RDIMS: 1494851

QUALIFICATION STANDARD AND PLAN

SHIP'S FLOOD CONTROL REFRESHER TRAINING

MITE ID 109370

Regular Force: Multiple MOSIDs take this training.
Primary Reserve: Multiple MOSIDs take this training.
TA: CNTG
CCA: NFS(P)

RECORD OF AMENDMENTS

1. The following versions of this QSP have been approved for use in support of the conduct of training. Amendments detailed in Annexes D and L.

Revision	Change Description	Date	Authority
Original		13 FEB 03	DMPOR (CHAPTERS 1 & 2)
		13 FEB 03	CFNES, DC DIVISION (CHAPTERS 3 & 4)
1.01	Format update from old QSP to NTG HQ QSP template, secretarial changes, and TP amendment.	6 Dec 24	NFS(P) Cmdt

NOTE:

Personnel programming courses must ensure that their hard copy of this document is current and identical to the electronic copy on the QSP SharePoint Site. See above for current changes.

FOREWORD

1. This QSP is issued on the authority of the Commander of the RCN and managed by the CNTG on behalf of the A/CNS P&T.

2. This QSP is based on the:

   a. CFITES series A-P9-050-000 dated July 1998;

   b. CFCD 102;

   c. Officer General Specification (Environmental) A-PD-055/PP-001; and

   d. NCM General Specification (Environmental) A-PD-055/PP-002.

3. This QSP publication is effective on receipt and supersedes QSP revision dated 13 Feb 2003. This QSP is designed to assist in developing, conducting, evaluating, and validating the IT&E required for training.

4. The QS at Chapters one (1) and two (2) were developed by the QSWB and TPs at Chapters three (3) and four (4) were developed by the TPWG which were convened on 13 Feb 2003 CFNES Halifax DC Division, working in collaboration with SMEs drawn from participating organizations. All aspects of this document were prepared IAW the concept of training outlined in A-P9-050 Series, CFITES Full details of the WBs are contained within Annex D and L.

5. The criteria for major and minor amendments, and the approval process, are identified in NTORD 4500-22.

6. In circumstances where the QS and/or TP cannot be adhered to, submission of a training waiver IAW NTORD 4500-22 is required.

QUALIFICATION STANDARD

CHAPTER 1 – QUALIFICATION STANDARD

AIM

1. This QSP aims to establish the requirements and training for the sailor to perform their duties conducting flood control duties onboard HMC Ships. Possession of this qualification ensures that sailors continue to perform the duties of a shipboard flood repair team and can follow directions provided by the DC section base I/Cs and flood team leaders.

GRANTING OF NQUAL

2. A trainee will achieve the Flood Control Refresher MITE 109370 qualification when the standards listed in the PO have been met.

CO-QUALIFICATION

3. There is no co-qualification for this refresher.

PREREQUISITES

4. To be selected for this course the loading authority must ensure that trainees meet the following prerequisites of NWO II, NETP or equivalent.

CHAPTER 2 – PERFORMANCE OBJECTIVES

PO 001 ACT AS A MEMBER OF A SHIP'S FLOOD CONTROL TEAM

1. Performance: act as a member of a ship's flood control team.
2. Conditions:
    a. given:
        (1) damaged compartment;
        (2) equipment to combat floods;
        (3) assistance; and
        (4) supervision.
    b. denied: references.
    c. environment:
        (1) at sea or alongside in all weather conditions;
        (2) limited lighting;
        (3) shipboard compartments;
        (4) day or night; and
        (5) smoke-filled area.
3. Standard: the sailor shall execute DC duties in naval environment to include:
    a. carrying out closing down procedures using DC Marking System;
    b. carrying out rapid response/leak stopping;
    c. repairing pipes to include considerations for bridging the fire main;
    d. carrying out flood control countermeasures; and
    e. providing support for structural damage and leak-stopping devices.
4. References: A01, A02, A03, B01, C01, D01, D02, D03, and D04.
5. Task Numbers: BT0050.

6. Remarks: nil.

TRAINING PLAN

CHAPTER 3 – TRAINING MANAGEMENT DETAILS

TRAINING STRATEGY

1. The following training strategies were selected for this course:

   a. classroom instruction;

   b. EDI; and

   c. simulation.

