QUALIFICATION STANDARD
AND PLAN (QSP)

Naval Environmental Training Program (NETP)
NQual (AMAG)

MITE ID
Residential Phase – 124151 (118531, 118532, 118533, 118534)

Training Authority (TA): Commander Naval Training Group (CNTG)
Curriculum Control Authority (CCA): HMCS Venture

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

RECORD OF AMENDMENTS

1. The following versions of this QSP have been approved for use in support of the conduct of training. Amendments detailed in Annexes D and/or L.

Revision	Change Description	Date	Authority
1.0	restructure of PO 003	21 Jun 2011	TA (CFFSE as CCA)
2.0	align to NCMGS SER	Feb 2012	TA (CFFSE as CCA)
3.0	Reduction in training days	17 July 12	CMDT CFFSE
4.0	Two tier program	Mar 2013	CMDT CFFSE
5.0	Modifications to Annex E (OJPR)	15 Jan 16	CFFSE CMDT
6.0	Add Comm Research to Tier Two training	31 May 2017	NPTG HQ
7.0	- Update to new QSP template; - Removal of OJPR (Mod 5) to align with new NQUAL; - Removal of C7 requirements; - Updating Sig Sauer P225 9mm to Service Pistol (C22); - Adding Jumping Ladder requirements to PO 001 and EO 001.04; - Adding Rescue chute and FELB to reflect AOPV and JSS platform to PO 004 and EO 004.02	02 Dec 2024	CNTG

NOTE:

Personnel programming courses must ensure that their hard copy of this document is current and identical to the electronic copy on the NTG Website. See above for current changes.

FOREWORD

1. This QSP is issued on the authority of the Commander of the Royal Canadian Navy and managed by the Commander Naval Training Group (CNTG) on behalf of the Assistant Chief of Naval Staff Personnel and Training (A/CNS P&T).

2. This QSP is based upon the Non-Commissioned Member General Specifications published 19 Aug 2024, A-PD-055-002/PP-004 NCMGS MOSID 00003;

3. This QSP publication is effective on receipt and supersedes QSP revision 6.0, dated 15 Jan 17 (RDIMS #618245). This QSP is designed to assist in developing, conducting, evaluating, and validating the Individual Training and Education (IT&E) required for training.

4. The QS at Chapters 1 and 2 were developed by the Qualification Standard Writing Board (QSWB) convened 8 February 2010 at CFFS Esquimalt working in collaboration with subject matter experts drawn from participating organizations. The subsequent TP at Chapters 3 and 4 were developed by the Training Plan Writing Board (TPWB) convened 8 February 2010 at CFFS Esquimalt working in collaboration with subject matter experts drawn from participating organizations. All aspects of this document were prepared in accordance with the concept of training outlined in A-P9-050 Series, Canadian Forces Manual of Individual Training and Education. Full details of the WBs are contained within Annex D and L.

5. The criteria for major and minor amendments, and the approval process, are identified in NTORD 4500-22.

6. In circumstances where the QS and/or TP cannot be adhered to, submission of a QSP Deviation Request is required.

QUALIFICATION STANDARD

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

CHAPTER 1 QUALIFICATION STANDARD

AIM

1. The aim of this QSP is to establish the requirements and training for Canadian Forces personnel to perform their duties as a sailor. Possession of this qualification will allow personnel to meet the unique needs of MARCOM to effectively perform in the naval environment.

GRANTING OF NQUAL

2. A trainee will achieve the qualification (AMAG- Naval Environmental Training Program) when the standards listed in the Performance Objectives (POs) have been met.

CO-QUALIFICATION

3. In addition to the performance objectives specific to this training, the following additional qualifications are included in this training program to meet the requirements of the job. The MITE and NQuals associated with these qualifications shall be granted upon completion of the training program and shall be listed within the course report and will be delivered IAW the following:

a. 118994, Fall arrest; and

b. 123658, Passing score during Service Pistol NQS.

PREREQUISITES

4. To be selected for this course the loading authority must ensure that trainees meet the following prerequisites:

Tier One - Candidates shall have:

a. Successfully completed the training specified in A-PD-055-002/PP-002 Canadian Forces Manual of Other Ranks Occupation Structure, Vol. 1, General, for NCMs;

b. Been selected for employment in a seagoing unit; and

c. Candidates must be physically fit IAW DAOD 5023-1 and CANFORGEN 047/03 Aquatics and Water Safety and free from any medical restrictions, which would preclude full participation in all objectives of NETP IAW ADM (HR Mil) instruction 11/04 Identification 6600-2-10.

Tier Two – Candidates shall :

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

a. Meet the prerequisites listed in Chapter 1, paragraph 4, subparagraphs a thru c of this document;

b. Have completed NETP PO 001 (Perform General Duties in the Naval Environment) Basic Ship Safety Reading Package; and

c. Be a CF member of one of the following MOSIDs selected for employment in a seagoing unit:

i. Legal/JAG (00204);

ii. Military Police Officer (00214);

iii. Intelligence Officer (00213);

iv. Intelligence Operator (00099);

v. Public Affairs (00203) ;

vi. Chaplain (00200/00201);

vii. Medical Officer (00196);

viii. Dentist (00191);

ix. Members of CANSOFCOM:

x. JTF2: Special Operations Assaulter, Special Operations Boat Coxswain, Specialist Personnel;

xi. CSOR: Special Operator, Specialist Personnel;

xii. CJIRU: CBRN Operator;

xiii. 427 SOAS: Pilot - Rotary Wing, Flight Engineer;

xiv. Pilot (00183);

xv. Air Navigator (00182); and

xvi. Communications Research Operator (00120).

Note: Tier Two candidates in possession of previous NETP or QSQUAB qualification codes do not require Tier 2 NETP.

CHAPTER 2 PERFORMANCE OBJECTIVES

PO 001 Perform General Duties in the Naval Environment

1. Performance: Perform General Duties in the Naval Environment

2. Conditions:

   a. Given:

      (1) PPE;

      (2) Ship;

      (3) Applicable Ceremonial Equipment;

      (4) Applicable Shipboard Safety Equipment;

      (5) Ship's Environmental Management System (SEMS);

      (6) Berthing Lines;

      (7) Fenders;

      (8) Safety Net;

      (9) Gangway;

      (10) Jumping Ladder;

      (11) Supervision;

      (12) Assistance; and

      (13) References.

   b. Denied: Nil.

   c. Environment:

      (1) Day or night in any environmental conditions; and

      (2) At sea or alongside.

3. Standard: The member shall perform general duties in the naval environment to the level appropriate to their rank and position, by:

   a. Enforcing Shipboard Safety (AT0025) IAW A3 and A7, to include:

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

(1) Conducting rounds (BT0025) IAW A3; and

(2) Enforcing Environmental Protection Policies (AT0060) IAW A19;

b. Working aloft using a fall arrest harness IAW A5;

c. Carrying out shipboard drill and ceremonial (AT0005) IAW A2;

d. Handling lines and fenders (CT0050) IAW A7, to include:

(1) Carrying out basic rope work (CT0050) IAW A7; and

(2) Rigging, Striking and Using guardrails, safety nets, gangways and jumping ladder (CT0010) IAW A7.

e. Standing sea watches (AT0055) IAW A3.

4. Reference: A2, A3, A4, A5, A7, A8, A19, A34, A35, A36, A37, A38, A39, A40, A41, A42, A43, A44, A45, A46, A47, A48, C6, C7, C8.

5. Task Numbers:

a. (NCMGS SER 29 Oct 03) AT0005, AT0025, AT0055, AT0060, BT0025, CT0005, CT0010, CT0050.

b. (NCMGS SER 28 Feb 11) SA1.005, SA1.015, SB3.005, SB4.005, SC3.005, SD1.005, SD1.025, SD2.015, SD2.005, SD1.040, SD1.045, SF1.005, SF1.020, SG1.025, SG1.030, SG1.040, SG1.045, SG1.060, SG1.065, SG1.080, SG1.085, SG1.090, SG1.095, SG1.100, SG1.105, SG2.005, SG3.005, SG4.005, SG4.010, SH.015, SH.020, SI.005, SI.010, SI.015, SI.020, SI.040, SJ2.010,

6. Remarks: Nil.

PO 002 Perform as a Member of the Force Protection Team

1. Performance: Perform as a Member of the Force Protection Team

2. Conditions:

   a. Given:

      (1) Ship;

      (2) PPE;

      (3) Appropriate Bomb Threat Equipment;

      (4) Appropriate Brow Equipment;

      (5) Force Protection Equipment;

      (6) ROE brief;

      (7) Physical Security Threat;

      (8) Assistance; and

      (9) Supervision.

   b. Denied: Nil.

   c. Environment:

      (1) At sea or alongside;

      (2) Day or night in any environmental conditions; and

      (3) Members may be expected to perform as a member of the force protection team during conditions of elevated stress.

3. Standard: The member shall perform as a member of the force protection team to the level appropriate to their rank and position while:

   a. Standing Harbour Watches (BT 0005) IAW A3, to include Use of Force IAW A30, A33 and Weapons Handling IAW A27, when applicable;

   b. Enforcing Ship Security (BT 0010) IAW A1 and A3, to include Use of Force IAW A30, A33 and Weapons Handling IAW A27, when applicable:

   c. Protecting the Jetty (AT 0040) IAW A1, A3, A30, A33 when standing as:

      (a) Jetty Sentry;

(b) Upper Deck Sentry;

(c) Access Point Sentry;

(d) Brow Watch Keeper; and

(e) RHIB Crew.

d. Conducting Shipboard Bomb Search (AT0035) IAW A3.

4. Reference: A1, A3, A7, A20, A21, A22, A23, A24, A25, A26, A27, A28, A29, A30, A31, A33, A56.

5. Task Numbers:

a. (NCMGS SER 29 Oct 03) AT0035, AT0040, BT0005, BT0010.

b. (NCMGS SER 28 Feb 11) SA1.010, SD2.015, SF1.005, SG1.020, SG1.025, SG1.045, SG1.080, SG1.085, SG1.090, SG1.095, SG1.100, SG1.105, SG4.005, SG4.010, SH.010, SI.005, SI.010, SJ2.015.

6. Remarks: Members will require Reality Based Training (CEASS), Service Pistol initial training, and Naval Qualification Shoot in order to meet the requirements of this Performance Objective.

PO 003 Perform as a Member of the Damage Control Organization

1. Performance: Perform as a Member of the Damage Control Organization

2. Conditions:

   a. Given:

      (1) Ship;

      (2) PPE;

      (3) Damage Control equipment to include:

         (a) CBRN equipment;

         (b) Flood countermeasure equipment;

         (c) Casualty power equipment; and

         (d) Firefighting equipment.

      (4) Damage Control incident;

      (5) Supervision;

      (6) Assistance; and

      (7) References

   b. Denied: Nil.

   c. Environment:

      (1) At sea or alongside; and

      (2) Day or night in any environmental conditions.

