ROYAL CANADIAN NAVY
QUALIFICATION STANDARD AND PLAN (QSP)

Submarine Scratcher

NQUAL – AINA

MITE IDs

Submarine Scratcher – 109294

Chapters 1,2: 19 Jul 24
Chapters 3,4: 19 Jul 24

RECORD OF AMENDMENTS

This QSP is developed under the authority of the Royal Canadian Navy (RCN) through its Training Authority (TA), Commander Naval Personnel Training Group (CNPTG) and the Curriculum Control Authority (CCA), Commandant of Naval Training Development Centre Atlantic (NTDC A). The approval/revision date should appear in the footer of every page as an additional means of verification. Details on the change(s) must be amplified in Annex J “Course History”.

FOREWORD

1. This training is based on the specification found at :

   a. A-P9-050 Series - A-P9 – 050 Series, Canadian Forces Manual of Individual Training and Education (CFITES); and
   b. A-PD-055-003 /PQ-001 Canadian Forces Manual of Occupational Structure Volume 3 Part 1 Occupational Specialty Specifications Officer and Non-Commissioned members Submarine Scratcher dated 06 January 2002.

2. A trainee will achieve the qualification AINA when the standards listed in all Performance Objectives have been met.

3. A trainee will achieve the following MITE Course IDs when standards listed in the associated Performance Objectives have been met:

   a. PO 001 – MITE 109294 :
      - EO 001.1-EO 001.04 inclusive, and
      - EO 001.5 – all other tasks not included in MITE codes in para b

4. This QSP consists of specific Performance Objectives (POs) in Chapter 2 and Lesson Specifications/Enabling Objectives (EOs) in Chapter 4. A trainee will achieve the qualification when the standards listed in the POs have been met.

5. This QSP is effective upon approval and supersedes previous versions.

6. Suggestions for amendments to this QSP may be initiated by anyone and shall be forwarded in writing to the CCA for approval.

7. The designated CCA(s) for this training is indicated below

   a. **Chapters 1 and 2 – Commander Naval Training Group (C NTG).** Amendments to training management details and Performance Objectives are to be approved by NPTG prior to implementing; and

   b. **Chapters 3 and 4 - Commanding Officer Naval Fleet School (Atlantic).** Amendments to the Enabling Objectives, Assessment details, and applicable annexes are to be approved by the CO NTDC (A) prior to implementing.

CHAPTER 1: TRAINING MANAGEMENT DETAILS

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY C NTG

AIM

1. The aim of this Qualification Standard and Plan (QSP) is to establish the requirements and training for the Submarine Scratcher. This QSP is designed to assist training establishments in developing, conducting, evaluating and validating the training.

COURSE DURATION

2. Course duration is calculated in accordance with NTORD 4500-4540-2 Royal Canadian Navy Course Scheduling.

Actual Training Days (ATT)	11
Base Administration Time (if required)	5 x 50 min periods
Physical Fitness	15 x 50 min periods
Course Duration (Total)	15 trg days

3. Resources:

DEDICATED COURSE STAFF			
POSITION	**RANK**	**SPECIALTY**	**NO.**
Course Officer	Lt(N)	AILS	1
Senior Instructor	PO1/PO2	AILS	1
Instructor	PO2/MS	AILS, AINA, Post Scratcher	1

Room Dedicated to the Course (Classroom, Trainer, Theatre)		Number of Days in Dedicated Area
Bldg. #	Room Number / Facility	
S-17 or	Classroom	21
S-100	Imperial Classroom/Trainer	5
HMC Dockyard	Alongside submarine	3 if available

4. Course capacity:

   a. Maximum - 6
   b. Optimum - 4
   c. Minimum - 3

5. Other requirements:

   a. Transport for outside visits; and
   b. All relevant publications and documentation.

MANAGING AUTHORITY

6. The managing authority is C NTG. Courses will be managed using the MITE. It involves nominating individuals, course scheduling, matching personnel and serials for training, costing resources for training, course loading, course reporting and tracking training results.

COURSE PREREQUISITES

7. Recommend personnel nominated for this training have experience as the Scratcher's Dickie.

8. Course prerequisites are:

a. Completed Basic Submarine Qualification (BSQ);
b. Completed Victoria Class Trades Training;
c. Minimum rank of Sailor First Class or above;
d. Small boat Cox'n qualified (MITE 117652 and 117655);
e. Complete WHMIS certification;
f. Be one of the following trades: Sonar Operator (SONAR OP), Naval Communicator (NAV COMM), or Naval Combat Information Operator (NCI OP); W Eng Tech; and
g. Commanding Officer nomination.

COURSE REPORTING

9. Upon passing this course, trainees shall receive a Course Report (CF 377) and/or Certificate of Military Achievement (CF 289) completed IAW CMP Instruction 01/06 - Course Reporting and Certificates and DAOD 5031-9 - Course Reporting and Certificates.

EVALUATION

10. Program evaluation shall be conducted IAW the guidance provided in A-P9-050-000 CFITES Vol. 11 - Evaluation and Validation Techniques.

VALIDATION

11. This training will be validated every five years CFITES Vol. 8 - Validation of Instructional Programs and based on the task list in Annex B.

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

12. PLARs shall be conducted in accordance with NAVORD 4500-2 - RCN Prior Learning Assessment and Recognition Process, DAOD 5031-1 - Canadian Forces Military Equivalencies Program and CFITES Vol 12 - Canadian Forces Military Equivalencies Programme: Prior Learning Assessment.

SPECIAL INSTRUCTIONS

13. Nil.

CHAPTER 2: PERFORMANCE OBJECTIVES

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY C NTG

PO 001

1. PERFORMANCE. Supervise Seamanship Evolutions

2. CONDITIONS.

a. Given:

i. Victoria -Class submarine;
ii. Casing department personnel and equipment;
iii. Limited supervision; and
iv. References.

b. Denied:

i. Nil.

c. Environmental:

i. At sea or alongside;
ii. Day or night; and
iii. All weather conditions.

3. STANDARD. The Scratcher will supervise seamanship evolutions, casing preparations, appropriate dress IAW command/safety briefs and applicable references by:

a. Adhering to all safety precautions;

b. Conducting pre-sailing checks to include:

i. Equipment state;
ii. Casing state;
iii. Personnel state;
iv. Domestic and Deck Department Stores; and
v. Material State Brief

c. Berthing and slipping to include:

i. Casing safety;
ii. Securing of tugs and other craft alongside/underway;
iii. Capstan and stopper usage;
iv. Placement of ropes to include:

(1) for self slipping;
(2) standard slipping; and
(3) standard berthing.

v. Nesting alongside other units; and
vi. Security and rigging of the casing after arrival or departure.

d. Anchoring to include:

i. Anchor preparations;
ii. Weighing anchor; and
iii. Breaking of the cable.

e. Coming to a buoy to include:

i. Buoy Jumping; and
ii. Methods of securing/slipping.

f. Transferring personnel/equipment (PAX) to include:

i. Boat; and
ii. Helicopter.

g. Towing evolutions to include:

i. Receive and slip a tow; and
ii. Emergency breaking procedures.

h. Conducting a camber dive;

i. Docking and Undocking;

j. Manning casing at sea/alongside to include:

i. Open to visitors;
ii. Defect rectification; and
iii. Force Protection.

k. Conducting a Man overboard;

l. Carrying out towed-array deployment/recovery; and

m. Conducting special mission fits.

