ROYAL CANADIAN NAVY
QUALIFICATION STANDARD AND PLAN (QSP)

Junior Boatswain (Jr. BOS'N) (00105)

Rank Qualification	- Sailor Third Class (RQ-S3)
NQUAL	- ALTO
	- MITE ID: 122736
Phase 1 MITE ID	: 122491
Module 1	- RCN Small Boats
Module 2	- RAS
Phase 2 MITE ID	: 122492
Module 3	- Seamanship
Module 4	- Maintenance
Module 5	- Small Arms
Phase 3 MITE ID	: 122493
Module 6	- Demolitions
Phase 4 MITE ID	: 122494
Module 7	- Bos'n RQ-S3 OJPR

RECORD OF AMENDMENT

The Training Authority (TA) designated for this qualification is the Commander Naval Personnel and Training Group (CNPTG). Naval Training Development Centre (Atlantic) (NTDC (A)) is the designated development centre responsible for the maintenance of training. Amendments to Performance Objective (PO) standard are to be requested through NTDC (A) and approved by CNPTG. Amendments to Lesson Guidance are to be approved by Commanding Officer (CO) NTDC (A).

Revision	Approval Date	Authority
3.0 Pre-Pilot	26 -10-2020	NTDC(A)
3.0.2 Steady State		CNPTG

FORWARD

1. This training is based on the specification found at:

   a. A-P9-050 Series, Canadian Forces Manual of Individual Training and Education;

   b. A-PD-055-002/PP-004, Canadian Armed Forces Military Employment Structure (MES), Volume 2 – General Specifications, Part 4 – Non-Commissioned Member General Specifications dated 2020 ;

   c. 5555-00105-BOS'N BOATSWAIN Occupational Specification (Occ Spec) dated 20 Aug 2019;

   d. Job Task Analysis Record (JTAR) 2019 09 03;

   e. Naval Order (NAVORD) 4500-0; and

   f. Naval Personnel and Training Order (NPTORD) 4500-22.

2. As the training is Modular, Phase 1, Phase 2 and Phase 3 must be completed before a trainee will be granted the National Qualification (NQUAL) ALTO.

3. NQUAL ALTO will be granted when the standards listed in all POs have been successfully met in Para 4.

4. A Trainee will achieve the following Military Individual Training and Education (MITE) Course Identifications (IDs) when standards listed in the associated Objectives have been met:

i.	Phase 1: Common Training	-122491
	(a) Module 1: PO 001, 002, 011	(122479, 122480 and 122481)
	(b) Module 2: PO 007	
ii.	Phase 2: Common Training	- 122492
	(a) Module 3: PO 008, 009, 010	(118109 and 118113)
	(b) Module 4: PO 006	
	(c) Module 5: PO 003, 004	
iii.	Phase 3: Demolitions	- 122493
	(a) Module 6: PO 005	
iv.	NQUAL – ALTO	- 122736
v.	Phase 4: OJPR	- 122494

5. If the trainee is unable to successfully complete all modules of the in house portion, they may commence their OJPR for the modules they have successfully completed. They shall not commence the OJPR for modules that have not been successfully completed. Proper use of MMTT is to be used (see Annex J) to ensure completion timelines are met.

6. The designated Training Establishments (TEs) for this training are indicated below:

TE	Phase / Module	MITE course ID	NQUAL
Naval Fleet School (NFS) (Atlantic) (A)/NFS (Pacific) (P)	**Phase 1 Common Training**	**122491** (Small Boat Operations Course; MOD 1,2, and 3 122479, 122480, and122481)	ALTO
NFS(A)/NFS(P)	Module 1 Royal Canadian Navy (RCN) Small Boats		
NFS(A)/NFS(P)	Module 2 Replenishment At Sea (RAS)		
NFS(A)/NFS(P)	**Phase 2**	**122492** (Naval Arms Training MOD 5 and 6 118109 and 118113)	
NFS(A)/NFS(P)	Module 3 Seamanship		
NFS(A)/NFS(P)	Module 4 Maintenance		
NFS(A)/NFS(P)	Module 5 Small Arms		
NFS(A)/NFS(P)	**Phase 3 Demolitions**	**122493**	
NFS(A)/NFS(P)	Module 6 Demolitions		
NFS(A)/NFS(P)	Bosn RQ-S3 NQUAL ALTO	**122736**	
NFS(A)/NFS(P)	**Phase 4**	**122494**	
NFS(A)/NFS(P)	Module 7 RQ-S3 Bos'n On Job Performance Record (OJPR)		

CHAPTER 1: TRAINING MANAGEMENT DETAILS

AIM

1. The aim of this QSP is to establish the requirements and training for the Bos'n RQ-S3 (ALTO) course. This QSP is designed to assist NTDC (A) in developing, Naval Fleet Schools in conducting and evaluating, and NPTG in validating the training.

COURSE DURATION

2. Course duration is calculated In Accordance With (IAW) NPTORD 4500-22, Annex B. For this course, a period of instruction is 50 minutes in duration. The recommended schedule is based on **maximum trainee load**. Scheduling cells are to increase/decrease course length based on number of trainees enrolled in the course.

Course Duration Calculation	
Allocation of ATT	**Periods RQ-S3 QSP**
Sum of all Enabling Objectives (EOs)/ POs	310
Enabling Checks (ECs)	
Performance Checks (PCs)	
Actual Training Time (ATT) Sub-total	38.75 **trg days**
Allocation of BAT, TAT, TTT and PT in accordance with (IAW) NPTORD 4500-22, Annex B Table 3.1	
Base Administrative Time (BAT)	10
Training Administrative Time (TAT)	12
Training Travel Time (TTT)	0
Physical Fitness (PT)	20
Sub-total	**5.25 trg days**
Course Duration Calculation (ATT+BAT+TTT+TAT+PT) 400 minutes **Partial days must be rounded up**	44 **trg days**

REQUIRED COURSE STAFFING

3. Identify key personnel required to conduct the training.

Position	Rank	Qualifications	Qty	PO / EO
Course Director	PO1	Qualification Level (QL)6/RQ-Petty Officer (PO)2	1	ALL
*Instructor	RQ-S1 BOS'N	RQ-S1	1	PO 001 PO002 PO 003 PO 004 PO 006 PO 007 PO 008 PO 009 PO 010 PO 011
*Instructor	RQ-PO2 BOS'N	RQ-PO2	1	PO 001 PO 002 PO 003 PO 004 PO 006 PO 007 PO 009 PO 010 PO 011
*Instructor	RQ-PO2 BOS'N	RQ-PO2	3	PO 005
*Ammunition Custodian	RQ-S1 BOS'N	RQ-S1	1	PO 005
*Instructor	RQ-S1 BOS'N	RQ-S1	2	PO 005
*Officer In Charge (OIC)	PO1 BOS'N or Lieutenant (Navy) (Lt(N))	RQ-CPO2 or NDOC	1	PO 005
Range Safety Officer (RSO)	PO1 or PO2	RQ-PO2	1	PO 005
Driver	Any	Ambulance Driver for Demo	1	PO 005
Medic	QL5/RQ-S1	Medic	1	PO 005

***NOTE:** This QSP/LG document has been developed with Alternate Instructional Technique (AIT) instructional methodologies. Therefore to deliver effective instruction, the instructor should be AIT qualified IAW NQUAL AIMU requirements.

COURSE CAPACITY

4. Planning for the conduct of training is based on the guidelines in NPTORD 4500-40.

a. Maximum – 12;

b. Minimum – 1; and

c. Optimum – 8.

PREREQUISITES

5. Prerequisites. To be selected for this course, the loading authority must ensure that trainees have the following prerequisites:

a. Basic Military Qualification (BMQ); and

b. Trainees must be physically fit IAW Defense Administrative Orders and Directives (DAOD) 5023-1, free from any medical restrictions, which would preclude full participation in all objectives of BOS'N RQ-S3 course.

COURSE REPORTING

6. Upon completion of the course, trainees shall receive a paper record of completion by means of form Canadian Forces (CAF) 377 Course Report and Form CF 289 (or locally produced equivalent) Certificate of Military Achievement IAW DAOD 31-9 and NPTORD 4500-51.

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

7. PLARs shall be conducted IAW NPTORD 4500-27, DAOD 5031-1 and Canadian Forces Instructional Training Education System (CFITES) Vol. 12.

SPECIAL INSTRUCTIONS

8. The RQ-S3 QSP must be read in conjunction with the following QSPs:

a. Naval Small Arms Training (NSAT) course; and

b. Small Boat Operations Course.

CHAPTER 2: PERFORMANCE OBJECTIVES AND LESSON GUIDANCE

PO 001 – Navigate Small Boats

1. **Standard**: Performance Objectives 001 and 002 within MOD 1 will be taught to the standard IAW RCN QSP Small Boat Operations Course. MITE 122479 – Module 1 - Basic Navigation.

PO 002 – Operate RCN Small Boats

Standard: Performance Objective 003, 004 within MOD 2, and 005, 006 within MOD 3 will be taught to the standard IAW RCN QSP Small Boat Operations Course. MITE ID 122480 Module 2 - Inflatable Rigid Boat (IRB) and 122481 Module 3 - Rigid Inflatable Boat (RIB) S3.

PO 003 – Operate C9A2 Light Machine Gun

1. **Standard**: Performance Objective 005 will be taught to the standard IAW RCN QSP Naval Small Arms Training (NSAT) (CT0130). MITE ID: 118109 Module 5 – C9 Light Machine gun Course

PO 004 – Operate .50 Cal Heavy Machine Gun

1. **Standard:** Performance Objective 006 will be taught to the standard IAW RCN QSP Naval Small Arms Training (NSAT) (CT0150). MITE ID: 118113 – Module 6 – 50 Cal HMG Course.

PO 005 – Conduct Demolition Operations

1. **Performance**: Participate as Demolitions Team Member (ET0010, ET0020).

2. **Conditions**:

   a. Given:
      (1) References;
      (2) Explosives;
         (a) Inert training explosives;
         (b) Inert detonation cord;
         (c) Inert safety fuse;
         (d) Inert non-electric detonator;
         (e) Inert electric detonator;
         (f) Live explosives;
         (g) Live detonation cord;
         (h) Live safety fuse;
         (i) Live non-electric detonator; and
         (j) Live electric detonator.

      (3) Tools and equipment
         (a) Crimpers;
         (b) Non-serrated knife;
         (c) M60 igniter;
         (d) Match fusee;
         (e) Demolition cable;
         (f) ZEB 100 blasting machine or Minex (mini exploder);
         (g) Galvanometer;
         (h) Wood auger;
         (i) Sleeve fuse seating;
         (j) Detonation clip; and
         (k) Stop-watch;

      (4) PPE;
         (a) Ballistic eye protection;
         (b) Helmets; and
         (c) Hearing protection.

      (5) Assistance; and

      (6) Supervision.

   b. Denied:
      (1) Nil.

c. Environment:
   (1) Alongside or at sea;
   (2) Any weather condition except for conditions as described in B-GL-381-001/TS-001Training Safety; and
   (3) Day or night

3. **Standard**: The Jr. Bos'n Mate shall, IAW references, Conduct Demolition Operations by:
   a. Prepare demolition charge (ET 0010)
      (1) Identifying explosives, demolition tools, equipment and procedures;
      (2) Practicing explosives safe handling procedures; and
      (3) Transporting and stowing explosives and associated equipment.

   b. Destroy target with explosives (ET 0020)
      (1) Preparing charges;
      (2) Placing charges;
      (3) Constructing ring mains;
      (4) Preparing non-electric initiation sets;
         (a) Conduct walk time calculations
         (b) Safety fuse burn rate calculations
         (c) Conduct time of blast calculations
      (5) Preparing electric initiation sets;
      (6) Detonating non-electric initiation sets; and
      (7) Detonating electric initiation sets.

   c. Deploy counter diver explosives devises (ET 0030)

4. Training Limitations:
   a. Nil

EO 005.01 – Prepare Demolition Charge

Conditions		Sequence
1) Classroom		Beginning of PO 005
Time	**Classification**	**Instructor**
250 min	Lesson content may contain CONTROLLED GOODS Lesson guidance is UNCLAS	1 x RQ-S1 BOS'N 1 x RQ-PO2 BOS'N

Learning Objectives	Method
1) Identify theory of explosives, types of explosives, demolition tools, equipment, and procedures 2) Practice explosive safe handling procedures 3) Transportation, stowage of explosives, and associated equipment	Self-study Guided interactive activity Demonstration

Scenario	Nil
Activity Steps	<u>Introduction</u>: (10 min) -Instructor relates training to job performance. • Safe working practices will be assessed throughout EOs, ECs and PC. <u>Performance/Activity</u>: (255 min) -Instructor leads interactive discussions and demonstration: 1) Theory of explosives: • Demolition definition; • How explosives work; and • Military explosives (characteristics, poisonous, hazard when burning). 2) Types of explosives used in naval demolition: • Plastic Explosive Composition Four (PEC4); • Plastic explosive, inert for training; • Cyclotrimethylenetrinitramine (RDX); • Detonation cord (Composition (C) 3) (purpose, precautions); • Detonation cord, inert for training; • Non-electric blasting cap/detonator; • Non-electric blasting cap, inert for training; • Electric blasting cap/detonator; • Safety precautions for working with detonators; • Pentaerythritol tetranitrate (PETN); • Black powder; • Trinitrotoluene (TNT); • Deutsche Modellbezeichnung (DM) 211 (depth charge anti-frogman, description, warning, arming, disarming, storage); and

- Rope-cutting device.