TRAINING DURATION

2. Based on existing resources and approved instructional design requirements, the approved course design authorizes one (1) training day.

REQUIRED COURSE STAFFING

3. The following key personnel are required to conduct the training:

Course Director				
Rank	MOSID	Qualifications Required	Qty	PO / EO
PO1/PO2/MS	00379	PLQ or Instructional Techniques Qualified IAW NFS(P) / NFS(A) SOP's	1	PO 001
Back-up Instructors/Safety				
Rank	MOSID	Qualifications Required	Qty	PO / EO
PO2/MS/S1	00379	PLQ or Instructional Techniques Qualified IAW NFS(P) / NFS(A) SOP's	2	PO 001
Safety				
Rank	MOSID	Qualifications Required	Qty	PO / EO
Any rank	00379	Qualified IAW NFS(P) / NFS(A) SOP's	2	PO 001

TRAINING LIMITATION

4. The DCTF is limited in its ability to replicate the characteristics of real shipboard flooding and for practical/safety reasons, flood control mock-ups must be used.

COURSE CAPACITY

5. The capacity per session is based on the guidelines in CFITES Vol 5 – Instructor to Learner Ratios:

   a. Optimum – 20;

b. maximum load – 20; and

c. minimum – 14 (due to functionality)

DESIGNATED SCHEDULING AND COURSE LOADING

6. Refresher training will be scheduled by NFS (P/A) DC Div using Session Manager and School Manager IAW NTG NTORD 4530-1.

7. PCC Training Coordinator shall allocate DC Div session seats using Session Manager and School Manager to units as set by RCN crewing priorities and Formation/Fleet HQ. PCC Training Coordinators are to maintain a DC Div seat availability calendar IAW NTG NTORD 4530-1.

QUALIFICATION AND ASSESSMENT

8. This is a pass/fail course. Students must successfully complete the PO to achieve the qualification.

9. Students will be monitored and assessed both on performance and conduct throughout the course. Counselling and progress monitoring will be conducted IAW NFS DC Div SOPs.

10. Although not mandated specifically in the POs, the general demands of service members and the leadership demands of junior and senior leaders form an integral part of individual training. As such, students are presumed to possess the leader and/or follower attributes commensurate with their rank.

UNSATISFACTORY PROGRESS

11. Unsatisfactory progress is defined as follows:

a. failure of any PC, including repeated failure of the same PC;

b. unsafe working habits or failure to follow required safety precautions;

c. failure to demonstrate the behaviours that are considered critical for the performance of the job requirements that the QSP is designed to meet, including established ethical and professional standards;

d. behaviour indicating a negative attitude towards training activities, other students, or instructional staff; including situations where the student’s continued presence on the course adversely affects the training, safety, or morale of other students;

e. medical, administrative, disciplinary, or personal problems that interfere with attendance or completion of course requirements; or

f. inability to achieve or sustain the minimum level of performance required to progress on the course.

12. In the event of unsatisfactory progress, the student progress review process shall be initiated IAW NTORD 4500-54 TRB and CFITES vol 6.

13. Training Division Instructional Staff shall:

a. notify the student of the unsatisfactory progress;

b. counsel the student on their deficiencies;

c. explain the consequences of continued unsatisfactory progress;

d. indicate corrective actions required;

e. provide reasonable assistance to overcome the deficiencies, as training time and training resources permit;

f. follow-up with the student to assess if the corrective actions achieved the desired effect; and

g. refer to a TRB, if required.

14. Any student who fails to successfully complete all POs in the allocated number of attempts will be referred to the Cmdt or CO of the TE to determine the requirement for a TRB IAW NTORD 4500-54.

REMOVAL FROM TRAINING

15. The TE CO/Cmdt and the student's home-unit Training Co-ordinator shall be advised if a student has been removed from training for reasons of deficiency in performance, conduct (discipline, attitude, teamwork, safety, leadership), missed training, medical, or any other reason.

RECERTIFICATION REQUIREMENTS

16. The qualification is valid for 24 months. Currency and/or re-certification requirements for this qualification are detailed in CFCD 102(P) Annex A.