4. REFERENCES.

A1, A2, A3, A4, A7, A8, A10, A13, A14, A15, A16, A17, A18, B1, C1, C2, C3

5. SPECIFICATION TASK NUMBERS.

T0001, T0002, T0004, T0005, T0009, T00010, T00013, T00014

6. SUPPORTING SKILLS.

N/A

7. SUPPORTING KNOWLEDGE.

K0001, K0002, K0003, K0006, K0007, K0008, K0009, K0010, K0011, K0012, K0013, K0016

8. TRAINING LIMITATIONS. The nature of this course requires a submarine to be available alongside for training purposes. Should a submarine not be available, practice and observation of this performance objective may be conducted in a simulated environment.

PO 002

1. PERFORMANCE. Direct Deck Department Maintenance and Administration Activities.

2. CONDITIONS**.**

a. Given:

i. Victoria Class submarine;
ii. Casing department personnel and equipment; and
iii. References.

b. Denied:

i. Nil.

c. Environmental:

i. At sea or alongside;
ii. Day or Night; and
iii. Normal and degraded weather conditions.

3. STANDARD. The Scratcher will oversee the conduct of casing party maintenance activities IAW environmental regulations and applicable references by:

a. Adhering to all safety precautions;

b. Controlling of interior and exterior paint and preservation to include:

i. Planned maintenance activities including paint survey;
ii. Selection and use of proper tools and techniques; and
iii. Completion of reports.
.

c. Administering the Care and custody of rescue and safety equipment to include:

i. Horse collars;
ii. Jumping Ladder;
iii. MOB reel;
iv. Man line and knotted rope;
v. Safety harness's;
vi. Fall arrest lanyards;
vii. Kisbee Ring;
viii. Axe and Chopping Block;
ix. Boat Hook;
x. VERTREP Equipment;
xi. Knives;

xii. Floater Suits;
xiii. Force Protection Equipment;
xiv. Casualty Extraction Equipment;
xv. Ice rails, clips and lanyards; and
xvi. Safety net.

4. REFERENCES.

5. SPECIFICATION TASK NUMBERS.

T0002, T0003, T0004, T0005, T0007, T0008, T0011, T0012, T0014

6. SUPPORTING SKILLS.

N/A

7. SUPPORTING KNOWLEDGE.

K0001, K0002, K0003, K0004, K0005, K0006, K0007, K0010, K0011, K0013, K0014, K0015, K0016

8. TRAINING LIMITATIONS. The nature of this course requires a Submarine to be available alongside for training purposes. Should a submarine not be available, practice and observation of this performance objective may be conducted in a simulated environment.

PO 003

1. PERFORMANCE. Conduct weapon embarkation and disembarkation.

2. CONDITIONS.

a. Given:

i. Victoria-Class Submarine;
ii. Personnel and equipment;
iii. Crane;
iv. Communication Equipment;
v. Loading Equipment;
vi. References.

b. Denied:

i. Nil.

c. Environmental:

i. Submarine alongside;
ii. Day lighting conditions; and
iii. Ideal weather conditions.

3. STANDARD. The Scratcher will conduct weapon embarkation and disembarkation by adhering to all safety precautions and IAW applicable references.

4. REFERENCES.

A1, A2, A3, A4, A6, A9, A11, A15, A16, A17, A18

5. SPECIFICATION TASK NUMBERS.

T0001, T0002, T0004, T0006, T0007, T0011, T0012

6. SUPPORTING SKILLS.

N/A

7. SUPPORTING KNOWLEDGE.

K0001, K0002, K0003, K0004, K0005, K0006, K0010, K0013, K0014, K0015

8. TRAINING LIMITATIONS. The nature of this course requires a Submarine to be available alongside for training purposes. Should a submarine not be available, practice and observation of this performance objective may be conducted in a simulated environment.

PO 004

1. PERFORMANCE. **Extract Personnel or Equipment from Confined Spaces**

2. CONDITIONS.

a. Given:

i. Victoria-Class Submarine;
ii. Physician's Assistant (PA);
iii. Casualty Clearing Team;
iv. Equipment and supernumerary personnel;
v. References.

b. Denied:

i. Nil.

c. Environmental:

i. Submarine at sea or alongside;
ii. Day or night; and
iii. All weather conditions.

3. STANDARD. The Scratcher will extract personnel or equipment from confined spaces IAW applicable references by:

a. Rigging and de-rigging for confined space extraction;
b. Conducting a safety brief; and
c. Conducting casualty extraction from the submarine.

4. REFERENCES.

A1, A2, A3, A4, A6, A9, A10, A15, A16, A17, A18, B1, C1, C2, C3

5. SPECIFICATION TASK NUMBERS.

T0001, T0002, T0004, T0005, T0009, T0010, T0011, T0012

6. SUPPORTING SKILLS.

N/A

7. SUPPORTING KNOWLEDGE.

K0001, K0002, K0003, K0005, K0006, K0007, K0012, K0013, K0014, K0015

8. TRAINING LIMITATIONS. The nature of this course requires a Submarine to be available alongside for training purposes. Should a submarine not be available, practice and observation of this performance objective may be conducted in a simulated environment.

CHAPTER 3: ASSESSMENT OF TRAINEE

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY THE COMMANDANT OF CANADIAN FORCES NAVAL OPERATIONS SCHOOL

GENERAL

1. All Performance Checks (PCs) are based on Performance Objectives (POs) in Chapter 2 of this QSP and the standard listed must be met to achieve this qualification. PCs will be administered in the form of (PRACTICAL/WRITTEN) examinations and the trainee must obtain a pass in all POs to successfully complete this course.

ENABLING AND PERFORMANCE CHECKS

2. Enabling Checks (ECs). ECs are formative tests that help the trainee and the instructors recognize progress or gaps in learning, so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. They also reinforce learning, so that it will be better retained for longer periods. Formative tests are designed to give feedback to both the instructor(s) and trainees. Each EO must have at least one EC. Marks for ECs are not calculated in the trainee's final mark.

3. Performance Checks (PCs). PCs are summative tests used to determine if the trainee has met the standard under the conditions (where possible) of the PO and hence can do the job. Supplemental PCs are administered upon failure of a PC and must be in the same format and have the same standard as the original PC.