3) Demolition accessories and tools;
   - Fixed Non-serrated Knife;
   - Explosives Ordnance Disposal (EOD) tac dual crimper Mark (MK) 6;
   - Crimper safety precautions;
   - M700 safety fuse (description, precautions);
   - Safety fuse for training;
   - Match fusee;
   - M60 igniter;
   - F77 training electric detonator;
   - Detonation cord clip;
   - Firing cable;
   - ZEB 100 blasting machine and kit;
   - Ohmmeter/galvanometer;
   - Orca blasting ohmmeter (description, test);
   - ZEB/DZ3 circuit tester; and
   - Non-static Tape.
4) Terminology:
   - Tamping and material used for tamping;
   - Orders of detonation (high, low or partial);
   - Misfire, and causes of misfires, and partial detonations;
   - Countermining/sympathetic detonation;
   - Initiation types (electrical, initiation set, single, dual, combination);
   - Firing circuit;
   - Ring main (horizontal or vertical);
   - Trunk line;
   - Cradle;
   - Joints and junctions (lap joint, “y” joint, multiple branch or junction box, det cord clip, square knot or reef knot);
   - Preliminary demolitions;
   - Reserve demolitions;
   - Charged demolition target;
   - States of readiness (State 1, State 2); and
   - Grounding/bonding/equalizing.
5) Roles:
   - Role of demolition team and naval demolition team;
   - Section worker (RQ-S3);
   - Section leader (RQ-S1);
   - Range Safety Officer (RSO); and
   - Officer in Charge (OIC).
6) Safety:
   - General safety (PPE, helmet, eye, and ear protection);
   - Electrical safety; and

	• Safety distances. 7) Safety during training: • Range emergency; • Charge preparation; • Rendering safe prepared charges; • Safety procedures upon and after firing; • Non-electric initiation; • Electric initiation; and • Misfire drills (non-electric and electric). 8) Field storage of explosives: • Location; • Temperature; • Separation of detonators and explosives; and • Protection and covers. 9) Regulations for transportation: • Vehicle loading; and • Transportation by boat. <u>Conclusion</u>: (35 min), Instructor will engage the trainees in a best summary activity.

Resources	References
1) Training area and demo classroom 2) References 3) Explosives: • Inert training explosives; • Inert training detonation cord; • Inert training safety fuse; • Inert training non-electric detonator; and • Inert training electric detonator. 4) Tools and equipment: • Crimpers; • Fixed Non-serrated Knife; • Igniter; • Match fusee; • Calculator; • Metric measuring tape; • Table; • Marker; • Safety fuse formula; • Demolition cable; • Blasting machine; • Galvanometer; • Wood auger; • Sleeve fuse seating; • Detonation clip; and • Stopwatch. 5) Self-study homework package (aside from the EC homework assignment) 6) PPE	1) Ammunition and Explosives Technical Information Blasting Caps (Controlled Goods (CG)) 2) Ammunition and Explosives Technical Information, Cord Detonating (CG) 3) Ammunition and Explosives Technical Information Depth Charge, High Explosive, DM 211 Anti-Frogman (CG) 4) Engineer Field Manual, Vol 8 (CG) 5) Engineer Field Manual, Vol 9 (CG) 6) Explosive Ordnance Disposal of Stray Ammunition (CG) 7) Destruction of Dud and Misfired Ammunition on CF Ranges and Training Areas 8) Galvanometers Blasting and Digital Ohmmeter 9) Rope Cutting Device (CG) 10) SSOs 11) Training Safety 12) Shaped Demolition Charges and Demolition Containers (CG) 13) Description and Maintenance Instructions Crimper, Blasting Cap (CG) 14) Blasting Machine, ZEB C 100S (CG) 15) CFCD 102 (N) 16) Demolition Handbook/Demolitions Trainee’s Tactical Pack (Tac Pac) (CG) 17) AIT Learner Manual

Notes to Instructor

1) Advise trainees of hazardous material handling. Explosives are toxic. Trainees to wash their hands before eating.
2) Instructors may remove a trainee from the range if trainee is deemed unsafe.
3) Zero tolerance for consumption of alcohol or cannabis during demolitions training phase. (DAOD 9004-1 and DAOD 5019-7)

TEL opportunities identified in Annex F.

4) PC 005:

- Trainees must achieve 100%. A practical using live explosives.
- Trainees work individually to prepare live basic charge initiation sets.
- Trainees work individually to conduct live basic charge detonation.
- Any safety infractions on the range will result in automatic failure of PC 005.
- Failure of one critical item shall result in trainee being removed from the range/field.
- Failure of PC 005 will result in automatic Training Review Board (TRB).

EC 005.01 – Handle Demolitions

Scope	EO 005.01	
Conditions		**Sequence**
Classroom		Following EO 005.01
Time	**Classification**	**Instructor**
50 Min	EC content may contain CONTROLLED GOODS EC guidance is UNCLAS	1 x RQ-PO2 BOS'N

Scenario	Nil
Assessment Steps	Input: -EC 005.01 is a one-on one assessment based on content from a review of EO 005.01. -Safe working practices will be assessed throughout, following EOs, ECs and PCs. Performance: -Trainee shall identify listed items. Output: -In order to pass this EC, the trainee must achieve 70% on the EC. Feedback: -Instructor provides feedback after review of assignments.

Resources	**References**
1) Demo training area 2) Training explosives: • Inert training explosives; • Inert training detonation cord; • Inert training safety fuse; • Inert training non-electric detonator; • Inert training electric detonator (F77);and • Tools and equipment (IAW EO 005.01 resources)	1) Engineer Field Manual, Vol 8 (CG) 2) Engineer Field Manual, Vol 9 (CG) 3) Explosive Ordnance Disposal of Stray Ammunition (CG) Part 5 4) Demolition Handbook / Demolitions Trainee's Tac Pac (CG) 5) Range Standing Orders 6) Training Safety Manual

EO 005.03 (Critical) – Prepare Initiation Sets

Conditions		Sequence
1) Classroom 2) Training area		Following EC 005.02
Time	**Classification**	**Instructor**
400 min	Lesson content may contain CONTROLLED GOODS Lesson guidance is UNCLAS	1 x PO1 or higher RQ-CPO2 BOS'N/ Lt(N) NDOC (OIC) 1 x PO2 RQ-PO2 BOS'N (RSO) 3 x RQ-S1 BOS'N (SL, Ammo NCO)

Learning Objectives	Method
1) Prepare non-electric initiation sets 2) Prepare electric initiation sets 3) Detonate non-electric initiation sets 4) Detonate electric initiation sets	Self-study Guided interactive activity Demonstration Trainee practical activity

Scenario	Nil
Activity Steps	<u>Introduction</u>: (10 min) -Instructor relates training to job performance. -EC 005.03.02 will be a practical assessment based on content from EO 005.02 and 005.03. -References will be provided. -Trainees must successfully complete EC 005.03.02 in order to advance to live demolition training. -Safe working practices will be assessed throughout. <u>Performance/Activity</u>: (300 min) -Instructor interactive discussions and demonstrations using fish bowl activity to prepare non-electric and electric initiation sets. -Demonstrations and practical activity include: 1) Prepare non-electric initiation set: • Conduct walk time • Set up work table • Materials required (detonator, safety fuse, igniter, tools and equipment); • Prepare M700 and test safety fuse (calculate safety fuse and cut length of safety fuse, test and attach igniter, and prepare to receive detonator); • Finish non-electric initiation set (crimping safety and procedures); and • Inspect the initiation set. 2) Prepare electric initiation set:

- Test galvanometer or ohmmeter;
- Test blasting machine; and
- Test cable (continuity, signals).

3) Detonate non-electric initiation set:
   - Order “Det In”;
   - M60 firing orders and procedures;
   - Misfire drill;
   - Detonate explosives; and
   - Post-detonation drill.
4) Detonate electric initiation set:
   - Test electrical detonator (in advance);
   - Hook up electric detonator (orders, procedures);
   - Blasting machine operation (safety, orders, grounding, continuity and charging);
   - Misfire drill;
   - Detonate explosives; and
   - Post-detonation drill (unhooking and discontinuity).

-Trainees conduct practical activity by preparing inert explosives. Instructor will provide assistance and feedback as required.

Conclusion: (40 min), Instructor will engage the trainees in a floating flip chart activity, where they will put all of the steps in the correct order in order to successfully execute the evolution.

Resources

1) Demo training area
2) Training explosives:
- Inert training explosives;
- Inert training detonation cord;
- Live/inert training safety fuse;
- Inert training non-electric detonator; and
- Inert training electric detonator (F77).
- Tools and equipment (IAW EO 005.01 resources)

References

2) Engineer Field Manual, Vol 9 (CG)
3) Explosive Ordnance Disposal of Stray Ammunition (CG) Part 5
4) Demolition Handbook / Demolitions Trainee’s Tac Pac (CG)
5) Range Standing Orders
6) Training Safety Manual
7) AIT Learner Manual

Notes to Instructor

1) Advise trainees of hazardous material handling. Explosives are toxic. Trainees to wash their hands before eating.
2) Instructors may remove a trainee from the range if trainee is deemed unsafe.
3) Zero tolerance for consumption of alcohol or cannabis during demolitions training phase. (DAOD 9004-1 and DAOD 5019-7)
4) TEL opportunities identified in Annex F.

EC 005.03.01 – Safety Exam (Critical)

Scope	EO 005.01, 005.02, 005.03	
Conditions 1) Demo classroom		**Sequence** Following EO 005.02
Time 50 min	**Classification** EC content may contain CONTROLLED GOODS EC guidance is UNCLAS	**Instructor** 1 x RQ-PO2 BOS'N
Scenario	Nil	
Assessment Steps	Input: -Trainees must achieve a 100% on the safety exam provided based on content from PO 005, prior to proceeding with dry land training. -References are denied. -Trainees must successfully complete EC 005.03.01 in order to advance to live demolition training. Performance: -Assessment IAW Safety Exam. -Trainees work individually to complete the safety exam. -Failure of rewrite EC 005 will result in automatic TRB. Output: -In order to pass this EC, the trainee must achieve: 1. 100% SATs overall; and 2. Critical items. Feedback: -Immediate feedback, IAW EC checklist.	
Resources 1) Safety Exam		**References**

Notes to Instructor

1) TEL opportunities identified in Annex F.
2) Trainee must obtain 100% on the safety exam to proceed to Dry land training.
3) Only one test is to be given. The alternate test is for Rewrites.

Limitations

1) Nil.

