ROYAL CANADIAN NAVY QUALIFICATION STANDARD AND PLAN (QSP)

Defence Resource Management Information System (DRMIS) Course

Mod 1 - DRMIS Maintainer (119096)

Mod 2 - DRMIS Maint Supervisor (119097)

Mod 3 - DRMIS Maint Manager (119098)

RECORD OF AMENDMENTS

This QSP is developed under the authority of the Royal Canadian Navy (RCN). RCN, through its Training Authority (TA), Director of Maritime Training and Education (DMTE) has delegated "authority" of this QSP to the Curriculum Control Authority (CCA), NAVAL TRAINING AND DEVELOPMENT CENTER (NTDC). The approval/revision date should also appear in the footer of every page as an additional means of verification. Details on the change(s) must be amplified in Annex J "Course History".

REVISION	APPROVAL DATE	AUTHORITY
1.0 Initial Draft QSP (DRMIS Maintainer) Dated Jul 2010	1 Oct 2010 (approved for instruction / RDIMS #203251)	DMTE 2-5
2.0 2nd Draft QSP DRMIS Course (Note Annex J endorsement by CFFSE Cmdt) The DRMIS classroom has only 10 drop at this point. As soon as all 20 are fitted, CFFSE will submit a request for amend of course load		NPTG
3.0 Details at Annex J		//OSB// NTDC Cmdt
4.0 Details at Annex J		//OSB// Cdr D.J. Benoit NTDC Cmdt

FOREWORD

1. This training document is developed under the authority of the Royal Canadian Navy (RCN) and in accordance with the A-P9-050 Series, Canadian Forces Manual of Individual Training and Education.

2. This publication is effective on receipt. Performance Objectives (POs) are explained fully in Chapter 2. The Lesson Specifications (LSs)/Enabling Objectives (EOs), Enabling Checks (ECs) and Performance Checks (PCs) which specify the standards that the trainee must achieve to become qualified are listed in Chapter 4.

3. This QSP is managed by NTDC (CCA) and under its authority; the CCA has the responsibility to amend any section of this QSP IAW Naval Training Instructions (NTIs) - Management of Qualification Standard and Plan (QSP) Documents.

4. Suggestions for amendments may be initiated by anyone. Amendments must be forwarded through the normal chain of command up to and including the Division Commander (Div Comd). Also, training establishments that conduct this training and are not the CCA, must forward the suggested amendments to NTDC for approval.

5. Any amendment to this QSP requires review and concurrence by all units and Divisions providing this training before they are approved and published. Amendments will be reviewed by all applicable Div Comds. The NTDC (CCA) Div Comd shall then forward the QSP amendment file to the NTDC Quality Assurance Officer (QAO) for review.

6. Final amendment(s) approval for this QSP (all chapters) is the NTDC Commandant (through the QAO). CCA and other course information is summarized as follows:

CCA	PHASE / MODULE	COMPETENCY CODE (Ex. AITC)	COURSE ID (Ex. 116254)
NTDC	Module 1	N/A	119096
NTDC	Module 2	N/A	119097
NTDC	Module 3	N/A	119098

CHAPTER 1- TRAINING MANAGEMENT DETAILS

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY COMMANDANT OF THE NAVAL TRAINING AND DEVELOPMENT CENTER (NTDC)

AIM

1. The aim of this Qualification Standard and Plan (QSP) is to establish the job performance requirements for personnel executing the duties of a Maintainer, Maintenance Supervisor and Maintenance Manager in DRMIS. This QSP is designed to assist training establishments in developing, conducting, evaluating, and validating the training.

COURSE CAPACITY

2. Planning for the conduct of training is based on the MARCOM Production Books (Gold, Silver and Blue) following guidelines NTI - MARCOM Personnel Production and Scheduling Procedures:

a. MOD 1 Utilize DRMIS SAPGUI as a Maintainer

(1) Optimum – 12;

(2) Maximum – 16; and

(3) Minimum – 5.

b. MOD 2 Utilize DRMIS SAPGUIF as a Maintenance Supervisor

(1) Optimum – 12;

(2) Maximum - 16; and

(3) Minimum - 5.

c. MOD 3 Utilize DRMIS SAPGUI as a Maintenance Manager

(1) Optimum – 12;

(2) Maximum – 16 (CFFSE: Maximum – 10 until all drops are fitted); and

(3) Minimum – 5.

COURSE DURATION

3. Course duration is calculated in accordance with MARCORD 9-30 – Maritime Command Course Scheduling. There is no difference in the training time between Minimum, Optimum, and Maximum load for this course.

Module 1 Maintainer	Minimum Load	Optimum Load	Maximum Load
Actual Training Time (ATT) (Sum of all EOs) (do not include time for PC/ECs)	NA	19	NA
ECs	NA	2	NA
PCs	NA	NA	NA
Base Administrative Time (BAT)	NA	NA	NA
Training Travel Time (TTT)	NA	NA	NA
Training Administrative Time (TAT) (Does not include PT)	NA	NA	NA
Physical Training (PT)	NA	NA	NA
Course Duration (ATT+PCs/ECs+BAT+TTT+TAT+PT)		**21 Periods 3 Days**	

Table 2.1 – Module 1 Maintainer Course Duration

Module 2 Maintenance Supervisor	Minimum Load	Optimum Load	Maximum Load
Actual Training Time (ATT) (Sum of all EOs) (do not include time for PC/ECs)	NA	12	NA
ECs	NA	2	NA
PCs	NA	NA	NA
Base Administrative Time (BAT)	NA	NA	NA
Training Travel Time (TTT)	NA	NA	NA
Training Administrative Time (TAT) (Does not include PT)	NA	NA	NA
Physical Training (PT)	NA	NA	NA
Course Duration (ATT+PCs/ECs+BAT+TTT+TAT+PT)		**14 Periods 2 Days**	

Table 2.2 – Module 2 Maintenance Supervisor Course Duration

Module 3 Maintenance Manager	Minimum Load	Optimum Load	Maximum Load
Actual Training Time (ATT) (Sum of all EOs) (do not include time for PC/ECs)	NA	12	NA
ECs	NA	2	NA
PCs	NA	NA	NA
Base Administrative Time (BAT)	NA	NA	NA
Training Travel Time (TTT)	NA	NA	NA
Training Administrative Time (TAT) (Does not include PT)	NA	NA	NA
Physical Training (PT)	NA	NA	NA
Course Duration (ATT+PCs/ECs+BAT+TTT+TAT+PT)		**14 Periods 2 Days**	

Table 2.3 – Module 3 Maintenance Manager Course Duration

RESOURCES

4. Identify key resources required to conduct the training. Additional training establishment resources can be found at Annex H.

