RDIMS #1494802

QUALIFICATION STANDARD AND PLAN

ATTACK TEAM LEADER (ATL)

MITE ID 118787

Regular Force: Multiple MOSIDs take this training.
Primary Reserve: Multiple MOSIDs take this training.
TA: CNTG
CCA: NFS(P) DC Div

RECORD OF AMENDMENTS

1. The following versions of this QSP have been approved for use in support of the conduct of training. Amendments are detailed in Annexes D and L.

Revision	Change Description	Date	Authority
Original			NTG HQ (CHAPTERS 1 & 2)
			NFS(P) DC Div (CHAPTERS 3 & 4)
1.01	Format update from old QSP to NTG HQ QSP template 2022 version and secretarial fixes.	12 Nov 24	NFS(P) Cmdt

NOTE:

Personnel programming courses must ensure that their hard copy of this document is current and identical to the electronic copy on the QSP SharePoint Site. See above for current changes.

FOREWORD

1. This QSP is issued on the authority of the Commander of the RCN and managed by the CNTG on behalf of the A/CNS P&T.

2. This QSP is based on the:

   a. CFITES series, dated 31 July 1998 A-P9-050-000;

   b. CFCD 102;

   c. Officer General Specification (Environmental) A-PD-055/PP-001; and

   d. NCM General Specification (Environmental) A-PD-055/PP-002.

3. This QSP publication is effective on receipt and supersedes QSP revision 1.0, dated 6 Nov 2009. This QSP is designed to assist in developing, conducting, evaluating, and validating the IT&E required.

4. The QS at Chapters 1 and 2 were developed by the QSWB and TPs at Chapters 3 and 4 were developed by the TPWG which were convened 27 Oct – 06 Nov 2009 at CFNES, CFB Halifax working in collaboration with SMEs drawn from participating organizations. All aspects of this document were prepared IAW the concept of training outlined in A-P9-050 series, CFITES. Full details of the WBs are contained within Annex D and L.

5. The criteria for major and minor amendments, and the approval process, are identified in NTORD 4500-22.

6. In circumstances where the QS and/or TP cannot be adhered to, submission of a training waiver IAW NTORD 4500-22 is required.

RDIMS #1494802

QUALIFICATION STANDARD

CHAPTER 1 – QUALIFICATION STANDARD

AIM

1. This QSP aims to establish the requirements and training for the Sailor to perform their duties as an ATL. Possession of this qualification allows ATLs to direct their team in effectively employing shipboard firefighting techniques.

GRANTING OF NQUAL

2. A trainee will achieve the ATL MITE: 118787 qualification when the standards listed in the PO have been met.

CO-QUALIFICATION

3. In addition to the POs specific to this training, the following qualifications are included in this training program to meet the job requirements. The following MITE and/or NQUALs associated with these qualifications shall be granted upon completion of the training program and shall be listed within the course report:

a. FFR MITE: 109369; and

b. PFET MITE: 300934.

PREREQUISITES

4. To be selected for this course the loading authority must ensure that trainees meet the following prerequisites:

a. NWO II, NETP, or equivalent;

b. minimum rank of S1;

c. clean-shaven; and

d. fit-tested IAW RPP.

CHAPTER 2 – PERFORMANCE OBJECTIVES

PO 001 ACT AS AN ATTACK TEAM LEAD

1. Performance: Act as an Attack Team Lead.
2. Conditions:
    a. given:
        (1) operational warship;
        (2) shipboard firefighting equipment;
        (3) BA and PPE;
        (4) minor and major fires;
        (5) toxic fumes/smoke-filled compartments; and
        (6) supervision;
    b. denied: references.
    c. environment:
        (1) at sea or alongside in all weather conditions;
        (2) day or night;
        (3) limited lighting;
        (4) smoke-filled areas; and
        (5) shipboard compartments.
3. Standard: The member shall act as an ATL, to include:
    a. employing shipboard firefighting equipment to include:
        (1) utilizing safety equipment;
        (2) utilizing water and foam firefighting equipment;
        (3) utilizing portable firefighting equipment; and
        (4) utilizing fitted firefighting equipment;

b. extinguishing a minor fire;

c. extinguishing a major fire by:

(1) checking team equipment;

(2) receiving initial brief;

(3) completing attack preparations;

(4) identifying attack methods;

(5) selecting appropriate attack method;

(6) applying appropriate attack method;

(7) appraising effectiveness of attack method;

(8) advancing to primary zone;

(9) employing necessary door/hatch procedures;

(10) conducting attack team turnover;

(11) applying turnover techniques; and

(12) conducting post-fire procedures;

d. employing search and rescue techniques by:

(1) selecting search and rescue techniques;

(2) coordinating casualty evacuation; and

(3) conducting a search and rescue.

4. Reference: A1, A2, A3, A4, A5, A6, A7, A8, A9, C1, C2, C3.

5. Task numbers: BT0015, BT0020, BT0055, BS0005, BS0015, AK0045, AK0095, AK0115, AK0165, AK0215, AK0260, BK0005, BK0015, BK0030, BK0040, BK0045, BK0050, BK0090, BK0130.

QSPWB T001 – Utilize safety equipment
QSPWB T002 – Utilize water and foam firefighting equipment
QSPWB T003 – Utilize portable firefighting equipment
QSPWB T004 – Utilize fitted firefighting equipment
QSPWB T005 – Conduct duties of a discoverer
QSPWB T006 – Conduct a search and rescue
QSPWB T007 – Select appropriate FAFE

QSPWB T008 – Test fire extinguisher
QSPWB T009 – Use door and hatch procedures
QSPWB T010 – Conduct aggressive attack on fire
QSPWB T011 – Overhaul a fire
QSPWB T012 – Practice outside extinguisher use
QSPWB T013 – Check team equipment
QSPWB T014 – Receive initial brief
QSPWB T015 – Complete pre-attack preparations
QSPWB T016 – Identify attack methods
QSPWB T017 – Select appropriate attack method
QSPWB T018 – Appraise effectiveness of attack method
QSPWB T019 – Advance to primary zone
QSPWB T020 – Employ necessary door/hatch procedures
QSPWB T021 – Employ turnover techniques
QSPWB T022 – Conduct attack team turnover
QSPWB T023 – Conduct post fire procedures
QSPWB T024 – Select search and rescue techniques
QSPWB T025 – Coordinate casualty evacuation
QSPWB K001 – Naval Firefighting Terminology
QSPWB K002 – Science of fire
QSPWB K003 – Principles of fire development
QSPWB K004 – Special considerations for a fire suppression
QSPWB K005 – Duties of Rapid Response Team (RRT)
QSPWB K006 – Duties of Rapid Attack Team (RAT)
QSPWB K007 – Duties of a boundary
QSPWB K008 – Duties of a backup team
QSPWB K009 – Duties of a sentry
QSPWB K010 – Confinement
QSPWB K011 – Considerations for and electronic space fire
QSPWB K012 – Considerations for a galley fire
QSPWB K013 – Considerations for a magazine fire
QSPWB K014 – Considerations for a main machinery space fire.