RESPONSIBILITY FOR TESTING

4. Assessment of trainees is to be done IAW CFITES Vol. 7 – Evaluation

5. Standards provides quality control by designing, administering and scoring all Performance Checks. Any PC not administered/invigilated by standards staff will be administered by a non-involved instructor designated by the senior instructor. Enabling Checks are the responsibility of the Instructional Staff.

PROGRESS MONITORING

6. Monitoring learning is the responsibility of all instructional and standards staff and instructional supervisors. Monitoring, including unsatisfactory progress, is done IAW CFITES Vol 6 - Conduct of Instruction Programmes and TE SOs/SOPs.

7. Continuous monitoring of candidate progress is required on this course in order to provide the following:

a. Early warning of trainee difficulties;

b. Feedback on the effectiveness of training;

c. Information for the TRB/PRB (if required); and

d. Information to assist in completion of the CF 377 Course Report.

8. Trainees experiencing difficulty in any area of performance are to be counselled with regard to the nature of their shortcomings and suggested corrective action IAW Training Establishment SOs/SOPs.

9. PC failures/supplemental PC failures are to be handled IAW Training Establishment SOs/SOPs. Supplemental ECs/PCs shall not be given prior to 24 hours having elapsed since trainee was informed of their EC/PC failure.

TRAINING REVIEW BOARD

10. TRBs shall be convened and conducted IAW with NTORD 4500-54 Training Review Board Process (TRB).

COURSE REPORTS

11. Course reports (CF 377) shall be prepared and distributed IAW NTORD 4500-51 Course Reports and Certificates and applicable Training Establishment training directives.

12. Trainee will be graded pass/fail. IAW NTI 1/08 Course Reporting and Certificates, students will not be ranked.

13. Where necessary for Rank Qualifications, the narrative will indicate trainee's strengths and weaknesses based on PC results to provide information to the Career Manager. Training limitations and/or incomplete training must also be included in the course report. Record of trainee counselling is to be maintained by the training establishment.

GRADING

14. Trainees passing this course will be graded A, B or C, according to the following:

a. A – passed all PCs without difficulty and demonstrated exceptional ability on one or more PC's;

b. B – passed all PCs without difficulty. If in the judgment of the CFNOS Commandant, a trainee experienced difficulty, but demonstrated exceptional ability in other PC's sufficient to offset these deficiencies, that trainee may be awarded a grade B; and

c. C – passed all PC's but experienced difficulty in one or more objectives.

d. For the purpose of grading, the following definitions apply:

i. "Exceptional ability" is achieving a 90% or greater on the first attempt of a PC; and

ii. "Experienced difficulty" is a failure of a PC on the first attempt. This is applied regardless of the performance of any supplementary PC's.

RANKING

15. Ranking of candidates will be based on their performance in all PC's, EC's and assignments.

For the purpose of **ranking only**, any failure of a PC, EC or assignment will be given a value of 0%, regardless of the performance on the resulting supplemental attempt.

16. The following criteria shall be used in establishing ranking:

    a. Marks from performance checks, enabling checks, quizzes, homework assignments and class exercises; and

    b. Maintained a high standard of military bearing, cooperation and motivation throughout the course as detailed in weekly assignments.

TRAINING REVIEW BOARD

17. All training review board requirements are contained in NTORD 4500-54 Training Review Board.

18. Course removal for medical, compassionate or other reasons will require the convening of a TRB as prescribed in NTORD 4500-54 Training Review Board Process (TRB) and NFS A SSOs.

COURSE EVALUATION

19. Critiques:

    a. All course members shall complete phase and course critiques;
    b. Critiques shall be prepared in accordance with NFS A SSOs and submitted to the Standards Division;
    c. Critiques are to be reviewed by all departments involved in the course and used to produce Post Course Reviews iaw NTORD 00-23 Post Course Review (PCR) of Steady State Individual Training and Education

CHAPTER 4: LESSON SPECIFICATIONS

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY THE COMMANDANT OF CANADIAN FORCES NAVAL OPERATIONS SCHOOL

PO 001 Supervise Seamanship Evolutions

EO 001.1 SUPERVISE PRE-SAIL CHECKS AND EQUIPMENT

1. PERFORMANCE Supervise Pre-Sail Checks and Equipment

2. CONDITIONS

a. Given:

i. Classroom;
ii. Multi-media training equipment;
iii. Supervision; and
iv. References.

b. Denied:

i. Nil.

c. Environmental:

i. Training establishment

3. STANDARD The trainee will supervise pre-sail and equipment checks IAW references and check lists by:

a. Verifying inventory of domestic and casing stores;
b. Describing the casing crawl procedure;
c. Writing a material state brief; and
d. Describing precautions to be taken for adverse weather.

4. TIME.

a. 5 x 50 minute periods

5. METHOD / MEDIA .

a. 5 x 50 minute period lectures

6. REFERENCES.

A1, A2, A3, A4, A7, A8, A10, A13, A14, A15, A16, A17, A18, B1, C1, C2, C3

7. TRAINING AIDS.

a. Multimedia computer projection system;
b. Handouts;
c. Casing equipment; and
d. Submarine alongside.

8. TEST DETAILS. Material covered in EO 001.1 and EO 001.2 will be tested on completion of EO 001.2.

9. REMARKS. N/A

10. TEACHING POINTS.

	Description	Method	Time	Reference
TP1	Verify inventory of domestic stores to include: a. Analyze resources required based on consumption reports; b. Identification of sanitary stores; c. Identification of general husbandry stores; d. Daily consumables; e. Environmental concerns for disposal and stowage of gash at sea; f. Environmental considerations for stores; g. Stowage of products IAW WHMIS; h. Alternate procurement of expended stores; and i. Stowage locations.	Interactive Lecture	5	A2, A3, A4, A17

TP2	Verify inventory of casing stores to include: a. Analyze resources required based on consumption reports; b. Identification of essential items to be carried (i.e. Mission specific); c. Identification of general deck department stores; d. Miscellaneous consumables; e. Essential safety equipment; f. Ceremonial gear; g. Specialty items (i.e. warning signs, bunk bags, mattresses and bread boxes); and h. Deck department bags (i.e. casing, scratcher's tool, MOB bags) i. Essential deck equipment: i) Hawsers ii) Picking up rope iii) Boats Davit iv) Shock mats v) Bridge ensign staff vi) Bridge windows vii) Howda pins			A1, A2, A3, A4, A13, A14, A15, A16, A17

TP3	Describe the casing crawl procedures by: a. Purpose b. Regularity c. Required personnel d. Safety precautions e. Conduct f. Reporting			A16, A17, A18
TP4	Write a material state brief to include equipment held onboard and specific locations(i.e. by compartment and location)			A17
TP5	Describing precautions to be taken for adverse weather conditions affecting personnel working external to the pressure hull			A17