LANGUAGE OF INSTRUCTION

17. The language of instruction shall be in accordance with the Delivery of Training and Education in Both Official Languages (DAOD 5039-6).

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

18. PLARs shall be conducted IAW DAOD 5031-1 Canadian Forces Military Equivalencies Program, through the RCN PLAR submissions coordinator.

19. However, as this is refresher training, all members shall complete the training.

POST COURSE REVIEWS (PCR)

20. PCRs are to be conducted on all steady-state courses IAW NTORD 4500-23.

21. Due to the frequency and duration of this course, PCRs will be conducted monthly.

COURSE REPORTING

22. No course report will be awarded. However, upon completion of training, the trainee shall be granted the qualification by DC Div and annotated on their MPRR.

CHAPTER 4 LESSON SPECIFICATIONS

PO 001 – ACT AS A MEMBER OF A SHIP'S FLOOD CONTROL TEAM

EO 001.01 DESCRIBE THE METHODS OF FLOOD CONTROL

1. Performance: describe the methods of flood control.

2. Conditions:

   a. given:

      (1) references; and

      (2) supervision.

   b. denied: nil.

   c. environment: classroom/DCTF.

3. Standard: the trainee shall describe the methods of flood control IAW A1, and A2.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Prime aim of Leak-Stopping	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	A1, Part 4
2. Describe the sources of Flooding: a. corrosion of hull and piping systems; b. collisions; c. groundings; d. enemy action; e. human error; and f. firefighting.	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	A1, Part 5, 6
3. Describe flood boundary/containment considerations	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	A1, Part 4

Teaching Points	Instructional Strategies	Time	References/Remarks
4. Zones of Damage: a. Primary Zone; b. Secondary Zone; and c. Remote Zone.	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	A1, Part 2
5. Pumping/countermeasures: a. electrical submersible; b. bilge eductor system; c. main machinery equipment; and d. environmental considerations.	Method: EDI Media: PowerPoint/trainer Environment: Classroom/Trainer	10 mins	Instructor to review DCTF pumping equipment and procedures prior to assessments. A1, Part 4 A2
6. Priority in Leak-Stopping: a. rate of flooding (size and depth of hole); b. importance of the compartment; and c. effects of using plugs.	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	A1, Part 4
7. Watertight Integrity: (Red) Risk Zone	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	A1, Part 2
8. Describe effects of flooding: a. list and trim; b. loss of equipment; c. difficult to assess and repair damage; and d. structural damage	Method: Lecture Media: PowerPoint Environment: Classroom	10 mins	A1, Part 4

5. Total EO time: 50 minutes.

6. Training and learning aids:

   a. Red Risk Zone diagram, if available; and

   b. display of various leak-stopping devices.

7. Remarks: nil.

EO 001.02 ASSEMBLE PIPE REPAIR MATERIALS

1. Performance: assemble pipe repair materials

2. Conditions:

   a. given:

      (1) operational DCTF;

      (2) references; and

      (3) supervision.

   b. denied: nil.

   c. environment: DCTF

3. Standard: trainee shall use materials and equipment to complete emergency pipe repairs IAW A1.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Pipe repair methods to include: a. Band-it tool; and b. Skinner seal.	Method: EDI Media: Training materials Environment: Trainer.	30 mins	Instructor to discuss other methods if time permits. (i.e. jubilee clamp) A1, Part 4
2. Firemain jumpers	Method: EDI Media: Training materials Environment: Trainer.	20 mins	Reviewed in trainer

5. Total EO time: 50 minutes.

6. Training and learning aids:

   d. simulated damaged pipe;

   e. Band-it Clamp tool kit;

   f. Skinner seal; and

   g. firemain jumping hose and couplings.