Impact of Failure

1) IAW NPTORD 4500-54

EC 005.02 - SAFTEY EXAM (A)
(TRAINEE MUST ACHIEVE 100%)

STUDENT RANK/NAME_____
DATE: _____ COURSE NUMBER: _____

1. Can explosives and detonating cord be cut on a metal surface?

2. What is the safe distance for smoking in the area of a vehicle/stack containing explosives?

3. What type of tamping rods will be used when tamping explosives?

4. When are detonators/explosives removed from their packaging or containers?

5. What is the danger area for cutting concrete?

6. What is the misfire waiting time for electric and non-electric firing if conducted at the same time?

7. Why are explosives not to be tasted, swallowed or fumes produced by burning explosives be inhaled?

8. Can cell phones be used while handling explosives?

9. Unless otherwise promulgated, what is the acceptable burning rate for M700 safety fuse?

10. Can detonators and explosives be carried in the same boat, if so where?

11. At what distance from other explosives will electric detonators be tested?

12. How many leads does a buried or borehole charge have?

13. Helicopters may not land or operate within how many meters of an electrically fired demolition circuit?

14. During what weather conditions would you suspend all blasting?

15. What is the safe distance for detonators, primers and detonation cord in the open?

16. Who gives permission to connect initiation set to the charge (DET IN)?

17. Before a prepared charge is moved, what must be done?

18. For the following charge sizes, what are the minimum safe distances between charges being prepared?

    0-5kg=

    5-10kg=

19. When shall helmets be worn during demolitions?

20. What is the safe distance for the following charge in the open not attached to a target, on stone free ground?

    2kg

21. What is the danger area for cutting steel?

22. When sufficient covered storage is not available, those stores (explosives) likely to deteriorate more rapidly from prevailing weather conditions shall be given first priority. What are they?

Score: /22

Trainee must achieve 22/22 SAT items to pass this EC.

PO 006 – Conduct Ship's Husbandry

1. **Performance**: Conduct Ship's Husbandry

2. **Conditions**:

   a. Given:

      (1) Equipment:
         a) Double braided nylon rope;
         b) Electric rope burner;
         c) Fids;
         d) Hooks.
         e) Lead or ball bearings;
         f) Mousing wire;
         g) Nylon rope;
         h) Permanent marker;
         i) Polypropylene rope;
         j) Sailmaker twine;
         k) Sash cord;
         l) Scissors;
         m) Serving mallet;
         n) Shackles;
         o) Sharp non-serrated knife;
         p) Tape masking /electrical;
         q) Tape measure;
         r) Tarred marlin; and
         s) Wire cutters/pliers;
      (2) Monthly maintenance routine cards;
      (3) Tablet with DWAN access;
      (4) PPE;
      (5) Assistance; and
      (6) Supervision.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Alongside or at sea;
      (2) Any weather condition; and
      (3) Day or night.

3. **Standard**: The Jr. Bos'n Mate shall, IAW references, conduct ship's husbandry by:

a. Maintaining wire rope and splicing cordage (AT0010) by:

(1) Identifying and utilizing common tools;
(2) Maintaining wire ropes;
(3) Tying knots and whippings;
  (a) Crown knot
  (b) Monkey's fist
  (c) Common whipping
  (d) West country whipping
  (e) Sailmaker's whipping
(4) Fabricating splices;
  (a) Braided cordage
    i. Soft eye splice
    ii. Locking stitch
  (b) 3 strand cordage
    i. Soft eye splice
    ii. Back splice
    iii. Short splice
(5) Mousing shackles and hooks.

4. **Training Limitations**: Nil.

5. **References:** N/A

EO 006.01– Conduct Ship's Husbandry

Conditions		Sequence
Classroom with DWAN access		Beginning of PO 006
Time	**Classification**	**Instructor**
150 min	UNCLAS	1 x RQ-S1 BOS'N

Learning Objectives	Method
1) Identify and utilize common tools 2) Tie knots and whippings 3) Fabricate splices 4) Mouse shackles and hooks	Interactive lecture Demonstration

Scenario	Nil
Activity Steps	Introduction: -Instructor relates EO to job performance by explaining that the fabrication and purpose when used onboard ship. Referring to chapter 5 in the CFCD 105 for the following knots. Performance/Activity: -Instructor leads interactive discussion by explaining use of knots, safety precautions, and common tools used. -Using interactive discussion, the instructor will fabricate the following knots and whippings: a) Crown Knot; b) Monkey's Fist; c) Common Whipping; d) West Country Whipping; and e) Sailmakers Whipping. -Trainees will now identify and fabricate the knots, whippings, their use as well as their advantages and disadvantages. -Trainees will fabricate the splices on their OJPR package. -Using interactive discussion, the instructor will fabricate the following splices: a) Back splice; b) Soft eye splice; c) Short/long splice; and d) Long bury splice. -Trainees will now identify and fabricate the types of splices, their use as well as their advantages and disadvantages. -Trainees will fabricate the splices on their OJPR package.

	-Using interactive discussion, the instructor will demonstrate how to mouse a hook/shackle and its purpose. -Trainees will now identify and fabricate the types of mousing, their use as well as their advantages and disadvantages. -Trainees will mouse a shackle and a hook on their OJPR package. <u>Conclusion</u>: - Instructor will engage the trainees in a T-Chart activity to identify advantages and disadvantages to each knot and splice.

PC 006 CONDUCT SHIP'S HUSBANDRY		
Match the knot's, splices, and mousing with their usage		
Example: 1. Reef knot 2. Clove hitch	**1**	**Knot used to tie 2 lines of equal diameter together.**
1. Monkey's fist 2. West country whipping 3. Back splice 4. Long bury splice 5. Soft eye splice 6. Crown knot 7. Common whipping 8. Short splice 9. Sailmakers whipping 10. Long splice		Leaves the three strands pointing back along the rope
		For joining two lines not required to pass through a block
		For joining two ropes which are required to pass through a block
		A binding around the bare end of a rope using turns
		To weight the end of a heaving line
		A splice that has the whipping placed 20 times the diameter of the rope from the end, to unlay it
		A binding around three-strand rope
		For finishing the end of a rope that is not required to be rove through a block
		A binding around the bare end of a rope using over hand knots
		Used for a soft eye in hollow braid rope

Score: /10

Trainee must achieve 7/10 SATs to pass this PC.

PO 007 – Prepare Equipment as a RAS Team Member

1. **Performance**: Prepare Equipment as a RAS Team Member (AT0590).

2. **Conditions**:

   a. Given:

      (1) Light line transfer equipment;
      (2) Heavy jackstay transfer equipment;
      (3) Liquid transfer equipment;
      (4) Paddles, wands and thunder whistle;
      (5) LTD;
      (6) Personnel;
      (7) Cargo bag/net;
      (8) Items to be transferred;
      (9) PPE;
      (10) Tablet with DWAN access;
      (11) Assistance; and
      (12) Supervision.

   b. Denied:
      (1) Nil.

   c. Environment:

      (1) Alongside or at sea;
      (2) Any weather condition; and
      (3) Day or night.

3. **Standard**: The Jr. Bos'n Mate shall, IAW references, prepare equipment as a RAS team member by: (AT0540)(AT0560)

   a. Communicating RAS signals with paddles and wands (AT0550) by:

      (1) Identifying general RAS procedures;
      (2) Identifying paddles, wands, thunder whistle and signals; and
      (3) Receiving and sending signals.

   b. Prepare equipment for light line transfer (AT0530) by:
      (1) Identify Light line with Center position
      (2) Identify Blocks required
      (3) Identify key personnel
      (4) Identify safety measures to include precautions and equipment
      (5) Identifying associated equipment

c. Prepare equipment for heavy jackstay transfer (AT0520) by:
   (1) Identify lines required
   (2) Identify snatch blocks required
   (3) Identify key personnel
   (4) Identify safety measure to include precautions and equipment
   (5) Identifying associated equipment
      (a) Distance line; and
      (b) Phone line.

d. Prepare equipment for liquid transfer (AT0510) by:
   (1) Identify lines required
   (2) Identify snatch blocks required
   (3) Identify key personnel
   (4) Identify safety measure to include precautions and equipment
   (5) Identifying associated equipment
      (a) Distance line; and
      (b) Phone line.
   (6) Discuss Preparing flight deck equipment for refueling at sea(AT0710)
   (7) Discuss communicating with helicopter (Helo) with paddles and wands(AT0720)
   (8) Discuss securing Helo to deck with lashings(AT0700)

4. **Training Limitations**: Nil.

EO 007.01 – Communicate RAS Signals with Paddles and Wands

Conditions		Sequence
1) Classroom with DWAN access		Beginning of PO 007
Time	**Classification**	**Instructor**
50 min	UNCLAS	1 x RQ-S1 BOS'N

Learning Objectives	Method
1) Identify paddles, wands, thunder whistle and signals 2) Receive and send signals	Self-study Guided interactive activity Demonstration Trainee practical activity

Scenario	Your ship is preparing for RAS with a supply ship. You have been tasked as signal person for the RAS station.
Activity Steps	Introduction: (5 min) -Instructor relates scenario to job performance. -Trainees will be given RAS signals handout for homework to be completed for the following day. Performance/Activity: (45 min) -Instructor leads interactive discussion by outlining general purpose of RAS evolutions conducted at sea. -Instructor activates prior knowledge of the trainees from watching the previous RAS video. Through discussion, the trainees will explain to the instructor the purpose of RAS signals, and thunder whistle. -Instructor leads interactive lecture and demonstration, describing paddles, wands, thunder whistle, and signals. -Instructor will divide trainees into pairs to perform the actions of sending, receiving and interpreting signals the following signals; Thunder whistle – one, two and three blasts Avast Check away Heave in Hooked up Start pumping Increase in pumping pressure Decrease in Pumping pressure Start blow though Stop blow though Test S/P Phone Line Replace S/P Phone Line Tension down

	Detention Replenishment Complete at this station, commence Unrigging(Secure) Prepare/Preparing to Trip Pelican Hook Ready to trip Pelican Hook Trip Pelican Hook Prepare for Emergency Breakaway Ready for emergency breakaway Execute Emergency breakaway <u>Conclusion</u>: (10 min) -The class will be divided into to 4 groups and come up with the 3 main points they believed to be the most important points. -Once the class has completed their activity the instructor will have the groups brief the class on their findings. -The Instructor will then highlight the key points from the lesson.

Resources	References
1) PPE IAW CFCD 105 Ch. 9 2) Signalling devices 3) Homework sheet EC 4) Tablet with DWAN/Wi-Fi access	1) CFCD 105 Ch. 9 2) BRN 67 Ch. 6 3) AIT Learner Manual

Notes to Instructor
1) TEL opportunities outlined in Annex F.

EC 007.01 – Communicate RAS Signals with Paddles and Wands

Scope	EC 007.01
Conditions	**Sequence**
Alongside or at sea	EO 007.01

Time	**Classification**	**Instructor**
50 min	UNCLAS	RQ-S1 BOS'N

Assessment Steps	Input: - Trainees will be provided RAS signal equipment; wands, paddles, thunder whistles and PPE. -Trainees will work with in pairs during the assessment. One as the receiving ship and one as the replenishment ship. Performance: -Assessors follow sequence for liquid transfer. -Sound whistle signals and ask trainee to interpret whistle signals. - Trainee sending signals: assessor provides instructions to trainee to send signals and confirms that trainee sends correct signal. - Trainee receiving signals: trainee to communicate to assessor meaning of signal received and execute correct response. -Assessor inject one emergency breakaway event. -Assessment IAW EC checklist. Output: -In order to pass this EC, the trainee must achieve: 1) 17/24 SATs overall. Feedback: -Immediate feedback, IAW EC checklist.

Resources	**References**
1) RAS paddles, wands, thunder whistle 2) PPE IAW CFCD 105 Ch. 9 3) Tablet with DWAN access	1) CFCD 105 Ch. 9
Notes to Instructor	
1) Trainee needs only to interpret and understand actions associated with thunder whistle signals. Trainee is not expected to send signals with thunder whistle.	

Limitations
1) Nil

      (1) Alongside or at sea;
      (2) Any weather condition; and
      (3) Day or night.

3. **Standard**: The Jr. Bos'n Mate shall, IAW references, prepare all anchoring equipment by:

   a. Identify equipment (AT0140), (AT0160) by:

      (1) Identifying and locating equipment (fitted and associated);
      (2) Identifying cable markings;
      (3) Making cable reports;
      (4) Identifying safety equipment for anchoring;
      (5) Discuss Clearing away ship's cable;
      (6) Discuss harbour-ready position; and
      (7) Securing for sea procedures.

4. **Training Limitations:** Nil.