6. Remarks: nil.

TRAINING PLAN

CHAPTER 3 – TRAINING MANAGEMENT DETAILS

TRAINING STRATEGY

1. The following training strategies were selected for this course:

   a. classroom instruction;

   b. EDI; and

   c. simulation.

TRAINING DURATION

2. Based on existing resources and approved instructional design requirements, the approved course design authorizes two (2) training days.

REQUIRED COURSE STAFFING

3. The following key personnel are required to conduct the training.

Course Director				
Rank	**MOSID**	**Qualifications Required**	**Qty**	**PO / EO**
PO1 (WO) – MS (MCpl)	00379, or 00149	ATL PLQ or IT Qualified IAW NFS(P) / NFS(A) SOP's	1	PO 001
Instructors				
Rank	**MOSID**	**Qualifications Required**	**Qty**	**PO / EO**
PO2 (Sgt) - S1 (Cpl)	00379, or 00149	ATL (As backup instructor) PLQ or IT Qualified IAW NFS(P) / NFS(A) SOP's	1	PO 001
PO2 (Sgt) - S1 (Cpl)	00379, or 00149	ATL (As safety) PLQ or IT Qualified IAW NFS(P) / NFS(A) SOP's	2	PO 001
Any	00379	Control Room Operator	1	PO 001

TRAINING LIMITATION

4. The DCTF is limited in its ability to replicate the characteristics of a real shipboard fire and the associated heat and smoke-filled environment.

COURSE CAPACITY

5. The capacity per session is based on the guidelines in CFITES Vol 5 – Instructor to Learner Ratios:

a. optimum – 16;

b. maximum load – 16; and

c. minimum – 8.

DESIGNATED SCHEDULING AND COURSE LOADING

6. Refresher training will be scheduled by NFS (Pacific / Atlantic) DC Div using Session Manager and School Manager IAW NTG NTORD 4530-1.

7. PCC Training Coordinator shall allocate DC Div session seats using Session Manager and School Manager to units as set by RCN crewing priorities and Formation/Fleet HQ. PCC Training Coordinators are to maintain a DC Div seat availability calendar IAW NTG NTORD 4530-1.

QUALIFICATION AND ASSESSMENT

8. This is a pass/fail course. Students must successfully complete all POs to achieve the qualification.

9. Students will be monitored and assessed both on performance and conduct throughout the course. Counselling and progress monitoring will be conducted IAW applicable NTORDs or local TE SOPs.

10. Although not mandated specifically in the POs, the general demands of service members and the leadership demands of junior and senior leaders form an integral part of individual training. As such, students are presumed to possess the leader and/or follower attributes commensurate with their rank.

UNSATISFACTORY PROGRESS

11. Any student who fails to complete all POs in the allocated number of attempts will be returned to their unit. The respective Unit Training Coordinator and DC Div Commander will be advised of incomplete training or failure to achieve the training standard. Member will be required to attend the training again

12. Unsatisfactory Progress is defined as follows:

a. Failure of any PC, including repeated failure of the same PC;

b. Unsafe working habits or failure to follow required safety precautions;

c. Failure to demonstrate the behaviours that are considered critical for the performance of the job requirements that the QSP is designed to meet, including established ethical and professional standards;

d. Behaviour indicating a negative attitude towards training activities, other students, or instructional staff; including situations where the student's continued presence on the course adversely affects the training, safety, or morale of other students;

e. Medical, administrative, disciplinary, or personal problems that interfere with attendance or completion of course requirements; or

f. Inability to achieve or sustain the minimum level of performance required to progress on the course.

13. In the event of unsatisfactory progress, the student progress review process shall be initiated IAW NTORD 4500-54 TRB and CFITES vol 6.

14. Training Division Instructional Staff shall:

a. Notify the student of the unsatisfactory progress;

b. Counsel the student on his/her deficiencies;

c. Explain the consequences of continued unsatisfactory progress;

d. Indicate corrective actions required;

e. Provide reasonable assistance to overcome the deficiencies, as training time and training resources permit;

f. Follow-up with the student to assess if the corrective actions achieved the desired effect; and

g. Refer to a TRB if required.

15. Any student who fails to successfully complete all POs in the allocated number of attempts will be referred to the Commandant (Cmdt) or Commanding Officer (CO) of the training establishment (TE) to determine the requirement for a TRB IAW NTORD 4500-

REMOVAL FROM TRAINING

16. A TE CO/Cmdt may direct that a student be removed from training for reasons of deficiency in performance, conduct (discipline, attitude, teamwork, safety, leadership), missed training, medical, and other non-performance/conduct-related issues. In these cases, cease training procedures are to be strictly adhered to IAW NTORD 4500-29 or 4500-54.

RECERTIFICATION REQUIREMENTS

17. The qualification is valid for 24 months. Currency and/or re-certification requirements for this qualification are detailed in CFCD 102(P) Annex A.

LANGUAGE OF INSTRUCTION

18. The language of instruction shall be in accordance with the Delivery of Training and Education in Both Official Languages (DAOD 5039-6).

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

19. PLARs shall be conducted IAW DAOD 5031-1 Canadian Forces Military Equivalencies Program, through the RCN PLAR submissions coordinator.

POST COURSE REVIEWS (PCR)

20. PCRs are to be conducted on all steady-state courses IAW NTORD 4500-23.

COURSE REPORTING

21. On completion of this course a CF289 Certificate of Military Achievement shall be prepared and distributed IAW DAOD 5031-9.

CHAPTER 4 LESSON SPECIFICATIONS

PO 001 – ACT AS AN ATTACK TEAM LEADER

EO 001.01 DESCRIBE THE NATURE OF FIRE

1. Performance: Describe the nature of fire.

2. Conditions:

   a. given:

      (1) manuals; and

      (2) supervision;

   b. denied: nil.

   c. environment: classroom.