3. Standard: The member shall perform as a member of the damage control organization to include:

   a. Executing Damage Control Party Duties (BT0050) IAW A3, A17;

   b. Carrying out Shipboard CBRN protective measures (AT0010) IAW A3, A11, A12, A13, A14, A15 and A18.

   c. Executing Firefighting Team Duties (BT0055) IAW A3, A17.

4. References: A3, A6, A11, A12, A13, A14, A15, A16, A17, A18, C2, C3, C4.

5. Task Numbers:

   a. (NCMGS SER 29 Oct 03) AT0010, BT0050, BT0055.

   b. (NCMGS SER 28 Feb 11) SC3.005, SD1.045, SG1.005, SG1.025, SG1.080, SG1.085, SG1.090, SG1.095, SG1.100, SG1.105, SH.020, SJ2.010, SJ2.015

6. Remarks:

   a. DC Division is responsible for scheduling the sequencing of PO 003. It is necessary to instruct EO 003.01 – Describe shipboard DC organization and markings first, as this EO provides foundational knowledge and skills to trainees that is applicable to all subsequent EOs in PO 003.

   b. Once EO 003.01 is instructed, the remaining EOs may be delivered in any sequence, so long as EO 003.03 - Carry out Shipboard CBRN protective measures is not taught last. This will facilitate scheduling of the written PC (PC 003 Part C) and any required re-writes.

   c. To meet the requirements of this Performance Objective, the following resources and actions are necessary:

      (1) Damage Control Training Facility (DCTF);

      (2) All class of fires are to be simulated; and

      (3) Trainees must pass Fit Testing for Breathing Apparatus (BA) Mask prior to participating in Firefighting and/or CBRN training.

PO 004 Carry Out Survival Drills

1. Performance: Carry Out Survival Skills

2. Conditions:

   a. Given:

      (1) Ship;

      (2) Personal Floatation Device (PFD);

      (3) Ship Abandonment Suit (SAS);

      (4) Hazardous Duty Lide Jacket;

      (5) Floater Jacket;

      (6) Personal Marker Light (PML);

      (7) Life-raft;

      (8) Fully enclosed Life-boat (FELB);

      (9) Rescue sling and associated equipment;

      (10) Rescue chute;

      (11) Kisby ring;

      (12) Inflatable Rubber Boat (IRB) and associated equipment

      (13) Rigid Hull Inflatable Boat (RHIB) and associated equipment

      (14) Billy Pugh net;

      (15) Assistance;

      (16) Supervision; and

      (17) References.

   b. Denied: Nil.

   c. Environmental:

      (1) At sea or alongside;

      (2) Day or night in any environmental condition; and

      (3) Members may be expected to perform survival drills during conditions of elevated stress.

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

3. Standard: The member shall carry out survival drills (AT0030) to the level appropriate to their rank and position by:

a. Responding to Man Overboard Emergencies (CT0020) IAW A3, including:

(1) Initiating Alarms and Emergency Pipes (BT0025) IAW A3; and

(2) Launching and Recovering Ship's Boats (CT0030) IAW A7.

b. Operating Shipboard Life Saving Equipment (BT0040) IAW A7.

4. References: A3, A7, A9, A10, A34, A49, A50, A51, A52, A53, A54, A55, C1.

5. Task Numbers:

a. NCMGS SER 29 Oct 03)AT0030, BT0025, BT0040, CT0020, CT0030

b. (NCMGS SER 28 Feb 11) SC3.005, SD1.045, SG1.005, SG1.020, SG1.045, SG1.060, SG1.065, SG1.080, SG1.085, SG1.090, SG1.095, SG1.100, SG1.105, SI.010.

6. Remarks: In order to most realistically simulate carrying out survival drills, including abandoning a ship in distress, it is recommended to conduct the practical aspect of training in a live sea environment, either at FDU(P) or FDU(A). If not possible the practical portion of sea survival training may be completed in a pool equipped with the following items:

a. Swimming pool (minimum 25 m in length); and

(1) 1 m diving platform (minimum); or

(2) 3 m diving platform (recommended).

b. Bronze Cross Qualified Lifeguard (minimum 1).

TRAINING PLAN

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

CHAPTER 3 TRAINING MANAGEMENT DETAILS

TRAINING STRATEGY

1. The following training strategies were selected for this course:

a. ;

b. ; and

c. .

TRAINING DURATION

2. Based on existing resources and approved instructional design requirements, the approved Course Design authorizes **19** training days. Details in Annex G.

REQUIRED COURSE STAFFING

3. The following key personnel are required to conduct the training.

Course Director				
Rank	MOSID	Qualifications Required	Qty	PO / EO
Instructors				
Rank	MOSID	Qualifications Required	Qty	PO / EO

Guest Lecturers/Others (May be civilian)				
Lecturer	# Instructor	Subject	EO #	# period

TRAINING LIMITATION

4. A training limitation may be due to constraints of resources, personnel or equipment. A training limitation is the difference between what a qualified individual must be able to do and what training can prepare them to do. The following limitations are identified below:

a. Limitation 1; and

b. Limitation 2.

COURSE CAPACITY

5. The capacity per session is based on the guidelines in CFITES Vol 5 – Instructor to Learner Ratios:

a. Optimum – 20 (the number of trainees per serial that permits the most effective use of training resources on a continual basis. For a standard F2F class, a typical Instructor trainee ratio is 1:10 as per CFITES Vol 5);

b. Maximum Load – 20 (the maximum number or trainees per serial that can be trained with local resources for a finite period of time); and

(1) The Damage Control Division Commander has the authority to conduct Damage Control training in excess of the maximum course load. The following staff to trainee ratio shall not be exceeded:

(a) EO 003.02 – Execute Damage Control Party Duties (Flood) – 1 Staff : 4 Trainees

(b) EO 003.04 – Execute Firefighting Team Duties – 1 Staff: 4 Trainees

c. Minimum – 14 for Damage Control Training (the minimum number of trainees that will permit a course serial to be conducted within the practicable and economical limits).

DESIGNATED SCHEDULING AND COURSE LOADING

6. Training will be scheduled utilizing the HRMS Training (MITE) module to meet the training requirements (IAW NTORD 4540-2).

7. The authority to load members onto this course will be IAW NTORD 4540-43. NTG HQ is to be included as an info addressee on all loading messages. Course loading will be accomplished by:

a. NFS Campus Support for occupation and specialty courses.

QUALIFICATION AND ASSESSMENT

8. This is a pass/fail course. Students must successfully complete all POs to achieve the qualification.

9. Students will be monitored and assessed both on performance and conduct throughout the course. Counselling, progress monitoring, and maintenance of student files will be in accordance with NTORD 4500-51. Although not mandated specifically in the POs, the general demands of service members and the leadership demands of junior and senior leaders form an integral part of individual training. As such, students

are presumed to possess the leader and/or follower attributes commensurate with their rank.

UNSATISFACTORY PROGRESS

10. Any student who fails to successfully complete all POs in the allocated number of attempts will be referred to the Commandant (Cmdt) or Commanding Officer (CO) of the training establishment (TE) to determine the requirement for a TRB IAW NTORD 4500-54.

REMOVAL FROM TRAINING

11. A TE CO/Cmdt may direct that a student be removed from training for reasons of deficiency in performance, conduct (discipline, attitude, teamwork, safety, leadership), missed training, medical, and other non-performance/conduct related issues. In these cases, Cease Training Procedures are to be strictly adhered to IAW NTORD 4500-29 or 4500-54.

RECERTIFICATION REQUIREMENTS

12. There are no additional requirements to maintain currency in this qualification.

LANGUAGE OF INSTRUCTION

13. The language of instruction shall be in accordance with the Delivery of Training and Education in Both Official Languages (DAOD 5039-6).

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

14. PLARs shall be conducted in accordance with DAOD 5031-1 Canadian Forces Military Equivalencies Program, through the RCN PLAR submissions coordinator.

POST COURSE REVIEWS (PCR)

15. PCRs are to be conducted on all steady state courses IAW NTORD 4500-23.

COURSE REPORTING

16. Formal Course: A Canadian Forces Course Report, Form CF 377, shall be prepared and distributed in accordance with DAOD 5031-9. The Course Report shall be descriptive, identifying the student's strengths and weaknesses with specific comments on any PO for which the student demonstrated outstanding performance or had difficulty achieving the standard, any conduct relevant to course performance, and any conditions or situations that affected course performance.

CHAPTER 4 LESSON SPECIFICATIONS

PO 001 – Perform General Duties in a Naval Environment

EO 001.01 Enforce Shipboard Safety

1. Performance: Enforce Shipboard Safety

2. Conditions:

   a. Given:

      (1) Ship (for tour);

      (2) Assistance;

      (3) Supervision; and

      (4) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) Ship (for tour);

      (3) At sea or alongside; and

      (4) Day or night in any environmental condition.

Commented [NF1]: Review later

Commented [NF2R1]: Should be removed pending new assessment strategy

3. Standard: The NETP trainee shall enforce shipboard dafety, under constant supervision, with due regard to all safety and security procedures, by:

   a. Conducting Rounds; and

   b. Enforcing environmental protection policies.

4. Teaching Points:

   a. Instructional: 2 x 50 min periods; and

   b. Ship's Tour: 3 x 50 min periods.

6. Training and Learning Aids:

   a. Multimedia equipped classroom;

   b. HMC Ship (for tour); and

   c. Museum/ HMCS Sackville (for tour).

7. Remarks: A ship's tour (3 x 50 minute period) should be included as part of EO 001.01. Training Establishments are to coordinate this tour with any ship available (CPF is ideal). The purpose of this tour is to familiarize students with the layout and DC/FF capability of HMC ships. This tour will serve as the foundation for all the knowledge and practical training trainees will receive throughout the NETP.

ENABLING CHECK – EC 001.01

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 001.01 will be assessed through homework assignments, in class fill in the blank exercises and end of lesson confirmation questions led by the NETP instructor.

a. Formative: EO 001.01 will be assessed through end of lesson confirmation including instructor review, fill in the blank worksheets and homework assignments.

b. Summative: EO 001.01 will be assessed during PC 001 Part B on the NETP OJPR.

Commented [NF3]: Now that OJPR is not linked to the NQUAL, what's the way ahead?

Commented [NF4R3]: Remove it?

EO 001.02 Work Aloft Using a Fall Arrest Harness

1. Performance: Work aloft using a fall arrest harness

2. Conditions:

   a. Given:

      (1) 5 point harness;

      (2) Lanyard;

      (3) Vertical life-line;

      (4) Retractable lanyards;

      (5) Shock absorbers;

      (6) Helmets;

      (7) Relief steps;

      (8) Carabiners;

      (9) Roof anchors;

      (10) Tripod;

      (11) Assistance;

      (12) Supervision; and

      (13) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) At sea or alongside; and

      (3) Day or night in any environmental condition.

3. Standard: The NETP trainee shall work aloft using a fall arrest harness, under constant supervision, with due regard to all safety and security procedures, by:

   a. Applying the rules of fall protection;

   b. Inspecting fall arrest equipment, to include:

(1) Harnesses;
(2) Lanyards; and
(3) Worksite.

c. Describing rescue plans, to include:
(1) Self-Rescue; and
(2) Assisted rescue.

d. Donning fall arrest equipment, to include:
(1) Selecting appropriate anchor points; and
(2) Calculation total fall distance.