EO 008.01 - Prepare Equipment for Letting Go and Weighing Anchor

Conditions		Sequence
1) Classroom		Beginning of PO 008
Time	**Classification**	**Instructor**
150 min	UNCLAS	1x RQ-PO2 BOS'N 1 x RQ-S1 BOS'N

Learning Objectives	Method
1) Explain purpose of anchorage and how it holds a ship in position 2) Understand anchoring orders 3) Identify and locate equipment (fitted and associated) 4) Identify cable markings 5) Make cable reports 6) Identify safety precautions for anchorage	Self-study Guided interactive activity Demonstration Trainee practical activity

Scenario	Your ship is proceeding to anchor. You are tasked as member of cable party.
Activity Steps	<u>Introduction</u>: Instructor to; - Describe how anchoring holds a ship in place, the terminology used in cable work, parts of the anchor, cable markings. - Describes safety considerations when working with the ship's cable, - Equipment required for the evolution. - Common Associated equipment used for anchor work; Cable Jack, Pry Bar/Cable Bar, Anchor Flag/Wand (Red/Green), Mousing Line/Wire, Hard Hats, Knife/Spike, HDLJ Cable Bag, Safety Goggles, Fire Hose, Safety Harnesses, Chemlites, Sledgehammer, Comm Set, Jack Staff, Anchor Chain(s) [Platform], Portable Light. - Instructor to show video of evolution - Instructor to demo the use of Lugless joining shackle, blake slip, and bottle screw.(fish bowl) <u>Performance/Activity</u>: - Using the models and equipment in the classroom, trainees are to locate/name and operate equipment. - Using models instructor is to show the different cable positions and how to report them. Trainees will then practice giving reports based on cable positions. - Trainees are to identify equipment in the cable bag and describe the equipment's use. - Locate and describe cable markings from model.

	Conclusion: Have trainees use the floating flip chart activity to list equipment, and safety for evolution. Have each group present lists and correct where needed.

Resources	References
1) PPE 2) Cable bag 3) Homework sheet EC 4) Ship's model 5) Lugless joining shackles 6) Real or model bottle screw and blake slip 7) Video 8) Tablet with DWAN access	1) CFCD 105 Ch. 7 2) AIT Learner Manual

PO 009 – Prepare Towing Equipment

1. **Performance**: Prepare Towing Equipment.

2. **Conditions**:

   a. Given:

      (1) Tow equipment;
      (2) Flag/wand;
      (3) Personnel;
      (4) PPE;
      (5) Tablet with DWAN access;
      (6) Assistance; and
      (7) Supervision.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Alongside or at sea;
      (2) Any weather condition; and
      (3) Day or night.

3. **Standard**: The Jr. Bos'n Mate shall, IAW references, prepare for and prepare equipment for towing by:

   a. Preparing for towing operations (AT0240) by:

      (1) Demonstrate paddle signals for towing;
      (2) Understand and react to thunder whistle signals;
      (3) Identify and locate towing equipment; and
      (4) Identify personnel required and PPE for towing.

4. **Training Limitations**: Nil.

EO 009.01 – Prepare Towing Equipment

Conditions		Sequence
Classroom		Beginning of PO 009
Time	**Classification**	**Instructor**
150 min	UNCLAS	1 x RQ-S1 BOS'N 1 x RQ-PO2 BOS'N

Learning Objectives	Method
1) Understand paddle signals and react to thunder whistle signals 2) Identify and locate towing equipment 3) Explain sequence of a tow 4) Identify personnel required and PPE for towing	Self-study Guided interactive activity Demonstration Trainee practical activity

Scenario	Your ship has been ordered to prepare for Tow Exercise (TOWEX). You are designated as a dump worker and have to gather the equipment for set up.
Activity Steps	<u>Introduction</u>: -Instructor, using interactive discussion will cover why and how RCN ship's tow. -Instructor, using interactive discussion, explains the sequence of a tow and towing equipment that will be used for tow supply aft/fwd and a tow receive aft/fwd. - view video of evolution - Instructor will either review or demonstrate thunder whistle and paddles used for towing operations. Students are not tested on this as it is taught during the RAS phase in PO 007. This is only so that they understand that signals are used during this evolution. <u>Performance/Activity</u>: -Using model students are to identify equipment and placement of equipment for tow supply and receive/Aft and Fwd. -Using training aids students are to identify parts of shackles and slips, and how they operate. -Having a guided discussion, the instructor identifies personnel and PPE required and common associated equipment for a towing operations. <u>Conclusion</u>: - Using floating flip charts have the students review equipment, safety, personnel, and use of shackles and slips.

Resources	References
1) Towing equipment 2) Model HMC Ship 3) PPE 4) Cable bag 5) Images 6) Homework sheet EC 7) Thunder whistle 8) Paddles/wands 9) Tablet with DWAN access	1) CFCD 105 Ch. 8 2) AIT Learner Manual

Notes to Instructor
1) If this PO is taught before RAS Phase, instruction on thunder whistle and paddles is needed. If taught after, review signals needed for towing.

EC 009.01– Prepare Towing Equipment

Scope	EC 009.01.02	
Conditions		**Sequence**
Home Assignment		EO 009.01
Time	**Classification**	**Instructor**
Not timed	UNCLAS	RQ-S1 BOS'N

Assessment Steps	Input: Trainee will be provided references for Tow supply Aft for identification to complete worksheet. Performance: -Trainee will utilize references to answer worksheet. Output: -In order to pass the EC, the trainee must achieve: 1. 15/22 SATs overall. Feedback: -Feedback to be give before proceeding with EC.

      (3) Day or night.

3. **Standard**: The Jr. Bos'n Mate shall, IAW references, prepare equipment for come to and slipping from a buoy by:

   a. Preparing for coming to and slipping from a buoy (AT0200) by:

      (1) Identifying personnel;
      (2) Explaining associated terminology;
      (3) Identifying mooring equipment;
      (4) Identifying safety precautions for mooring;
      (5) Identifying responsibilities during mooring evolution; and
      (6) Explaining the duties of the buoy jumper.

4. **Training Limitations**: Nil.

EO 010.01 – Prepare Equipment for Come to and Slipping from a Buoy

Conditions		Sequence
Classroom		Beginning of PO 010
Time	**Classification**	**Instructor**
150 min	UNCLAS	1 x RQ-S1 BOS'N 1 x RQ-PO2 BOS'N

Learning Objectives	Method
1) Identify personnel required 2) Explain associated terminology 3) Identify mooring equipment 4) Identifying safety precautions for mooring 5) Identifying responsibilities during mooring evolution 6) Explaining the duties of the buoy jumper	Self-study Guided interactive activity Demonstration Trainee practical activity

Scenario	Your ship is preparing to come to a single point mooring.
Activity Steps	Introduction: (5min) -Trainees will self-study CFCD 105 Ch. 7 for homework to familiarize themselves on mooring operations. - Instructor relates scenario to job performance. Performance/Activity: (165min) -Leading an interactive discussion the instructor will explain safety, identify key personnel, equipment, dress of buoy jumpers and orders given during a mooring operation. - The instructors will demonstrate on models for single point mooring layouts. -The Instructor using the training aids will show the trainees on how to lay out the picking up rope and the ranging line, in preparation for breaking the mooring cable and ranging it fwd. Then have the students break training aid shackles. -Using interactive discussion the instructor will explain and identify mooring equipment used. -Trainees will break up in groups to identify mooring equipment and explain its purpose to the instructor. -Instructor to discuss testing date and condition of equipment before use. How to report deficiencies.

	Conclusion: (30min) - Instructor will engage the trainees in a best summary activity.

Resources	References
1) Model HMC Ship 2) Mooring equipment 3) PPE 4) Cable bag 5) Images 6) Homework sheet EC 7) Tablet with DWAN access	1) CFCD 105 Ch. 7 2) AIT Learner Manual

Notes to Instructor

1) Rigging chains were introduced in PO 008.
2) During the EO, the major focus will be on identifying equipment IAW EC worksheet.

PO 011 – Operate Cranes and Davits

1. **Performance**: Operate Cranes and Davits.

2. **Conditions**:

   a. Given:

      (1) Crane;
      (2) Davit;
      (3) Boats (Special Operations (SO) Rigid Inflatable Boat (RIB) and Sea Rescue 2 (SRII) Zodiac);
      (4) Cargo;
      (5) PPE;
      (6) Tablet with DWAN access;
      (7) Assistance; and
      (8) Supervision.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Alongside or at sea;
      (2) Any weather conditionAny weather condition; and
      (3) Day or nightDay or night.

3. **Standard**: The Jr. Bos'n Mate shall, IAW references, operate cranes and davits to include:

   a. Operating cranes (AT0490) by:

      (1) Hoisting cargo;
      (2) Moving cargo to various positions;
      (3) Lowering cargo;
      (4) Launching zodiac (non-rescue); and
      (5) Recovering zodiac (non-rescue).

   b. Operating davits by:

      (1) Launching ship's boat; and
      (2) Recovering ship's boat.

4. **Training Limitations**: Nil.

EO 011.01 – Operate Cranes

Conditions		Sequence
Ship alongside (see Notes to Instructor Item 3)		Beginning of PO 011
Time	**Classification**	**Instructor**
150 min	UNCLAS	1 x RQ-S1 BOS'N 1 x RQ-PO2 BOS'N

Learning Objectives	Method
Operate crane to move cargo: 1) Hoist cargo 2) Move cargo to various positions 3) Lower cargo Operate crane for zodiac launch, and recovery: 4) Launch zodiac (non-rescue) 5) Recover zodiac (non-rescue)	Self-study Guided interactive activity Demonstration Trainee practical activity

Scenario	Scenario A: Your ship is preparing to move cargo from the jetty to onboard ship. You are assigned as crane operator. Scenario B: Your ship is preparing to launch and recover the zodiac (non-rescue), using the knuckle crane. You are assigned as crane operator.
Activity Steps	Introduction: (10 min) -Trainees will self-study CFCD 105 Ch. 11.6 for homework to familiarize themselves on hand signals, crane, and davit operation. - Instructor relates scenario to job performance. Performance/Activity: -Instructors will work together in order to perform a complete demonstration for the following: a) Hoisting, moving, and lowering cargo; and b) Launching and recovering the zodiac. -The instructor will explain and guide the trainees through interactive discussion for the following : a) Outline general concept for crane operations; b) Types of ship's cranes; c) Identify equipment; d) Pre-operating checks; e) Preparation of cargo for hoist; f) Launch and recovery of ship's zodiac (non-rescue);

	g) Personnel requirements; h) Crane operation; i) Sequence of events; j) Safety (including Radiation Hazard (RADHAZ)); k) Hand signals/communication; and l) Emergencies, and emergency operation. -Instructor will task trainees individually to perform the confirmation questions asked and will explain their answers visually/physically to the rest of the class. -Instructors demonstrate rigging of cargo for transfer. -The trainees will perform hoisting, moving and lowering cargo. -Instructors demonstrate non-rescue launch and recovery of ship's zodiac. - The trainees will perform a non-rescue launch, and recovery of ship's zodiac. <u>Conclusion</u>: (10 min), Instructor will engage the trainees in a best summary activity, where they will verbally confirm knowledge of sequence, and set up.

Resources	References
1) Ship with knuckle boom crane 2) Cargo for moving 3) Ship's zodiac 4) PPE 5) Images 6) Video of crane operation 7) Tablet with DWAN access	1) Cargo/Rescue Crane Manual 2) CFCD 105, Ch. 11.6 3) SSOs 4) BR 67 Ch. 3 5) AIT Learner Manual

Notes to Instructor

1) Before conducting crane operations, prior to flash-up, crane operator shall check oil level in reservoir through sight glass.
2) Ensure RADHAZ is safe prior to crane operations.
3) This EO would be conducted most efficiently at the same time as the Boat Cox'n training in order to eliminate requirement for scheduling the crane resource twice.
4) If working this EO with the Boat Cox'n training, consideration might be given to dividing the class into two training groups: one for boat operation, the other for crane operation.
5) TEL opportunities identified in Annex F.