REQUIRED COURSE STAFFING				
TITLE	**RANK**	**QUALIFICATION**	**QTY**	**REMARKS**
MOD 1	MS/PO2	DRMIS Maintenance Supervisor Course	1	Must be a DRMIS Supervisor Account Holder
MOD 2	MS/PO2	DRMIS Maintenance Supervisor Course	1	Must be a DRMIS Supervisor Account Holder
MOD 3	PO1/CPO2	DRMIS Maintenance Supervisor Course Manager Course	2	Must be a DRMIS Section Head/Department Head Account Holder

CRITICAL TRAINING RESOURCES		
TITLE	**RESOURCE**	**NO. OF DAYS**
MOD 1	IT Classroom, and active PKI card	2 Days
MOD 2	IT Classroom, and active PKI card	1 Day
MOD 3	IT Classroom, and active PKI card	4 Days

COURSE LOADING

5. The authority to load members onto this course lies with NTDC. CMTS is to be included as an INFO addressee on all Loading Messages.

SCHEDULING

6. Each session of this course shall be scheduled IAW MARCORD 9-47 - Maritime Command Individual Training and Education Policy in MITE by the training establishment conducting the training. The length of the course in MITE, is to be based on the course duration (see tables 2.1, 2.2 and 2.3 above), plus planned annual leave, training breaks, training system holiday[1], and weekends.

COURSE PREREQUISITES

7. To be selected for this course, trainees must meet the following prerequisites

   a. Hold a minimum security clearance of Confidential;

   b. Module One: All trades RQS3 qualified or attending RQS3 training;

   c. Module Two: All trades RQS1 qualified or attending RQS1 training;

   d. Module Three: Mar Eng RQPO2 qualified or attending RQPO2A training; and

   e. Module Three: W Eng, qualified RQPO2 or attending RQPO2 training.

COURSE REPORTING

8. In order for trainees to pass each module and be granted the corresponding DRMIS MITE code ID, students must have successfully passed all EC's.

9. Upon passing each module, students shall be awarded a Certificate of Achievement (CF 289). These are to be completed IAW DAOD 5031-9 - Course Reporting and Certificates, NTI - Course Reporting and Certificates, CMP Instruction 01/06 - Course Reporting and Certificates, CFITES Vol. 13 - Administration of Training Establishments and Programmes, and CANFORGEN 122/06 - Course Reporting and Certificates.

QUALIFICATION

10. Successful completion of each module will result in the granting of the following qualifications:

    a. Module 1 – DRMIS Maintainer (119096);

    b. Module 2 – DRMIS Maintenance Supervisor (119097); and

    c. Module 3 – DRMIS Maintenance Manager (119098).

11. Program evaluation shall be conducted in accordance with the guidance provided in A-P9-050-000 CFITES Vol. 11 Evaluation and Validation Techniques.

VALIDATION

12. This training programme will be validated every five years in accordance with NTI - Naval Performance Improvement, and CFITES Vol. 8 - Validation of Instructional Programs based on the task list in Annex B.

PRIOR LEARNING ASSESSMENT AND RECONGNITION

13. Prior Learning Assessment shall be conducted in accordance with CFITES Vol 12 (Canadian Forces Military Equivalencies Programme: Prior Learning Assessment), DAOD 5031-1 - Canadian Forces Military Equivalencies Program, MARCORD 9-47 - Maritime Command Individual Training and Education Policy, and the NTI – Prior Learning Assessment and Recognition.

SPECIAL INSTRUCTIONS

14. Technical Support is Available from:

    a. DRMIS website: http://drmis-sigrd.mil.ca/index-eng.asp;

    b. Helpdesk: 613-904-6501; and

c. Contact DRMIS Service Desk: +DRMIS-SIGRD Service Desk@ADM (IM) DDRMIS@Ottawa-Hull

15. TRAINING MATRIX:

	Qualification Level					
MOS ID	**RQS3**	**RQS2**	**RQS1**	**RQPO2**	**RQPO2**	**RQPO1**
MarTech	MOD1 MOD1		MOD2 MOD2	MOD3	MOD3	
W Eng	MOD1		MOD2		MOD3	

Note: Delta training for all MOSID RQS1s will be MODs 1 and 2. RQPO2 and above delta training will be MODs 1 through 3.

NTO (Recommend Training)	
Qualification Level	**MODULES**
Phase VI	MOD 1, MOD 2, MOD 3
AHOD (delta training)	MOD 1, MOD 2
HOD (delta training)	MOD 1, MOD 2, MOD 3

CHAPTER 2 - PERFORMANCE OBJECTIVES

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY COMMANDANT OF THE NAVAL TRAINING AND DEVELOPMENT CENTER (NTDC)

PO 001 – UTILIZE DRMIS SAPGUI AS A MAINTAINER

1. Performance: Utilize DRMIS SAPGUI as a Maintainer

2. Conditions:

   a. Given:

      (1) References;

      (2) Supervision;

      (3) Computer with LAN Access;

      (4) Provisional DRMIS Account; and

      (5) Access to DRMIS SAPGUI.

   b. Denied: Nil

   c. Environmental: Classroom

3. Standard: The maintainer shall, IAW references and with due regard to security, utilize DRMIS SAPGUI, by:

   a. Navigating DRMIS SAPGUI;

   b. Recording Corrective Maintenance (CM);

   c. Record ND Defect Notifications;

   d. Record Preventative Maintenance; and,

   e. List, Edit, Display, and Cancel Entries

4. Reference Codes: A01

5. Training Limitations:

   a. Limited access to DRMIS training environment; and

   b. Software required to run simulations.

PO 002 - UTILIZE DRMIS SAPGUI AS A MAINTENANCE SUPERVISOR

1. Performance: Utilize DRMIS SAPGUI as a Maintenance Supervisor.

2. Conditions:

   a. Given:

      (1) References;

      (2) Supervision;

      (3) Computer with LAN Access;

      (4) Provisional DWAN Account;

      (5) Access to DRMIS SAPGUI; and

   b. Denied: Nil

   c. Environmental : Any condition at sea or alongside; day or night

3. Standard: The maintenance supervisor shall, IAW references and with due regard to security, perform DRMIS SAPGUI maintenance activities, by:

   a. SAPGUI Plant Master Data;

   b. Complete Corrective Maintenance;

   c. Create a ND Defect Notifications;

   d. Completing Preventative Maintenance; and

   e. Variants, Layouts, and Search for Material Availability.

4. Reference Codes: A02

5. Training Limitations:

   a. Limited access to DRMIS training environment; and

   b. Software required to run simulations.

PO 003 - UTILIZE DRMIS SAPGUI AS A MAINTENANCE MANAGER

1. Performance: Utilize DRMIS SAPGUI as a Maintenance Manager.

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with LAN Access;

      (3) Provisional DWAN Account;

      (4) Access to DRMIS SAPGUI;

      (5) Access to WebI; and,

      (6) Active PKI Card

   b. Denied: Nil

   c. Environmental : Any condition at sea or alongside; day or night

3. Standard: The maintenance manager shall, IAW references and with due regard to security, perform DRMIS maintenance manager functions by:

   a. Navigate DRMIS SAPGUI and Complete Maintenance Functions;

   b. Create and Search ND Notifications, Work Orders, and Variants;

   c. Maintenance Management in DRMIS; and,

   d. Data Literacy, Data Analytics & Reporting in BOBJ/WebI

4. Reference Codes: A03

5. Training Limitations: N/A

CHAPTER 3 - ASSESSMENT OF TRAINEE

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY COMMANDANT OF THE NAVAL TRAINING AND DEVELOPMENT CENTER (NTDC)

GENERAL

1. This is a pass/fail course. Successful completion of the PCs constitutes a pass, and subsequently earns the DRMIS qualification.