7. Remarks: nil

EO 001.03 ASSEMBLE FLOOD REPAIR MATERIALS

1. Performance: Assemble flood repair materials.

2. Conditions:

   a. given:

      (1) operational DCTF; and

      (2) supervision.

   b. denied: references.

   c. environment: DCTF

3. Standard: The trainee shall describe the purpose, method of installation, and limitations of flood control materials; and they shall assemble the following flood prevention and control materials IAW A1 to include:

   a. employing Glass Reinforced Plastic Box (splinter box);

   b. constructing Square Shore including modified;

   c. constructing “V” Shore including modified;

   d. constructing Vertical Shore; and

   e. utilizing EMMS Clamps.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Shoring material and equipment: a. wooden shoring; b. metal shoring; c. shoring cap; d. measuring baton; e. pre-cuts; f. steel dogs; g. plugs; and h. wedges.	Method: Demo Media: Training materials Environment: Trainer	10 mins	A1, Part 4
2. Glass Reinforced Plastic (GRP) Box.	Method: Demo Media: Training materials Environment: Trainer	15 mins	A1, Part 4

Teaching Points	Instructional Strategies	Time	References/Remarks
3. Cutting techniques: a. measuring; b. critical cut; c. noncritical cut; d. notching; and e. shingling.	Method: EDI Media: Training materials Environment: Trainer	15 mins	A1, Part 4
4. Shoring techniques; a. Vertical Shore; b. Square Shore; c. Modified Square Shore; d. “V” Shore; e. Modified “V” Shore; and f. EMMS Clamps.	Method: EDI Media: Training materials Environment: Trainer	40 mins	A1, Part 4
Mock up familiarization: a. trainer tour/safety; b. initial action procedures; c. DC locker contents (trainer); and d. brace for shock demo.	Method: EDI Media: Training materials Environment: Trainer	20 mins	DCTF SOP

5. Total EO time: 100 minutes.

6. Training and learning aids:

   a. door structural mock-up;

   b. hatch structural mock-up; and

   c. pipe repair mock-up.

7. Remarks: Vertical and Square shore shall be demonstrated and practiced. Remaining shoring shall be set up as displays. Construction of additional shores can be completed if time permits.

QUALIFICATION STANDARD ANNEXES

ANNEX A – MAIN REFERENCES

1. This annex lists all references used in this QS and TP.

REF #	NDID/DOCUMENT CONTROL NO	TITLE OF REFERENCE
A		**Official CAF Publications and Directives that relate to this Qualification**
A1	B-GN-007-RCN/FP-001	CFCD 132 Damage Control Manual
A2		Safety and Environmental Management System (SEMS) Halifax Class
B		**(Non-CAF) Government of Canada Publications & Foreign Military (Non-DND) Publications that relate to this Qualification**
C		**Civilian Publications and Manuals that relate to this Qualification**
D		**Other Publications and Manuals that relate to this Qualification**

NOTE: If additional references are identified during the TPWB this annex can be updated secretarially through NTG HQ.

ANNEX B – TASK LIST

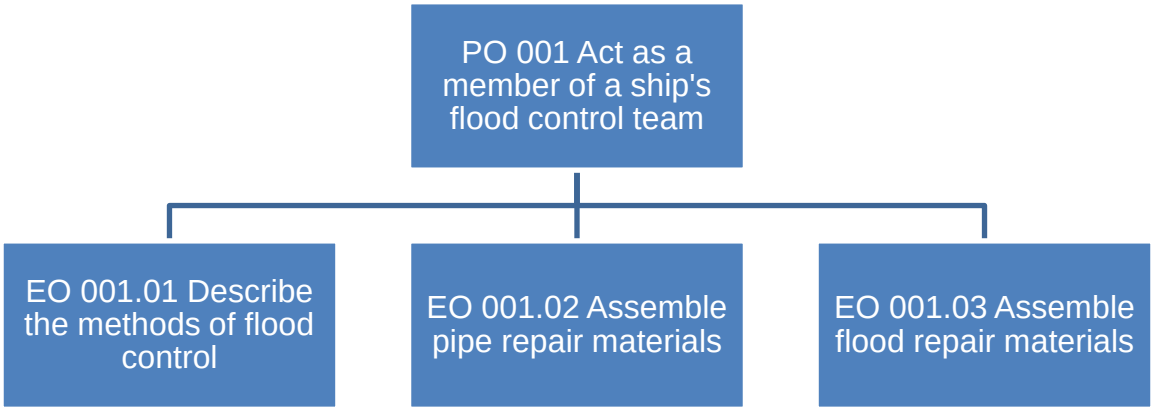
1. The task list includes all of the tasks associated with this qualification and the outcome of the Train / No-train decisions. If a task is designated as requiring training, the PO where it is covered is indicated. If a task is designated as not requiring training, the justification for that designation is provided.