PO 001 Supervise Seamanship Evolutions

EO 001.2 SUPERVISE SEAMANSHIP EVOLUTIONS

1. PERFORMANCE. Supervise Seamanship Evolutions.

2. CONDITIONS.

a. Given:

i. Classroom;
ii. Multi-media training equipment;
iii. Supervision; and
iv. References.

b. Denied:

i. Nil.

c. Environmental:

i. Training establishment;

STANDARD. The trainee shall supervise seamanship evolutions IAW references and safety precautions by:

a. Berthing and slipping;
b. Stowing of seamanship equipment;
c. Conducting MOB;
d. Manning the casing;
e. Fitting and removal of the towed array;
f. Nesting; and
g. Berthing Vessels Alongside;

2. TIME.

a. 9 x 50 minute periods

3. METHOD / MEDIA.

a. 7 x 50 minute period lecture
b. 1 x 50 minute period review
c. 1 x 50 minute period EC

4. REFERENCES.

A1, A2, A3, A4, A7, A8, A10, A13, A14, A15, A16, A17, A18, B1, C1, C2, C3

5. TRAINING AIDS.

   a. Multi media computer projection system;
   b. Handouts;
   c. Casing equipment; and
   d. Submarine alongside.

6. TEST DETAILS. Material covered in EO 401.2 will be tested in EC 401.1

7. REMARKS.

   a. Nil

8. TEACHING POINTS.

   a. Casing safety;
   b. Securing of tugs and other craft;
   c. Capstan and stopper usage;
   d. Placement of ropes to include:

      i. for self slipping,
      ii. standard slipping, and
      iii. standard berthing, and

   e. Security and rigging of the casing after arrival or departure.

	Description	Method	Time	Reference
TP1	Berthing and slipping: a. Identification of personnel IAW Watch and Station Bill; b. Normal berthing and slipping routines; c. Types of moves; d. Casing requirements; and e. Irregular routines (i.e. full power trials)	Interactive Lecture Instructor-led review	7 1	A1, A13, A16, A17, A18, B1, C1
TP2	Stowing of seamanship equipment: a. Internal stowage locations; b. Securing ceremonial; and			A17

	c. External stowage locations.			
TP3	Conducting MOB: a. Personnel required IAW Watch and Station Bill; b. Identification of casing and associated equipment; c. Identification of retrieval methods; and d. Casualty handling.			A16, A17, A18, C3
TP4	Manning the casing: a. Identification of routines; b. Equipment and personnel required for the casing; and c. Casing board.			A18
TP5	Fitting and removal of the towed array: a. Stub cable fitting and removal; b. Personnel and casing requirements IAW Watch and Station Bill; c. Towed array deployment; and d. Towed array retrieval.			A16, A17, A18
TP6	Nesting: a. Purpose; b. Requirements; c. Personnel IAW Watch and Station Bill; and d. Casing equipment.			A1, A2, A16, A17, A18

TP7	Berthing Vessels Alongside: a. Purpose; b. Requirements; c. Personnel IAW Watch and Station Bill; and d. Casing equipment.			A1, A16, A17, A18

Enabling Check – EO 001.2

PART 1 – ADMINISTRATIVE INSTRUCTIONS

MATERIAL AND FACILITIES REQUIRED

1. Stationary
2. Classroom

ARRANGEMENTS AND PROCEDURES

3. EC 001.2 will be a written test based on content from EO 001.1 and EO 001.2.

4. EC 001.2 will be conducted in the classroom.

5. The test will be 1 x 50 minute period in duration, no references will be allowed.

6. The pass mark is 70%.

PART II – INSTRUCTIONS GIVEN TO THE TRAINEE

1. EC 001.2 will be a written test based on content from EO 001.1 and EO 001.2.

2. Ensure your desk is clear of material except for the test booklet necessary for this exam

3. Do not open the booklet until you are told to do so.

4. Write your name on the answer sheet and all scrap paper. Ensure all scrap paper is attached to the appropriate answer sheet.

5. Work carefully. Do not spend too much time trying to answer question(s) with which you have difficulty. Continue the exam then come back to the problem question(s).

6. Read each question carefully, before answering the question.

7. If you have any questions during the exam, raise your hand.

8. References will not be provided.

9. Pass mark will be 70%.

10. You will have 1 x 50 minute period to complete this exam.

11. Do you have any questions before you start?

PART III – ENABLING CHECK NOTES

1. The instructor will provide and administer the enabling check (EC).

2. The test will consist of short and long answers.

PO 001 Supervise Seamanship Evolutions

EO 001.3 SUPERVISE SPECIALTY SEAMANSHIP EVOLUTIONS.

1. PERFORMANCE. Supervise Specialty Seamanship Evolutions.

2. CONDITIONS.

a. Given:

i. Classroom;
ii. Multi-media training equipment;
iii. Supervision; and
iv. References.

b. Denied:

i. Nil.

c. Environmental:

i. Training establishment

2. STANDARD. The trainee will supervise specialty seamanship evolutions IAW references and safety precautions by:

a. Conducting special mission fits;
b. Supporting of diving ops;
c. Pre-docking and undocking checks;
d. Docking and undocking;
e. Conducting a camber dive;
f. Towing;
g. Anchoring;
h. Buoy jumping;
i. Conducting VERTREP (PAX); and
j. Conducting boat transfers.

3. TIME.

a. 13 x 50 minute periods

4. METHOD / MEDIA.

a. 11 x 50 minute period lectures
b. 1 x 50 minute period review

c. 1 x 50 minute period EC

5. REFERENCES.

a. A1, A2, A3, A4, A7, A8, A10, A13, A14, A15, A16, A17, A18, B1, C1, C2, C3

3. Do not open the booklet until you are told to do so.

4. Write your name on the answer sheet and all scrap paper. Ensure all scrap paper is attached to the appropriate answer sheet.

5. Work carefully. Do not spend too much time trying to answer question(s) with which you have difficulty. Continue the exam then come back to the problem question(s).