EO 011.02 – Operate Davits

Conditions		Sequence
Ship alongside		Following EO 011.01
Time	**Classification**	**Instructor**
100 min	UNCLAS	1 x RQ-S1 BOS'N 1 x RQ-PO2 BOS'N

Learning Objectives	Method
1) Launch ship's boat 2) Recover ship's boat	Self-study Guided interactive activity Demonstration Trainee practical activity

Scenario	Your ship is preparing to launch and recover the ship's RIB. You are assigned as davit operator.
Activity Steps	<u>Introduction</u>: (10 min) -Trainees will self-study CFCD 105 Ch. 11.6 for homework to familiarize themselves on hand signals, crane, and davit operations. - Instructor relates scenario to job performance. <u>Performance/Activity</u>: -Instructors will work together in order to perform a complete demonstration of a launch and recovery of the RIB. - The instructor will explain and guide the trainees through interactive discussion for the following : a) Outline general concept for davit operations; b) Identify equipment; c) Pre-operating checks; d) Personnel requirements; e) Davit operation; f) Sequence of events; g) Safety (including RADHAZ); h) Hand signals/communication; and i) Emergencies, and emergency operation. -Instructor will task trainees individually to perform the confirmation questions asked and will explain their answers visually/physically to the rest of the class. -Instructors demonstrate a launch and recovery of the RIB. - The trainees will perform a launch and recovery of the RIB.

	Conclusion: (10 min), Instructor will engage the trainees in a floating flip chart activity, where they will put all of the process in the correct order to successfully execute the evolution.

Resources	References
1) Ship with Luffing Arm davit 2) PPE 3) Video of davit operation 4) Tablet with DWAN access	1) Davit manual 2) CFCD 105, Ch. 11.6 3) SSOs 4) AIT Learner Manual

Notes to Instructor

1) Before conducting boat operations involving RIB davit, prior to flash-up, davit operator shall check oil level in reservoir through sight glass and ensure oil is replenished, if necessary.
2) Ensure RADHAZ is safe prior to crane operations.
3) TEL opportunities identified in Annex F.

EC 011 – Operate Cranes and Davits

Scope	EC 011.01(A, B)	
Conditions		**Sequence**
Alongside or at sea		Following EO 011.02
Time	**Classification**	**Instructor**
100 min	UNCLAS	RQ-S1 BOS'N

Assessment Steps

Assessment Scenario A (cargo handling):
Input:
-Trainee will be provided with a knuckle boom crane.
-Instructor acts as crane director providing signals.
- Instructor will provide cargo to be rigged.
- Instructor will assess Trainee at crane control position.

Performance:
- Trainee will identify crane control hand signals given by assessor IAW EC checklist 011.01(A). This portion of assessment to be completed and passed prior to continuing assessment.
- Trainee will conduct pre-operating checks IAW EC checklist.
- Trainee will operate crane, under supervision of assessor, to move load as guided by Instructor acting as crane director.

Output:
-In order to pass this EC, the trainee must achieve:

1. 25/36 SATs overall.

Assessment Scenario B (launch and recover zodiac [non-rescue]):
Input:
- Trainee will be provided with a knuckle boom crane and zodiac.
- Instructor will act as crane director providing signals.
- Instructor will assess Trainee at crane control position.

Performance:
- Trainee will identify crane control hand signals in Assessment 011.01(A) above. Identification of crane control signals to be completed and passed prior to starting assessment 011.02(B) (see checklist).
- Trainee will conduct pre-operating checks IAW EC checklist.
- Trainee will operate crane, under supervision of assessor, to launch, and recover zodiac as guided by Instructor acting as crane director.

Output:
-In order to pass this EC, the trainee must achieve:

1. 21/30 SATs overall.

	Feedback: -Immediate feedback, IAW EC checklists.
Resources	**References**
1) Ship with knuckle boom crane 2) Cargo for moving 3) Ship's zodiac 4) PPE 5) Tablet with DWAN access	1) Cargo/Rescue Crane Manual 2) CFCD 105, Ch. 11.6
Notes to Instructor	
1) This check list is divided into two parts (Scenario A, moving cargo; Scenario B, launching, and recovering ship's zodiac, non-rescue) 2) Before conducting crane operations, prior to flash-up, the trainee will check oil level in reservoir through sight glass. 3) Ensure RADHAZ is safe prior to crane operations.	
Limitations	
1) Nil	
Impact of Failure	
1) Retrain/Reassess	

EC 011.01(A) OPERATE CRANES			
Item	**SAT**	**UNSAT**	**Remarks**
Assessment Part A, (Move Cargo):			
1. Crane Operator's Hand Signals: **Trainee to identify following signals, given by director, prior to starting Part 3.**			
Extend Boom	☐	☐	
Retract Boom	☐	☐	
Handsomely	☐	☐	
Roundly	☐	☐	
Hoist Away	☐	☐	
Lower Away	☐	☐	
Slew In/Out	☐	☐	
Avast	☐	☐	
High Enough	☐	☐	
Boom Up	☐	☐	
Boom Down	☐	☐	
Secure	☐	☐	
2. Adhere to Safety:			
RADHAZ safe	☐	☐	**Critical**
Hard hats	☐	☐	**Critical**
No personnel under suspended load	☐	☐	**Critical**
Area roped off, and signs posted (as required)	☐	☐	**Critical**
Check test dates/certifications (crane, lifelines, Cranston Eagle hook, shackles, cargo hook)	☐	☐	**Critical**
Check shackle for mousing	☐	☐	**Critical**
3. Pre-Operating Inspection to Include:			
Check hydraulic hoses	☐	☐	
Verify power available	☐	☐	
Inspect crane base	☐	☐	
Inspect slewing cylinder	☐	☐	
Check inner and outer boom	☐	☐	
Check wire not "bird caged"	☐	☐	
Check pins for security and lubrication	☐	☐	
Test all control functions for response and return to neutral on release	☐	☐	

Turn on power switch (allow oil to reach operating temperature)	☐	☐	
4. Crane Operation:			
Establish who is the director	☐	☐	
Recognize all hand signals	☐	☐	
Follow all hand signals	☐	☐	
Operate crane controls	☐	☐	
Slew load with adequate clearance from deck or obstruction	☐	☐	
Load under control at all times	☐	☐	
5. Secure/Shutdown Procedure:			
Stow crane	☐	☐	
Power down crane	☐	☐	
Relieve hydraulic pressure from hoses	☐	☐	

Score: / 36

Trainee must achieve 25/36 SATs overall to pass this EC.

Positive Feedback	Improvement Feedback

PC 011 – Operate Cranes and Davits

Scope	PO 011	
Conditions Ship alongside		**Sequence** End of PO 011
Time 150 min	**Classification** UNCLAS	**Instructor** 1 x RQ-S1 BOS'N 1 x RQ-PO2 BOS'N

Scenario	Scenario A1: (Operate crane for cargo handling) Your ship is preparing to move cargo from the jetty to onboard ship using a knuckle crane. You are assigned as crane operator. Scenario A2: (Operate crane for zodiac launch and recovery) Your ship is preparing to launch and recover the zodiac (non-rescue), using the knuckle crane. You are assigned as crane operator. Scenario B: (Operate davit for boat launch and recovery) Your ship is preparing to launch and recover the ship's RIB. You are assigned as davit operator.
Assessment Steps	Assessment Scenario A (Operate crane for cargo handling): Input: -Trainee provided knuckle boom crane. -RQ-S1 Instructor acts as crane director providing signals. -Instructors provide cargo to be rigged. -RQ-PO2 Instructor assesses trainee at crane control position. -Trainees have 05 min to complete assessment. -References not provided. Performance: -Trainee to conduct pre-operating checks (IAW PC checklist). -Trainee to operate crane (IAW PC checklist), under supervision of assessor, to move load as guided by instructor acting as crane director. Output: -In order to pass this PC 011.01(A1), the trainee must achieve: 1. 28/35 SATs overall; and 2. All Critical items. Assessment Scenario A2 (Operate crane for launch and recover zodiac, non-rescue: Input:

-Trainee provided knuckle boom crane and zodiac.
-RQ-S1 Instructor acts as crane director providing signals.
-RQ-PO2 Instructor assesses trainee at crane control position.
-Trainees have 05 min to complete assessment.
-References not provided

Performance:
-Trainee will have identified crane control hand signals in Assessment Scenario A1 above. Identification of crane control signals to be completed and passed prior to starting Assessment Scenario A2 (see EC checklist).
-Trainee to conduct pre-operating checks (EC checklist part 3).
-Trainee to operate crane, under supervision of assessor, to launch and recover zodiac as guided by instructor acting as crane director.

Output:
-In order to pass this PC 011.01(A2), the trainee must achieve:

1. 26/32 SATs overall; and
2. All Critical items.

Assessment Scenario B (Operate davit for RIB launch and recovery):
Input:
-Trainee provided davit with RIB.
-RQ-S1 Instructor acts as station I/C providing signals and commands for RIB launch and recovery.
-RQ-PO2 Instructor assesses trainee at davit control position.
-Trainees have 05 min to complete assessment.
-References not provided.

Performance:
-Trainee to conduct pre-operating checks (IAW PC checklist).
-Trainee to operate davit (IAW PC checklist), by launching and recovering RIB, under supervision by instructor acting as station I/C.

Output:
-In order to pass this PC 011.01(B), the trainee must achieve:

1. 26/32 SATs overall; and
2. All Critical items.

Feedback:
-Immediate feedback, IAW PC checklists.

Resources	References
1) Ship with knuckle boom crane 2) Ship with Luffing Arm davit 3) Zodiac 4) RIB 5) PPE 6) Tablet with DWAN access	1) Davit manual 2) Cargo/Rescue Crane Manual 3) CFCD 105, Ch. 11.6

Notes to Instructor
1) This PC is divided into two parts (crane and davit). 2) Before conducting crane/davit operations, prior to flash-up, crane operator shall check oil level in reservoir through sight glass. 3) PC, consideration might be given to dividing the class into two training groups: one for boat operation, the other for crane operation. 4) Ensure RADHAZ is safe prior to crane and davit operations.
Limitations
1) Nil
Impact of Failure
1) Retrain/Reassess

PC 011.01(A1) OPERATE CRANE FOR CARGO HANDLING			
Item	**SAT**	**UNSAT**	**Remarks**
Assessment Part A1 (Operate Crane for Cargo Handling):			
1. Crane Operator's Hand Signals:			
Extend Boom	☐	☐	
Retract Boom	☐	☐	
Handsomely (Hoist or Lower)	☐	☐	
Roundly (Hoist or Lower)	☐	☐	
Hoist Away	☐	☐	
Lower Away	☐	☐	
Slew In/Out	☐	☐	
Avast	☐	☐

PC 011.01(A2) OPERATE CRANE FOR ZODIAC LAUNCH AND RECOVERY (NON-RESCUE)			
Item	**SAT**	**UNSAT**	**Remarks**
Assessment Part A2, (Launch and Recover Zodiac [non-rescue]):			
1. Crane Operator's Hand Signals:			
Extend Boom	☐	☐	
Retract Boom	☐	☐	
Handsomely (Hoist or Lower)	☐	☐	
Roundly (Hoist or Lower)	☐	☐	
Hoist Away	☐	☐	
Lower Away	☐	☐	
Slew In/Out	☐	☐	
Avast	☐	☐	
High Enough	☐	☐	
Boom Up	☐	☐	
Boom Down	☐	☐	
Secure	☐	☐	
3. Pre-Launch Inspection and Preparation:			
Ensure area is clear to unfold the crane	☐	☐	
Pre-launch crane visual inspection	☐	☐	
Check control functions	☐	☐	
Establish who is director. Liaise with director for hand signals versus commands.	☐	☐	
4. Launch:			
Recognize all hand signals	☐	☐	
Follow all hand signals	☐	☐	
Operate crane controls	☐	☐	
Slew zodiac with adequate clearance from deck or obstructions	☐	☐	**Critical**
Zodiac under control at all times	☐	☐	
5. Recover:			
Recover zodiac under control	☐	☐	
Recognize and follow hand/voice signals	☐	☐	
6. Secure/Shutdown Procedure:			
Stow crane	☐	☐	
Power down crane	☐	☐	
Relieve hydraulic pressure from hoses	☐	☐	

Secure zodiac	☐	☐	
7. Adhere to Safety:			
RADHAZ safe	☐	☐	**Critical**
Hard hats and Sea boots	☐	☐	**Critical**
No personnel under suspended load	☐	☐	**Critical**
Check current test dates/certifications (crane, lifelines, Cranston Eagle hook, shackles, cargo hook)	☐	☐	**Critical**
Check shackle for mousing	☐	☐	**Critical**

Score: / 32

Trainee must achieve 26/32 SATs including all Critical items to pass this PC.