PROGRESS MONITORING

2. The purpose of monitoring learning is to ensure that students are progressing IAW NPTG guidelines and this QSP. Monitoring learning is the responsibility of all instructors, Standards Staff and instructor-supervisors. Instructional staff can monitor learning through observation and conversation with learners and other staff.

TRAINEE ASSESSMENT

3. **Formative tests**. These tests help the learner and the instructors recognize progress or lapses in learning, so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. They also reinforce learning, so that it will be better retained for longer periods. Formative tests are enabling checks (ECs) designed to give feedback to both the instructor(s) and students.

4. All Formative Assessments have a pass mark of 60%.

5. **Summative tests**. Summative tests are used at the end of a phase of instruction IOT determine if a learner can competently perform a Performance Objective or parts thereof. Summative tests can take the form of Performance Checks (PCs) or Critical ECs.

6. Assessment of trainees is to be done IAW CFITES Vol. 7 – Evaluation of Learners.

UNSATISFACTORY TRAINING PROGRESS

7. In the event an instructor and/or a Standards staff determine that a trainee's progression is deemed unsatisfactory, they shall take action IAW the training establishment's SOs and/or Standing Operating Procedures (SOPs). CFITES Vol. 6 – Conduct of Instructional Programmes may also be used for guidance as necessary.

TRAINING REVIEW BOARD

8. A TRB shall be convened in IAW with MARCORD 9-60 Volume 1 - Training Review Board Process and TE SO/SOPs as required. NTI 019 – Conduct of Distance Learning (TBP) shall also be referenced if necessary.

CHAPTER 4 - LESSON SPECIFICATIONS

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY COMMANDANT OF THE NAVAL TRAINING AND DEVELOPMENT CENTER(NTDC)

PO 001 – UTILIZE DRMIS SAPGUI AS A MAINTAINER

EO 001.01 Navigate DRMIS SAPGUI

1. Performance: Navigate DRMIS SAPGUI

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   Denied: Nil

   c. Environment: Classroom

3. Standard: The trainee shall, IAW references and with due regard to security, navigate DRMIS SAPGUI, by:

   a. Logging into DRMIS SAPGUI in a maximum of two attempts;

   b. Navigating DRMIS SAPGUI Screens;

   c. Accessing SAPGUI Master Data in a maximum of two attempts;

   d. Searching for SAPGUI Master Data; and

   e. Displaying SAPGUI Master Data.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Login to DRMIS SAPGUI**			
	1.1 Provide Classroom Introduction	Lecture	15	
	1.2 Provide DRMIS Overview 1.2.1 Describe DRMIS 1.2.2 Describe deployed versus central server.	Lecture	10	

	1.3 Log on and off DRMIS SAPGUI 1.3.1 Log on requirements 1.3.2 Login to DWAN 1.3.3 Login to DRMIS Sandbox	Live Demo	30	
TP2	**2. Navigate DRMIS SAPGUI**			
	2.1 Review screen icons and menu	Live Demo	20	
	2.2 Set up favorites folders	Live Demo	25	
	2.3 Using multiple DRMIS session	Live Demo	10	
TP3	**3. Access SAPGUI Tasks**			
	3.1 IH01: Functional location	Live Demo	10	
	3.2 Finding Equipment	Live Demo	5	
	3.3 Equipment Master Records	Live Demo	5

	3.5 Student exercises	Practice	30	
TP4	**4. Accessing Master Data**	Live Demo		
	4.1 IH08: List, edit, display equipment	Live Demo	10	
	4.2 Display equipment by work centre	Live Demo	10	
	4.3 MM03: Material master records	Live Demo	5	
Total Instructional Classroom Time			**25**	
Total Instructional Practical Time (e.g. Field, Simulator, etc.)			**165**	
Total Instructional Time (Classroom + Practical)			**190**	
Total EC Time			**30**	
Total EO Time (Instr Time + EC Time)			**220**	

5. Training Aids:

   a. Course Exercise Book; and,

   b. Maintainer Quick Reference guides;

6. Test Details:

Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 30 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

All Exercises are completed using DRMIS SAPGUI.

ENABLING CHECK – EO 001.01

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 30 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Log into SAPGUI			Instructor shall assign a self-test simulation for each item on the check list for testing.
Navigate DRMIS			
Access master data			

PO 001 – Utilize DRMIS SAPGUI as a Maintainer

EO 001.02 Record Corrective Maintenance (CM)

1. Performance: Record Corrective Maintenance

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom.

3. Standard: The trainee shall, IAW references and with due regard to security, record corrective maintenance in the DRMIS SAPGUI:

   a. Creating corrective maintenance work order and N1 notification for ship's staff;

   b. Entering components and operations;

   c. Entering time confirmation against order; and,

   d. Completing a work order.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Introduce Corrective Maintenance**			
	1.1 Describe the corrective maintenance process	Lecture	5	
	1.2 Define DRMIS notification and order terminology	Lecture	5	

	1.3 Describe corrective maintenance process flow for Ship's staff	Lecture	5	
	1.4 Identify notification types	Lecture	5	
	1.5 Describe order types	Lecture	5	
	1.6 Describe information in a work order / notification	Lecture	5	
	1.7 Describe notification and order status	Lecture	10	
	1.8 Display/create N016 order and associated N1notification	Demo/Practice	15	
TP2	**2. Create Corrective Maintenance Notifications and N1 Notifications for Ship's Staff Work**			
	2.1 Create N016 work order and notification	Demo/Practice	10	
	2.2 Add operations to work order	Demo/Practice	5	
	2.3 Add components to work order	Demo/Practice	5	
	2.4 Releasing and saving N016 work orders	Demo/Practice	5	
	2.5 Students creating N016 work orders and N1 notification	Demo/Practice	30	
TP3	**3. Entering Time Confirmations Against Order**			
	3.1 Enter time confirmations	Lecture	5	
	3.2 Cancel a time confirmation	Lecture	5	
	3.3 Enter time confirmation against order	Demo/Practice	45	
TP4	**4. Complete a Work Order and Notification**			
	4.1 Describe how to complete a work order and notification	Lecture	5	
	4.2 Complete a work order and notification	Demo/Practice	10	
	4.3 Students completing a work order and notification	Demo/Practice	45	
Total Instructional Classroom Time			**55**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**165**	
Total Instructional Time (Classroom + Practical)			**220**	
Total EC Time			**55**	

Total EO Time (Instr Time + EC Time)	**275**	

5. Training Aids:

   a. Training Package;

   b. Maintainer Quick Reference guides;

   c. Variants job aide; and

   d. DMMS-MIS Process Flow charts.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 55 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

   a. All Exercises are done using DRMIS simulations; and

   b. For all additional teaching points requiring live demonstrations instructors will require access to the maintainer's SAPGUI.