6. Read each question carefully, before answering the question.

7. If you have any questions during the exam, raise your hand.

8. References will not be provided.

9. Pass mark will be pass/fail.

10. You will have 2 x 50 minute period per student to complete this exam.

11. Do you have any questions before you start?

WEAPONS EMBARKATION/DISEMBARKATION
PERFORMANCE CHECK LIST – PO 003

STUDENT:_____ DATE: _____
TYPE OF RUN: DEVELOPMENTAL: ☐ ASSESSMENT: ☐
(Use all columns) (Don't use columns in grey)

PERFORMANCE FACTORS	PASS	FAIL	COMMENTS
Critical:			
Was safe practice used throughout:			
1. Personnel Safety			
2. Equipment Safety			
3. Submarine water tight integrity			

	U	BS	S	AS	ES
Non Critical: Prepare Weapon for embarkation					
1. Preps conducted					
a) Verify equipment is certified and tested					
a) Casing personnel are in place IAW watch and station bill					
c) Trench opened					
b) Embarking platform rigged correctly IAW **(SUBWOPS Vol. 1 OP 151 part A)**					
e) Guide rails rigged correctly IAW **(SUBWOPS Vol. 1 OP 153 part A)**					
f) Anchor post rigged					
e) Weapons embarkation hatch open IAW (**SUBWOPS Vol. 1 OP 152 part A**)					
g) Portable embarking rails rigged **(SUBWOPS Vol. 1 OP 153 part A)**					
h) Rails checked correct with Rail gauge					
i) Communications tested correct					
j) Proper crane is available					

	U	BS	S	AS	ES
2. Team briefed on evolution					
a)Safety (ie line handling), (**SUBWOPS VOL. 1 CP 121 OTTO fuel II**)					
b) Positions (nose/tail lines) IAW **(SUBWOPS Vol. 1 OP 119)**					
c) emergency embarkation IAW **(SUBWOPS Vol. 1 CP 110)**					

	U	BS	S	AS	ES
3. Conduct Weapons Embarkation					
a) Safety					
b) Voice procedures					
c) Hand signals					
d) Positive Control of the weapon					

	U	BS	S	AS	ES
4. Conduct Weapons Emergency Embarkation IAW (SUBWOPS Vol. 1 CP 110)					
a) Safety					
b) Anchor post rigged correctly					
c) Tirfor rigged correctly to anchor post and trolley eye bolt					
d) Take up tension on the weapon					
e) Embark the weapon					

	U	BS	S	AS	ES
5. Disembarkation of the Weapon IAW (SUBWOPS Vol. 1 PG 136 & OP 155 part B)					
a) Ensure casing is ready to receive the weapon					
b) Rails checked correct with Rail gauge					
c) Proper voice procedures with WSC					
d) Hook trolley to the crane correctly					
e) Hook up nose/tail lines					
f) Transfer weapon to the jetty party					
Overall Team cohesion					
Overall Team communication

PO 004 Extract personnel or equipment from confined spaces

EO 004.1 PREPARATION AND EXTRACTION FROM CONFINED SPACES

1. PERFORMANCE. Preparation and Extraction from Confined Spaces.

2. CONDITIONS.

a. Given:

i. S100 WSC Trainer or Victoria-Class Submarine (if available);
ii. Supervision.
iii. Classroom;
iv. Multimedia computer projection system.

b. Denied:

v. Nil.

c. Environmental:

vi. Submarine alongside (if available);
vii. Day or night lighting conditions (if submarine available).

2. STANDARD. The trainee will prepare for confined space extraction IAW references and safety considerations by:

a. Verifying equipment is tested and certified;
b. Identifying anchor points by compartment;
c. Mustering of equipment fwd/aft;
d. Identifying manning requirements;
e. Conducting safety brief;
f. Rigging of equipment;
g. Preparing to move a stabilized casualty;
h. Conducting extraction; and
i. Securing of gear.

5. TIME.

a. 14 x 50 minute periods

6. METHOD / MEDIA.

a. 4 x 50 minute periods Lectures
b. 1 x 50 minute period Instructor-led demo
c. 2 x 50 minute periods Practice
d. 4 x 50 minute periods Practical EC

e. 1 x 50 minute period Instructor-led review
f. 2 x 50 minute periods Written EC

7. REFERENCES.

A1, A2, A3, A4, A6, A9, A10, A15, A16, A17, A18, B1, C1, C2, C3

8. TRAINING AIDS.

a. S100 WSC Trainer or Victoria-Class Submarine (if available);
b. Supervision.
c. Classroom;
d. Multimedia computer projection system.

9. TEST DETAILS. Material covered in EO 004.1 will be tested in EC 004.1 and PC 004

10. REMARKS.

a. The S100 WSC Trainer will need to be prepared for this PO should there not be a submarine available.

11. TEACHING POINTS.

	Description	Method	Time	Reference
TP1	Verifying equipment is tested and certified: a. Consults Rigging Warrant and other documentation.	Interactive Lecture Instructor-led Demo	4 1	A9
TP2	Identifying anchor points by compartment.	Practice	2	A9, A17
TP3	Mustering of equipment fwd/aft (demo): a. IAW Rigging Warrant; and b. Muster sheet.			A17
TP4	Identifying manning requirements IAW Watch and Station Bill.			A17, A18

TP5	Conducting safety brief IAW references: a. CFCD 105, Chapter 4 and 5.			A1
TP6	Rigging of equipment: a. Block and tackle; b. Strops; c. Knotted lines; d. Caribiners; and e. Miscellaneous equipment.			A1, A15, A17, C1
TP7	Preparing to move a stabilized casualty: a. Situation awareness; b. Recognizing and implementing safety IAW references; c. Ensure casualty/equipment can be removed IAW CFCD 105, Chapter 4 and 5.			A1, C3

TP8	Conducting extraction: a. Safety brief b. Verify hook up; c. Load test rigging; d. Reiterate safety concerns; e. Hooking up procedure to the casualty; f. Taking strain; g. Taking load; h. Conducting extraction; i. Turnover to casualty clearing team; j. De-rigging and moving to new location if required.			
TP9	Securing of gear: a. Post extraction detailed inspection of equipment; b. Repacking (i.e. Daisy-Chain ropes); c. Muster equipment; and d. Stowing of equipment.			

Enabling Check 004.1

PART 1 – ADMINISTRATIVE INSTRUCTIONS

MATERIAL AND FACILITIES REQUIRED

1. Stationary
2. S-100 Imperial Classroom

ARRANGEMENTS AND PROCEDURES

3. EC 004.1 will be a written test based on content from EO 004.1.

4. EC 004.1 will be conducted in the classroom, S100, or submarine if available.

5. The test will be 2 x 50 minute period in duration, no references will be allowed.

6. The pass mark is 80%.

PART II – INSTRUCTIONS GIVEN TO THE TRAINEE

1. EC 003.1 will be a written test based on material from EO 003.1.

2. Ensure your desk is clear of material except for the test booklet necessary for this exam

3. Do not open the booklet until you are told to do so.

4. Write your name on the answer sheet and all scrap paper. Ensure all scrap paper is attached to the appropriate answer sheet.

5. Work carefully. Do not spend too much time trying to answer question(s) with which you have difficulty. Continue the exam then come back to the problem question(s).