3. Standard: The trainee shall describe the nature of fire, IAW A3 and C1, to include:

   a. describing the science of fire, to include:

      (1) sources of heat;

      (2) heat transfer; and

      (3) principles of fire;

   b. describing the principles of fire development; and

   c. describing special considerations for fire suppression.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Describe the science of fire, specifically: a. chemical; b. mechanical; and c. electrical.	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	Ref: A3 Ch 5 Section 501.3

Teaching Points	Instructional Strategies	Time	References/Remarks
2. Heat transfer, to include: a. impingement/direct flame contact; b. radiation; c. convection; and d. conduction.	Method: Lecture Media: PowerPoint Environment: Classroom	5 mins	Ref: A3 Ch 5 Section 501.3
3. Principles of fire, to include: a. chemistry of fire; b. fire tetrahedron; c. burning process; d. classes of fire; and e. methods of extinguishment.	Method: Lecture Media: PowerPoint Environment: Classroom	10 mins	Ref: A3 Ch 5 Section 501.1 Section 501.4 Section 502.1
4. Fuel characteristics: a. physical properties; b. shape and size; c. position; d. density; e. water solubility; and f. volatility.	Method: Lecture Media: PowerPoint Environment: Classroom	10 mins	Ref: C1 Ch 1 pg. 11 – 12
5. Describe the principles of fire development (fire stages), specifically: a. ignition; b. growth; c. flashover; d. fully developed; and e. decay.	Method: Lecture Media: PowerPoint Environment: Classroom	10 mins	Ref: A3 Ch 5 Section 501.5
6. Describe special considerations for fire suppression, specifically: a. fire gas phenomena: b. flashover; c. backdraft; and d. fire gas explosion.	Method: Lecture Media: PowerPoint Environment: Classroom	15 mins	Ref: A3 Ch 5 Section 501.6

5. Total EO time: 55 minutes.

6. Training and learning aids:

   a. fire behaviour simulator; and

   b. video.

7. Remarks: nil.

EO 001.02 EXPLAIN SHIPBOARD FIREFIGHTING

1. Performance: Explain shipboard firefighting.

2. Conditions:

   a. given: references.

   b. denied: nil.

   c. environment: classroom.

3. Standard: The trainee shall follow shipboard firefighting fundamentals IAW A1, A2, and A3 to include:

   a. method of communications for ATL;

   b. naval firefighting terminology;

   c. duties of RRT;

   d. duties of RAT;

   e. duties of a boundary;

   f. duties of a backup team;

   g. duties of a fire sentry;

   h. confinement;

   i. considerations for an electronic space fire;

   j. considerations for a galley fire;

   k. considerations for a magazine fire; and

   l. considerations of a main machinery space fire.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Explain methods of communications for an ATL, to include: a. PRC; b. shipboard telephone system; c. main broadcast; d. messengers (runners); and	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A3 chapter 4 section 409.1

Teaching Points	Instructional Strategies	Time	References/Remarks
e. SPT.			
2. Explain firefighting terminology, to include: a. on air; b. advancing on the fire; c. fire out/overhauled; d. fire sentry posted and briefed; e. adjacent compartment rounds (commence/complete); f. area overhaul; and g. gas free.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A3 Section 409.2
3. Explain the RRT, to include: a. composition; and b. responsibilities.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A2 Ch 3 section 311.1
4. Explain the RAT, to include: a. composition; and b. responsibilities.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A2 Ch 3 section 311.4
5. Explain the duties of a boundary.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A2 Ch 5 section 514
6. Explain the duties of the backup team.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A1 part 2, section 4 para 15 b
7. Explain the duties of a fire sentry.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A2 Ch 5 section 513
8. Explain confinement: a. primary zone; and b. secondary zone.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A1 Part 3 section 2 para 1
9. Explain considerations for an electronic space fire.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A1 Part 4, section 5, para 42 – 44 A1 – Annex S

Teaching Points	Instructional Strategies	Time	References/Remarks
10. Explain considerations for a galley fire, to include: a. galley hazards; b. wet chemical; and c. karbaloy extinguisher.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A1 Part 4, section 5, para 29 A1 – Annex O A3 Section 504.2
11. Considerations for a magazine fire, to include: a. magazine hazards; and b. fitted systems.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A1 Part 4, section 5, para 30 – 33 A1 – Annex P
12. Considerations for a machinery space fire, to include: a. space hazards; and b. fitted systems.	Method: Lecture Media: PowerPoint Environment: Classroom	5 min	Ref: A1 Part 4, section 5, para 27 – 28 A1 – Annex N A3 Section 504.4

5. Total EO time: 60 minutes.

6. Training and learning aids: nil.

7. Remarks: nil.

EO 001.03 EMPLOY SHIPBOARD FIREFIGHTING EQUIPMENT

1. Performance: Employ shipboard firefighting equipment.

2. Conditions:

   a. given:

      (1) shipboard firefighting equipment;

      (2) breathing apparatus;

      (3) supervision; and

      (4) references.

   b. denied: nil.

   c. environment:

      (1) classroom; and

      (2) DCTF burn rooms.

3. Standard: The trainee shall employ shipboard firefighting equipment IAW A1, A3, and C1, to include:

   a. utilizing safety equipment specifically:

      (1) PPE;

      (2) BA; and

      (3) EEBD;

   b. utilizing water and foam firefighting equipment;

   c. utilizing portable firefighting equipment; and

   d. utilizing fitted firefighting systems.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Utilize safety equipment, specifically: a. PPE, to include: (1) boots;	Method: Lecture/Demo Media: PowerPoint, training aids Environment: Classroom	25 min	Ref: A1 part 4, sect 3, para 47 – 40, and 45 – 51

Teaching Points	Instructional Strategies	Time	References/Remarks
(2) gloves; (3) firefighting hood; (4) bunker gear; and (5) helmet; b. breathing apparatus; and c. EEBD.			
2. Utilize water and foam firefighting equipment, specifically. a. variable nozzle; b. hoses; c. eductors; d. AFFF concentrate; and e. Wye/Tri gates.	Method: Lecture Media: PowerPoint, Training aids Environment: Classroom	5 min	Ref: A1 part 4, sect 3, para 20 – 30 A1 Part 4, sect 2, para 14 – 17
3. Utilize portable firefighting equipment, specifically: a. TIC: (1) capabilities; and (2) limitations. b. force rescue tool: (1) application; and (2) forcible entry. c. fire axe, to include forcible entry; d. utility/rescue webbing; and e. smoke curtain.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: Classroom	30 min	Ref: A3 Sect 5 para 511.4 A1 Part 4, sect 3 para 56 C4
4. Utilize fitted firefighting systems, specifically: a. Halon: (1) characteristics; and (2) application. b. AFFF: (1) characteristics; and (2) application. c. CO2: (1) characteristics; and (2) application. d. galley/wet chemical (1) characteristics; and (2) application.	Method: Lecture Media: PowerPoint Environment: Classroom	10 min	Ref: C1 Part 4, Sect 2 para 6, 14 – 26, 31 – 36.

Teaching Points	Instructional Strategies	Time	References/Remarks
e. TAU: (1) characteristics; and (2) application. f. FWS System: (1) characteristics; and (2) application.			

5. Total EO time: 70 minutes.

6. Training and learning aids:

   a. shipboard firefighting equipment; and

   b. forced entry prop.

7. Remarks: nil.

EO 001.04 EXTINGUISH A MINOR FIRE

1. Performance: Extinguish a minor fire.

2. Conditions:

   a. given:

      (1) minor fire;

      (2) supervision;

      (3) FAFE; and

      (4) references.

   b. denied: nil.

   c. environment: DCTF burn rooms.