4. Teaching Points:

	Written PC 001 Part A					1.0 x 50 min pd	

5. Total EO Time: Total: **5** x 50 minute periods as follows:

   a. Instructional: 3 x 50 min periods;

   b. EC (practical harness confidence test): 1 x 50 min periods –Approximately 5 minutes is required per trainee); and

   c. PC 001 Part A: 1 x 50 min periods – (EC and PC are to be conducted simultaneously in order to decrease student down time.)

6. Training and Learning Aids:

   a. Multimedia equipped classroom; and

   b. Training video “Elements of Fall Protection” (DBI Sala).

7. Remarks: Fall Arrest Instructor must be qualified IAW current national standards.

Commented [NF5]: There’s no national standard, it’s provincial.

ENABLING CHECK – EC 001.02

1. The content for EO 001.02 will be assessed through homework assignments and end of lesson confirmation questions led by the Fall Arrest instructor. Additionally, trainees will conduct a practical “confidence test” to assess their ability to correctly don a fall arrest harness.

Material and Facilities Instructions

1. Fall Arrest harnesses; and

2. Tripod.

Arrangements and Procedures

1. This EC is to be conducted over 2 periods in conjunction with the written PC 001 Part A.

2. Trainees will be put into two groups for the purpose of this assessment.

3. One group will conduct the written PC 001 Part A, as the second group completes the practical confidence test.

4. Upon completion of the applicable assessment, trainees are to complete the other portion of assessment (e.g. once the confidence test is completed, the trainee shall go to complete the written PC 001 Part A).

5. Trainees shall work in pairs.

6. Trainees will:

   a. visually inspect a harness;

   b. don the harness;

   c. have a partner check that it is put on properly; and

   d. report to the instructor (for assessment IAW checklist).

7. Trainees will be suspended a few inches off the ground to verify that the harness is adjusted correctly to the individuals’ body size.

PART II – INSTRUCTIONS GIVEN TO TRAINEE

1. You must visually inspect the harness. There may or may not be deficiencies with the harness that you will wear.

2. You must be able to correctly don the harness and adjust to your body size.

3. You must have your partner inspect the harness to ensure that the areas of the harness that you cannot clearly see are fitted properly.

PART III – ENABLING CHECK NOTES

1. Trainees are to complete the written portion of PC 001 Part A in conjunction with this EC.

PART IV – ENABLING CHECK LIST

Note 1: The trainee must achieve 75% of the checklist items in order to pass this EC.

CHECK LIST	YES	NO	COMMENTS

EO 001.03 Carry Out Shipboard Drill and Ceremonial

1. Performance: Carry Out Shipboard Drill and Ceremonial

2. Conditions:

   a. Given:

      (1) Boatswain call;

      (2) Jack/Ensign staff;

      (3) Ship's Bell;

      (4) Flags;

      (5) RCN history handout;

      (6) Assistance;

      (7) Supervision; and

      (8) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) At sea or alongside; and

      (3) Day or night in any environmental condition.

3. Standard: The NETP trainee shall carry out shipboard drill and ceremonial duties, under supervision, by:

   a. Describing the Naval Divisional System;

   b. Describing the Ship's Recall Organization;

   c. Describing the Ship's Organization;

   d. Explaining the purpose of naval regulations, orders and directives;

   e. Explain the following elements of Naval history:

      (1) origins;
      (2) pre-WWI;
      (3) WWI;
      (4) post-WWI;

(5) WWII;
(6) Korean Conflict;
(7) Cold War; and
(8) Gulf War**;**

f. Unit specific history to include;

(1) Ships crest;
(2) Battle Honours; and
(3) Historical milestones.

g. Describing Naval Customs and Traditions; and

h. Participating in shipboard drill and ceremonial ceremonies, to include:

(1) Colours;
(2) Sunset; and
(3) Half-masting ceremonies.

4. Teaching Points:

EO 001.05 Stand Sea Watches

1. Performance: Stand Sea Watches

2. Conditions:

   a. Given:

      (1) Internal Communication trainer;

      (2) Watch and Station Bill;

      (3) Assistance;

      (4) Supervision; and

      (5) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) At sea or alongside; and

      (3) Day or night in any environmental condition.

3. Standard: The NETP trainee shall stand sea watches, under constant supervision, with regard to all safety procedure, by:

   a. Operating the Ship's Internal Communication System;

   b. Interpreting the departmental watch and station bill; and

   c. Describing the sea watch organization.

4. Teaching Points:

ENABLING CHECK – EC 001.05

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 001.05 will be assessed through homework assignments, in class fill in the blank exercises and end of lesson confirmation questions led by the NETP instructor. The ship's internal communication portion of training will be assessed through a practical exercise (CBT lab or SHINCOM trainer).

a. Formative: EO 001.05 will be assessed through end of lesson confirmations including instructor review and homework assignments.

b. Summative: EO 001.05 will be assessed during PC 001 Part B during the NETP OJPR.

Commented [NF10]: Remove?

PERFORMANCE CHECK – PC 001

PART 1 – ADMINISTRATIVE INSTRUCTIONS

PC 001 Part A: Fall Arrest Written Exam.

Material and Facilities Instructions

1. Classroom;
2. Exam;
3. Student answer sheets; and
4. Pencils.

PC 001 Part B: NETP OJPR.

Arrangements and Procedures

1. PC 001 Part A is to be conducted upon completion of EO 001.02 and conducted in conjunction with EC 001.02.

2. PC 001 Part B is to be conducted as part of the NETP OJPR.

PART II – INSTRUCTIONS GIVEN TO TRAINEE

1. This PC will be broken into two parts:
   a. PC 001 Part A (written) will assess your knowledge of working aloft using a fall arrest harness.
   b. PC 001 Part B – OJPR.

2. Timings for PC 001 are as follows:

   a. PC 001 Part A – 1 x 50 minute period (written during the 2 period practical EC for donning a fall arrest harness).
   b. PC 001 Part B – IAW OJPR instructions.

3. Pass/Fail Criteria for PC 001 is as follows:

   a. PC 001 Part A – 80% for the written exam. References are denied.
   b. PC 001 Part B – IAW OJPR instructions.

4. During the exam, if you have a question, raise your hand, an instructor will come to your desk.
5. On completion of your exam, leave the questionnaire on your desk and bring your answer sheet to the invigilator, you will then exit the classroom and conduct the practical EC (harness confidence test).

6. Once everyone has completed the exam, the invigilator will review the questions with the trainees.

Commented [NF11]: Remove?

Commented [NF12]: Remove?

Commented [NF13]: Remove?

7. Cheating will result in disciplinary action and possibly in course removal.

PART III – PERFORMANCE CHECK NOTES

1. One supplemental PC (rewrite) will be given if necessary.
2. Failure of one Part Constitutes a failure of that part only.
3. Failure of the supplemental PC will constitute a TRB IAW NTORD 4500-54.

PO 002 – Perform as a Member of the Force Protection Team

EO 002.01 Operate the Service Pistol

1. Performance: Operate the Service Pistol

2. Conditions:

   a. Given:

      (1) Service Pistol;

      (2) Magazine;

      (3) 5 Rounds of Dummy Ammunition;

      (4) Cleaning Kit;

      (5) PPE;

      (6) Targets;

      (7) Belt;

      (8) Holster;

      (9) Magazine Pouch;

      (10) Assistance;

      (11) Supervision; and

      (12) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) Range

      (3) At sea or alongside; and

      (4) Day or night in any environmental condition.

3. Standard: The NETP trainee shall independently operate the Service Pistol IAW NSAT QSP due to regard to all safety and security procedures, by:

a. Conducting safety precautions, to include:

(1) Proving the weapon safe without a barrel; and
(2) Proving the weapon safe with a barrel.

b. Assembling and disassembling the weapon, to include function test after assembly.

c. Operating the weapon;

d. Performing Immediate Action and Stoppage Drills; and

e. Challenging the Service Pistol NQS (IAW NAVORD 4995-3).

4. Teaching Points:

   c. PC: WHT/PWT: 1.0 x 50 min period.

6. Training and Learning Aids:

   a. Multi Media Classroom;

   b. Unit Weapons Trainer id available.

7. Remarks: This portion of the NETP QSP shall be instructed IAW the Naval Small Arms Training QSP. The CCA for NSAT QSP is NFS (A) (Deck Division). Trainees who successfully pass the Service Pistol NQS will be granted MITE ID 123658 for IWT. Trainees who do not achieve a passing score for the Service Pistol NQS shall have it noted on their CF 377, and their gaining unit shall arrange for the member to challenge the Service Pistol NQS at a later date.

ENABLING CHECK – EC 002.01

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 002.02 will be assessed through end of lesson confirmation questions and practical weapons handling exercises led by the Service Pistol instructor.

a. Formative: EO 002.02 will be assessed through end of lesson confirmations including instructor review as well as practical weapons handling exercises.

b. Summative: EO 002.02 will be assessed during PC 002 Part A. Trainees must successfully pass the weapons handling test in order to pass PC 002 Part A.

EO 002.02 Enforce Ship's Security

1. Performance: Enforce Ship's Security

2. Conditions:

   a. Given:

      (1) Supervision; and

      (2) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) At sea or alongside; and

      (3) Day or night in any environmental condition.

3. Standard: The NETP trainee shall Enforce Ship's Security, independently and with due to regard to all safety and security procedures, by:

   a. Standing harbour watches, by:

      (1) Describing the Ship's routine; and
      (2) Describing Emergency Pipes.

   b. Describing the duty watch organization, to include:

      (1) Home port duty watch organization; and
      (2) Away from home port duty watch organization.

   c. Describing the force protection organization, to include:

      (1) Force protection alongside;
      (2) Force protection underway; and
      (3) Force protection levels.

   d. Applying Rules of Engagement; and

   e. Applying the Use of Force Continuum.

ENABLING CHECK – EC 002.03

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 002.02 and EO 002.03 will be assessed through homework assignments, in class questions and end of lesson confirmation questions led by NETP instructor.

2. Reality Based Training utilizing CEASS will be used to assess the practical aspect of EOs 002.02 and 002.03.

Material and Facilities Instructions

1. CEASS Converted Weapons (10 x Service Pistol);

2. CEASS PPE IAW CF Training Safety;

3. Approved CEASS Area IAW CF Training Safety; and

4. Approximately 1000 rounds of each Sim FX 5.56mm and Sim FX 9mm Marking Cartridges.

Commented [NF14]: Do we need that much?

Arrangements and Procedures

Proper authority must be given by the Div Cdr prior to using CEASS in any structure, ie, Drill Shed.

PART II – INSTRUCTIONS GIVEN TO TRAINEE

1. Students will be briefed on each scenario with due regard to safety; and

2. Students will be debriefed on completion each scenario.

PART III – ENABLING CHECK NOTES

Failure of any one “CRITICAL” item constitutes a failure of this EC.