6. Read each question carefully, before answering the question.

7. If you have any questions during the exam, raise your hand.

8. References will not be provided.

9. Pass mark will be 80%.

10. You will have 2 x 50 minute period to complete this exam.

11. Do you have any questions before you start?

PART III – ENABLING CHECK NOTES

1. The instructor will provide and administer the enabling check (EC).

2. The test will consist of short and long answers.

Performance Check – PO 004

PART 1 – ADMINISTRATIVE INSTRUCTIONS

MATERIAL AND FACILITIES REQUIRED

1. S100 WSC Trainer or Victoria-Class Submarine (if available)
2. Supervision; and
3. References.

ARRANGEMENTS AND PROCEDURES

4. All material to be in place prior to commencement of performance check.
5. Scenario based PC covering all material in PO 004.
6. Duration will be 4 periods combined time for all students.
7. The scenario will be completed on an individual basis.
8. Pass mark for the PC is pass/fail.

PART II – INSTRUCTIONS GIVEN TO THE TRAINEE

1. PC 004 will be a practical test based on the contents of EC 004.1.
2. Work carefully and safely IAW references.
3. Checklist will be provided.
4. Pass mark will be pass/fail.
5. You will have 1 x 50 minute period per student to complete this exam.
6. Do you have any questions before you start?

EXTRACTION OF PERSONNEL / EQUIPMENT
PERFORMANCE CHECK LIST – PO 004

STUDENT:_____ **DATE:** _____

TYPE OF RUN:

Developmental: ☐ **Assessment:** ☐

1. Areas Identified to Conduct Practical Assessment
At the instructor's desecration and from one of locations identified below, the student will demonstrate the ability to conduct a safe extraction with a simulated casualty (Oscar or equivalent) onboard a VICTORIA Class Submarine.
a) WSC to 2 Deck
b) WSC to Forward Casing via the ATP Hatch
c) Mastwell to 2 Deck
d) 2 Deck to Fwd Control Room to Bridge via the Tower
e) 1 Deck to 2 Deck
f) 1 Deck to Aft Casing via the Main Access Hatch
g) Snake Pit to Upper Engine Room
h) Engine Room Stores to Bear Pit to Upper Engine Room
i) Lower Motor Room to Upper Motor Room

2. PREPARATION	**U**	**BS**	**S**	**AS**	**ES**
Non Critical Objectives:					
a) Explain where specific equipment such as the LSU halfback with casualty recovery harness, SKED–EVAC rescue/entry tripod, Miller full body splint litter, Ferno transverse recue litter, and the daisy chained man ropes would be utilized onboard					
b) Demonstrate knowledge of the testing and certification requirements					
c) Describe how to maintain the care & custody of extraction equipment					
d) Locate the equipment muster areas throughout the submarine					
e) Portray in detail the contents of each extraction bag and where this equipment may be used elsewhere onboard the submarine					
f) Pinpoint specific compartmental rigging points throughout the submarine					
g) Identify restrictions that must be considered when conducting an extraction internally or external to the pressure hull					
h) Clarify who may be utilized as supernumerary personnel and their purpose					

3. TASK PERFORMANCE	U	BS	S	AS	ES
Critical Objectives:					
a) Obtains the proper equipment for the applicable compartment where the extraction will be conducted					
b) Rigs lifting appliances correctly					
c) Ensure sufficient supernumerary personnel are available as line handlers					
d) Scrutinizes the line run for obstructions and directs all non essential personnel to remain clear					
e) Recommends to the Physicians Assistant (PA) specific equipment best suited to safely extract a casualty. In addition the trainee will inform PA of their function / position throughout the event					
f) Fully briefs the team on the method of extraction to be used. To include voice / hand signal directions					
g) Makes sure the casualty is properly secured in the extraction equipment before connection to a lifting appliance					
h) Connects the immobilized casualty to the lifting appliance. Guaranteeing all connection points such as shackles are moused, karabiners shut and their locking mechanism secured					
i) Performs a second inspection of all lifting appliances in order to ensure they are checked correct, before lifting the casualty					
j) Conducts lift / extraction of a casualty					
k) Uses proper line handling voice terminology					
l) Maintains positive control of the evolution at all time					
m) Ensures safety precautions are adhered to throughout					
n) Post extraction external to the pressure hull: Maintains the causalities physical safety by ensuring the member is secured in-situ until transferred off the submarine and turned over to a higher authority					
o) Conducts a post inspection of equipment for damage					
p) Performs the break-down and storage of associated equipment

ANNEX C – QUALIFICATION STANDARD AND PLAN RECORD OF PROCEEDINGS

DISCUSSIONS/DECISIONS:
Monday 21 Feb 11 – Day One

INTRODUCTION
The Board commenced with the Chair welcoming all members, giving an introduction and a brief outline of the objective of this board. The Scratcher course is currently being taught under a QSP dated 06 Aug 04. There are a number of problems with the existing document in that there were no timings associated with the EOs, annexes were in the wrong location, there was no scalar annex; some tasks were no longer applicable while there existed a need to include new ones; and the SS overall may be outdated.

Board Members:

SURNAME	INITIALS	RANK	MOSID	UNIT
Livingstone	KM	LT	00211	CFNOS/Standards
Upson	DR	CPOI2	00324	CFNOS/Subs
Pierangeli	TL	PO2	00299	DMTE 2-2-4
Bergeron	RG	CPO2	00324	CSSD
Snelgrove	AK	PO1	00324	CFNOS/Subs
Grattan	JB	PO2	00324	CFNOS/Subs
Fines	MA	PO2	00324	ADAC HALIFAX
Drummond	DA	MS	00324	CFNOS/Subs
Tobin	FJ	LS	00324	COR

Board Objective:

a. Conduct an analysis of the SS task and knowledge;

b. Construct a scalar for the Scratcher; and

c. Produce an update the QSP

CONDUCT OF THE BOARD

The roles of each of the participants were stressed by the Chair with a reminder of how their participation would be essential to the success of the QSPWB. Participants were reminded to

keep an open mind, be candid, and share relevant experiences. For the most part, the majority of Board members had previously participated in teaching courses and had participated in QSPWBs in the past.

The TDO, Lt Livingstone provided a brief overview of the QSP process, and made a list of the objectives as they arose during preliminary discussions. At which time, a major deficiency was raised by PO2 Grattan who identified that there were a number of omissions in the current QSP.

The TDO also detailed the quality control phases of CFITES and stated that as the board progressed, there would be a reiteration of the various phases and QSP chapters as they will overlap during the Task Analysis (TA) and Instructional Analysis (IA).

Prior to commencing, the Chair asked if there were any questions.

SPECIALTY SPECIFICATION REVIEW

The Board proceeded with a comprehensive line by line review of the SS which resulted in the following changes:

a. Title changed from “Seamanship Supervisor Submarine” to “Submarine “Scratcher”;

b. Special Force (Mobilization) - delete 00299.3.N.03 Naval Communicator – Tactical Visual Operator [NAV COMM – TAC VIS OP] since the NAVCOM trade was merged with the TAC VIS OP for the whole existence of the VICTORIA class submarine (i.e. there would be no chance that a submarine qualified person of this trade would exist);

c. Functional Description – changed title from “Seamanship Supervisor Submarine” to common terminology used “Scratcher”;

d. Prerequisites – deleted “VICTORIA Class” from small boat coxswain, and since S3 Sonar Ops can now join submarines, opened the course up to “S1” vice “MS” and above to allow prospective Scratcher’s to obtain training earlier; and,

e. Method of Qualification – with the advent of trainers, deleted the need for an OJPR.