3. Standard: The trainee shall extinguish a minor fire IAW reference A1, to include:

   a. conducting duties of a discoverer;

   b. responding to alarms and emergencies;

   c. selecting appropriate FAFE;

   d. testing FAFE;

   e. using door and hatch procedures;

   f. conducting aggressive attack on fire;

   g. overhauling fire; and

   h. practicing outside extinguisher use.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Extinguish a minor fire to include: a. conducting the duties of a discoverer; b. respond to a situation or a pipe;	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	50 min	Ref: A1, Annex H Ref: A1, Part 4, sect 3, para 3 – 18 Ref: A1, Part 4, sect 3, para 15 and 16

Teaching Points	Instructional Strategies	Time	References/Remarks
c. select appropriate extinguisher, A, B, C, or K class; d. test extinguisher; e. use door and hatch procedures checking the door and protecting yourself; f. attempt aggressive attack on the fire; g. overhaul the fire; and h. extinguisher use.			

5. Total EO time: 50 minutes.

6. Training and learning aids:

   a. portable fire props; and

   b. selected FAFE.

7. Remarks: nil.

EO 001.05 EXTINGUISH A MAJOR FIRE

1. Performance: Extinguish a major fire.

2. Conditions:

    a. given:

        (1) shipboard firefighting equipment;

        (2) breathing apparatus;

        (3) PPE;

        (4) major fire;

        (5) smoke-filled compartments; and

        (6) supervision;

    b. denied: references.

    c. environment: DCTF burn rooms.

3. Standard: The trainee shall extinguish a major fire IAW A1, A2, A3, and A4, by:

    a. checking team equipment;

    b. receiving initial brief;

    c. completing pre-attack preparations;

    d. identifying attack methods;

    e. selecting appropriate attack method;

    f. appraising appropriate attack methods;

    g. applying appropriate attach methods;

    h. advancing to the primary zone;

    i. employing necessary door/hatch procedures;

    j. conducting attack team turnover;

    k. applying turnover techniques; and

    l. conducting post-fire procedures.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Check team equipment, specifically, to include: a. PPE; b. BA; c. FF equipment; and d. communications.	Method: EDI Media: Training aids Environment: DCTF	5 min	Ref: A2, A3
2. Receive initial brief, to include: a. transit route; b. hazards; c. power isolation; d. attack route; and e. fitted system activation.	Method: EDI Media: Training aids Environment: DCTF	5 min	Ref: A2, A3
3. Complete pre-attack preparations, to include: a. transit to secondary zone; b. rig and charge hose; c. foam and pattern; d. verify power isolation; and e. confirm zone is accessible.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	5 min	Ref: A3 Chapter 5 section 511.2
4. Identify attack methods, by considering: a. environmental conditions, specifically: (1) smoke (colour characteristics and behaviour); and (2) heat (variance, intensity); b. physical indicators, specifically: (1) structural deformities; (2) paint discoloured or blistered; and (3) visible flame.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	10 min	Nature of fire video Ref: A1

Teaching Points	Instructional Strategies	Time	References/Remarks
5. Select the appropriate attack method, to include: a. direct attack; b. indirect attack; and c. combination attack.	Method: EDI Media: Training aids Environment: DCTF	5 min	Ref: A3 Chapter 5 section 511.1
6. Apply appropriate attach methods, to include: a. short pulse; b. long pulse; c. penciling; d. painting; e. direct (application of an extinguishing agent directly to the seat of the fire, either from within the space or from the door); f. indirect (application of an extinguishing agent not directly to the seat of the fire, either from within the space or from the door) to include: (1) off the deckhead; (2) off the bulkhead; (3) steam smothering; and (4) fitted systems. g. combination (a combination of direct and indirect firefighting methods) h. water/foam application techniques: (1) roll on; (2) bank down; and (3) rain down.	Method: EDI Media: Training aids Environment: DCTF	50 min	Ref: C4 Chapter 5, Section 509
7. Appraising effectiveness of attack method, to determine one of the following actions: a. continue attack; b. change attack; or c. withdraw attack.	Method: Lecture/Demo Media: PowerPoint, training aid Environment: DCTF	10 min	Ref: A1, C1 DCI

Teaching Points	Instructional Strategies	Time	References/Remarks
8. Advance to primary zone, to include: a. team on air; b. delivery short pulses to deckhead/deck; c. keep low; d. prepare to employ smoke curtain; e. monitor for hazards; and f. monitor for casualties.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	15 min	
9. Employing cold door and hatch procedures.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	10 min	Ref A3 – Chapter 5 Section 511.5
10. Employ hot door procedures.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	50 min	Ref A3 – Chapter 5 Section 511.5
11. Employ hot hatch-up procedures.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	10 min	Ref A3 – Chapter 5 Section 511.7
12. Employ hot hatch-down procedures.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	45 min	Ref A3 – Chapter 5 Section 511.6
13. Conduct Attack Team turnover.	Method: Lecture Media: PowerPoint, training aids Environment: DCTF	5 min	Ref A3 – Chapter 5 Section 511.9
14. Apply turnover techniques.	Method: Lecture/Demo Media: PowerPoint, training aids Environment: DCTF	15 min	Ref A3 – Chapter 5 Section 511.9
15. Conduct post fire procedures.	Method: Lecture Media: PowerPoint, training aids Environment: DCTF	5 min	Ref A3 – Chapter 5 Section 515

5. Total EO time: 245 minutes as follows:

   a. lecture 90 minutes;

b. demo 60 minutes; and

c. practice 95 minutes.

6. Training and learning aids:

a. video – revised Royal Australian Navy Firefighting procedures, Ch 7 and 10;

b. video – door entry techniques – NSWFB Australia (from 3D Firefighting training, techniques, and tactics, FPP Oklahoma State University);

c. video – door entry – NSWFB Australia (from 3D Firefighting training techniques and tactics; and

d. DCTF burn rooms.

7. Remarks: nil.

EO 001.06 PERFORM SEARCH AND RESCUE TECHNIQUES

1. Performance: Perform search and rescue techniques.

2. Conditions:

   a. given:

      (1) shipboard firefighting equipment;

      (2) breathing apparatus;

      (3) supervision; and

      (4) references;

   b. denied: nil.

   c. environment:

      (1) classroom; and

      (2) DCTF burn rooms.

3. Standard: The trainee shall employ search and rescue techniques IAW C1, to include:

   a. selecting search and rescue techniques;

   b. coordinating casualty evacuation; and

   c. conducting a search and rescue.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
1. Select search and rescue techniques, with consideration for: a. search patterns; and b. search methods.	Method: Lecture/Demo. Media: Training aids. Environment: DCTF.	10 min	Ref: C1, Ch 9, pg 246 – 248.
2. Coordinate casualty evacuation for the following: a. two-arm drag; b. clothes drag; c. two-person extremity carry; and	Method: Lecture/Demo. Media: Training aids. Environment: DCTF.	10 min	Ref: C1, Ch 9, pg 246 – 248.