PART IV – ENABLING CHECK LIST

A rewrite is not required for a failure of this EC.

1. Performance: Conduct Shipboard Bomb Seach

Commented [NF15]: Check with Sea Training

2. Conditions:

   a. Given:

      (1) Space to conduct bomb search

      (2) Bomb box and related search equipment;

      (3) Bomb Threat Scenario;

      (4) Assistance;

      (5) Supervision; and

      (6) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) At sea or alongside; and

      (3) Day or night in any environmental condition.

3. Standard: The NETP trainee shall conduct a shipboard bomb search, under supervision, with due to regard to all safety and security procedures, by:

   a. Operating shipboard bomb search equipment;

   b. Applying shipboard bomb search techniques; and

   c. Recognizing improvised explosive devices (IED).

4. Teaching Points:

L=Instructor Lecture, D=Instructor Demo, P=Student Practice

Lesson	DESCRIPTION	Method/Media				TIME in periods	REFERENCE

ENABLING CHECK – EC 002.04

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Classroom.
2. Bomb box (and associated search equipment);
3. Bomb search cards; and
4. Training “IEDs”.

Arrangements and Procedures

1. This EC will be administered at the end of EO 002.04.
2. 2.0 x 50 minute periods are allotted for this EC.
3. Trainees are to search in groups of two.
4. Each group should take approximately 10 minutes to complete this EC.

PART 2 – INSTRUCTIONS GIVEN TO TRAINEE

1. This will be a practical EC.
2. You will work in groups of two.
3. You are required to demonstrate how to correctly search a space for a bomb.
4. This EC will take 2 periods to complete.
5. You must achieve 75% in order to pass this EC.

PART 3 – ENABLING CHECK NOTES

1. This EC is for confirmation of learning progress.
2. A supplemental EC is not required in the case of trainee failure.

PART 4 – ENABLING CHECK LIST

CHECK LIST	SAT	UNSAT	COMMENTS
1. Search Techniques			
Search in group of two (2)			
Formulate search plan before entering the compartment			
Search around doors and hatches first			
Do not change lighting and Machinery state			
Enter compartment and close eyes and listen			
Work from bulkhead inwards			
Search from deck to waist height			
Search from waist to deckhead			
Pay particular attention around pipes and fittings			
Take your time, search carefully and thoroughly not disturbing articles			
2. Action taken upon discovery of suspicious object			
Do not move the object			
Leave one person as sentry			
Report the object			
Precise location of the device within the space			
Physical description			
Any wires or strings leading to or from the device			
Estimated number of personnel searching the area			

Note 1: The trainee must achieve 75% of the checklist items in order to pass this EC.

PERFORMANCE CHECK – PC 002

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

PC 002 Part A: Service Pistol Weapons Handling/Personal Weapons Test

1. Service Pistol;
2. Magazines;
3. Safety Equipment;
4. Tools; and
5. Cleaning Equipment.

PC 002 Part B: Rules of Engagement/ Use of Force Legal Exam

1. Classroom.
2. Exam.
3. Student answer sheets.
4. Pencils.

Arrangements and Procedures

1. PC 002 Part A is to be conducted upon completion of EO 002.01
2. PC 002 Part B is to be conducted upon completion of EO 002.02.

PART 2 – INSTRUCTIONS GIVEN TO TRAINEE

1. This PC will be broken into four parts:

   a. PC 002 Part A will assess your ability to operate the Service Pistol.
   b. PC 002 Part B will assess your knowledge of the content of EO 002.02 Rules of Engagement and Use of Force.

2. Timings for PC 002 are as follows:

   a. PC 002 Part A – 1 x 50 minute period Service Pistol. Weapons Handling/Personal Weapons Test
   b. PC 002 Part B – 1 x 50 minute written exam.

3. Pass/Fail Criteria for PC 001 is as follows:

   a. PC 002 Part A – IAW PC 002 Part A Service Pistol PWT Checklist
   b. PC 002 Part B –75% for the written exam. References are denied.

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

4. During the written exam, if you have a question, raise your hand, an instructor will come to your desk.

5. On completion of your exam, leave the questionnaire on your desk and bring your answer sheet to the invigilator.

6. Once everyone has completed the exam, the invigilator will review the questions with the trainees.

7. Cheating will result in disciplinary action and possibly in course removal.

PART 3 – PERFORMANCE CHECK NOTES

1. One supplemental PC (rewrite) will be given if necessary.

2. Failure of one Part constitutes a failure of that part only.

3. Failure of the supplemental PC will constitute a TRB IAW NTORD 4500-54.

PART 4 – PERFORMANCE CHECK LIST

PC 002 Part A (Service Pistol Weapons Handling/Personal Weapons Test)

NAME & RANK	SN	COURSE	DATE
INSTRUCTOR NAME & RANK		**OVERALL ASSESSMENT**	
		P	**F**

PERFORMANCE	SAT	UNSAT	COMMENTS
A – PROVE WEAPON SAFE	**Must get all steps correct**		
1. Point the weapon in a safe direction			
2. Remove the magazine if fitted			
3. Rack the slide to the rear twice, engage the slide catch lever into the slide arresting notch			
4. Inspect visually and physically both the chamber and the magazine to ensure it is clear			
5. Thumb down slide catch lever, sending the action forward			
6. Thumb down de-cocking lever to allow the hammer to rotate forward, engaging in the safety intercept notch			
B – DISASSEMBLE THE WEAPON	**Allowed one error**		
7. Rack the slide fully to the rear and engage slide catch lever			
8. Thumb down takedown lever to the vertical position			
9. Remove slide off frame			
10. Remove recoil spring and guide			
11. Withdraw barrel from slide			
C – PRE-FIRE CLEANING	**Allowed one error**		
12. Using dry patches, dry the interior of the barrel and the face of the chamber			
13. Wipe off all lubricants from the fame, removing any fouling / firing residue			
14. Wipe off all lubricants from the slide, especially the slide rail, all locking surface and the breach face			
15. Lightly oil all moving parts, keeping the interior of the barrel, face of the chamber and the breach face free from oil			
D – ASSEMBLE THE WEAPON	**Allowed one error**		
16. Hold slide upside down and insert barrel muzzle end first			
PERFORMANCE	**SAT**	**UNSAT**	**COMMENTS**
17. Position recoil spring and guide onto the unlocking lug of barrel			

Commented [NF18]: Review checklist, checklist should be from the NSAT QSP

18. Place slide on frame, rack slide fully to the rear and engage slide catch lever			
19. Rotate takedown lever up to the horizontal position			
20. Depress slide catch lever to release the slide			
21. Thumb down de-cocking lever to allow the hammer to fall forward			
E – FUNCTION TEST	**Allowed one error**		
22. Insert an empty magazine into the Sig Sauer			
23. Rack the slide to the rear to verify proper engagement of the follower and slide catch lever			
24. Depress the magazine release, remove magazine			
25. Thumb down slide catch lever, sending the slide forward			
26. Place moderate pressure on the back of the hammer with thumb, attempt to push it forward			
27. Thumb down de-cocking lever			
28. Pull and hold the trigger			
29. Rack the slide to the rear and release it			
30. Release and pull the trigger one more time, allow the hammer to fall forward forcefully			
F – WEAPON HANDLING	**Must get all steps correct**		
LOAD DRILL			
31. Insert magazine into weapon			
32. Pull on the magazine lip to ensure that the magazine is locked in place			
DRAW & PRESENT DRILL			
33. Insert magazine into weapon			
34. Pull on the magazine lip to ensure that the magazine is locked in place			
35. Remove thumb lock from holster			
36. Draw weapon from holster in a single movement bringing the weapon parallel in front of shooter			
37. Rack the slide fully to the rear and release in a sling shot fashion			
38. Thumb down the decoking lever			
39. Wait for further orders keeping control of weapon			
UNLOAD			
40. Come up on aim			
PERFORMANCE	**SAT**	**UNSAT**	**COMMENTS**
41. Depress the magazine catch release, remove the magazine			
42. In a slingshot fashion, rack the slide to the rear twice			
43. Pull the slide to the rear and engage the slide catch lever			

44. Visually and physically inspect the weapon to ensure it is free or rounds			
45. Depress slide catch lever, allowing the slide to move forward			
46. Depress the de-cocking lever			
47. Re-holster the weapon			
G – IMMEDIATE ACTION DRILLS	**Must get all steps correct**		
SLIDE FORWARD IA			
48. Tap the base of the magazine with the heel of the support hand to ensure that the magazine is fully engaged and locked in the magazine port			
49. Rack the slide to the rear in a sling shot fashion			
50. Thumb down the decoking lever			
51. Assess the situation and continue firing			
SLIDE TO THE REAR IA			
52. Lower weapon keeping it parallel to the ground			
53. Inspect chamber and magazine			
54. If magazine is empty remove the empty magazine			
55. Insert fresh magazine			
56. Depress the slide catch lever			
57. Assess the situation and continue firing			
SLIDE PARTIALLY TO THE REAR IA			
58. Pull slide fully to the rear and engage slide catch lever			
59. Inspect the chamber			
60. Carefully shake weapon to the right, obstruction should fall out			
61. Re-inspect the chamber			
62. If chamber is clear, depress the slide catch lever			
63. Assess the situation and continue firing			
64. If the obstruction does not fall out, remove the magazine			
65. Rack the slide a couple of time vigorously			
66. Inspect the chamber			
67. If the chamber is clear, insert a new magazine			
68. Depress the slide catch lever			
69. Assess the situation and keep on firing			
PASS / FAIL	**PASS**	**FAIL**	
ASSESSOR'S COMMENTS:			

Note 1: Failure of a CRITICAL item constitutes a failure of this PC.
Note 2: The trainee must achieve 75% of the non-critical items in order to pass this PC.

PO 003 – Perform as a Member of the Damage Control Organization

Commented [NF19]: Review by DC Div

EO 003.01 Describe Shipboard Damage Control Organization and Markings

1. Performance: Describe Shipboard Damage Control Organization and Markings

2. Conditions:

   a. Given:

Commented [NF20]: Review missing things?

      (1) Assistance;

      (2) Supervision; and

      (3) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

3. Standard: The NETP trainee shall describe the shipboard damage control organization and markings, by:

   a. Describing the shipboard DC organization;

   b. Describing shipboard DC conditions and markings;

   c. Describe permissive and qualifying markings, to include;

   d. Pictograph markings; and

   e. Hazardous markings.

4. Teaching Points:

L=Instructor Lecture, D=Instructor Demo, P=Student Practice

TP	DESCRIPTION	Method / Media				Time in Period	REFERENCE

12. Explain hazardous markings: (SG1.005) a. Danger explosive; b. Danger flammable; and c. Danger poison.		X			0.5	A6

5. Total EO Time: Total: 8 x 50 minute periods as follows:

   a. Introduction to DC Safety and Administration: 0.5 x 50 min period; and

   b. Instructional: 7.5 x 50 min periods.

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

6. Training and Learning Aids:

   a. IT equipment to support multimedia presenttions;

   b. Qualifying marking and information pictograph board;

   c. Trainee study guides; and

   d. Incident board and associated logs.