ENABLING CHECK – EO 001.02

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 55 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score. Then carry on with next simulation.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create corrective maintenance work order and N1 notification for ship's staff			Instructor will have the choice to which simulation is assigned as the self-test.
Add operations and components to corrective maintenance work order			
Enter time confirmation			
Complete work order and notification			

PO 001 – UTILIZE DRMIS SAPGUI AS A MAINTAINER

EO 001.03 Record ND Defect Notifications

1. Performance: Record Preventative Maintenance

2. Conditions:

a. Given:

(1) References;

(2) Computer with access to DRMIS SAPGUI;

(3) Supervision; and

b. Denied: Nil

c. Environment: Classroom.

3. Standard: The trainee shall, IAW references and with due regard to security, record ND defect notification in DRMIS SAPGUI in 25 mins:

a. Creating an ND defect notification for FTA;

b. Enter/select appropriate affected system;

c. Document severity of ND defect notification;

d. Put ND defect notification to "In Process"; and

e. Set status to PFTA.

4.

	TEACHING POINTS	METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Introduce ND Defect Notification**			
	1.1 Describe ND defect process	Lecture	5	
	1.2 Define ND defect terminology	Lecture	5	

	1.3 Describe layout/format for ND defect	Lecture	5	
	1.4 Demonstrate ND defect notification creation	Lecture	5	
	1.5 Selecting affected systems process	Lecture	5	
	1.6 Completing subject long text	Lecture	10	
	1.7 Documenting severity index	Lecture	10	
	1.8 Set ND defect to "In Process"	Lecture	5	
	1.9 Set status to "PFTA"	Lecture	5	
TP2	**2. Creating ND Defect Notifications**	Demo/Practice	30	
Total Instructional Classroom Time			**55**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**30**	
Total Instructional Time (Classroom + Practical)			**85**	
Total EC Time			**25**	
Total EO Time (Instr Time + EC Time)			**110**	

5. Training Aids:

   a. Training Package;

   b. Maintainer Quick Reference guides

   c. Variants job aide; and

   d. DMMS-MIS Process Flow charts.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 25 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

   a. All Exercises are done using DRMIS simulations; and

   b. For all additional teaching points requiring live demonstrations instructors will require access to DRMIS SAPGUI.

ENABLING CHECK – EO 001.03

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 25 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score. Then carry on with next simulation.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create ND defect notification for maintenance to be sent to FTA for vetting			Instructor will have the choice to which simulation is assigned as the self-test.
Select appropriate affected ship's system			
Enter complete subject long text			
Document appropriate severity index			
Set ND Defect Notification to "In Progress" and set user status to "PFTA"			

PO 001 – UTILIZE DRMIS SAPGUI AS A MAINTAINER

EO 001.04 Record Preventative Maintenance

1. Performance: Record Preventative Maintenance

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom.

3. Standard: The trainee shall, IAW references and with due regard to security, record preventative maintenance in DRMIS SAPGUI within 55 minutes by:

   a. Searching for a preventative maintenance routine;

   b. Access an N017 Document Information Record (DIR);

   c. Enter a component against an order;

   d. Enter a time confirmation against and order;

   e. Enter counter readings; and,

   f. Completing an N017 work order.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Introduce Preventative Maintenance**			
	1.1 Describe the preventative maintenance cycle	Lecture	10	
	1.2 Describe sub-summation process	Lecture	5	

	1.3 Search for PM work orders	Demo	10	
	1.4 Display N017 order and N9 notification	Lecture	10	
	1.5 Search and display N017 orders and N9 notification	Demo/Practice	20	
TP2	**2. Introduce N017 Order and Associated DIR**			
	2.1 Document info records (DIR)	Lecture	5	
	2.2 Access N017 associated DIR's	Lecture	10	
	2.3 Searching and accessing outstanding N017 work orders and N9 notifications	Demo/Practice	15	
TP3	**3. Entering a Component Against Preventative Maintenance (PM)**			
	3.1 Describe how to add a component to PM	Lecture	10	
	3.2 Add components to an N017 work order	Demo/Practice	15	
TP4	**4. Entering Time Confirmation Against PM**			
	4.1 Describe how to add time confirmation to PM	Lecture	5	
	4.2 Complete a time confirmation against PM	Demo	5	
	4.3 Students practice entering time confirmations against PM's	Demo/Practice	45	
TP5	**5. Entering Counter Readings**			
	5.1 Describe how to add counter reading	Lecture	5	
	5.2 Demonstrate adding counter readings	Demo/Practice	5	
	5.3 Students complete work orders	Demo/Practice	10	
TP6	**6. Completing an N017 Work Order**			
	6.1 Describe completing the work order	Lecture	5	
	6.2 Demonstrate completing work order	Demo	5	
	6.3 Students complete work orders	Demo/Practice	25	
Total Instructional Classroom Time			**55**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**165**	
Total Instructional Time (Classroom + Practical)			**220**	
Total EC Time			**55**	

Total EO Time (Instr Time + EC Time)	**275**	

5. Training Aids:

   a. Course Exercise Book;

   b. Maintainer Quick Reference guides

   c. Variants job aide; and

   d. DMMS-MIS Process Flow charts.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 55 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

   All Exercises are done using DRMIS simulations

ENABLING CHECK – EO 001.04

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 55 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Find PM N017 Work Orders and N9 Notifications for Work Centre			Instructor shall assign all the self-test simulations in the check list.
Access N017 Document Info Records			
Enter a Component Against Work Order			
Enter Time Confirmations			
Enter Counter Readings			
Complete N017 Work Order and N9 Notification			

PO 001 – UTILIZE DRMIS SAPGUI AS A MAINTAINER

EO 001.05 List, Edit, Display, and Cancel Entries

1. Performance: Find and Correct Entries in DRMIS SAPGUI

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom.

3. Standard: The trainee shall, IAW references and with due regard to security, be capable of finding and correcting entries in DRMIS SAPGUI within 55 minutes by:

   a. Cancel and correct;

   b. Un-TECO a work order;

   c. Cancel a work order and notification; and,

   d. Create variants and layouts for searching corrective maintenance and preventative maintenance work orders.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Cancel and Correct Time Confirmation**			
	1.1 Describe cancel time process	Lecture	5	
	1.2 Demonstrate cancel time process	Demo	5	
	1.3 Demonstrate time re-entry	Demo	5	

	1.4 Students complete cancel time and complete time re-entry	Demo/Practice	15	
TP2	**2. Un-TECO a Work Order**			
	2.1 Describe Un-TECO a work order	Lecture	5	
	2.2 Demonstrate the un-TECO process	Demo	5	
	2.3 Adding details to work order	Demo	10	
	2.4 Technically complete work order	Demo/Practice	10	
TP3	**3. Cancel a Work Order and Notification**			
	3.1 Describe cancel process	Lecture	5	
	3.2 Demonstrate cancel work order and notification	Demo	5	
	3.3 Students complete cancel work order and notification	Demo/Practice	10	
TP4	**4. Creating Search Variants and Layouts**			
	4.1 Describe variants and layouts	Lecture	5	
	4.2 Demonstrate creating a search variant	Demo	5	
	4.3 Students create variants for different work centres	Demo/Practice	10	
	4.4 Demonstrate creating a layout	Demo	5	
	4.5 Students create layouts for search variants	Demo/Practice	10	
	4.6 Demonstrate attaching layouts to variants	Demo	5	
	4.7 Students attach layouts to variants	Demo/Practice	10	
Total Instructional Classroom Time			**20**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**105**	
Total Instructional Time (Classroom + Practical)			**125**	
Total EC Time			**40**	
Total EO Time (Instr Time + EC Time)			**165**	

5. <u>Training Aids:</u>

   a. Course Exercise Book;

   b. Maintainer Quick Reference guides

   c. Variants job aide; and

d. DMMS-MIS Process Flow charts.