Teaching Points	Instructional Strategies	Time	References/Remarks
d. utility/rescue webbing.			
3. Conduct a search and rescue.	Method: Practical. Media: Training aids. Environment: DCTF.	30 min	Ref: C1, Ch 9, pg 246 – 248.

5. Total EO time: 50 minutes as follows:

   a. lecture/demo 20 minutes; and

   b. practical 30 minutes.

6. Training and learning aids:

   a. rescue mannequin; and

   b. selected FAFE.

7. Remarks: nil.

QUALIFICATION STANDARD ANNEXES

ANNEX A – MAIN REFERENCES

1. This annex lists all references used in this QS and TP.

REF #	NDID/DOCUMENT CONTROL NO	TITLE OF REFERENCE

NOTE: If additional references are identified during the TPWB this annex can be updated secretarially through NTG HQ.

ANNEX B – TASK LIST

1. The task list includes all of the tasks associated with this qualification and the outcome of the Train / No-train decisions. If a task is designated as requiring training, the PO where it is covered is indicated. If a task is designated as not requiring training, the justification for that designation is provided.

2. The following table defines some of the criteria used to support a no-train designation in the task list. Other reasons may be used if required.

CRITERIA	DEFINITION
A	**Previously qualified.** Tasks and knowledge already possessed by the student by CAF and/or RCN courses, training and/or experience.
B	**Will receive on future courses.** Tasks and knowledge will be covered as part of other CAF and/or RCN courses and/or training.
C	**Difficulty.** Task is not difficult to learn; formal training is not required.
D	**Importance.** Task is not important; it has no significant impact on mission success.
E	**Frequency.** Task is rarely performed; no formal training is required.
F	**Lack of equipment.** Currently there is no equipment in the CAF inventory to train this task.

Task #	Task Statement	Train / No Train	PO #	Substantiation/Comments
BT0015	**Initiate alarms/emergency pipes**	**NT**	**001**	**It is trained on NETP and does not require refresher**
BT0020	**Respond to alarms and emergencies**	**T**	**001**	
BT0055	**Execute firefighting team duties**	**T**	**001**	
QSPWB T001	**Utilize safety equipment**	**T**	**001**	
QSPWB T002	**Utilize water and foam fire fighting equipment**	**T**	**001**	
QSPWB T003	**Utilize portable fire fighting equipment**	**T**	**001**

Day #	Details	Action
1		

<u>Board Objective:</u>

1. The mandate of the Naval Fire Fighting Training QSPWB was to:

   a. Identify and add new training concepts (modern Fire Fighting techniques);

   b. Identify and delete obsolete training elements;

   c. Assess critical outstanding QSP amendments and integrating necessary changes into the QSP;

   d. Finalize composition of the QSP;

e. Review and amend QSP formatting IAW CFITES; and

f. Establish measurable standards.

Specification Task – No Train Decisions:

2. The tasks selected for training are detailed at Annex B.

Discussions / Decisions:

3. The board conducted a general overview of all naval fire fighting courses currently being delivered at each of the Training Establishments (TEs). The purpose of this review was to confirm that the Naval Fire Fighting Training (NFFT) QSP was the best opportunity to commence instruction utilizing new fire fighting techniques and to introduce these procedures to fleet personnel. After short presentations by each of the attending SMEs, the board reached an overall consensus that NFFT was the first course that should be modified and updated with new fire fighting procedures. It was also observed by the board that all of the QSPs related to Naval Fire Fighting were in need of a review to amend those components that do not conform to CFITES standards.

4. The board identified the NCMGS and OGS as the primary documents to extract performance requirement descriptions for personnel in the naval environment that are required to perform fire fighting duties. A review of the OGS failed to identify tasks, skills or knowledge specifically required for fire fighting. The NCMGS did contain tasks, skills and knowledge but was incomplete for the purposes of this QSPWB. The board agreed that the references currently used by the TEs, as the standard for marine fire fighting procedures, provided the tasks required to complete a task analysis. Annex B lists the tasks adopted by the board for training which have been submitted for approval and amendment to the general specifications.

5. A review of CFCD 102 confirmed that there are two Combat Readiness Requirements associated with Naval Fire Fighting: T2060 Naval Fire Fighting and T2061 Advanced Fire Fighting (Fire Leader). The board agreed that any revised version of the NFFT should also allow candidates to meet the requirements of both CRRs. There was general consensus that a trainee undergoing advanced level fire fighting training should not have to complete an additional course (Fire Refresher) to satisfy T2060 Naval Fire Fighting. The implications of this decision meant that material presented in the Fire Fighter Refresher course also needed to be aligned to material taught in the revised NFFT course.

6. As a result of detailed discussions regarding the content and delivery of the NFFT course, it was observed that there were significant variations between

what is taught on the NFFT course and what is contained in the QSP. Representatives from both TEs also

confirmed that the method in which the course was delivered differed between them. The NFFT course had unofficially evolved into a ‘catch all’ two-day fire fighting course that attempted to address responsibilities of the Fire Leader and Duty Watch personnel, while concurrently attempting to deliver advanced fire fighting techniques. The general observation by both the TEs and Sea Training was that there is not enough time in the existing two-day course to adequately instruct Fire Leader and Duty Watch responsibilities and, at the same time, adequately train advanced fire fighting techniques.

7. Information provided by representatives from Sea Training identified that advanced fire fighting skills within the fleet have generally declined. The board decided that there is a requirement for a course that focused solely on advanced fire fighting techniques, particularly those skills employed by the Attack Team Leader (ATL). Given the limited duration of the course, this meant that aspects of course that addressed Duty Watch and Fire Leader responsibilities would no longer be covered on this course. To reflect the decision to focus on advance fire fighting techniques, the course name was changed from NFFT to Attack Team Leader.

8. New procedures for attacking a major fire were tabled to the board by the SMEs. These new procedures were developed and agreed upon by various board members as a result of recent site visits to other foreign naval and civilian fire training establishments. Specifically, the majority of board members witnessed and practiced these procedures when visiting Texas A & M University to investigate fire fighting techniques as taught in the University’s Advanced Marine Fire Fighting course. Board members confirmed that while current Canadian naval fire fighting procedures in use were not unsafe, newly adapted fire fighting procedures would greatly benefit the Canadian Navy. These procedures were unanimously accepted by the board for use in shipboard fire fighting as detailed in Annex E of this document, and are referenced throughout the QSP as the new standard for this course.

9. The Attack Team Leader course has been designed to accommodate both Drager and Chemox Breathing Apparatus. However, the course should not be conducted with students utilizing a mixture of both BAs due the inherent difficulty in instructing, assessing and supervising personnel using a mixture of both BAs. Training will be provided based on the needs of the ship requesting the training.