7. Remarks:

   a. DC Division is responsible for scheduling the sequencing of PO 003. It is necessary to instruct EO 003.01 – Describe shipboard DC organization and markings first, as this EO provides foundational knowledge and skills to trainees that is applicable to all subsequent EOs in PO 003.

   b. Once EO 003.01 is instructed, the remaining EOs may be delivered in any sequence, so long as EO 003.03 - Carry out Shipboard CBRN protective measures is not taught last. This will facilitate scheduling of the written PC (PC 003 Part C) and any required re-writes.

ENABLING CHECK – EC 003.01

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 003.01 will be assessed through homework assignments, in class fill in the blank exercises and end of lesson confirmation questions led by the DC instructor.

a. Formative: EO 003.01 will be assessed through end of lesson confirmations including instructor review, student fill-in-the-blank worksheets, homework assignments and practical DC exercises.

b. Summative: EO 003.01 will be assessed during all Parts of PC 003.

(1) PC 003 – Part A, C and D: Written. Trainees must achieve 75% in order to pass.

(2) PC 003 – Part B and E: Practical. These assessments are a Pass/Fail. Students shall observe all applicable safety precautions during this portion of the PC. Failure to do so may result in trainee failure of the PC 003 Part B or PC 003 Part E.

7. Remarks: Nil.

ENABLING CHECK – EC 003.02

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 003.02 will be assessed through homework assignments, in class fill in the blank exercises and end of lesson confirmation questions led by the DC instructor. The practical component of EO 003.02 will be assessed through pipe repair, shoring and a DC “dry run” exercise.

a. Formative: EO 003.02 will be assessed through end of lesson confirmations including instructor review, student fill-in-the-blank worksheets, homework assignments and practical DC exercises.

b. Summative: EO 003.02 will be assessed during PC 003 Parts A and B.

(1) PC 003 – Part A: Written. Trainees must achieve 75% in order to pass PC 003 Part A.

(2) PC 003 – Part B: Practical. This assessment is Pass/Fail. Students shall observe all applicable safety precautions during this portion of the PC. Failure to do so may result in trainee failure of PC 003 Part B.

EO 003.03 Carry out CBRN Shipboard Protective Measures

1. Performance: Carry out CBRN Shipboard Protective Measures

2. Conditions:

   a. Given:

      (1) Personal protective equipment;

      (2) Radiac detection equipment;

      (3) Personal dosimeter and reader;

      (4) C4 mask;

      (5) Canteen;

      (6) Canister;

      (7) Webbing;

      (8) (drinking) straw and tube;

      (9) RSDL training package and associated NBC detection ancillaries:

         (a) NAVD's;

         (b) 3 way detector papers; and

         (c) M256A1 kit (show only).

      (10) Training auto injectors (antidote and anti-convulsant);

      (11) NBC decontamination equipment;

      (12) Assistance;

      (13) Supervision; and

      (14) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

(2) At sea or alongside; and

(3) Day or night in any environmental conditions.

3. Standard: The NETP trainee shall carry out shipboard CBRN protective measures, under constant supervision, with due regard to all safety procedures, by:

a. Recognizing radiation hazards;

b. Recognizing the shipboard CBRN organization, to include:

(1) The contamination control organization.

c. Identifying collective protection systems, to include:

(1) Entering and exiting the ship's citadel.

d. Describing shipboard CBRN equipment, to include:

(1) Chemical and biological detection equipment; and

(2) Radiation detection equipment.

e. Describing shipboard CBRN procedures, to include:

(1) Decontamination procedures; and

(2) Responding to alarms and emergencies.

f. Fit testing the C4 mask.

4. Teaching Points:

EO 003.04 Execute Firefighting Team Duties

1. Performance: Execute Firefighting Duties

2. Conditions:

   a. Given:

      (1) Air/water extinguisher;

      (2) CO2 extinguisher;

      (3) Dry chemical extinguisher;

      (4) CO2 cabinet penetration prop;

      (5) Portable pumps;

      (6) Propane to simulate “A”, “B” and “C” class fire;

      (7) Complete Fire Locker;

      (8) Minor and/or major fire scenarios;

      (9) Major Firefighting apparatus;

      (10) Protective clothing;

      (11) Breathing apparatus;

      (12) Smoke mase compartment;

      (13) Assistance;

      (14) Supervision; and

      (15) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) Operational DCTF;

      (3) Smoke maze for confidence in BA;

      (4) Toxic fumes/smoke filled compartments;

(5) At sea or alongside; and

(6) Day or night in any environmental condition

3. Standard: The NETP trainee shall execute firefighting team duties, under supervision, with due regard to all safety procedures, by:

a. Describing the science of fire;

b. Describing accidental atmosphere;

c. Describe Shipboard Compartment Fire Hazards**;**

d. Explain shipboard fire fighting fundamentals;

e. Employing Fire Fighting Personal Protective Equipment;

f. Employing shipboard fire fighting and safety equipment, to include:

(1) Portable equipment; and

(2) Fitted equipment and systems.

g. Extinguishing a minor fire;

h. Extinguishing a major fire, to include:

(1) Utilizing shipboard Fire Fighting terminology; and

(2) Words of Command.

4. Teaching Points:

ATL Crack Hatch (Always precede cracking Hatch with 2 short pulses to the deckhead); e. Long pulse, close hatch; f. Wait 5 seconds; g. Two short pulses; h. Crack hatch and inspect; i. ATL determines attack method (Backup is first person down the ladder and employs short pulses towards the deckhead to cool fire gases); j. Extinguish fire with attack method dictated by ATL; and k. Carry out post fire procedures		X	X	Scenario based fire fighting exercises		

5. Total EO Time: 31.5 x 50 minute periods as follows:

   a. Fit Testing: 1.5 x 50 min periods;

   b. Instructional: 17.5 x 50 min periods;
   c. EC:
      (1) Smoke maze: 1.5 x 50 min periods;
      (2) Extinguish minor and major fires: 6.0 x 50 min periods

   d. PC:
      (1) PC 003 – Part D (written): 1.0 x 50 min periods
      (2) PC 003 – Part E (practical): 4.0 x 50 min periods (for 20 trainees)

6. Training and Learning Aids:

a. Appropriate IT equipment to support multimnedia presentations;

b. Pictograph board;

c. Trainee study guides;

d. Video “Nature of Fire” #16083 and “Flight or Flight” #16232 or “First Line of Defence”; and

e. Props such as cut away fire extinguishers to include CO2, air/water, dry chemical, and CO2 cabinet penetration mock-up.

7. Remarks: Nil.

ENABLING CHECK – EC 003.04

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 003.04 will be assessed through homework assignments, in class fill in the blank exercises and end of lesson confirmation questions led by the FF instructor. The practical component of EO 003.04 will be assessed through hose handling, door and hatch procedures, and the smoke maze.

a. Formative: EO 003.04 will be assessed through end of lesson confirmations including instructor review, student fill-in-the-blank worksheets, homework assignments and practical fire fighting exercises.

b. Summative: EO 003.04 will be assessed during PC 003 parts D and E.

(1) PC 003 – Part D (written). Trainees must achieve 75% in order to pass PC 003 Part D.

(2) PC 003 – Part E (practical). This assessment is Pass/Fail. Students shall observe all applicable safety precautions during this portion of the PC. Failure to do so may result in trainee failure of PC 003 Part E.

2. Trainees must successfully navigate the Smoke Maze in order to continue with training.

3. Failure to complete the Smoke Maze will result in TRB IAW NTORD 4500-54.

PERFORMANCE CHECK – PC 003

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

PC 003 – Part A – Damage Control (written):

1. Classroom, test booklet, student marking sheets, and pencils.

PC 003 – Part B – Damage Control (practical):

1. Equipment to include:
   a. Operational mock-up/DCTF and related equipment.
   b. Safety equipment.

PC 003 – Part C – CBRN (written):

1. Classroom, test booklet, student marking sheets and pencils.

PC 003 – Part D – Fire Fighting (written):

1. Classroom, test booklet, student marking sheets, and pencils.

PC 003 – Part E – Fire Fighting (practical):

1. Equipment to include:
   a. Operational mock-up/DCTF and related equipment; and
   b. Safety equipment.

Arrangements and Procedures

PC 003 – Part A – Damage Control (written):

1. PC 003 – Part A will assess all content covered during instruction of EO 003.01.

2. Time required: 1.0 X 50 minute period (includes marking and review).
3. Students must obtain a mark of 75% to pass this part of the PC. The test will consist of at least 25 multiple choice questions.

PC 003 – Part B – Damage Control (practical):

1. PC 003 – Part B will assess the trainee's ability to execute Damage Control party duties:

2. Instructors required for PC:

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

a. 1 x tank;
b. 1 x valves;
c. 1 x safety;
d. 1 x fire main and casualty power; and
e. 1 x plotter/IC.

3. Hard hats, goggles, gloves steel toed rubber boots and immersion suits for each trainee.

4. Time required: 1.5 X 50 minute period.

PC 003 – Part C – CBRN (written):

1. Time required: 1.0 X 50 minute period (includes marking and review).

2. Students must obtain a mark of 75% to pass PC 003 – Part C. The test will consist of at least 25 multiple-choice questions. DC Div Standards will administer Part C of this PC.

PC 003 – Part D – Fire Fighting (written):

1. Will assess the content of EO 003.03.

2. Time required: 1.0 X 50 minute period (includes marking and review).

3. Students must obtain a mark of 75% to pass this part of the PC. The test will consist of at least 25 multiple choice questions

PC 003 – Part E – Fire Fighting (practical):

1. PC 003.03 – Part E will assess the content of EO 003.03.

2. PC 003.03 will assess the trainees' ability to act as a member of the ship's fire fighting team IAW standards specified in PO 003.03.

3. The practical part of this PC will be administered as follows:

a. Every effort will be made to assess each trainee as attack team leader, nozzle person, or back up. Each trainee shall also be assessed as a member of a team;

b. The Assessor is to take notice of trainee appearing to carry out duties with difficulty. This trainee is to perform this position again on subsequent runs;

c. If the "team" fails to carry out procedures as instructed then the team is to repeat the situation, providing an opportunity for more individual assessment; and

d. Performance Check List PC 003 part E will be used to assess trainees.

PART 2– INSTRUCTIONS GIVEN TO TRAINEE

PC 003 – Part A – Damage Control (written):

1. **DO NOT** write in the test booklet.

2. All answers are to be completed on the answer sheet provided. You must answer 75% of the 25 multiple choice questions correctly to pass the test.

3. During the test, if you have a question, raise your hand, an instructor will come to your desk.

4. On completion of your test, leave the questionnaire on your desk and bring your answer sheet to the invigilator, you man then exit the classroom quietly.

5. Once everyone has completed the test, the invigilator will review the questions with the trainees.

6. Cheating will result in disciplinary action and possibly in course removal.

PC 003 – Part B – Damage Control (practical):

1. Any safety infraction constitutes a failure of PC 003 Part B.

2. You will be required to act as a member of a Damage Control Repair Party and successfully control incoming water to a degree that pumping devices decrease the water level to meet the performance requirements of EO 003.01.