Trainee	Name:	Date:	Signature:

CHAPTER 3: – ASSESSMENT OF TRAINEE

GENERAL

1. All Performance Checks (PCs) are based on POs in Chapter 2 of this QSP. Trainees must achieve the standard to be awarded the qualification. PCs will be administered in the form of PRACTICAL or WRITTEN assessment and the trainee must pass all POs to successfully complete this course.

ENABLING AND PERFORMANCE CHECKS

2. Enabling Checks (ECs). ECs are formative assessments that help the trainee and the instructors recognize progress or gaps in learning, so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. ECs also reinforce learning and increase the retention of material for longer periods in preparation for the PC. Each EO must have at least one EC. EC results do not factor into a trainee's successful completion of the PO.

3. Performance Checks (PCs). PCs are summative assessments used to determine if the trainee has met the standard under the conditions (where possible) of the PO. Supplemental PCs are administered upon failure of a PC and must be in the same format and have the same standard as the original PC.

RESPONSIBILITY FOR TESTING

4. Assessment of trainees is to be completed IAW the standards delineated in this QSP and IAW CFITES Volume 7 (Evaluation).

PROGRESS MONITORING

5. Monitoring learning is the responsibility of all instructional staff and supervisors. Monitoring, including unsatisfactory progress, shall adhere to CFITES Volume 6 Conduct of Instruction Programmes.

6. Continuous monitoring of trainee progress is required to provide the following:

   a. Early warning of trainee difficulties;
   b. Feedback on the effectiveness of training;
   c. Information for the Training Review Board (TRB) (if required); and
   d. Information to assist in the completion of the CF 377 Course Report.

7. Trainees experiencing difficulty in any area of performance are to be counselled with regard to the nature of their shortcomings and suggested corrective action IAW Training Establishment (TE) SOs or SOPs.

8. PC failures and supplemental PC failures are to be handled IAW TE SOs and SOPs. Supplemental ECs and PCs shall not be given no less than 24 hours of the trainee being informed of their EC or PC failure.

TRAINING REVIEW BOARD

9. The aim of the TRB process is to review a trainee's suitability for continued training and education, while ensuring that the trainee is afforded a fair and just assessment of all relevant information before a decision is made. TRBs shall be convened and conducted IAW NPTORD 4500-54 Training Review Board Process.

COURSE REPORTS

10. Course reports (CF 377) shall be prepared and distributed IAW NPTORD 4500-51.

11. Trainees will be graded pass or fail. NPTORD 4500-51 Course Reporting and Certificates, provides direction and guidelines for Letter Grading and Ranking.

12. Narratives will indicate trainee's strengths and weaknesses based on PC results to provide information to the Career Manager. Training limitations and/or incomplete training must also be included in the course report. A record of trainee counselling is to be maintained by the TE.

Annex B - Task List

T = Train in the NFS
NT= No train in the NFS
TC= Theory train in NFS +
Practical in Class Package
C= Class Package

Task #		Task Statement	Trg / No Trg	PO
DT0280		Navigate Small Boats	T	001
*		Operate RCN Small Boats	T	002
AT0010		Maintain/splice cordage and wire rope	TC	006
AT0140		Prepare upper deck equipment to drop and weigh anchor	TC	008
AT0160		Drop and weigh anchor	TC	008
AT0200		Prepare upper deck equipment to secure and slip from a buoy.	TC	010
AT0240		Prepare upper deck equipment for towing	TC	009
AT0250		Rig Towing Equipment	C	009
AT0290		Prepare boats and sea rescue equipment for use(billy pugh, scramble nets, ladders)	T	011
AT0490		Move cargo (e.g. ships crane, pallet jack, etc.)	TC	011
AT0510		Prepare RAS equipment for Liquid Transfer	TC	007
AT0520		Prepare RAS equipment for Heavy Jackstay Transfer	TC	007
AT0530		Prepare RAS equipment for Light Line Transfer	TC	007
AT0540		Pass lines/wires for replenishment at sea	TC	007
AT0550		Communicate RAS Signals with Paddles and Wands	TC	007
AT0560		Connect and release equipment during a RAS	TC	007
AT0650		Rig cargo with Portable Lifting Appliances (e.g. chain falls, block and tackle) (AT0650)	C	
AT0660		Sling cargo for RAS, sea containers, helo operations (CT0660)	C	
AT0700		Secure helicopter(helo) to deck with lashings	C	
AT0710		Prepare flight deck equipment to refuel helo at sea	C	

AT0720		Pass information to helo and flight deck engineer (with paddles and wands)	C	
AT0800		Dress ship for ceremonial occasions	C	
AT0880		Communicate with pyrotechnics	TC	002
AT0890		Illuminate search area (lighting, flares, etc.)	TC	002
BT0020		Construct fabric items	C	
BT0040		Issue paint, cleaning gear, HAZMAT, etc.	C	
BT0050		Receive paint, cleaning gear, HAZMAT, etc.	C	
BT0060		Store paint, cleaning gear, HAZMAT, etc.	C	
BT0070		Maintain stored materials (e.g. power tools and painting supplies)	C	
BT0080		Return HAZMAT, cleaning supplies, etc.	C	
BT0090		Prepare surfaces for paint application	C	
BT0100		Paint ship (spray application, roller)	C	
BT0160		Conduct PM routine for Deck and Deck Equipment	C	
BT0170		Conduct PM routine for anchors and associated mooring and towing equipment	C	
BT0180		Conduct PM routine for derricks, davits, and crane equipment	C	
BT0190		Conduct PM routine for rigging equipment	C	
CT0130		Operate C9A2 Light Machine Gun	T	003
CT0150		Operate .50 Cal Heavy Machine Gun	T	004
ET0010		Handle Demolitions	T	005
ET0010		Prepare Explosives	T	005
ET0020		Handle Demolitions	T	005
ET0020		Prepare Initiation Sets	T	005
ET0030		Handle Demolitions	T	005

*No apparent equivalent JTAR task.

Discussions / Decisions:

2.

Guidance to Development and/or Instructional Staff:

3.

Follow Up Action:

Item	Action	OPI	Expected Date of Completion
1.	Create New NQUALs	D Nav P	**21 June 21**
2.	Create New MITE Codes	NPTG HQ	**14 Feb 21**
3.	Archive Old MITE Codes and NQUALs	NPTG HQ	**21 June 21**
4.	Create OJPR Tree within MMTT	NPTG HQ	**21 June 21**
5.	Pilot Course	NTDC(A)	**21 June 21**
6.	Post Pilot Amendments	NTDC(A)	**19 Aug 21**
7.	Steady State	NPTG HQ	

4.

Course History:

1) 26 Oct 2020
   a) This is a new course. It supersedes the Bosn RQ OS Course QSP version 2.1 dated 30 Jan 20.
      i) The QSP Writing Board sat in Halifax NS on 17 Sept 2020. It was based upon the requirements defined in the Bosn MESIP implemented 19 June 2019.

2) 03 Feb 2021
   a) This course is in pre-pilot phase. It is recognised as Version 3.0 and will supersede version 2.1 upon completion of Pilot. Versions created as a result of pilot shall result in new version number.
   b) NQUAL Codes have been requested to supersede existing NQUALs. These codes will be attached to the QSP Post pilot
      i) RQ S3 schoolhouse portion NQUAL - ????
      ii) RQ S3 OJPR portion NQUAL - ????
   c) MITE Codes have been created for the following:
      i) Phase 1 - Common Training – 122491
      ii) Phase 2 - Common Training – 122492
      iii) Phase 3 - Demolitions – 122493
      iv) Phase 4 - OJPR – 122494
   d) The following NQUALs associated with all previous versions of this QSP shall be archived upon completion of version 3 pilot:
      i) AAKW – Bosn QL3, RQ OS and RQ OS OJPR
      ii) AAKZ – Bosn QL4 OJPR
   e) The following MITE Codes associated Version 2.1 of this QSP shall be archived upon completion of version 3 pilot:
      i) Bosn QL3
         (1) Module 1: 119702
         (2) Module 1: 119702
         (3) Module 1: 119702

(4) Reg F Module 2: 119703
(5) Module 3: 119704
(6) Module 4: 119705
(7) Pres Module 5: 120321
(8) Reg F OJPR: 118872
(9) Pres OJPR: 120322

ii) Bosn RQ OS Version 1.0
(1) Common Training – 121145
(2) Demolition – 121147
(3) RQ OS OJPR -118872

iii) Bosn RQ OS Version 2.0
(1) Phase 1 – 121428
(2) Phase 2 – 121429
(3) Phase 3 – 121147
(4) Common Training OJPR – 121146
(5) Demolitions OJPR – 121148
(6) NQUAL Update – 121437

f) The following updates have been applied to this pre Pilot document at NPTG HQ:
i) Title Page update,
ii) Header and Footer update,
iii) Updates to Forward Para 3,
iv) Updates to Forward Para 4,
v) Review entire document, minor spelling or formatting issues resolved.
vi) File within MARAC RDIMS as new QSP version.
(1) Word and PDF versions provided to NTDC (A) for Pilot Purposes.

g) Upon commencement of Pilot NPTG HQ shall create OJPR Tree within MCS Monitor Mass Training Tracker (MMTT). This may require modification to PO Format contained within QSP in order to create Tree within Training Tracker.

h) Upon creation of MMTT OJPR tree there will be a necessity to reword the instructions contained within the OJPR to create clear instruction for Unit training coordinators to provide trainee update.

CPO2 Andy Carnegie
Bosn Training Manger
NPTG HQ

3) 10 June 2021

a) Post Pilot Steady State Approval:
i) This course has completed pilot on East coast and has been assessed as successful and will see CNPTG approval as Steady State.

b) NQUAL Update:
i) As referenced in 3 Feb Para b, it was the intent to apply New NQUAL to QSP post pilot on 21 June 21. Unfortunately due to software issues at DGPR they are unable to generate new NQUALs at this time. Expect to see update by fall 2021.

c) Version change:

i) Version 3.0.0

ii) QSP Has been reviewed against JTAR and found to be in compliance. Document has been sent to NPTG HQ for CNPTG Approval and acknowledgement that the course has achieved Steady State.

(1) **Version Control** - a **new version format** has been applied. The intent of the format is to create a version hierarchy which indicates the level of change implemented. This format indicates type of change implemented and the level of signature necessary. This is indicated in the three numerical divisions of the version number.

(a) Minor Change - a minor rework of the document which corrects a grammatical or formatting change but does not affect the content of the QSP or delivery of training in a significant manner. Change can be initiated by HQ or NTDC the signature should be applied at NPTG HQ by Quality Control at the time of filing and distribution. Indicated within the last digits of the version number i.e. Version 02.04.**03**.

(b) Major Change – Any curriculum change which adds or subtracts from teaching points. This should not significantly affect cost or duration of training. These changes should be authorized by C NTDC and the version change will be effected by NPTG HQ Training Manager at the time of filing and redistribution. Indicated within the center digits of the version number i.e. Version 02.**04**.03.

(c) **Executive Change –** Any change requiring CNPTG signature. These are major amendments affecting cost or duration. In addition signature is necessary at the time of adoption of steady State or initial delivery as a pilot course. These changes should be authorized by CNPTG and the version change will be effected by NPTG HQ Training Manager at the time of filing and redistribution. Indicated within the first digits of the version number i.e. Version **02**.04.03

iii) This version is now recognised as Version 3.0.0 and will supersede all previous versions. Versions created as result of post pilot revision pilot shall result in new version number.

d) OJPR Revision

i) Large changes to OJPR which completely rework the naming format and signature tables. This change was necessary to bring OJPR into alignment with Monitor Mass Training Tracker (MMTT).

ii) All components of the OJPR including a master copy and the signature sheets are available for supervisor use within MMTT. As a means of preparing for future usage, these checklists are PDF format and can be filled out electronically. However filling out the document in electronic format is a convenience only. It does not auto fill the signature block in MMTT. Supervisors must ensure they manually sign within MMTT.

iii) OJPR instruction reworded to include direction for Suspend Tracking Feature in MMTT.