10. To ensure students receive effective training and to maintain safety, the minimum number of students loaded on the course is eight (8). This will allow training runs to be completed with a four (4) person attack team, a two (2) person back up team and two (2) person casualty clearing team. The maximum loading

for the course is sixteen (16) to allow two (2) runs to be completed concurrently in separate rooms, with the same positions as detailed above in each run.

Training Considerations

11. Fire Behaviour Simulator – The board recommends that a fire behaviour simulator, similar to what is described at Reference C1 be used as a training aid for EO 001.01. Following the pilot course, both TEs should determine if it feasible to incorporate the use of this training aid into the proposed schedule presented at Annex G. If use of this training aid is recommended, TEs shall make a recommendation to DMTE on procurement action.

12. Fire Fighting Training Videos – The board recommends the use of training videos, similar to what is contained at Reference C3, to compliment the instruction of advance fire fighting techniques. TEs are to work in conjunction to review available fire training videos and to select the most appropriate for inclusion in this QSP.

Lessons Learned:

13. It is vital that QSPWBs have a secretary/QSP operator to manage all documentation related to the board, including production of the ROP. Given the short duration of this board it was not efficient or effective for the Chair of TDO to capture the recommendations and required follow up action. For future boards, it is recommended that secretaries be identified as early as possible so that they may have an opportunity to review ROPs from previous boards and understand what information they are required to capture. It is also recommended that those personnel selected as secretary be capable of producing detailed ROP for review and acceptance by the chair immediately upon conclusion of the QSPWB.

14. The composition of the board was advantageous in making critical decisions in training that would impact the entire fleet with respect to fire fighting. Representation by east and west coast DC Divs and Sea Training staffs as well as DMSS 4, enabled the board to determine and allocate action items that resulted from the board, appropriate designation of OPIs and expected completion dates.

Guidance to Instructional Designers:

15. To eliminate the variance between TEs in the conduct and assessment of this training, it is highly recommended that instructional staff occasionally observe the delivery of training at each facility. This will help to ensure that the best possible instructional methods are being utilized by the TEs and, if required, to facilitate the of a QSP amendments if the recently approved fire fighting techniques are modified through the course of training delivery.

Recommendations / Follow-up Action:

16. All existing naval fire fighting courses were briefly assessed to determine if decisions made during this QSPWB will impact the conduct of those courses; the resulting action items are recorded in the table below, and include:

ITEM	ACTION ITEM	OPI(s)
	NETP Fire Fighting Phase – This training provides the introduction of naval fire fighting concepts and skills. The QSP for NETP currently has a PO and EO which reference "the DC Div maintained QSP for Basic Firefighting" which was completed in 2004 but is not an approved document. The PO and EO do not conform to CFITES.	
1	Action – The Training Authority (TA) review the NETP DC PO and EO and insert the required components for Fire Fighting, Flood Control and CBRN training IAW CFITES	DMTE
2	Action – TEs to ensure new fire fighting procedures utilized in the ATL course (Annex E) are introduced on this course	CFNES /CFFSE
	OOD – The draft QSP is under review by DMTE; they recommend that it be approved and that the ATL course be a prerequisite for this course	
3	Action – TA approve OOD QSP	DMTE
4	Action – TA make QSP amendment that stipulates ATL is a prerequisite for OOD training	DMTE
	Ship's FF Refresher Training – This course provides a refresher of the fire fighting concepts and skills taught on the NETP course.	
5	Action – This QSP requires review as there are deficiencies throughout the document; it is not drafted IAW CFITES	DMPOR
6	Action – TEs to ensure new fire fighting procedures utilized in the ATL course (Annex E) are introduced on this course	CFNES/ CFFSE
	HT QL5 – QSP has recently been reviewed by QSPWB	
7	Action – TEs to ensure new fire fighting procedures utilized in the ATL course (Annex E) are introduced on this course	CFNES/ CFFSE
	DCOTT – No impact	
	EODC – No impact	
	ER QL6 – No impact	
	HT QL6 – No impact	
	Drager Conversion – No impact	
8	CFNES has submitted MITE ID Code Req form with Draft QSP	DMTE

17. During the course of the QSPWB, the decision was made to focus the ATL course on the instruction of advanced fire fighting techniques. This resulted in elements of the former NFFT course that addressed Fire Leader and Duty Watch responsibilities being removed from the new ATL QSP. The board unanimously agreed that there is a need for an additional refresher course, beyond the existing Fire Refresher course, that addresses the duties and responsibilities of

the Fire Leader and Senior Duty Watch Personnel. The Fire Refresher must remain as a course that instructs fire fighting considerations and techniques. There is not enough time in the one day Fire Refresher course to address both training needs. This additional refresher course for the Fire Leader and Senior Duty Watch Personnel does not necessarily need to be conducted at the DCTFs but could be conducted jointly by Sea Training and DC Div staff on board HMC Ships or other suitable locations.

ACTION: DMTE

18. It is recommended that a pilot course be conducted as soon as possible; initial discussion with the Damage Control Division Commanders and instructional staff indicated that January 2010 is possible. It is also recommended that staff from both DC Divs be present to observe and, if possible, assist instructing the pilot ATL course.

ACTION: CFNES and NFS(E) DC DIVs

19. New fire fighting procedures detailed in Annex E will be presented to the DCACWG in December 2009. Following their acceptance by the DCACWG, these procedures need to be introduced into all applicable fire fighting courses as soon as possible.

20. To coincide with the introduction of new fire fighting concepts and procedures by the TEs, it is essential that they also be introduced to HMC Ships without delay. The board recommends that both Sea Training staffs develop a Fleet implementation plan, similar to what is being done with the introduction of Drager BAs. The implementation plan must address how each ship's staff will transition from using old techniques to the new fire fighting procedures detailed in this QSP.

ACTION: ST(A) and ST(P)

21. In the process of reviewing technical documentation as references for the Teaching Points in the QSP, the board observed a number of CFTOs and DCIs that need to be developed and promulgated. The following table identifies specific documents that are required:

Item	Document	Observation	Action
1.	DCI for On Air Procedure.	There is no specific or approved instruction for personnel to activate Drager BAs.	CFFS(E) to complete draft DCI and submit to DMSS 4 for approval.

2.	DCI for Utility Webbing.	There is no direction on the approved use of Utility Webbing for ship's staff. CFFS	(E) to complete draft DCI and submit to DMSS 4 for approval.
3.	Drager CFTO	An approved CFTO has not been promulgated. This document is required as a reference for instructors on the correct use of this equipment.	DMSS 4
4.	Sapphire CFTO – IRO Class Solar GT enclosure fire suppression system	An approved CFTO has not been promulgated	DMSS4

22. CFCD 102 and MARCORD 9-8 must be amended to reflect the decisions made by the board. Specifically, ST(A) must annotate these documents to reflect the transition of the former NFFT course to the ATL course that focuses on instructing advanced fire fighting techniques.