3. You will accomplish this by building Shores and using other techniques as taught to you during theory lessons and practised during dry and wet exercises.
4. You will be assessed on individual performance and your performance as part of flood repair party as per Checklist. The SBL/Instructor is your flood leader and will give some directions, but you must actively participate in the repair party efforts even without a direct order.

5. You will be required to control flooding by using pumps and doing leak-stopping and Shoring to:
   a. Hatches
   b. door(s);
   c. pipe(s);
   d. bulkhead (panting); and/or
   e. structural holes.

6. You will be required to complete all major shores to 100% and the remainder to 80% with no safety violations. Your team work must also be assessed as “SAT”.

PC 003 – Part C – CBRN (written):

1. DO NOT write in the test booklet.

2. All answers are to be completed on the answer sheet provided. You must answer 75% of the 25 multiple choice questions correctly to pass the test.

3. During the test, if you have a question, raise your hand, an instructor will come to your desk.

4. On completion of your test, leave the questionnaire on your desk and bring your answer sheet to the invigilator, you may then exit the classroom quietly.

5. Once everyone has completed the test, the invigilator will review the questions with the trainees.

6. Cheating will result in disciplinary action and possibly in course removal.

PC 003 – Part D – Fire Fighting (written):

1. DO NOT write in the test booklet.

2. All answers are to be completed on the answer sheet provided. You must answer 75% of the 25 multiple choice questions correctly to pass the test.

3. During the test, if you have a question, raise your hand, an instructor will come to your desk.

4. On completion of your test, leave the questionnaire on your desk and bring your answer sheet to the invigilator, you man then exit the classroom quietly.

5. Once everyone has completed the test, the invigilator will review the questions with the trainees.
6. Cheating will result in disciplinary action and possibly in course removal

PC 003 – Part E – Fire Fighting (practical):

1. Any safety infraction or failure to obey directions of school staff will cause you to be removed from the training area and will result in failure of the PC.

2. This PC requires you to assume several positions on an attack team, to correctly operate all designated fire fighting apparatus, and to perform in each position as taught. You must obey all instructions from school staff and must perform as a team member.

PART 3 – PERFORMANCE CHECK NOTES

PART IV – PERFORMANCE CHECK LIST

PC 003.01 – Part B – Damage Control (practical):

(3) area coverage (sweeping);			
(4) bail operation; and			
(5) nozzle operation.			
b. back-up :			
(1) maintain control of hose;			
(2) position behind nozzle person;			
(3) back person moves to the nozzle person position; and			
(4) proper door and hatch procedures as directed.			
c. hydrant person:			
(1) obtain foam as required;			
(2) operates wye gate when required;			
(3) operates foam pick-up tube when required.			
7. Attack on fire:			
a. follow directions of attack team leader;			
b. use proper relief procedures, if required; and			
c. team work.			
8. No safety violations (individual on team bears consequences).			
ADDITIONAL COMMENTS			

Note 1: Failure of a CRITICAL item constitutes a failure of this PC.
Note 2: The trainee must achieve 75% of the non-critical items in order to pass this PC.

PO 004 – Carry Out Survival Drills

EO 004.01 Respond to Person Overboard Emergencies

1. Performance: Respond to Person Overboard Emergencies

2. Conditions:

   a. Given:

      (1) Ship (for tour);

      (2) Smoke marker;

      (3) Pains Wessex;

      (4) Crane;

      (5) RHIB/IRB and associated lines;

      (6) Assistance;

      (7) Supervision; and

      (8) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) At sea or alongside; and

      (3) Day or night in any environmental condition.

3. Standard: The NETP trainee shall respond to Person Overboard Emergencies, under supervision and with due regard to all safety procedures, by:

   a. Executing person overboard procedures; and

   b. Launching and recovering the ship's boat.

4. Teaching Points:

L=Instructor Lecture, D=Instructor Demo, P=Student Practice

		Method/Media		

Commented [NF21]: Update to new name

Lesson Objective	DESCRIPTION	L	D	P	Details	TIME in periods	REFERENCE
1	**Launching and recovering the ship's boats.**					**3.0 x 50 min pd**	
1. Safety equipment and procedures, to include: (SD1.045/SG1.020/ SG1.040/SG1.045) a. Line handling orders; b. Safety equipment; and c. Safety Procedures.		X				0.5	A7 Ch 11 para 11.9 Ch 6 para 6.3 table 1 (orders)
2. Procedure for launching the RHIB/IRB. (SD1.045/SG1.020/ SG1.040/SG1.045)		X				1.0	A7 Ch 11 para 11.10.6
3. Procedure for recovering the RHIB/IRB. (SD1.045/SG1.020/ SG1.040/SG1.045)		X					
4. Explain the following handling duties: (SD1.045/SG1.020/ SG1.040/SG1.045) a. Boat rope; b. Bow Line; c. Stern Fast; and d. Whip Recovery line.		X				1.5	A7 Ch 6 para 6.3 table 1

5. Total EO Time: Total: 3 x 50 minute periods as follows:

   a. Instructional: 3 x 50 min periods;

6. Training and Learning Aids:

   a. Multimedia equipped classroom;

   b. Dummy M.O.B. pyrotechnics;

   c. Training Video "Rescue at Sea"; and

   d. Crane (for RHIB/IRB launch).

7. Remarks: Nil.

ENABLING CHECK – EC 004.01

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 004.01 will be assessed through homework assignments, end of lesson confirmation questions led by the instructor.

a. Formative: EO 004.01 will be assessed through end of lesson confirmations including instructor review, homework assignments and practical boat launching exercises.

b. Summative: EO 004.01 will be assessed during PC 004 Part C during the NETP OJPR.

Commented [NF22]: Remove?

2. No additional time is scheduled for this EC. Time for completion is included in Instructional Time.

EO 004.02 Operate Shipboard Lifesaving Equipment

1. Performance: Operate Shipboard Lifesaving Equipment

2. Conditions:

   a. Given:

      (1) Personal Floatation Device (PFD);

      (2) Hazardous Duty Life Jacket (HDLJ);

      (3) Floater Jacket;

      (4) Pool;

      (5) SAS;

      (6) Life Raft and associated equipment;

      (7) Fully Enclosed Life Boat (FELB);

      (8) Rescue chute;

      (9) Assistance;

      (10) Supervision; and

      (11) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom;

      (2) Pool;

      (3) At sea or alongside; and

      (4) Day or night in any environmental condition.

3. Standard: The NETP trainee shall operate shipboard lifesaving equipment, under supervision and with due regard to all safety procedures, by:

   a. Donning sea survival equipment;

   b. Executing life raft drills, to include:

(1) Individually righting an overturned life raft.

c. Following abandon ship procedures;

d. Executing sea survival procedures, including:

(1) Combating hypothermia.

4. Teaching Points:

	26. Stages of hypothermia. (SG1.060/SG1.065)						A9 A10 A51
	27. Signs and symptoms. (SG1.060/SG1.065)						
	28. Combating hypothermia. (SG1.060/SG1.065)						
	29. First aid for						

	hypothermia. (SG1.060/SG1.065)						

5. Total EO Time: Total: 8 x 50 minute periods as follows:

   a. Instructional: 3 x 50 min periods;

   b. PC:
      (1) Theory: 1 x 50 min periods
      (2) Practical: 4 x 50 min periods

6. Training and Learning Aids:

   a. Personal Floatation Device (PFD);

   b. Hazardous Duty Life Jacket (HDLJ);

   c. Floater Jacket;

   d. SAS; and

   e. Life Raft and associated equipment.

7. Remarks:

   a. In order to most realistically simulate carrying out survival drills, including abandoning a ship in distress, it is recommended to conduct the practical aspect of training in a live sea environment, either at FDU(P) or FDU(A). If not possible the practical portion of sea survival training may be completed in a pool equipped with the following items:

      (1) Swimming pool (minimum 25 m in length); and

         (a) 1 m diving platform (minimum); and
         (b) 3 m diving platform (recommended).

      (2) Bronze Cross Qualified Lifeguard (minimum 1).

ENABLING CHECK – EC 004.02

PART 1 – ADMINISTRATIVE INSTRUCTIONS

1. The content for EO 004.02 will be assessed through homework assignments, end of lesson confirmation questions led by the instructor and practical sea survival equipment dressing exercises.

a. Formative: EO 004.02 will be assessed through end of lesson confirmations including instructor review, homework assignments and practical sea survival equipment dressing exercises.

b. Summative: EO 004.02 will be assessed during PC 004 Part A (written) and Part B (practical). Trainees must achieve 75% to pass PC 004 Part A and complete PC 004 Part B IAW PC 004 Part B checklist.

PERFORMANCE CHECK – PC 004

PART 1 – ADMINISTRATIVE INSTRUCTIONS

Material and Facilities Instructions

1. Laminated copy of PC 004 Part B checklist;
2. Classroom; and
3. Pool.

Arrangements and Procedures

1. Due to safety considerations, it is recommended that the invigilator utilize one checklist as a reference to assess the entire NETP class during PC 004 Part B (pool phase).
2. Instructors are to identify weak swimmers prior to starting PC 004 Part B in order to ensure their safety during the pool phase.
3. Instructors are to liaise with pool lifeguard and identify a rescue plan for trainees who experience difficulty during the pool phase.

PART 2 – INSTRUCTIONS GIVEN TO TRAINEE

1. This PC will be broken into three Parts:
   a. PC 004 Part A – written;
   b. PC 004 Part B – practical; and
   c. PC 004 Part C – OJPR.

2. Timings for PC 004 are as follows:
   a. PC 004 Part A – 1 x 50 minute period;
   b. PC 004 Part B – 4 x 50 minute periods; and
   c. PC 004 Part C – IAW OJPR instructions.

3. Pass/Fail Criteria for PC 004 is as follows:
   a. PC 004 Part A – The pass mark is 75% for the written test;
   b. PC 004 Part B – IAW PC 004 Part B checklist; and
   c. PC 004 Part C – IAW OJPR instructions.

4. References are denied.

Commented [NF24]: Remove?

Commented [NF25]: Remove?

Commented [NF26]: Remove?

PART 3 – PERFORMANCE CHECK NOTES

1. A supplemental PC (rewrite) will be given if necessary.
2. Failure of any one Part constitutes a failure of that Part only.
3. If a trainee fails the 50m swim, it is recommended that they receive remedial swim training.