CPO2 Andy Carnegie
Bosn Training Manager

NPTG HQ

e) NTDC Post Pilot revision Notes:

i) As a matter of consistency all items revised during pilot will be compiled into the QSP and submitted as version 3.0.0 for CNPTG Signature.
ii) Revisions are as follows:

19 August 2021;
Amendment of RQ-S3 Pilot QSP based on feedback of two pilot courses.
PO 002 Removed 3 periods from PC 002 "Navigate boats in Coastal waters."
PO 002 Added in Rules 5 and 6, lights, sounds and TSS.
PO 002 Removed 1 period from EC 002.02 "Conduct Boat Communication".
PO 005 Added 16 periods (2 days) to Demo for live fire portion.
EO 005.01 Prepare Demolition Charges
EC 005.01 Handle Demolition Charges
EO 005.02 Prepare Demolition Charges
EC 005.02 Prepare Demolition Charges
EO 005.03(Critical) – prepare Initiation sets
EC 005.03.01- Safety Exam (critical)
EC 005.03.02 – Prepare Initiation sets (critical)
PC 005 Participate as Demolition Team Members
PO 006 Conduct Ship's Husbandry is to have the students perform not just observe.
PO 008,009 and 010 reworked so that students are manipulating/using equipment instead of pointing for identification. This also means that most, if not all equipment can be brought to NFS so that students are traveling less during the course leaving more time for instruction.
PO 011 Added that during operation of the crane students are to launch and recover the ship's boats to gain concurrent knowledge of operational procedures.
Annex I Create new schedule

LT (N) Allison
NTCD Authority Signature Block
NTDC (A)

4) 19 Sep 21; NQUAL and OJPR update,
   i) NQUAL; ALTO draft portion 31 August 2021,
   ii) ALTO is active in guardian (awaiting translation).
   iii) DPGR will not assign NQUALs for OJPRs and will be managed with mite codes only. Therefore tracking will be covered under phase 4 MITE ID: 122494 of Module 7- Bos'n RQ-S3 OJPR.

5) 21 Sep 21; Steady State,
   i) CDAR Creation, Deviation or Amendment Request RDIMS 417370 submitted. Minor amendments to OJPR formatting and NQUAL and association with Phase 3 – 122493 Module 6 Demolitions. Request steady state approval.

ii) Training Manager, Concurs with amendments to the RQ-S3 QSP. Acknowledge and approve that the course has achieved Steady State. Recommended the QSP be updated to Version 3.00.01

6) 23 Sep 21; ALTO NQUAL update,

i) The NQUAL and association with Phase 3 – 122493 Module 6 Demolitions has been removed by direction of the Occupational Manager and in concurrence with the Training Manager. Upon review, associating 122493 Module 6 Demolitions to the NQual, would impede the training system as well as availability for members (such as ResF members) to conduct any of the phases of training.

ii) Wrapping MITE ID: 122736 generated to incorporate Phase 1, 2 and 3. This MITE Code grants NQual ALTO. In order to meet the requirement to receive this code, the student must have been granted 122491, 122492 and 122493. Accomplishment of all 3 of these proficiencies indicates completion of all associated in house training. Effective 23/09/2021.

iii) New NQUAL MITE ID 122736. Minor changes to the QSP. Version 3.00.02 CDAR to be submitted to reflect the changes.

Annex F - Assessment Plan

EC/PC	Scope Covered	Purpose	How	Pass/Fail Criteria
PC 001	PO 001	To assess trainee's competence in navigating small boats.	QSP BCC	Pass/Fail
PC 002	PO 002	To assess trainee's competence in operating RCN small boats.	QSP BCC	Pass/Fail
PC 003	PO 003	To assess trainee's competence in operating C9A2 light machine gun.	QSP NSAT	Pass/Fail
PC 004	PO 004	To assess trainee's competence in operating .50 Cal heavy machine gun.	QSP NSAT	Pass/Fail
EC 005.01	EO 005.01	To assess trainee's competence in identifying demolition equipment.	Practical	Trainee must obtain 11/16 SATS overall IAW EC 005.01 Checklist.
EC 005.02	EO 005.02	To assess trainee's competence in identifying demolition tools and preparing basic charge initiation set.	Practical	Trainee must obtain 6/8 SATS overall IAW EC 005.02 Checklist.
EC 005.03.01	EO 005.01, 005.02, 005.03	To assess trainee's competence in knowledge of safety considerations.	Written	Trainee must obtain 22/22(A) or 23/23(B) SATs overall IAW EC 005.03.01 Checklist
EC 005.03.02	EO 005.03	To assess trainee's competence in participating as a demolitions team member.	Practical	Trainee must obtain 29/42 SATS overall IAW EC 005.03.02 Checklist.
PC 005	PO 005	To assess trainee's competence in participating as a demolitions team member.	Practical	Trainee must obtain 42/52 SATs overall IAW PC 005 Checklist
EC 006	PO 006	To assess trainee's competence in identifying knot, splice and whipping usage.	Homework/ written	Trainee must obtain 12/17 SATS overall IAW EC 006 Checklist.
PC 006	PO 006	To assess trainee's competence in conducting monthly maintenance on mooring or towing equipment.	Practical	Trainee must obtain 8/10 SATs overall IAW PC 006 Checklist
EC 007.01	EO 007.01	To assess trainees competence in passing signal with wands and paddles.	Practical	Trainee must obtain 17/24 SATS overall IAW EC 007.01 Checklist.
EC 007.02	EO 007.02	To assess trainees competence in identifying equipment required for RAS.	Homework/ written	Trainee must obtain 11/15 SATs overall IAW EC007.02 Checklist.
EC 007.03	EO 007.03	To assess trainees competence in naming equipment and personnel required for RAS.	Homework/ Written	Trainee must obtain 22/32 SATs overall IAW 007.03 Checklists.

EC 007.04	EO 007.04	To assess trainees competence in naming equipment and personnel required for RAS.	Homework/ Written	Trainee must obtain 24/34 SATs overall IAW EC 007.04 checklists.
PC 007	PO 007	To assess trainee's competence in identifying equipment as a RAS team member.	Practical	Trainee must obtain 51/64 SATs overall IAW PC 007 Checklists
EC 008.01	EO 008.01	To assess trainees on anchor position reporting.	Homework/ Written	Trainees must obtain 5/7 SATs overall IAW EC 008.01 Checklists.
PC 008	PO 008	To assess trainee's competence in identifying equipment for letting go and weighing anchor.	Practical	Trainee must obtain 18/26 SATs overall IAW PC 008 Checklist
EC 009.01	EO 009.01	To assess trainees competence in listing equipment and personnel required for towing.	Homework/ Written	Trainees must obtain 15/22SATs overall IAW EC 009.01 Checklists.
EC 009.02	EO 009.01	To assess trainees competence in listing equipment and personnel required for towing	Homework/ Written	Trainees must obtain 16/23 SATs overall IAW EC 009.02 Checklists.
PC 009	PO 009	To assess trainee's competence in identifying equipment in towing.	Practical	Trainee must obtain 29/36 SATs overall IAW PC 009 Checklists
EC 010	PO 010	To assess trainee's competence in equipment required for coming to and slipping from a buoy.	Homework/ Written	Trainees must obtain 8/12 SATs overall IAW EC 010 checklists.
PC 010	PO 010	To assess trainee's identifying equipment in coming to a single point mooring.	Practical	Trainee must obtain 18/26 SATs overall IAW PC 010 Checklist
EC 011.01(A)	EO 011.01	To assess trainee's competence in crane operations	Practical	Trainees must obtain 25/36 SATs overall IAW 011.01(A) Checklists.
EC 011.01(B)	EO 011.01	To assess trainee's competence in crane operations	Practical	Trainees must obtain 18/25 SATs overall IAW 011.02 Checklists
EC 011.02	EO 011.02	To assess trainee's competence in Davit operation	Practical	Trainees must obtain 21/30 SATs overall IAW 011.01(B) Checklists
PC 011.01.01	PO 011	To assess trainee's competence in operating cranes and davits as a crane and davit operator.	Practical	Trainee must obtain 28/35, SATs overall IAW PC 011.01.01 Checklists
PC 011.01.02	PO 011	To assess trainee's competence in operating cranes and davits as a crane and davit operator.	Practical	Trainee must obtain 26/32 SATs overall IAW PC 011.01.02 Checklists
PC 011.01.03	PO 011	To assess trainee's competence in operating cranes and davits as a crane and davit operator.	Practical	Trainee must obtain 26/32 SATs overall IAW PC 011.01.03 Checklists

Annex G - TEL Development Opportunities

Title		Type	Description of Requirement	Lesson/EC #	LSR #
Maintain hull [DL]		Self-Paced Computer Based Trg (CBT)Self-Paced Computer Based Trg (CBT)	• Use CBT to demonstrate identification of corrosion, tools, materials and methods.	PO 006 Conduct Ships Husbandry	
Maintain deck equipment [R,DL]		Self-Paced Computer Based Trg (CBT)Self-Paced Computer Based Trg (CBT)	• Use CBT to demonstrate Preventive Maintenance (PM) system, inspection, overhauling, reporting and assembling.	PO 006 Conduct Ships Husbandry	

Prepare Anchoring Equipment [R,DL]	Self-Paced Computer Based Trg (CBT)Self-Paced Computer Based Trg (CBT)	• Use CBT to demonstrate PM system for anchoring equipment, inspection, overhauling, reporting and assembling.	PO 008 Prepare Anchoring Equipment; PO 009 Prepare Towing Equipment; and PO 010 Prepare Equipment for Come to and Slipping from a Buoy	
Anchoring [R,DL]	3D Emulation3D Emulation	• Use emulation to demonstrate anchoring sequence of events, including preparation, execution, emergencies and secure. • Option to be instructor-led CBT or self-paced CBT. • Used to support practical portion of training.	PO 008 Prepare Anchoring Equipment	
Towing [R,DL]	3D Emulation3D Emulation	• Use emulation to demonstrate towing sequence of events, including preparation, execution, emergencies and secure. • Option to be instructor-led CBT or self-paced CBT. • Used to support practical portion of training.	PO 009 Prepare Towing Equipment	
RAS signals training [DL]	Self-Paced Computer Based Trg (CBT)Self-Paced Computer Based Trg (CBT)	• Use CBT self-paced training to demonstrate hand signals.	EO 007.01 Communicate RAS Signals with Paddles and Wands	

RAS light line [R,DL]	3D Emulation3D Emulation	• Use emulation to demonstrate RAS light line sequence of events, including preparation, execution, emergencies and secure. • Option to be instructor-led CBT or self-paced CBT. • Used to support practical portion of training.	EO 007.02 Prepare Equipment for Light Line Transfer	
RAS heavy [R,DL]	3D Emulation3D Emulation	• Use emulation to demonstrate RAS heavy jackstay transfer sequence of events, including preparation, execution, emergencies and secure. • Option to be instructor-led CBT or self-paced CBT. • Used to support practical portion of training.	EO 007.03 Prepare Equipment for Heavy Jackstay Transfer	
RAS liquid [R,DL]	3D Emulation3D Emulation	• Use emulation to demonstrate RAS liquid transfer sequence of events, including preparation, execution, emergencies and secure. • Option to be instructor-led CBT or self-paced CBT. • Used to support practical portion of training.	EO 007.04 Prepare Equipment for Liquid Transfer	

.50 caliber heavy machine gun [R,DL]	3D Emulation3D Emulation	• Use an animation to demonstrate parts disassembly, assembly, function test, drills, procedures, maintenance, field stripping, detailed stripping, Immediate Actions, changing barrels, aiming at sea (with ship motion) and blank firing attachment.	PO 004 Operate .50 Cal Heavy Machine Gun	
C9A2 light machine gun [R,DL]	3D Emulation3D Emulation	• Use an animation to demonstrate parts disassembly, assembly, function test, drills, procedures, maintenance, field stripping, detailed stripping, Immediate Actions, changing barrels, aiming at sea (with ship motion) and blank firing attachment.	PO 003 Operate C9A2 Light Machine Gun	
Demolitions theory, safety, tools [R,DL]	Self-Paced Computer Based Trg (CBT)Self-Paced Computer Based Trg (CBT)	• Use CBT to demonstrate demolitions, theory, types, tools, terminology, safety (range and field), regulations, storage and transport. • Option to be instructor-led CBT or self-paced CBT. • Could be integrated with EC 008.01.	EO 005.01 Handle Demolitions	
Handle demolitions assessment [R,DL]	Self-Paced Computer Based Trg (CBT)Self-Paced Computer Based Trg (CBT)	• EC is designed as a home assignment. • TEL would facilitate auto scoring. • Assessment integrated with training during EO 008.01.	EC 005.01 Handle Demolitions	