2. The following table defines some of the criteria used to support a no-train designation in the task list. Other reasons may be used if required.

CRITERIA	DEFINITION
A	**Previously qualified.** Tasks and knowledge already possessed by the student by CAF and/or RCN courses, training and/or experience.
B	**Will receive on future courses.** Tasks and knowledge will be covered as part of other CAF and/or RCN courses and/or training.
C	**Difficulty.** Task is not difficult to learn; formal training is not required.
D	**Importance.** Task is not important; it has no significant impact on mission success.
E	**Frequency.** Task is rarely performed; no formal training is required.
F	**Lack of equipment.** Currently there is no equipment in the CAF inventory to train this task.

Task #	Task Statement	Train / No Train	PO #	Substantiation/Comments
A0020	**Execute damage (DC) duties in Navel environment**	**T**	**001**	**Taken from NETP CSQ**

ANNEX C – QS SCALAR



ANNEX D – RECORD OF DECISIONS QSWB

1. This record summarizes the conduct of the QSWB including major activities, important discussions, and contentious issues, as well as all decisions and recommendations made by the Board. A description of the reasoning which supports a decision or recommendation is provided when required. No record of decisions from QSWB from previous QSP.

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the QS is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted QSCR, thus ensuring the QSP has the most relevant information.

Version: 1.1	
Date: 3 July 2024	**Who Initiated Change: CPO2 Shawn Mann**
Requirement for the Amendment: New QS/TP format adopted for use in the RCN.	
Description of Changes: **Chapter 1 para 4 removed prerequisite ADSST. Reference prerequisite was prior to OSQ training. Predates currently enrolled RCN members.** **Chapter 2 PO 001 para 2 removed casualty power cable and equipment.** **Para 3 remove rig casualty power system.** **Annex A Added reference A03 CFCD 132. Added reference was not published at the time of the original QSP development.** **Removed reference C02 Hilti Gun manufactures instructions as TP with Hilti gun has been removed from EO 001.04 of original QSP.** **Added reference D04 Flood rate table.** **Updated Post Course Review statement to reflect the frequency of the training to conduct PCRs monthly vice per course.**	
Change Tracking number:	
Trg Mgr: CPO2 Jamie Van Delft	

TRAINING PLAN ANNEXES

ANNEX E- RESOURCES, EQUIPMENT, SUPPLIES, AND ANCILLARIES

This annex is not used for this course.

ANNEX F – COSTING INFORMATION

This annex is not used for this course.

ANNEX G – SUGGESTED SEQUENCING AND TIMINGS

1. This annex is to be used to properly schedule all required classrooms, trainers, ships, personnel, etc. for the duration of the course. Admin and PT periods are accounted for IAW NTORD 4500-22 Annex B (QSP Instructions).

2. The tables are completed in the preferred sequence for lessons and resources. Special instructions to schedulers shall be included as "Notes" following the applicable PO or Module.

3. The table below is available to use as a template for calculations.

Allocation of ATT	**Minutes**
Actual Training Time	350
ATT Sub-total	**350**
Allocation of BAT, TAT, TTT, PT (Course > 31 days)	
Base Administrative Time (BAT)	0
Training Administrative Time (TAT)	0
Training Travel Time (TTT)	0
Physical Fitness (PT)	0
Sub-total	**0**
Course Duration Calculation (ATT+BAT+TTT+TAT+PT) **Total mins/400 = # days** (rounded up)	
Total Training Days	**1**