6. Test Details:

Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 40 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

All Exercises are done using DRMIS simulations.

ENABLING CHECK – EO 001.05

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 40 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Cancel and correct a work order time confirmation			Instructor shall assign all the self-test simulations in the check list.
Un-TECO a work order, enter new information, and technically complete a work order			
Cancel a work order and associated notification			
Create a search variant and layout			

PERFORMANCE CHECK – PC 001

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 110 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified completion of each assigned action in DRMIS SAPGUI.

PART III – PERFORMANCE CHECK NOTES

Instructor shall verify scores in each assigned simulation in DRMIS SAPGUI.

PART IV – PERFORMANCE CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create a N016 work order and N1 notification, release and save			Instructor shall assign all the self-test simulations in the check list.
Add operations and components			
Complete time confirmation and technically complete work order and notification			
Create a complete ND defect notification and set to PFTA			
Search for and complete preventative maintenance work order and notification			
Access preventative maintenance technical information records			
Create search variant and layout			

PO 002 – UTILIZE DRMIS SAPGUI AS A MAINTENANCE SUPERVISOR.

EO 002.01 SAPGUI Setup and Master Data

1. Performance: Display Plant Master Data.

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI;

      (3) Supervision; and

   b. Denied: Nil

   c. Environment: Classroom

3. Standard: The trainee shall, IAW references and with due regard to security, set up DRMIS SAPGUI and access master data within 15 minutes by:

   a. Navigating functional location; and,

   b. Displaying Equipment Master Record (EMR) data;

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Login to DRMIS SAPGUI**			
	1.1 Classroom introduction	Lecture	5	
	1.2 Provide DRMIS overview 1.2.1 Describe deployed versus central server.	Lecture	5	
	1.3 Login to DRMIS	Demo/Practice	25	
	1.4 Setup DRMIS preferences	Demo/Practice	20	

	1.5 Accessing master data 1.5.1 Functional location structure 1.5.2 Demonstrate FLOC Data 1.5.3 Student access FLOC 1.5.4 Finding EMR data 1.5.5 Students access EMR data	 Lecture Demo/Practice Demo/Practice Demo/Practice Demo/Practice	 10 10 10 5 20	
Total Instructional Classroom Time			**20**	
Total Instructional Practical (e.g. Field, Simulator, etc.)		**Time**	**90**	
Total Instructional Time (Classroom + Practical)			**110**	
Total EC Time			**15**	
Total EO Time (Instr Time + EC Time)			**125**	

5. Training Aids:

   Reference exercise book, DRMIS SAPGUI.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 15 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

   All Exercises are done using DRMIS SAPGUI.

ENABLING CHECK – EO 002.01

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Students will perform the simulation assigned by the instructor
5. Pass mark is 60%
6. Time required is 15 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
- Navigate DRMIS			Instructor shall assign all the self test simulations in the check list.
- Access Master Data Records for equipment details			

EO 002.02 Complete Corrective Maintenance

1. Performance: Completing corrective maintenance work orders and notifications.

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom

3. Standard: The trainee shall, IAW references and with due regard to security, create and complete corrective maintenance work order and notification within 30 minutes by;

   a. Creating corrective maintenance work order and N1 notification;

   b. Entering components and operations;

   c. Entering time confirmations; and,

   d. Completing a work order.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Complete Corrective Maintenance**			
	1.1 Describe corrective maintenance	Lecture	10	
	1.2 Display corrective maintenance work order	Demo/Practice	5	
	1.3 Review components and operations	Demo/Practice	5	
	1.4 Review work order status settings	Lecture	10	

	1.5 Demonstrate time confirmations	Demo/Practice	15	
	1.6 Technical completion and notification completion	Demo/Practice	10	
	1.7 Create N016 work order and N1 notification	Demo/Practice	5	
	1.8 Add operations and components	Demo/Practice	10	
	1.9 Add document information records	Demo/Practice	10	
	1.10 Complete time confirmations	Demo/Practice	10	
	1.11 Technically complete work order	Demo/Practice	10	
	1.12 Complete notification	Demo/Practice	10	
Total Instructional Classroom Time			**20**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**90**	
Total Instructional Time (Classroom + Practical)			**110**	
Total EC Time			**30**	
Total EO Time (Instr Time + EC Time)			**140**	

5. Training Aids:

   a. Course Exercise Book;

   b. Maintainer Quick Reference guides

   c. Variants job aide; and

   d. DMMS-MIS Process Flow charts.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 30 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

   All Exercises are done using DRMIS SAPGUI.

ENABLING CHECK – EO 002.02

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 30 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Students to create N016 work order and N1 notification, release and save			Instructor shall assign one of the self-test simulations from the check list for testing.
Add operations and components			
Complete time confirmations			
Technically complete work order and complete notification			

EO 002.03 Create the ND Defect Notifications.

1. Performance: Create a ND defect notification and passing to FTA.

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom

3. Standard: The trainee shall, IAW references and with due regard to security, record and pass to FTA a ND notification in DRMIS SAPGUI in 25 minutes, by:

   a. Creating a ND notification in DRMIS SAPGUI for FTA;

   b. Enter and select appropriate affected system;

   c. Document severity of ND defect notification;

   d. Put ND defect notification in process; and,

   e. Set status to PFTA

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Introduce ND Defect Notification**			
	1.1 Describe ND defect process	Lecture	5	
	1.2 Define ND defect terminology	Lecture	5	
	1.3 Describe layout and format for ND defect	Lecture	5	
	1.4 Demonstrate ND defect notification creation	Lecture	5	
	1.5 Selecting affected systems process	Lecture	5	
	1.6 Completing subject long text	Lecture	10	

	1.7 Documenting severity index	Lecture	10	
	1.8 Set ND defect "In Process"	Lecture	5	
	1.9 Set status to "PFTA"	Lecture	5	
	1.10 Create ND defect notification	Demo/Practice	30	
Total Instructional Classroom Time			**55**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**30**	
Total Instructional Time (Classroom + Practical)			**85**	
Total EC Time			**25**	
Total EO Time (Instr Time + EC Time)			**110**	

5. Training Aids:

   a. Course Exercise Book;

   b. Maintainer Quick Reference guides;

   c. Variants job aide; and

   d. DMMS-MIS Process Flow charts.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 25 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

   All Exercises are done using DRMIS SAPGUI.

ENABLING CHECK – EO 002.03

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 25 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in assigned simulation .