Edited tasks are as follows:

T0002 Supervise VICTORIA Class Small Boats Coxswain

Removed “VICTORIA Class” to reflect proper name

T0003 Changed: Control external and internal paint and preservation

To: Initiate external and internal paint and preservation requirements to reflect actual task: Scratcher does not control this he only initiates.

T0004 Changed: Supervise the maintenance of Sea Survival equipment

To: Control the care and custody of rescue and safety equipment

Sea survival equipment could be confused with abandonment suits, which is a personal responsibility

T0005 Changed: Coordinate upper deck department pre-sea checks

To: Supervise casing pre-sea checks

To reflect in use terminology

T0006 Changed: Prepare submarine for weapons embarkation/disembarkation

To: Prepare submarine casing for weapons embarkation/disembarkation

Added “casing” to reflect actual task

New Tasks added to reflect actual job onboard

T0007 Conduct weapon embarkation / disembarkation

T0008 Control the care and custody of Force Protection equipment

T0009 Prepare rigging for confined space casualty extraction

T0010 Conduct confined space casualty extraction

T0011 Identify defects during casing planned maintenance

T0012 Execute duties and responsibilities of Deck Departmental Account (DA)

T0013 Operate line throwing devices

T0014 Conduct special mission fits

NO.	KNOWLEDGE ELEMENT	LEVEL
K0001	Changed: Casing, fin and fittings To: Application of casing and fin fittings Original phrase could be confused with what is learned on BSQ	3
K0002	Changed: Seamanship tasks, tools and safety procedures To: Seamanship tasks, tools, safety procedures and equipment	3
K0004	Changed: Upper deck paint and preservation To: Paint and preservation Removed Upper deck because he must know other areas as well	3
K0005	Changed: Seamanship records To: Deck department records For reasons of terminology	3

K0006	Changed: Small boats Coxn duties To: Small Boats Coxswain duties Spelled out abbreviation	3

NO.	KNOWLEDGE ELEMENT	LEVEL
K0008	Changed: Submarine Line Throwing Gun To: Submarine line throwing devices Adjust statement for new equipment	3

New Knowledge(s) added to reflect actual job onboard

K0010	Weapon embarkation/disembarkation Added to support task list: the Scratcher is controller of evolution outside of sub.	3
K0011	Care and custody of Force Protection equipment Added to support task list for all miscellaneous items associated with FP	3
K0012	Confined space casualty extraction Added to support task list	3
K0013	Casing planned maintenance Added to support task list in that the Scratcher must know what PM is required and how to report any defects discovered	3
K0014	Duties and responsibilities of Deck Departmental Account (DA) Added to support task list: Scratcher is responsible for administering a very expensive DA.	3
K0015	Rigging warrant Added to train importance of lifting equipment and periodic testing requirements	3
K0016	Special mission requirements (i.e. JTF) Will elaborate during teaching Points: this knowledge will support a wide verity of special ops	3

SCALAR CONSTRUCT
The board then constructed a scalar to be included as an annex based on the new task and knowledge(s).

Tuesday 22 Feb 11 – Day Two
The board began the day reviewing the ROP and then proceeded to review Chapter 1 of the QSP. The majority of general changes were editing of text. The board changed prerequisites adding that candidates must have completed the online Workplace Hazards Material Information System (WHMIS) before attending the course. The board recommended that personnel selected for this course should have experience as Scratcher's Dickie. Timings for the course will be visited after the POs and EOs are finalized.
A majority of the morning was spent developing a Standard's Statement for the new PO 001 to replaced PO 401. After "swimming around the weeds" for an extended discussion, many of the topics that the board was trying to include in the PO Standard Statement were in fact EO teaching points that would be dealt with later in the process. The afternoon was spent developing an updated reference list.

Wednesday 23 Feb 11 – Day Three
After reviewing the ROP, the morning was spent developing PO 002 – PO 004 in chapter 2. During discussions the Board made the following recommendations:

a. candidates selected for the Chief of the Watch (COOW) course who are likely to be chosen as Casing Officer are to be given an opportunity to attend this course;

b. one day will be added to the course so that line throwing devices can be outsourced to the small arms range;

c. the WSC trainer in S100 replaces the need for an OJPR; and

d. the QSP for Small Boat Coxswain (SBC) minimum load is 3; therefore, Chapter one was edited to ensure that min load for this course is 3 so that (SBC) can be incorporated as part of the course resulting in 13 days being added to the course length.

DMTE representative gave verbal approval for Chapters 1 and 2 of the QSP and Specialty Specification (SS).
The Day ended upon completion of writing EO 0001.1.

Thursday 24 Feb 11 – Day Four
PO 001 – PO 003 were completed and some new references where added. During discussions, the following points were raised:

a. in the rare case that three or more candidates for the Scratcher's are also Control Watchkeeper Supervisor Qualified, CFNOS/Sub Div would have to communicate with CFNOS/Seamanship Div to remove the requirement for candidates to complete Small Boat Coxswain MOD 1 Navigation phase so that training would not be duplicated; and

b. when scheduling the course, instructors should schedule Small Boat Coxswain training at the beginning of the course so that any candidates who already hold the qualification can join the course at a later date to avoid 13 day break during the course while the other students attend this phase.

Friday 25 Feb 11 – Day Five
The Board completed PO 004, attached references to POs and EOs, and associated each Task and

Knowledge with the POs in chapter 2. Training Aids for PO OO4 Evacuate Equipment and Personnel from confined spaces will have to be purchased through the MRs process. CFNOS SMEs were tasked to progress the PC checklists, which will then be inserted into the QSP within the next two weeks.

ANNEX H – ADDITIONAL TRAINING RESOURCES

In accordance with Chapter 1 paragraph 3 add any extra tables or paragraphs used for Resources in this annex. (**Not** to be deleted.)

ANNEX I - COSTING INFORMATION

Include information about cost in whichever format is applicable.

This annex is optional (**Not** to be deleted).

ANNEX J - COURSE HISTORY

This annex is to record course history issues such as explanations of amendments, pertinent findings, trends, resource problems and modifications. Both positive and questionable issues should be captured. Capturing important course history information is a useful managerial tool for amendment considerations by future course developers.

Note: This annex shall NOT be deleted. This annex must be annotated with every update/modification to this QSP. This is in addition to making the appropriate entry in the Record of Amendments table. Detail as to the nature and reasons for amendments are to be provided here.
V1.0.01 dated 06 Aug 04.