PART 4 – PERFORMANCE CHECK LIST

CHECK LIST	SAT	UNSAT	COMMENTS
1. Maritime Pouch			
Donned correctly			
Inflate			
Enter correctly			
Swim (any style of propulsion) 50m			**CRITICAL**
Assume H.E.L.P. position			
Exit pool when all have assumed H.E.L.P			
2. Demonstrate SAS / HDLJ			
1 Student don maritime pouch over SAS			
1 Student don maritime pouch under SAS			
1 Student don HDLJ			
Enter Pool correctly			
3. Life Raft inflated and in pool upside down (life guard must be in water)			
Right raft (volunteer)			
Enter pool correctly, swim to raft			
Safely enter raft			
Safely exit raft and pool			
4. Mustang Jackets			
Groin flap, hood stowed, and zipper up			
Enter pool correctly			
Employ groin flap, hood and wrist straps			
Assume huddles			
Exit pool re-stow parts of jacket			
Divide into 2 groups			
Casualties enter water			
Rescuers enter waters - Employ Groin flap, hood and wrist straps			
Swim to casualty dress casualty			
Hook tow casualty 25m			
Exit pool switch places repeat drill			
ADDITIONAL COMMENTS			

A COMPLETE DEBRIEF HAS BEEN CONDUCTED AND THE TRAINEE HAS SEEN THE CONTENT OF THIS ASSESSMENT				
OVERALL ASSESSMENT (CHECK ONE):	**P**		**F**	
PC ADMINISTRATOR:	**DATE**		**SIGNATURE**	
TRAINEE:	**DATE**		**SIGNATURE**	

Note 1: Failure of a CRITICAL item constitutes a failure of this PC.
Note 2: The trainee must achieve 75% of the non-critical items in order to pass this PC.

ANNEX B – TASK LIST

1. The task list includes all of the tasks associated with this qualification, and the outcome of the Train / No-train decisions. If a task is designated as requiring training, the PO where it is covered is indicated. If a task is designated as not requiring training, the justification for that designation is provided.

2. The following table defines some of the criteria used to support a no-train designation in the task list. Other reasons may be used if required.

CRITERIA	DEFINITION
A	**Previously qualified.** Tasks and knowledge already possessed by the student by CAF and/or RCN courses, training and/or experience.
B	**Will receive on future courses.** Tasks and knowledge will be covered as part of other CAF and/or RCN courses and/or training.
C	**Difficulty.** Task is not difficult to learn; formal training is not required.
D	**Importance.** Task is not important; it has no significant impact on mission success.
E	**Frequency.** Task is rarely performed, no formal training is required.
F	**Lack of equipment.** Currently there is no equipment in the CAF inventory to train this task.

Task #	Task Statement	Train / No Train	PO #	Substantiation/Comments
AT0005	Carry out shipboard drill and ceremonial	T	001	
AT0010	Carry out shipboard CBRN protective measures	T	003

Board Objective:

The objective of this Board is to update the current NETP course and realign the training to meet the needs of MARCOM.

Discussions / Decisions:

Day 1 – February 8, 2010

1. The Board commenced at 0830 with introductions. SLt Farmilo gave an introductory brief and all personnel were introduced. Both Seamanship Division and Damage Control Division representatives identified the issues and concerns that exist with the current state of training and the items that require improvement or change, including:

- Fall arrest training (include in NETP or not)
- CBRN qualification extended to 3 years: align training with BMQ.
- C4 mask fit.
- Damage Control equipment refit on HMC ships
- C-7 refresher training on NETP.
- Sig Sauer 9mm initial training on NETP.
- PLARs for pers with sea time.
- S.O.L. issues

2. The Board reviewed the NCMGS (Sea) specification and conducted the Train/No- Train decisions. The tasks included in the following chart were identified as "No-Train", with rationale:

Task	Environmental Requirements	Proficiency Level		T/NT	No Train Rationale
		SEA COMMON	AIR DET		
AT0015	Maintain Departmental Watch and Station Bill	*	*	**NT**	NETP trainees will not be tasked to "maintain" the watch and station bill. The required knowledge will be covered in the appropriate Performance Objective and assessed through OJPR.
AT0020	Apply the Naval Divisional System	*	*	**NT**	Task is strictly knowledge. Covered in BMQ
AT0045	Store ship	*	*	**"NT" - OJPR for AT0025**	NETP trainees receive a safety brief prior to storing ship from the Supply Dept based on their unit SOPs. The required safety knowledge and practices are covered in AT0025.
AT0050	Ammunition ship	*	*	**"NT"- OJPR for AT0025**	NETP trainees receive a safety brief prior to ammunitioning ship from the NWTs based on their unit SOPs. The required safety knowledge and practices are covered in AT0025
AT0061	Act as a Naval Ambassador	*	*	**NT**	Covered in BMQ, a part of the CF Code of Service Discipline, CF military ethos. Units conduct event specific briefs. Knowledge will be covered in AT 0005, BT 0005, AT0040.
AT0062	Apply National and International Law	*	*	**NT**	Brief given by Coxn, information is amplified within unit ROs; Foreign Port and Int'l waters) specific
BT0030	Adjust berthing lines	*		**NT**	NETP trainees will be under constant supervision when performing this task. Personnel required to supervise this task must sit a Board for Senior Duty Watch positions IAW SSOs; Knowledge covered in CT0005.
BT0035	Prepare anchor & cable for emergency letting go	*		**NT**	NETP trainees will be under constant supervision when performing this task. Personnel required to supervise this task must sit a Board for Senior Duty Watch positions IAW SSOs;

					Knowledge covered in CT0005.
BT0045	Carry out naval shore patrols	*	*	**NT**	IAW SSOs, NETP trainees will be under constant supervision when performing this task. Personnel required to supervise this task receive a briefing from the unit Coxn.
CT0015	Rig/strike jack & ensign staffs	*	*	**NT**	Task is Deck dept specific. NETP trainees will be under constant supervision when performing this task The required safety knowledge and practices are covered in AT0025.
CT0025	Secure ship's boats	*		**NT**	Bosn specific task. Content covered in CT005, knowledge for line handling only. The required safety knowledge and practices are covered in AT0025. NETP trainees will be under constant supervision when performing this task. Personnel required to supervise this task must sit a Board for Senior Duty Watch positions IAW SSOs.
CT0035	Rig rat guards	*		**NT**	Content covered in CT0005, knowledge for line handling only. The required safety knowledge and practices are covered in AT0025.
CT0040	Participate in a Replenishment at Sea	*		**NT**	Task is Deck Department specific, NETP trainees will be supervised by qualified Deck pers if participating in a RAS. Content covered in CT0005, knowledge for line handling only. The required safety knowledge and practices are covered in AT0025. Ref: SSOs
CT0045	Participate in Rigging for a Tow	*		**NT**	Task is Deck Department specific, NETP trainees will be supervised by qualified Deck pers if participating in a tow. Content covered in CT0005, knowledge for line handling only. The required safety knowledge and practices are covered in AT0025. Ref: SSOs
DT0005	Prepare ship surfaces	*	*	**NT**	All personnel receive WHMIS training prior to NETP. Brief & training given in unit when req'd. The required safety knowledge and practices are covered in AT0025. Environmental protection knowledge covered in AT 0060. Ref: NEMS

DT0010	Paint ship surfaces	*	*	**NT**	All personnel receive WHMIS training prior to NETP. Brief & training given in unit when req'd. The required safety knowledge and practices are covered in AT0025. Environmental protection
					knowledge covered in AT 0060. Ref: NEMS
DT0015	Clean ship compartments & passageways	*	*	**NT**	Covered in WHMIS and SEMS, AT0025, BMQ.
DT0020	Secure for sea	*	*	**NT**	The required safety knowledge and practices are covered in AT0025. Secure for Sea procedures specified by SSOs and amplified in COTMs.

3. The Board discussed what the aim of the NETP course should be. It was decided that the aim of the course is: “to provide CF personnel with the foundational training required to meet the unique needs of MARCOM in order to effectively perform in the naval environment.”

4. The Board started the Task Analysis scalar process based on the Train/No-Train decisions that were made previously in the day.

Day 2 – February 9, 2010

5. The Board commenced the day with reviewing the ROP from the previous day and accepted as complete.

6. The Board continued work on the scalar. The Board reviewed the tasks AT0015 Maintain the Departmental Watch and Station Bill, AT0020 Apply the Naval Divisional System, CT0040 Participate in a Replenishment at Sea and CT0045 Participate in Rigging for a Tow and decided to include them (with rationale) in the No-Train list above.

7. The Board identified 6 POs:
   a. PO 001 - Perform General Duties in the Naval Environment.
   b. PO 002 - Enforce Ship’s Security.
   c. PO 003 - Execute Damage Control Party Duties.
   d. PO 004 - Execute Fire Fighting Team Duties.
   e. PO 005 - Carry out Shipboard CBRN Protective Measures.
   f. PO 006 - Carry Out Survival Drills.

8. QAO check was completed.

Day 3 – February 10. 2010

9. The board discussed restructuring the POs and combining the current DC, FF and CBRN into one Performance Objective: Perform as a Member of the Damage Control Organization. The current PO structure is as follows:

a. PO 001 – Perform General Duties in the Naval Environment.
b. PO 002 – Perform as a Member of the Force Protection Team.
c. PO 003 – Perform as a Member of the Damage Control Organization.
d. PO 004 – Carry Out Survival Drills.

10. The board discussed the structure of PO 002 and decided that the title should be amended to “Enforce Ship’s Security”. This decision was made based on the fact that “Perform as a Member of the Force Protection Team” is a task subordinate to enforcing security.

11. The board discussed how best to conduct Sea Survival training. It was decided that in order to most realistically simulate the performance of PO 004: Carrying Out Survival Drills, including abandoning a ship in distress, the practical aspect of training should take place in a live sea environment, either at FDU(P) or FDU(A). If not possible, the practical portion of sea survival training may be completed in a pool equipped with the following items:

a. Swimming pool (minimum 25 m in length); and
   (1) 1 m diving platform (minimum) ; and
   (2) 3 m diving platform (recommended).

b. Bronze Cross Qualified Lifeguard (minimum 1).

12. The Board completed Performance Objective 002 – Enforce Ship Security together and then SMEs split into two groups to continue work on the remaining POs specific to their Divisions.

13. The Board made the decision that the term “Force Protection Equipment” will include the ROE card.

14. CPO1 Spinelli from Sea Div visited the Board to relay the strategic guidance from Cdr Hargreaves, Cmdt CFFSE, and Cmdre Lloyd, CCFP for PO 002, Enforce Ship Security and the augmentation of Force Protection content and training for NETP trainees.

15. MS Horne, NBP Instructor accompanied CPO1 Spinelli, to provide input on the addition of Weapons Handling (Sig Sauer and C7), Use of Force and Reality Based Training (CEASS) to NETP training.

16. The board completed writing POs 001, 002 and 003.

Day 4 – February 11, 2010

17. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

18. The board completed Performance Objective 004 - Carry Out Survival Drills.

19. The board commenced work on Annex A – Main References. References regarding Sig Sauer, Force Protection, Use of Force and Damage Control were added.

20. The board completed Annex B – Task List and identified the Train/No-Train tasks and which PO they are trained under.

21. The board discussed removing Lifebuoy Sentry/After Lookout from NETP training and decided that it should remain in the course because the revised (no) Lifebuoy Sentry/After Lookout policy remains a command decision and has not been standardized across MARCOM. The board identified the fact that skill fade is also a concern, that if Lifebuoy Sentry/After Lookout duties are not trained they will be lost.