ENABELING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create ND defect notification for maintenance to be sent to FTA for vetting			Instructor shall assign one of the self-test simulations for self-test.
Select appropriate affected ship's systems			
Enter complete subject long text			
Document appropriate severity index			
Set ND defect notification "In Process" and set user status to "PFTA"			

EO 002.04 Completing Preventative Maintenance .

1. Performance: Record preventative maintenance.

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom

3. Standard: The trainee shall, IAW references and with due regard to security, record preventative maintenance in DRMIS SAPGUI within 45 minutes, by:

   a. Searching for a preventative maintenance routine;

   b. Access an N017 Document Information Record (DIR);

   c. Enter a component against an order;

   d. Enter a time confirmation against an order;

   e. Enter counter readings; and,

   f. Completing an N017 work order.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Introduce Preventative Maintenance**			
	1.1 Describe the preventative maintenance cycle	Lecture	5	
	1.2 Describe sub-summation process	Lecture	5	
	1.3 Search for preventative maintenance work orders	Demo/Practice	5	
	1.4 Display N017 order and N9 notification	Demo/Practice	5	

	1.5 Search and display N017 orders and N9 notifications	Demo/Practice	10	
TP2	**2. Access N017 Order and Associated DIR**			
	2.1 Document Information records	Lecture	5	
	2.2 Access N017 associated DIRs	Lecture	5	
	2.3 Searching and accessing outstanding N017 work orders and N9 notifications	Demo/Practice	5	
TP3	**3. Entering a Component Against Preventative Maintenance**			
	3.1 Describe how to add a component to preventative maintenance	Lecture	5	
	3.2 Add components to a N017 work order	Demo/Practice	10	
TP4	**4. Entering Time Confirmation Against Preventative maintenance**			
	4.1 Describe how to add time confirmation to preventative maintenance	Lecture	5	
	4.2 Complete a time confirmation against preventative maintenance	Demo/Practice	5	
	4.3 Students practice entering time confirmation against preventative maintenance	Demo/Practice	10	
TP5	**5. Entering Counter Readings**			
	5.1 Describe how to add counter readings	Lecture	5	
	5.2 Demonstrate adding counter readings	Demo/Practice	5	
	5.3 Students entre counter readings	Demo/Practice	10	
TP6	**6. Completing an N017 Work Order**			
	6.1 Describe completing a work order	Lecture	5	
	6.2 Demonstrate completing work order	Demo/Practice	5	
	6.3 Students complete work orders	Demo/Practice	10	
Total Instructional Classroom Time			**40**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**80**	
Total Instructional Time (Classroom + Practical)			**120**	
Total EC Time			**45**	
Total EO Time (Instr Time + EC Time)			**165**	

5. Training Aids:

   a. Course Exercise Book;

   b. Maintainer Quick Reference guides

   c. Variants job aide; and

   d. DMMS-MIS Process Flow charts.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 45 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

   All Exercises are done using DRMIS SAPGUI.

ENABLING CHECK – EO 002.04

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 45 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in assigned simulation.

PART IV – ENABLING CHACK LIST

CHECK LIST	YES	NO	COMMENTS
Find N017 work orders and N9 notification for work centre			Instructor shall assign one of the self-test simulations for self-test.
Access N017 document information records			
Enter a component against work order			
Enter time confirmation			
Enter counter readings			
Complete N017 work order and N9 notification			

EO 002.05 Variants, Layouts, and Search for Material Availability

1. Performance: Create search variants and layouts, and search for material availability.
2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS SAPGUI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom

3. Standard: The trainee shall, IAW references and with due regard to security, create search variants and layouts for preventative and corrective maintenance, and search for material availability to complete corrective maintenance and preventative maintenance work orders in DRMIS SAPGUI in 25 minutes, by:

   a. Create search variants;

   b. Creating and attaching layouts to variants;

   c. Search for material availability; and,

   d. Forecast preventative maintenance routines.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Creating Search Variants**			
	1.1 Describe search variants	Lecture	5	
	1.2 Demonstrate creating a search variant	Demo/Practice	5	
	1.3 Students create search variant	Demo/Practice	10	
TP2	**2. Creating and Attaching Layouts**			

	2.1 Describe layouts	Lecture	5	
	2.2 Demonstrate creating a layout	Domo/Practice	5	
	2.3 Students create layouts	Demo/Practice	10	
TP3	**3. Searching for Materials Availability**			
	3.1 Describe search options for material availability	Lecture	5	
	3.2 Demonstrate MMBE-stock overview	Demo/Practice	5	
	3.3 Demonstrate ZEPM-ODR outstanding demands report	Demo/Practice	5	
	3.4 Students perform material searches	Demo/Practice	10	
TP4	**4. Forecast Preventative Maintenance Routines**			
	4.1 Describe searching future preventative maintenance routines	Lecture	5	
	4.2 Demonstrate IP24 scheduling overview list report	Demo/Practice	5	
	4.3 Students perform IP24 search	Demo/Practice	10	
Total Instructional Classroom Time			**20**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**65**	
Total Instructional Time (Classroom + Practical)			**85**	
Total EC Time			**25**	
Total EO Time (Instr Time + EC Time)			**110**	

5. Training Aids:

   a. Course Exercise Book;

   b. Maintainer Quick Reference guides

   c. Variants job aide; and

   d. DMMS-MIS Process Flow charts.

6. Test Details:

   Utilize a self-test simulator for evaluating the student's progress. The instructor shall check student's final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 25 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student's progress.

7. Remarks:

All Exercises are done using DRMIS SAPGUI.

ENABLING CHECK – EO 002.05

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 25 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in assigned simulation .

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create search variants for separate work centres			Instructor to assign simulations for self-test.
Create and attach layout for each work centre variant			
Students search material availability			

PERFORMANCE CHECK – PO 002

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI
2. Exercise booklet
3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.
5. Pass mark is 60%
6. Time required is 110 minutes
7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified completion of each assigned action in DRMIS SAPGUI.

PART III – PERFORMANCE CHECK NOTES

Instructor shall verify scores in assigned action in DRMIS SAPGUI .

PART IV – PERFORMANCE CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create N016 work order and N1 notification, release and save			Instructor shall assign all the self-test simulations in the check list.
Add operations and components			
Complete time confirmation and technically complete work order and notification			
Create a complete ND defect notification and set to PFTA			
Search for and complete preventative maintenance work and notification			
Access preventative maintenance technical document information records			
Create search variant and layouts for work centres			
Searching material availability for work orders			

PO 003 – Utilize DRMIS SAPGUI as a Maintenance Manager

EO 003.01 Navigate DRMIS SAPGUI and Complete Maintenance Functions

1. Performance: Navigate DRMIS SAPGUI

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS simulator and/or DRMIS training environment; and

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom.