The original QSP board was held in Fall 2003. The board was convened after recognizing that the VICTORIA Class Submarine would not carry a dedicated Boatswain trade onboard. It was consequentially deemed that the SONAR OP UC1/PO2 would assume the duties of the Scratcher and be the replacement SME for all seamanship and casing functions. With this decision came the need to train the SONAR OP in certain procedures and expectations to be carried out in their additional role as the Scratcher. As a result, a detailed list of duties and functions were identified along with a list of requirements that the new Scratcher would need to learn in order to fulfill this role. The board consisted of both “O” boat qualified Boatswains and SONAR Ops. A QSP was then developed and teaching points were identified so that a “Scratcher” course could be implemented. The pilot course was held in February 2004 with 6 candidates. A temporary QSP was verbally accepted followed by the course being designed afterwards. The current official copy was signed 06 August 2004.

Version 2.0- 21 Feb 2011
A QSP Board was convened to update the QSP with these points:
a. conduct an analysis of the SS task and knowledge;
b. Construct a Scalar for the Scratcher; and
c. Produce an update QSP.

Version 2.1- 17 Sept 2013
An update to the QSP was done to rectify some formatting issues within the document.

Version 2.2 – 29 Nov 2020
An update to QSP to identify the attainment of MITE Codes from Small Boat Coxswain Course, Basic Navigation (117652) and Inflatable Rubber Boat (117655)

Version 2.3- 19 Jul 2024
Request from CSF HQ on or about 26 June 24 to shorten the course. Review of Spec and MITE revealed discrepancy between Trainsked (29 days) and MITE code (12 days). Detailed examination of RoP showed that when the boat coxn course was added the information was not captured in DPGR and MITE updates nor was removal of Boat Coxn training as a pre-requisite.

ANNEX K - ASSESSMENT PLAN

TARGET	EC 001.1 – 001.2	EC 001.3	PC 001
Objective	Assess trainee's ability to supervise various seamanship evolutions	Assess trainee's ability to supervise various seamanship evolutions	Assess trainee's ability to supervise submarine seamanship evolutions
What	Formative Assessment	Formative Assessment	Written Assessment Pass/Fail
When	O/C EO 002	O/C EO 001	O/C of PO 001 and all related EO/ECs
How	1 period Practical w/checklist	1 period Written test	Two periods - Scenario based PC covering all material in EO 001.1 to EO 001.3.
Resources Required	Sub alongside	N/A	Scenario Sub alongside Relevant equipment
Limitations	If sub not available, then evolution to be simulated	N/A	If no sub available, then conduct in simulated environment

TARGET	EC 002.1 – 002.3	PC 002
Objective	Assess trainee's ability to Supervise Various Casing Department Maintenance Activities	Assess trainee's ability to supervise submarine seamanship evolutions
What	Formative Assessment	Summative Test Pass/Fail
When	O/C EO 002.1, EO 002.2, and EO 002.3	O/C of PO 002 and all related EO/ECs
How	1 period Written test	1 periods Written test
Resources Required	N/A	N/A
Limitations	N/A	N/A

TARGET	EC 003.1	PC 003
Objective	Assess trainee's ability to Supervise preparation of submarine for weapon embarkation, disembarkation.	Assess trainee's ability to supervise submarine seamanship evolutions
What	Formative Assessment	Summative Test Pass/Fail
When	O/C EO 403	O/C of PO 003 and all related EO/ECs
How	1 period Written test	2 period per student Practical W/checklist
Resources Required	N/A	Scenario S100 Sub alongside Relevant equipment
Limitations	N/A	If no sub available, then conduct in simulated environment

TARGET	EC 004.1	PC 004
Objective	Assess trainee's ability to extract personnel or equipment from confined spaces	Assess trainee's ability to extract personnel or equipment from confined spaces
What	Formative Assessment	Summative Test Pass/Fail IAW checklist
When	O/C EO 004	O/C of PO 004 and all related EO/ECs
How	2 period written test	1.5 periods per student practical test IAW Checklist
Resources Required	N/A	N/A
Limitations	N/A	If no sub available, then conduct in simulated environment

CONTENT AREA	VALUE
1. Conduct pre-sailing checks, to include: (a) state of equipment; (b) state of casing; and (c) state of personal;	5%
2. The berthing/slipping of the submarine, to include: (a) Casing safety; (b) The securing of tugs and other craft; (c) The correct usage of capstans and stoppers; (d) The correct placement of ropes to include: (i)for self slipping; (ii)standard slipping; and (iii)standard berthing. (d) The security and rigging of the casing after arrival or departure to include: (i) anchor preparations;	10%
4. Anchoring, to include: (a) The correct dress for all personnel on the casing, including the swimmer; (b) Anchor preparations; (c) Release and recover procedures; (d) Safety brief; and (e) Anchor bag.	5%

5. Coming to a buoy, to include: (a) The correct dress for all personnel on the casing, including the swimmer and buoy jumper; (b) Safety brief; and (c) The correct rigging, and use of all equipment	5%
6. Helicopter transfers, to include: (a) Full team briefing; (b) After casing transfers; (c) Fin transfers; (d)The correct rigging and use of all equipment; and (e)The correct dress of all on the casing and fin.	10%
7. Boat transfers, to include: (a) Full team briefing; (b) The correct rigging and use of all equipment; (c) Methods of securing a vessel alongside; and (d) The handling and safety of personnel to be transferred.	5%
8. Special forces operations: (a) Full team brief (b) Safety of all personnel; and (c) The correct rigging, and use of all equipment	5%
9. Man overboard, to include: (a) The correct dress for all personnel on the casing, including the swimmer; (b) Supervision of the recovery; (c) The correct handling of the casualty; (d) The correct rigging of all equipment;	5%
10. Towed array recovery and deployment, to include: (a) Pre deployment/recovery brief; (b) The procedure for securing/releasing the stub; (c) Casing and personnel safety; and (d) The correct securing of small craft whilst underway	5%
11. Towing evolutions to include: (a) rip tow; and (b) receiving a tow.	5%
12. Docking to include: (a) preps for docking/undocking; (b) safety brief; and (c) correct dress for personal.	5%
13. Camber dive to include: (a) Safety brief; and (b) Preps for camber dive	5%
14. Weapon embarkation to include: (a) safety brief; (b) casing preps; and (c) associated equipment.	5%

15. Paint survey to include; (a) identification of paint defect; and (b) tour dockyard paint and maintenance facilities	5%
16. utilize maintenance record system to include; (a) raise work orders; (b) extract planned maintenance routines; and (c) extract deck department specific drawings	5%
17. adhere to painting manual HMC Ships to include (a) The correct paints and tools to be used; and (b) correct painting techniques;	5%
18. adhere to environmental regulations to include; (a) WHMIS (b) MARLANTORDS (c) MSDS; and (d) SSO's	5%
19. Conduct planned maintenance routines	5%