<u>ACTION: ST(A) and ST(P)</u>

23. The board recommends that TEs continue to provide instructional staff with opportunities for advanced training at facilities that are capable of simulating a realistic fire environment. While the DCTFs are good training aids, they do not adequately simulate a real fire situation (ie. heat and smoke characteristics). It is recognized that there is a significant training benefit, particularly for fire fighting instructors, to train in a realistic fire situation. TEs are to identify courses and training facilities that provide live fire training and make a recommendation to DMTE to provide this training opportunity to the DC Divs on a regular basis.

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the QS is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted QSCR, thus ensuring the QSP has the most relevant information.

Version:1.01	
Date: 15 Oct 2024	**Who Initiated Change: CPO2 Shawn Mann**
Requirement for the Amendment: New QS/TP format adopted for use in the RCN.	
Description of Changes: 1. Chapter 1 para 4, updated rank from LS to S1; 2. Chapter 1 para 4, removed prerequisite ADSST. Course information no longer valid. 3. Annex A: a. Updated SSOs from AL8 to AL11; b. Removed DCI 06-07, reference never published; c. Removed Drager DCI. Information added to other reference documentation; d. Removed Force Rescue tool CFTO. Information added to other reference documentation; e. Removed Sapphire CFTO. Fitted FF system no longer in-operation; and f. Added CFCD 132. Document not published at time original QSP was generated. Material arguments other references.

TRAINING PLAN ANNEXES

ANNEX E – RESOURCES, EQUIPMENT, SUPPLIES, AND ANCILLARIES

This annex is not used for this course.

ANNEX F – COSTING INFORMATION

This annex is not used for this course.

ANNEX G – SUGGESTED SEQUENCING AND TIMINGS

1. This annex is to be used to properly schedule all required classrooms, trainers, ships, personnel, etc. for the duration of the course. Admin and PT periods are accounted for IAW NTORD 4500-22 Annex B (QSP Instructions).

2. The tables are completed in the preferred sequence for lessons and resources. Special instructions to schedulers shall be included as "Notes" following the applicable PO or Module.

3. The table below is available to use as a template for calculations.

Allocation of ATT	**Minutes**
Actual Training Time	530
PC time	240
ATT Sub-total	**770**
Allocation of BAT, TAT, TTT, PT (Course > 31 days)	
Base Administrative Time (BAT)	0
Training Administrative Time (TAT)	0
Training Travel Time (TTT)	0
Physical Fitness (PT)	0
Sub-total	**0**
Course Duration Calculation (ATT+BAT+TTT+TAT+PT) **Total mins/400 = # days** (rounded up)	
Total Training Days	**2**

OPTIMUM TRAINING SCHEDULE

Week 1 Time	Day 1	Day 2
Period 1 **0800-0850**	Safety and Orientation brief EO 001.01 – Describe the nature of fire	EO 001.05 – Extinguish a Major fire. Check team equipment, Employ appropriate attach method Advance to primary zone
Period 2 **0900-0950**	EO 001.05 – Extinguish a major fire TP 4, 5, and 7	EO 001.05 – Extinguish a Major fire. Employ Cold door/hatch procedure Employ hot door procedure Employ hot hatch up procedure
Period 3 **1000-1050**	EO 001.02 – Explain shipboard firefighting fundamentals	EO 001.05 – Extinguish a Major fire. Employ hot hatch procedure Apply turnover techniques
Period 4 **1100-1150**	EO 0011.03 – Employ shipboard firefighting equipment.	PC Runs x 2 – Group A and B
Period 5 **1300-1350**	EO 001.05 – Extinguish a major fire TP 1, 2, 4, and 6	PC Runs x 2 – Group A and B
Period 6 **1400-1450**	EO 001.04 – Extinguish a minor fire Bunker gear issue	PC Runs x 2 – Group A and B
Period 7 **1500-1550**	EO 001.06 – Employ search and rescue techniques	PC Runs x 2 – Group A and B

ANNEX H – ASSESSMENT PLAN

EC / PC	Scope	Purpose	How	When	Time	Resources	Limitations	Pass/Fail Criteria	Impact
PC 001	PO 001	PO 001 Act as an ATL	Instructors are to divide and brief trainees and have them execute ATL scenarios.	Upon completion of PO 001	25 min assessment per candidate with 5 min debrief	DCTF burn rooms	DCTF availability	Assessment criteria based on the checklist from Annex I	Failure Candidate to be loaded on a future course

ANNEX I – ASSESSMENT CHECKLISTS

PERFORMANCE CHECK

PC 001 time: 20 mins per trainee + 5 min debrief.

ASSESSMENT ACTIVITY: Candidate shall perform the duties of an ATL to the Standard of PO 001.
PASS/FAIL CRITERIA: Pass/fail criteria as noted in the table below.

ASSESSMENT RESOURCES:
- Operation DCTF burn rooms;
- FFE; and
- Operational SCBA.

IMPACT OF FAILURE: Failure of PC. Candidate to retake the course.

INVIGILATOR NOTES:

1. The following guidance is provided to Instructors/Assessors for administering the PC assessment:

a. Instructors will brief the trainees of the following regarding the PC:
(1) The emphasis on leadership/control;
(2) Procedures; and
(3) Safety.

b. Instructors/Assessors will conduct the PC by:
(1) Dividing trainees into teams;
(2) Briefing trainees on scenario;
(3) Executing scenario (25 min max);
(4) On conclusion of scenario, debrief the trainee being assessed as the ATL; and
(5) Set up for the next run.

c. Instructors will ensure the following resources are obtained in place prior to running the PC:
(1) PC checklist;
(2) Trainer is flashed up;
(3) Run is set up with DCTG equipment;
(4) Control Room Operator in position;
(5) Assessor in place;
(6) Safety numbers in place; and
(7) Attack Team designated.

d. Instructor will determine the standard for achievement based on the Practical Assessment Checklist, with a performance considered satisfactory if:
(1) The trainee has a minimum of 7 out of 10 performance items considered SAT in Part A; and

(2) The trainee has a minimum of 4 out of 7 performance items considered SAT in Part B.

e. Post assessment action will include the instructors:
(1) Informing the trainee being assessed that they were successful or unsuccessful in the PC; and
(2) Provided area for improvement for the trainee.

f. In determining the level of assistance Instructors/Assessors may provide trainees, the following should be considered:
(1) Try to ensure the trainee and attack team are given an opportunity for the scenario to progress to its conclusion;
(2) If the trainee experiences difficulty, provide minimal assistance to maintain progression of the PC; and
(3) Team safety shall be observed throughout. If a safety infraction is committed or about to be committed, the scenario should be either;
(a) Paused and corrective action taken before continuing; or
(b) Halted if the infraction is serious in nature.

g. Considerations for method choses based on the following;
(1) Smoke (colour, characteristics, and behavior); and
(2) Heat (variance, intensity.

h. Physical indicators, specifically:
(1) Structural deformities;
(2) Paint discoloured or blistered; and
(3) Visible flame.