3. Standard: The trainee shall, IAW references and with due regard to security, navigate DRMIS SAPGUI, by:

   a. Navigate DRMIS SAPGUI;

   b. Perform and complete maintenance functions in DRMIS SAPGUI;

   c. Completing and passing ND defect notifications.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Course Introduction**			
	1.1 Course Objectives	Lecture	5	
	1.2 Logging students in to provisional accounts	Practical	10	
	1.3 Logging students into sandbox	Practical	5	

	1.4 DRMIS setup	Practical	5	
	1.5 Menu bar	Practical	5	
	1.6 Personal settings	Practical	5	
	1.6.1 Fonts, colours, themes	Practical	5	
	1.6.2 Adding favorites	Practical	5	
	1.7 Multiple window navigation	Practical	5	
	1.8 Favorites	Practical	5	
TP2	**2. Creating a work order and notification**			
	2.1 Ship Staff creating N016 work order and N1 notification	Lecture/ Practical	20	
	2.2 Adding components and operations	Practical	35	
	2.3 Material demands/coordinating with logistics department	Practical	15	
	2.4 Adding document information records	Practical	15	
TP3	**3. Completing a work order and notification**			
	3.1 Time confirmations	Lecture/Practical	30	
	3.2 Checking work orders and notifications before Technical Complete (TECO)	Lecture	10	
	3.3 Completing Technical Complete (TECO) and Not Complete (NOCO) N016 work orders and notification	Practical	40	
Total Instructional Classroom Time			**15**	
Total Instructional Practical (e.g. Field, Simulator, Etc.) Time			**205**	
Total Instructional Time (Classroom + Practical)			**220**	
Total EC Time			**55**	
Total EO Time (Instructional Time + EC Time)			**275**	

5. Training Aids:

a. Training Package;

b. Maintainer Quick Reference guides

c. Variants job aide; and

d. DMMS-MIS Process Flow charts.

6. Test Details:

Utilize a self-test simulator for evaluating the student’s progress. The instructor shall check student’s final confirmation screen to ensure a minimum score of 60% was obtained ensuring completion of the EC in 55 minutes. For the EC, the Instructor shall choose one of the simulations used during the EO to evaluate the student’s progress.

7. Remarks:

a. All Exercises are done using DRMIS simulations; and

b. For all additional teaching points requiring live demonstrations instructors will require access to DRMIS SAPGUI.

ENABLING CHECK – EO 003.01

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI

2. Exercise booklet

3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.

5. Pass mark is 60%

6. Time required is 55 minutes

7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score. Then carry on with next simulation.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create an N016 CM WO and N1 Notification.			Instructor shall assign all the self-test simulations in the check list.
Add 3 operations, 2 components			
Complete Time Confirmations			
Technically Complete WO and set Notification to NOCO and COMP			
Complete an N017 Notification and Work Order – Time Confirmation, Technically Complete, NOCO and COMP			

EO 003.02 Create and Search ND Notifications, Work Orders, and Variants

1. Performance: Create and Search ND Notifications, Work Orders, and Variants

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS simulator and/or DRMIS training environment; and

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom.

3. Standard: The trainee shall, IAW references and with due regard to security, navigate DRMIS SAPGUI, by:

   a. Navigate DRMIS SAPGUI;

   b. Perform and complete maintenance functions in DRMIS SAPGUI;

   c. Completing and passing ND defect notifications.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. ND Defects**			
	1.1 Creating a Material Certification ND Defect Notification	Practical	25	
	1.2 Creating am N1 Notification and Work Order an ND Defect Notification	Practical	20	
	1.3 Setting status and passing to Fleet Technical Authority (FTA)	Practical	10	
TP2	**2. ND Deviations**			
	2.1 Creating a material certification ND Deviation Notification	Practical	25	

	2.2 Creating an N1 Notification and Work Order from an ND Waiver Notification	Practical	20	
	2.3 Setting status, passing to FTA	Practical	10	
TP3	**3. Work Order searches and creating variants and layouts**			
	3.1 Searching DRMIS using ZIEW29 preventive maintenance and corrective maintenance	Lecture	5	
	3.2 Creating variants and layouts for work orders – preventative maintenance and corrective maintenance	Lecture	5	
	3.3 Search for outstanding corrective maintenance and preventative maintenance	Practical	10	
	3.4 Search for completed corrective maintenance and preventative maintenance	Practical	10	
	3.5 Search for future preventative maintenance	Practical	15	
	3.6 Transferring data to Excel reports	Practical	10	
TP4	**4. Notification searches and creating variants and layouts**			
	4.1 Searching DRMIS using ZEIW39 – preventative maintenance and corrective maintenance	Lecture	5	
	4.2 Creating variants and layout for notifications – preventative maintenance and corrective maintenance	Lecture	5	
	4.3 Searching for outstanding corrective maintenance and preventative maintenance	Practical	10	
	4.4 Searching for completed corrective maintenance and preventative maintenance	Practical	10	
	4.5 Searching future preventative maintenance	Lecture	15	
	4.6 Transferring data to Excel reports	Lecture	10	
Total Instructional Classroom Time			**45**	
Total Instructional Practical (e.g. Field, Simulator, Etc.) Time			**175**	
Total Instructional Time (Classroom + Practical)			**220**	
Total EC Time			**55**	
Total EO Time (Instructional Time + EC Time)			**275**	

5. Training Aids:

a. Training Package;

b. Maintainer Quick Reference guides

c. Variants job aide; and

Leave final confirmation screen open of assigned simulation until instructor has verified score. Then carry on with next simulation.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Create an ND Notification including all Fault Codes, Release and Save			Instructor shall assign all the self-test simulations in the check list.
Clone the ND to create an N1 Notification and N016 Work Order			
Forward ND Defect Notification to FTA			

EO 003.03 Maintenance Management in DRMIS

1. Performance: Maintenance Management in DRMIS

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to DRMIS simulator and/or DRMIS training environment; and

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom.

3. Standard: The trainee shall, IAW references and with due regard to security, navigate DRMIS SAPGUI, by:

   a. Navigate DRMIS SAPGUI;

   b. Perform and complete maintenance functions in DRMIS SAPGUI;

   c. Completing and passing ND defect notifications.

4.

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Maintenance Process status flow charts**			
	1.1 Notification and order status flow chart	Lecture	10	
	1.2 First line corrective maintenance and preventative maintenance processes with flow charts	Lecture	10	
	1.3 Second line corrective maintenance and preventative maintenance processes with flow charts	Lecture	10	
	1.4 System statuses and what they mean	Lecture	15	
	1.5 Priority vetting and revision codes	Lecture	10	