OPTIMUM TRAINING SCHEDULE

Week 1 Time	Day 1
Period 1 0800-0850	EO 001.1 Describe Methods of Flood Control
Period 2 0900-0950	EO 001.2 Assemble Pipe Repair Materials
Period 3 1000-1050	EO 001.3 Assemble Flood Repair Materials Perform Shoring
Period 4 1100-1150	EO 001.3 Assemble Flood Repair Materials and tour of trainer included
Period 5 1245-1400	EO 001 Act as a Member of a Ships Flood Control Team
Period 6 1415-1530	PO 001 Act as a Member of a Ships Flood Control Team
Period 7 1530-1600	PO 001 Act as a Member of a Ship's Flood Control Team

ANNEX H – ASSESSMENT PLAN

EC / PC	Scope	Purpose	How	When	Time	Resources	Limitations	Pass/Fail Criteria	Impact
EC 001	EO 001.01-001.03	To assess the Flood Repair Team knowledge retention	Practical exercise in DCTF encompassing all EO.	Upon completion of EO 001.03 and DCTF tour.	75 mins	Half of DCTF facility		IAW with Checklist	IAW course documentation
PC 001	EO 001.01-001.03	To assess the Flood Repair Team knowledge retention	Practical exercise in DCTF encompassing all EO.	Upon completion of EC 001.	75 mins	Half of DCTF facility		IAW with Checklist	IAW course documentation

ANNEX I – ASSESSMENT

PERFORMANCE/ENABLING CHECK

EC/PC combined time: 150 minutes (75 minutes each EC/PC) + 30 min debrief/cleanup.

ASSESSMENT ACTIVITY:

1. The team will be required to act as a Damage Control Repair Party and successfully control incoming water to a degree that pumping and leak stopping devices decrease the water level. EC and PC runs will be separated with a pause approximately halfway through the time allotted for the EC & PC. The EC run will be considered complete once two shores reach 100% wood shoring. The PC run will start with another brace for shock, and the instructor is to ensure personnel are not assigned the same tasks they completed on the EC run.

2. The team will be assessed collectively on performance as a flood repair party as per the checklist guidelines below. The instructor will act as the flood leader and will give some guidance, but the team must actively participate in the repair party efforts and show initiative and a good understanding of flood control techniques.

4. The team will be required to control flooding by pumping, leak-stopping, and shoring to include:

   a. hatches;
   b. doors;
   c. pipes;
   d. bulkhead/deckhead (panting); and/or
   e. structural holes.

PASS/FAIL CRITERIA: The team will be required to complete a total of four (2 x EC and 2 x PC) wooden shores to 100%, other shoring must be completed to a minimum of 50% (metal). The team must also perform correct techniques to control other leaks and floods presented in the scenario. The team will be assessed on teamwork & attitude. Any safety violations will be addressed immediately by staff. Repeat or deliberate safety infractions by a trainee may result in immediate RTU. Debriefs will follow both the EC and PC.

ASSESSMENT RESOURCES:

- Procedures same as EO 001.01-001.03;
- Operational mock-up/DCTF with water and materials; and
- Hard hats, goggles, gloves, steel-toed rubber boots and immersion suits for each trainee.

IMPACT OF FAILURE: Any trainee that show significant difficulty acting as part of the DC team or is a safety concern the attendee will not be granted the qualification and RTU. They will normally be recourse at the next available opportunity.

INVIGILATOR NOTES:

1. Staff required for EC/PC:
   a. One (1) x tank safety;
   b. One (1) x tank valve operator;
   c. One (1) x structure safety;
   d. One (1) x firemain break safety; and
   e. One (1) x I/C/plotter.

2. Procedures:
   a. designated personnel positions (for a minimum course of 14 personnel):
      (1) cutting team (three (3));
      (2) rapid survey team (two (2));
      (3) pipe repair party (three (3)); and
      (4) repair (shoring) team (six (6)).
   b. initiate each run to include:
      (1) brace for shock;
      (2) two (2) shores;
      (3) pipe repair;
      (4) firemain bridging; and
      (5) various leak stopping.

Flood Refresher – EC/PC Guide		
Session:	**Instructor:**	**Date:**

1. PASS / FAIL CRITERIA: Session will be monitored for safety violations and for areas to improve. If an attendee is experiencing significant difficulties this guideline will be completed to highlight areas to improve on. The individual will be counselled and RTU.

2. IMPACT OF FAILURE: RTU.