ATL – PC 001 Assessment Checklist			
Trainee Name:	**Assessor Name:**	**Date:**	**Session:**

1. PASS / FAIL CRITERIA: Pass/fail criteria as noted in table below.

2. IMPACT OF FAILURE: Failure of PC. Candidate to retake course. Note, timing permitted, based on less then full course load, candidate maybe retested prior to end of instructional day.

ITEM	**PASS**	**FAIL**	**COMMENTS**
Part A			
1. Criteria			
Check team dress (No exposed shin, mask in ready position)			
Brief attack team (designation of positions)			

ITEM	PASS	FAIL	COMMENTS
2. Conduct equipment check (3 of 5)			
TIC functional			
Force rescue tool			
Smoke Curtain			
Portable comms			
Rescue Strap.			
3. Receive initial brief (4 of 7)			
Verify location of fire			
Verify power isolation			
Verify fitted system activation / availability			
Verify boundaries			
Verify attack route			
Confirm casualties			
Request necessary keys.			
4. Secondary Zone Survey			
Ensure equipment functionality: (charge hoses / check for foam and pattern)			
Verify secondary zone confinement (vent trunking closed / passageway doors and hatches closed)			
Consideration for fitted systems			
Verify team “On Air” (all personnel on BA / Inform Section Base/OOD			
5. Attack Procedures			
Select the appropriate method of attack (see administrative instructions, para 1) (direct, indirect, or combination)			
Execute attack procedure (IAW references) complete words of command (5 of 5)			
Advancing on the fire			
Fire is out			
Fire is overhauled			
Request sentry			
Sentry posted and briefed			
Utilize TIC			
Search and rescue (as required) technique and casualty removal			
Attack team turnover (as required)			
Brief sentry (location, class, duties, restriction of access)			
Carry out adjacent compartment rounds			
Part B Leadership (4 of 7)			
Control			
Decisiveness			
Confidence			
Communication skills			

ITEM	PASS	FAIL	COMMENTS
Situational awareness			
Setting priorities			
Confirming actions and task

SME/Secretary				
Advisor				

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the TP is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted TPCR, thus ensuring the QSP has the most relevant information.

Version:1.01	
Date: 15 Oct 24	**Who Initiated Change: CPO2 Shawn Mann**
Requirement for the Amendment: New QS/TP format adopted for use in the RCN;	
Description of Changes: **a. Chapter 3, para 3 required course staff** **i. Update rank structure from LS to S1;** **ii. Changed trade identification from Hull Tech, Elec Tech, and Mar Eng to Mar Tech;** **iii. Added PLQ or IT to instructor qualifications; and** **iv. Added NFS DC Div SOPs to instructor qualifications.**	
Change Tracking number:	
Trg Mgr.: CPO2 Jamie, Van Delft	
Version: 1.01	
Date: 15 Oct 24	**Who Initiated Change: CPO2 Shawn Mann**
Requirement for the Amendment: New QS/TP format adopted for use in the RCN	
Description of Changes: Amended chapter 3 paras 6 and 7 Designated Scheduling and Course Loading. Updated TP template reference course loading based on career course. New statement more accurate to course loading for sailor specialty qualifications. Deleted EO 001.03 TP 4 g and h. TP referencing equipment no longer in service within the RCN. Amended EO 001.05 TP 9. Split TP into separate TPs and removed individual step and indicated reference to appropriate documentation.	
Change Tracking number:	
Trg Mgr.: CPO2 Jamie Van Delft	

ANNEX M – ACRONYMS AND ABBREVIATIONS

1. This annex is to be utilized only to identify uncommon abbreviations used within this QSP.

A/CNS P&T	Assistant Chief of Naval Staff Personnel and Training
AFFF	Aqueous Film Foaming Foam
ATL	Attack Team Lead
BA	Breathing Apparatus
CAF	Canadian Armed Forces
CBT	Computer Based Training
CCA	Curriculum Control Authority
CFB	Canadian Forces Base
CFCD	Canadian Forces Controlled Document
CFITES	Canadian Forces Individual Training & Education System
CFNES	Canadian Forces Naval Engineering School
CFTO	Canadian Forces Technical Order
CNTG	Commander Naval Training Group
CVNF	Canadian Virtual Naval Fleet
DAOD	Defense Administrative Orders and Directives
DC Div	Damage Control Division
DCTF	Damage Control Training Facility
DLN	Defense Learning Network
DWAN	Defense Wide Area Network
EC	Enabling Check
EDI	Explanation Demonstration Imitation
EEBD	Emergency Escape Breathing Device
EO	Enabling Objective
FAFE	First Aid Fire Extinguisher
FF	Fire Fighter
FFR	Fire Fighter Refresher
FLYCO	Flight Commander
FWS	Fine Water Spray
HQ	Head Quarters
IAW	In Accordance With
IBIS	In-flight blade Integrity System
IT	Instructional Techniques
IT&E	Individual Training and Education
LCMM	Life Cycle Material Management
LSR	Learning Support Request
MITE	Military Individual Training and Education
MMMF	Man-Made Mineral Fibre
MOSID	Military Occupation Specification Identification number
NCM	Non Commissioned Officer
NETP	Naval Environmental Training Program
NTORD	Naval Training Order
NQUAL	National Qualifications

NTG	Naval Training Group
NTG HQ	Naval Training Group Head Quarters
NTS	Naval Training System
NWO	Naval Warfare Officer
OJPR	On the Job Performance Record
PAR	Personnel Accountability Reported
PC	Performance Check
PCC	Personnel Coordination Center
PCR	Post Course Review
PFET	Portable Fire Extinguisher Training
PLAR	Prior Learning & Assessment Recognition
PLQ	Primary Leadership Qualification
PM	Preventative Maintenance
POs	Performance Objectives
PPE	Personal Protective Equipment
PRC	Portable Radio Communications
QA	Quality Assurance
QS	Qualification Standard
QSCR	Qualification Standard Change Request
QSP	Qualification Standard & Plan
QSWB	Qualification Standard Writing Board
RAT	Rapid Attack Team
RCN	Royal Canadian Navy
RF	Repair Facility
RIT	Rapid Intervention Team
RPP	Respirator Protection Program
RPTK	Respiratory Protection Test Kit
RRT	Rapid Response Team
SAT	Satisfactory
SCBA	Self-Contained Breathing Apparatus
SME	Subject Matter Expert
SPT	Sound Power Telephone
SOP	Standard Operating Procedures
SSO	Ship’s Standing Orders
TA	Training Authority
TAU	Twin Agent Unit
TE	Training Establishment
TIC	Thermal Imaging Camera
TP	Training Plan
TPCR	Teaching Plan Change Request
TPWB	Training Plan Writing Board
UNSAT	Unsatisfactory
UTC	Unit Training Coordinator
WB	Writing Board