Maintain ropes and line [R,DL]	3D Emulation3D Emulation	• Use CBT to demonstrate process and sequence of knots, whippings, splicing, wire rope and double braided nylon.	EO 006.01 Maintain Wire Rope and Splicing Cordage	
Mooring [R,DL]	3D Emulation3D Emulation	• Use emulation to demonstrate mooring sequence of events, including preparation, execution, emergencies and secure. • Option to be instructor-led CBT or self-paced CBT. • Used to support practical portion of training.	PO 010 Prepare Equipment for Coming to and Slipping from a Buoy	

Crane control training
 	
[R,DL]
	3D Emulation3D Emulation	• Use two screens or visual displays
		  ○ One screen shows crane controls, which the trainee operates; and
		  ○ One screen shows the crane's response.
		• Demonstrate flash-up, operate, signals (visual and audible signals), emergencies, and secure the station for both cargo handling and zodiac launch and recovery.
		• Consider development of this in conjunction with Boat Cox'n TEL opportunities.
			PO 011
			Operate Cranes and Davits	

Crane signals assessment [R,DL]	3D Emulation3D Emulation	• Demonstrate the signals from the EC portion of this lesson.	EO 011.01 Operate Cranes	

Davit control training
 	
[R,DL]
	3D Emulation3D Emulation	• Use two screens or visual displays
		  ○ One screen shows davit controls, which the trainee operates; and
		  ○ One screen shows the davit's response.
		• Demonstrate flash-up, operate, signals (visual and audible signals), emergencies, and secure the station for both cargo handling and zodiac launch and recovery.
		• Consider development of this in conjunction with Boat Cox'n TEL opportunities.
			PO 011.02
			Operate Davits	

Class package [R,DL]	3D Virtual Tour3D Virtual Tour 3D Emulation3D Emulation	• Conduct ship tours for each class to demonstrate BOS'N-specific equipment for the class.	Class packages	
EOs for Consideration				
Vertical Replenishment (VERTREP) [R,DL]	3D Emulation3D Emulation	• Use emulation to demonstrate RAS VERTREP sequence of events, including preparation, execution, emergencies and secure. • Option to be instructor-led CBT or self-paced CBT. • Used to support practical portion of training.	OJPR	

Legend:
R – Residential (this TEL opportunity is considered suitable and beneficial in support of residential training)
DL – Distance Learning (this TEL opportunity is considered suitable in support of distance learning)
LSR – Learning Support Request

Annex H - Scheduling Information

The recommended schedule is based on **maximum load**. Scheduling cells are to increase/decrease course length based on number of trainees enrolled on the course.

Annex J - On Job Performance Record

_____

Name and Initials Rank SN

_____

Date Training Started Expected Date of Completion

THE OJPR MUST BE COMPLETED IN ACCORDANCE WITH THE INSTRUCTIONS BELOW. INCORRECT OR INCOMPLETE OJPR WILL BE RETURNED FOR RE-SUBMISSION.

INSTRUCTIONS

1. One copy of this OJPR, hereinafter referred to as the master copy, shall be made up for each individual upon the completion of the RQ-S3 course. It shall be kept and maintained by the supervisor.

   a. The Master Copy is the property of the trainee and acts as a receipt to prove training completed. This document can be used to recreate signatures in the event that MMTT is unavailable, incomplete or corrupt.

2. As the trainee completes each Performance Objective (PO) to the required standard, the Training PO (TPO) will date and sign the applicable item on the master copy of the OJPR sheet. The TPO must maintain Training Tracker fields as outlined in Monitor Mass, and inform the individual of the action taken.

3. It may not be possible to conduct OJPR for some PO's if, for example, the necessary equipment is not fitted on a ship, is not on issue to the unit/NRD, or is otherwise unavailable. If the TPO encounters any of these issues they are directed to contact NFS for appropriate guidance.

MONITOR MASS TRAINING TRACKER

1. Monitor Mass Training Tracker (MMTT) is the primary means of tracking OJPR Completion. Each Performance objective within the document must be signed off in order to trigger completion. Upon final completion, MMTT will auto inform Naval Fleet School Campus Support and the appropriate MITE Code will be assigned to the student.

2. Items requiring the use of checklists can find them attached as files within MMTT. They can be downloaded in PDF and printed for use or maintained electronically. Completion of these PDFs electronically will not auto complete the signature block in MMTT.

3. As the trainee completes each Performance Objective (PO) to the required standard, the Training [PO or Officer] will:

a. Date and sign the applicable item on the master and duplicate copies of the OJPR sheet and inform the individual of the action taken.

b. Record PO completion within MMTT.

PROGESS REVIEW

1. Unit and ships will endeavour to have the trainee complete the training in a timely manner. The entire OJPR must be completed with the following time allocations upon completion of the last course module:

2. Progress review will be carried out quarterly by the Divisional Section Head and signed within this OJPR

a. Regular force/Class B&C PRes: The time required to complete the OJPR should not normally exceed 12 months.

b. PRes Class A: The time required to complete the OJPR should not normally exceed 24 months.

c. Progress review will be carried out quarterly by the Divisional Section Head and signed within this OJPR.

d. In the event the trainee is unable to complete their package due unforeseen circumstances, the TPO will pause the member's OJPR package until the member is able to resume with training.

i. Utilize the **Suspend Tracking** feature within MMTT. This action will ensure the member does not continue to have time counted against progression while outside an environment in which training is possible.

ii. In the case of members parading at NRDs; the MMTT will be suspended while the member is not in the training environment and reactivated when the member resumes training. This will provide ample time for the member to meet requisite timings without the necessity to request training extension.

3. Extension of OJT periods: To allow for differences in ship's programmes, NRD training schedules or training availability, Commanding Officers may grant a discretionary three-month extension of the OJT period. Further extensions must be actioned as a Training extension request from unit Commanding Officer submitted to respective NFS Seamanship Division for authorization.

a. In the event that a trainee cannot complete the OJPR within the allotted time frame, a TRB shall be convened IAW NPTORD 4500-54.

PROGESS REVIEW RECORD

OJPR Reviewed By (Rank, Position, Name)	Signature	Date	Comments

ON-JOB PERFORMANCE RECORD SHEET

1. The remarks column in this annex shall be used for the following information only:

   a. The unit in which the training and assessments were carried out; and

   b. Any unusual circumstances which preclude compliance with an objective.

2. Checklists are to be used as a means to measure progress of the trainee. The checklists can be attempted up to 3 times before remedial training must be provided by the unit for the trainee. The checklists are to be filled out and kept with the signature portions of this OJPR.

BOS'N RQ-S3 OJPR – MITE ID 122494				
MMTT Scalar #	**Description**	**Date**	**Signature**	**Remarks**
PO 001	**Navigate Small Boats**			
EO 001.01	Act as a boat Cox'n during launch and recovery while ship is underway. (non-rescue)

PO 006	**Conduct Ship's Husbandry**			
EO 006.01	Maintaining wire rope and splicing cordage Checklist Complete		PC RQ-PO2	
PS 006.01.001	Conduct maintenance as per PM for Rigging equipment, guardrails, and lifting strops(BT0190)		PC RQ-PO2	
PS 006.01.002	Maintaining wire rope and splicing cordage		PC RQ-PO2	
EO 006.02	Construct fabric items Checklist Complete		PC RQ-PO2	
EO 006.03	Painting Ships Surfaces			
PS 006.03.001	Assist in preparing surfaces for paint application(BT0090)		PC RQ-S1	

MMTT Scalar #	Description	Date	Signature	Remarks
PS 006.03.002	Participate in paint application(BT0100)		PC RQ-S1	
EO 006.04	HAZMAT			
PS 006.04.001	Explain the duties and considerations for HAZMAT, for the Cleaning Gear Locker and Paint Locker custodian on checklist (BT0040,0050,0060,0070,0080)		PC RQ-PO2	
EO 006.05	PM Routine			
PS 006.05.001	Assist in PM Routine for Deck and Deck equipment (BT0160)		PC RQ-PO2	
PO 007	**Prepare Equipment as a RAS Team Member**			
EO 007.01	Act as a line handler in any RAS			
PS 007.01.001	Act as a line handler in any RAS		Developing RQ-PO2	
PS 007.01.002			PC RQ-PO2	
EO 007.02	Act as a rifleman for any RAS			
PS 007.02.001	Act as a rifleman for any RAS		Developing RQ-PO2	
PS 007.02.002			PC RQ-PO2	
EO 007.03	Communicate RAS signals with paddles and wands(AT0550) Checklist Complete		PC RQ-PO2	
EO 007.04	Prepare Equipment for a light Line Transfer			
PS 007.04.001	Assist during the layout for a light line (AT0530)		Developing RQ-PO2	
PS 007.04.002			PC RQ-PO2	
PS 007.04.003	Prepare equipment for light line transfer Checklist Complete		PC RQ-PO2	
EO 007.05	Prepare Equipment for Heavy Jackstay Transfer			
PS 007.05.001	Assist in layout for a heavy jackstay (AT0520)		Developing RQ-PO2	
PS 007.05.002			PC RQ-PO2	
PS 007.05.003	Prepare equipment for heavy jackstay transfer Checklist Complete		PC RQ-PO2	

MMTT Scalar #	Description	Date	Signature	Remarks
EO 007.06	Prepare Equipment for Liquid Transfer			
PS 007.06.001	Assist during the layout for a liquid transfer(AT0510)		Developing RQ-PO2	
PS 007.06.002			PC RQ-PO2	
PS 007.06.003	Prepare equipment for liquid transfer Checklist Complete		PC RQ-PO2	
EO 007.07	Vertical Replenishment (VERTREP)			
PS 007.07.001	Act as a flight deck handler		PC RQ-PO2	
PO 008	**Prepare Anchoring Equipment**			
EO 008.01	Brake Operator			
PS 008.01.001	Act as a brake operator (AT0160)		Developing RQ-S1	
PS 008.01.002			PC RQ-PO2	
EO 008.02	Windless Operator			
PS 008.02.001	Act as windless operator (weighing anchor) (AT0160)		Developing RQ-S1	
PS 008.02.002			PC RQ-PO2	
EO 008.03	Cable Reporter			
PS 008.03.001	Act as cable reporter/cable watch. (AT0160)		Developing RQ-S1	
PS 008.03.002			PC RQ-PO2	
EO 008 .04	Preparing Upper deck Equipment			
PS 008.04.001	Prepare Upper deck equipment for letting go and weighing anchor (AT0140)		Developing RQ-S1	
PS 008.04.002			PC RQ-PO2	
PS 008.04.003	Prepare equipment for letting go and weighing anchor Checklist Complete		PC RQ-PO2	
PO 009	**Prepare Towing Equipment**			
EO 009.01	Prepare for towing operations Checklist Complete		PC RQ-PO2	
PS 009.01.001	Assist during the layout for a tow receive fwd (AT0240)		Developing RQ-S1	
PS 009.01.002			PC RQ-PO2	
EO 009.02	Tow Supply Aft Checklist Complete		PC RQ-PO2	
PS 009.02.001	Assist during the layout for a tow supply aft (AT0240)		Developing RQ-S1	
PS 009.02.002			PC RQ-PO2	
EO 009.03	Station Worker			
PS 009.03.001	Act as a Station worker during tow operations (AT0250)		Developing RQ-S1	
PS 009.03.002			PC RQ-PO2	
EO 009.04	Prepare for towing operations		PC RQ-PO2	

MMTT Scalar #	Description	Date	Signature	Remarks
PO 010	**Prepare Equipment for Coming to and Slipping from a Buoy**			
EO 010.01	Mooring Layout			
PS 010.01.001	Assist in the layout for a mooring (AT0200)		Developing RQ-S1	
PS 010.01.002			PC RQ-PO2