TP2	**2. Management functions corrective maintenance and preventative maintenance**			
	2.1 HOD's and CHOD's responsibilities (SSO's pg 88-89)	Lecture	10	
	2.2 SSO – Senior Maintenance Coordinator and Departmental Maintenance Coordinator responsibilities (see SSO's pg 88-97)	Lecture	10	
	2.3 NaMMS – Part 3 Maintenance MIS policy and process	Lecture	10	
	2.4 NaMMS – Part 5 Levels and Lines of Maintenance	Lecture	10	
	2.5 NaMMS – Part 6 Programmed Work Periods	Lecture	10	
	2.6 NaMMS – Part 10 PM Management	Lecture	5	
TP3	**3. Preparing for Ship Maintenance**			
	3.1 Ships Staff responsibilities vs RF Responsibilities	Lecture	5	
	3.2 Docking Work Periods	Lecture	10	
	3.3 Short Work Period	Lecture	10	
	3.4 Extended Docking Work Periods	Lecture	10	
	3.5 Opportunity Work	Lecture	10	
	3.6 Preparing Work Period reports from DRMIS	Lecture	10	
TP4	**4. Equipment Movement and Test Equipment**			
	4.1 EMR install/dismantle process	Lecture	10	
	4.2 TRANREQ process	Lecture	15	
	4.3 Engineering Changes/Sea Trial Reports/Performance Based Contracting	Lecture	10	
	4.4 CPMS – Calibration Program Management Solution	Lecture	20	
TP5	**5. Ship's DRMIS Coordinator**			
	5.1 Managing DRMIS account applications	Lecture	20	
	5.2 Where to find digital forms for F300	Lecture	5	
	5.3 Type of accounts	Lecture	5	
	5.4 Where to find CTAT applications	Lecture	5	
	5.5 How to complete CTAT account applications	Lecture	15	
	5.6 Accessing the DLN for CTAT course certification	Lecture	5	
Total Instructional Classroom Time			**275**	
Total Instructional Practical (e.g. Field, Simulator, Etc.) Time			**0**	

Total Instructional Time (Classroom + Practical)	**275**	
Total EC Time	**55**	
Total EO Time (Instructional Time + EC Time)	**330**	

5. Training Aids:

a. Training Package;

b. Maintainer Quick Reference guides

c. Variants job aide; and

d. DMMS-MIS Process Flow charts.

6. Test Details:

Utilize a self-test simulator for evaluating the student's progress. ENABLING CHECK – EO 003.03

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI

2. Exercise booklet

3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.

5. Pass mark is 60%

6. Time required is 55 minutes

7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified score. Then carry on with next simulation.

PART III – ENABLING CHECK NOTES

Instructor shall verify scores in each assigned simulation.

PART IV – ENABLING CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Describe the roles of the Departmental Maintenance Coordinator and the Senior Maintenance Coordinator IAW SSOs			Instructor shall assign all the self-test simulations in the check list.
Describe a ship's total maintenance requirement			
Describe TranReq Process			
Describe CPMS			

EO 003.04 Data Literacy, Data Analytics & Reporting in BOBJ/WebI

1. Performance: Demonstrate an understanding of Data Literacy and Data Analytics; and Conduct System Administration and Access & Interpret Maintenance Reports in SAP Business Objects/Web Intelligence (SAP BOBJ/WebI)

2. Conditions:

   a. Given:

      (1) References;

      (2) Computer with access to SAP BOBJ/WebI; and,

      (3) Supervision.

   b. Denied: Nil

   c. Environment: Classroom

3. Standard: The trainee shall, IAW references and with due regard to security, explain data literacy and data analytics; conduct system administration in BOBJ/WebI; and produce & interpret maintenance reports in BOBJ/WebI:

   a. Explain data literacy and data analytics;

   b. Conduct basic system administration in BOBJ/WebI;

   c. Access reports in BOBJ/WebI; and

   d. Interpret BOBJ/WebI maintenance reports.

4. Teaching Points:

TEACHING POINTS		METHODS / MEDIA / INSTRUCTIONAL ENVIRONMENT	TIME (in minutes)	REFERENCE CODES
TP1	**1. Data Literacy & Data Analytics**			
	1.1 Describe data literacy and its importance and relevance in the RCN	Lecture	15	
	1.2 Describe data analytics including: data sources, data types, DRMIS data warehouse and data structures, chart types, visualizations & trend analysis	Lecture	35	

TP2	**2. How to conduct basic system administration in BOBJ/WebI**			
	2.1 Introduction to BOBJ/WebI & account types	Lecture	10	
	2.2 How to get a BOBJ/WebI Consumer account	Lecture	10	
	2.3 Signing into BOBJ/WebI; account/system set up	Demo/Practice	15	
TP3	**3. How to access reports in BOBJ/WebI**			
	3.1 BOBJ/WebI Orientation including file system, copying & saving files, searching for documents/reports	Lecture/ Demo/Practice	20	
	3.2 RCN WebI Documents - General	Lecture/ Demo/Practice	10	
	3.3 RCN WebI Documents – Maintenance. Including inputs controls, saving, exporting & printing	Lecture/ Demo/Practice	20	
TP4	**4. How to interpret BOBJ/WebI accessed maintenance reports**			
	4.1 PDF Reports	Demo/Discussion	15	
	4.2 WebI Reports	Demo/Discussion	15	
	4.3 Other Reports	Demo/Discussion	15	
Total Instructional Classroom Time			**70**	
Total Instructional Practical (e.g. Field, Simulator, etc.) Time			**110**	
Total Instructional Time (Classroom + Practical)			**180**	
Total EC Time			**0**	
Total EO Time (Instr Time + EC Time)			**180**	

5. Training Aids:

   a. Course Exercise Book;

   b. Course PowerPoint;

   c. Job aide.

6. Test Details: N/A

7. Remarks:

   All Practice and Exercises are done using BOBJ/WebI.

PERFORMANCE CHECK – PC 003

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. DRMIS SAPGUI

2. Exercise booklet

3. IT equipment

Arrangements and Procedures

4. Student will perform the simulation assigned by the instructor.

5. Pass mark is 60%

6. Time required is 50 minutes

7. References are available

PART II – INSTRUCTIONS GIVEN TO TRAINEE

Leave final confirmation screen open of assigned simulation until instructor has verified completion of each assigned action in DRMIS SAPGUI.

PART III – PERFORMANCE CHECK NOTES

Instructor shall verify scores in each assigned simulation in DRMIS SAPGUI.

PART IV – PERFORMANCE CHECK LIST

CHECK LIST	YES	NO	COMMENTS
Export data from DRMIS or WebI			Instructor shall assign all the self-test simulations in the check list.
Sort data and build a query			
Produce report using Excel or Power BI visualizations

ANNEX H – TRAINING RESOURCES

In accordance with Chapter 1 paragraph 4 add any extra tables or paragraphs used for Resources in this annex. (Not to be deleted.)

ANNEX I – COSTING INFORMATION

Include information about cost in whichever format is applicable.
This annex is optional (Not to be deleted).

ANNEX J – COURSE HISTORY

ANNEX J – COURSE HISTORY This annex is to record course history issues such as explanations of amendments, pertinent findings, trends, resource problems and modifications. Focus should be given to both excellent and questionable issues of the course. Capturing important course history information is a useful managerial tool for amendment considerations by future course developers.

Note: This annex shall NOT be deleted. This annex must be annotated with every update / modification to this QSP. This is in addition to making the appropriate entry in the Record of Amendments table. Detail as to the nature and reasons for amendments are to be provided here.

VERSION	APPROVAL DATE	COMMENTS
1.0	01 OCT 2010	Initial Draft QSP (DRMIS Maintainer)
2.0	UNK	The DRMIS classroom has only 10 drop at this point. As soon as all 20 are fitted, CFFSE will submit a request for amend of course load
3.0	UNK	
5.0	UNK	
5.0	TBD	Due to significant changes to the software, including the move from a portal to an application. The previous training was no longer relevant or adequate.
