART II – PRACTICAL ASSESSMENT INSTRUCTIONS GIVEN TO TRAINEE

1. PC 009 will be a practical assessment based on content from PO 009.

2. During this practical assessment, you will be required to operate SVTT weapon systems. You must pass this PC to pass PO 009.

3. References will be provided.

4. Pass mark is 43/43 SATs AND all critical items IAW PCL 009.

5. There is no time limit for this assessment.

6. Do you have any questions before you start?

PART III – PERFORMANCE CHECK NOTES

7. Assessment will occur as part of the RQ S2 OJPR onboard HMC Ship, with a WEng Tech (SONAR) present.

8. Safety is most important factor, any safety infractions can result in trainee failing to meet Performance Objective.

9. PC Checklist for Weapon launches from Submarine may be amended to reflect their launching SOP's.

Item	PC 009 OPERATE SVTT WEAPON SYSTEMS	SAT	UNSAT	Remarks
CONDUCT TORPEDO LOAD / UNLOAD (under qualified RQ MS WENG supervision)				
1.	Participate in one CRR 11-16 Torpedo Load / Unload training event	☐	☐	
2.	Adhere to Torpedo Loading / Unloading Checklist IAW NCPM 1001	☐	☐	
SYSTEM PREPARATION				
Personnel and Equipment safety maintained throughout				
3.	Possession of TSP keys.	☐	☐	
4.	Ensure power is available.	☐	☐	
5.	Ensure safety equipment is in place and appropriate precautions have been taken.	☐	☐	
6.	Conduct Communication checks	☐	☐	
ASSUMING "STANDING TO STATE" FROM "SECURED" STATE				
7.	Clear away torpedo tubes:			
a.	Check all breech ward access opening covers are secured	☐	☐	
b.	Ensure flex hoses are connected	☐	☐	
c.	Check breech mechanism air pressures are 1600 psi (+ 0 / - 50 psi)	☐	☐	
d.	Check manifold air valve is open (lower barrel) and ship air supply is connected to the tube pneumatic system (manifold gauge indicates between 100 - 150 psi).	☐	☐	
e.	Ensure muzzle door heater switch is turned "ON" when ambient temperature drops below 4.4 degrees Celsius	☐	☐	
f.	Operate manual muzzle door open switches on all tubes. Confirm doors are open and valve operating mechanism move to breech ward end.	☐	☐	
g.	Close muzzle doors —ensure control valve operating mechanism moves to muzzle ward position	☐	☐	
h.	Unlock padlocks on emergency fire levers and leave padlocks in place	☐	☐	
i.	Place tube ready actuator for all tubes to the ON (remote) position	☐	☐	

j. Ensure AC and DC circuit breakers are ON	☐	☐	
k. Switch TSP to REMOTE	☐	☐	
l. Conduct Closing up report to UWWD IAW NCPM 1001	☐	☐	
APPLY ORDERED SETTINGS – LOCAL MODE			
8. Prepare to fire in secondary (select tube and settings as directed) :			
a. Switch TSP to LOCAL when ordered	☐	☐	
b. Report "Standing to in LOCAL"	☐	☐	
c. Selects Tube #	☐	☐	
d. Sets mode (RUNOUT / NO RUNOUT)	☐	☐	
e. Sets Initial Search Depth	☐	☐	
f. Sets Tactical Floor	☐	☐	
g. Sets Gyro Angle	☐	☐	
9. **Trainee will be directed to make tubes "READY":**			
a. Place actuator switch to Open position	☐	☐	
b. Selects STANDBY	☐	☐	
c. Confirms weapon ready to fire from TSP	☐	☐	
10. **Trainee will be directed to "FIRE"**			
a. Selects LAUNCH button	☐	☐	
b. Confirms weapon status on TSP	☐	☐	
11. Conducts Secondary Firing Drill voice reports IAW NCPM 1001	☐	☐	
TORPEDO MISFIRE PROCEDURES "FIRE IN EMERGENCY"			
12. Misfire is reported in secondary mode, directed to "FIRE IN EMERGENCY"			
a. Place actuator switch to Open	☐	☐	
b. Removes Padlock from Emergency Fire Lever	☐	☐	
c. Pulls Firing Lever	☐	☐	
d. Confirms weapon status from tube	☐	☐	
13. Conducts Emergency Firing Drill voice reports IAW NCPM 1001	☐	☐	
SECURE TORPEDO TUBES			
14. When Ordered, make a loaded torpedo tube mechanically safe:			
a. Lock padlocks on the EMERGENCY FIRING LEVERS	☐	☐	
b. Ensure control valve operating lever is in the muzzle ward position and muzzle door indicator light is out	☐	☐	

c. Discharge the breech mechanisms on loaded tubes	☐	☐	
d. Disconnect the flex hose	☐	☐	
e. Switch TSP to LOCAL, and turn the AC Power switch to OFF	☐	☐	
f. Conducts "SECURED" state voice report IAW NCPM 1001	☐	☐	
g. Return keys on completion	☐	☐	

Score: /43

The trainee must achieve all items on this checklist to pass this PC.

Positive Feedback	Improvement Feedback

PC 009 – Overall Assessment – Circle One	
Met Standard	**Did Not Meet Standard**
Assessor I have discussed the results of PC 009 with the trainee.	**Trainee** I have been debriefed on the result of PC 009.

CERTIFICATION OF COMPLETION

22. This On Job Training Performance Record (OJPR) certifies that the trainee:

SN	Rank	Name	Init	Unit

have successfully completed all of the performances required to receive the qualification ALFU.

On-Job Training Performance Record				
PC	**Title**	**Date**	**Signature**	**Comments**
002	Perform Noise Rounds		**(OJT Supervisor)**	
003A	Operate Ancillary Acoustic Equipment		**(OJT Supervisor)**	
003B	Communicate Externally on Underwater Telephone		**(OJT Supervisor)**	
004	Launch Underwater Expendables (Sonobuoy & ESUS)		**(OJT Supervisor)**	
006	Operate Active SONAR Equipment – Time Log		**(OJT Supervisor)**	
007	Perform Basic Passive Acoustic Analysis		**(OJT Supervisor)**	
008	Operate Passive Acoustic Equipment – Time Log		**(OJT Supervisor)**	
009	Operate Surface Vessel Torpedo Tubes (SVTT) Weapon Systems		**(OJT Supervisor)**