22. The board identified an outline for an assessment plan.

23. The board discussed the Bomb Threat procedures. Due to changing modern technology and IED techniques, it was decided that the current procedures used by the Bomb Threat organizations are outdated and insufficient. The board recommends a review of the current Bomb Threat Organization and Procedures. As a result of the discussion, new teaching points will be required with respect to, new technology, IED recognition, visual aids for IED recognition, etc… FDU (P) has lesson plans to support this topic.

Day 5 – February 12, 2010

24. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

25. The Board identified learner characteristics of the student population expected on NETP.

26. SLt Farmilo conducted Design/Instructional Analysis brief and the board commenced work on the Instructional Scalar.

27. The board completed a first attempt at the Instructional Scalar. The new Force Protection skill and knowledge content will be added to PO 002 – Enforce Ship Security.

28. The board identified a list of No-Train Knowledge/Skill/Attitude and Other Attributes that are linked to the No-Train tasks identified on Day 1 of this board.

Day 6 – February 15, 2010

29. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

30. The board completed a list of No-Train Knowledge/Skill/Attitude and Other Attributes, identified, with rationale, in the list below:

K/S/A/O Number	Title	No-Train Rationale
AS0010	Donn and Doff CBRN PPE	Content is taught during BMQ training.
AK0030	Customs Regulations	Briefing done by the Coxn when required.
AK0055	Sea Environmental specifications	Not required at the NETP level. There is no task that an NETP trainee will be tasked to perform that requires this knowledge.
AK0110	Store Ship Procedures	Knowledge will be gained through experience once onboard ship.
AK0195	Maritime Forces participation in NATO and UN	Knowledge is not required for NETP trainees to meet the job requirements. Mission specific knowledge. Trainees will be briefed at their unit when knowledge is necessary.
AK0200	Roles and Organization of Maritime Forces at Sea	Knowledge will be gained through operational experience.

AK0220	Emergency Destruction Requirements and Procedures	Departmental responsibility. Not required at NETP level.
AK0235	Shipboard personal hygiene	NETP trainees will be briefed of expectations onboard ship. Experience will be gained through daily duties. Knowledge covered in BMQ.
AK0240	Assistance to Canadian Nationals in Foreign Areas	Knowledge is above the level required by NETP trainees. Mission specific knowledge. Personnel will be briefed at their unit when knowledge is necessary.
AK0245	SUBMISS/ SUBSUNK/ SUBMASH	Knowledge is mission specific.
AK0250	Maritime honours, awards and recognition programs	Knowledge is not required to perform duties aboard ship. This knowledge is required by supervisors. Knowledge is covered in BMQ.
BK0025	Anchor letting go procedures	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
BK0035	Naval shore patrol	NETP trainees do not stand Shore Patrol duties, Shore Patrol are PO2 and above.
BK0085	Boat hailing, challenges and responses	Knowledge is covered as part of QM and FP training aboard ship. Ceremonial aspect not required at the NETP level.
CK0015	Anchoring	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0020	Mooring	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0025	Securing to a buoy	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0030	Jackstay transfers – equipment, procedures and safety	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.

CK0035	Light line transfers – equipment, procedures and safety	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0040	Replenishment at sea – equipment, procedures and safety	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0045	Ship's Boats – equipment, procedures and safety	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0055	Rat guards	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0065	Booms and ladders	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0075	Rigging/striking jack and ensign staffs	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
CK0080	Rigging for tow	Knowledge is Deck Department specific. Required knowledge for NETP trainees will be covered by CK0010 Lines and Fenders.
DK0005	Surface preparation	Knowledge covered in depth aboard ship. NETP trainees will gain experience through daily duties.
DK0010	Surface painting	Knowledge covered in depth aboard ship. NETP trainees will gain experience through daily duties.
DK0020	Cleaning requirements, equipment and procedures	Knowledge covered in depth aboard ship. NETP trainees will gain experience through daily duties. Content also included during BMQ training.
AK0230	Law of Maritime Warfare	Mission specific knowledge. Personnel will be briefed on particular duties and responsibilities when necessary.
AK0185	Maritime Law	Mission specific knowledge. Personnel will be briefed on particular duties and responsibilities when necessary.
AK0205	Procedures for Handling Refugees	Mission specific knowledge. Personnel will be briefed on particular duties and responsibilities

		when necessary.

31. The board continued to sequence the Instructional Scalar. The board organized the four POs into the following EOs:

a. PO 001 – Perform General Duties in the Naval Environment.
   i. EO 001.01 – Enforce Shipboard Safety.
   ii. EO 001.02 – Carry out Shipboard Drill and Ceremonial.
   iii. EO 001.03 – Handle Lines and Fenders
   iv. EO 001.04 – Stand Sea Watches

b. PO 002 – Enforce Ship Security.
   i. EO 002.01 – Perform as a Member of the Force Protection Team.
   ii. EO 002.02 – Protect Jetty.
   iii. EO 002.03 – Conduct Shipboard Bomb Search.

c. PO 003 – Perform as a Member of the Damage Control Organization.
   i. EO 003.01 – Execute Damage Control Party Duties.
   ii. EO 003.02 – Execute Fire Fighting Team Duties.
   iii. EO 003.03 – Carry Out Shipboard CBRN Protective Measures.

d. PO 004 – Carry Out Survival Drills.
   i. EO 004.01 – Respond to Man Overboard Emergencies.
   ii. EO 004.02 – Execute Sea Survival Procedures.

32. The Board members began identifying Teaching Points that will be required for inclusion in the Lesson Specifications.

Day 7 – February 16, 2010

33. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

34. The board continued to sequence the Instructional Scalar.

35. The board discussed what the preferred sequence for instructing PO 003. It was decided that the preferred sequence is DC, CBRN, FF in order to allow time for students to study for the theory PC of CBRN.

36. The DC (Flood Control) teaching points were identified.

37. The board continued to identify teaching points for PO 001 and PO 002. The board discussed building EOs within PO 002 dedicated specifically to initial Sig Sauer P225 9mm training and C7 Naval Qualification Shoot. Further clarification with respect to weapons training requirements has been requested from Sea Training (Pacific).

Day 8 – February 17, 2010

38. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

39. Board members continued to develop teaching points and write the enabling objectives required for the NETP.

40. Sea Training (Pacific) Force Protection/Sonar Op Chief performed a quality assurance check on the teaching points to be included in PO 002. He was satisfied with the training content to be included and level of training that is being designed for the NETP.

41. The board decided that the small arms training should occur first in this PO. Successful completion of small arms training is critical in order for trainees to continue with subsequent Force Protection training. The board decided to sequence PO 002 as follows:

a. EO 002.01 – Operate the C-7;
b. EO 002.02 – Operate the Sig Sauer P225 9mm;
c. EO 002.03 – Perform as a Member of the Force Protection Team;
d. EO 002.04 – Protect Jetty; and
e. EO 002.05 – Conduct Shipboard Bomb Search.

Day 9 – February 18, 2010

42. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

43. Board members continued to develop teaching points and write the enabling objectives required for the NETP.

Day 10 – February 19, 2010

45. The board invited John MacLean from Formation Safety, CPO1 Spinelli and PO1 Shaw from Sea Div to discuss the requirement for including Fall Arrest training on the NETP. The discussion focused on the question, “is NETP the appropriate place to train personnel on Fall Arrest procedures, or is it a trade specific qualification?” The board also considered the following questions:

a. What are the resource requirements for Fall Arrest Training?
b. What instructor qualifications are required?
c. Would Formation Safety deliver the training?
d. Should Sea Div have qualified dedicated instructors for Fall Arrest?
e. Does CFNOS (Sea Div) have adequate resources to support Fall Arrest training on NETP?
f. How is Fall Arrest training currently tracked?
g. What portion of the ship's company could possibly be tasked to work in conditions that require Fall Arrest training?
h. Is Fall Arrest training required on NETP(O)?

Based on the above discussion it was decided that Fall Arrest training is to be included on the NETP. Ref: 3371-4975-1 (DMTE 2-2-3/117456) – August 2007.

46. The board discussed memorandum CFNOS: 4500-1(Stds) – October 2009. QSP AMEND REQUEST NETP (14 FEB 05). The board decided that there is no Task from the NCMGS (Sea) that requires the knowledge identified in the aforementioned memo. The board also discussed the fact that personnel are not usually posted to a submarine upon completion of NETP. The board Chair directed that this QSP change request will not be actioned during this process.

47. The board discussed the Pass/Fail requirements attached to both Sig Sauer 9mm and C-7 training. It was decided that NETP trainees will be required to Pass both weapons qualification in order to successfully continue and complete NETP training. Based on this discussion it was decided that weapons training should occur at the beginning of NETP.

Day 11 – February 22, 2010

48. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

49. The board discussed which knots should be trained on the NETP as part of CS 0010 Tying basic knots, bends and hitches and CK 0085 basic knots, bends and hitches. It was decided that the following knots will be trained as part of the NETP: bowline, clove hitch, round turn and two half hitches, reef knot, figure eight knot, rolling hitch and double sheet bend. It was decided that whippings did not fall under CS 0010 or CK 0085 and that producing whippings is a Deck Department specific skill. Therefore whippings will not be trained on the NETP. Furthermore, it was decided that the knots will be demonstrated by the instructor during training and students will be required to learn the knots individually as homework. Rope work will be assessed summatively as part of the NETP OJPR.

50. Board members continued to develop teaching points and write the enabling objectives required for the NETP.

Day 12 – February 23, 2010

51. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

52. Board members continued to develop teaching points and write the enabling objectives required for the NETP.

53. SMEs from DC Fire cell performed a QA check on the portion of the QSP specific to Fire Fighting training. Overall, they were satisfied with the construct of Initial Fire Fighting training designed for the NETP. They discussed the issue regarding trainees who fail to successfully complete the smoke maze. It was decided that trainees must successfully complete the smoke maze in order to proceed with training. If trainees fail to successfully complete the smoke maze they are to be removed from training and undergo “de-sensitization training” to aid in overcoming their claustrophobia, fears, etc through Formation Health Services.

54. The board began to complete the assessment plan.

Day 13 – February 24, 2010

55. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

56. The board decided that since SHINCOM training is done through self study in the Computer Assisted Learning (CAL) lab, there is no longer a requirement for a dedicated SHINCOM instructor, as identified by the current QSP.

57. The board identified that the CEASS instructor must hold the Reality Based Training qualification. As of yet there is no military qualification attached to RBT. Naval Boarding Party cell currently sends personnel on the SETCAN scenario instructor and certification course as well as the SETCAN role player monitor course. CEASS instructors must be RSO qualified IAW CF Training Safety policies.

58. The board recommends that MARCORD 09-03, Naval Environmental Training Program be reviewed upon completion of this NETP QSP review.

59. The board discussed how to best “modularize” the NETP. It was decided that each PO should have a distinct MITE code. This will facilitate training for personnel who require the NETP to be broken up over a length of time (e.g. Maritime Helicopter

squadron or NAVRES personnel.) It was also decided that all POs must be completed within an 18 month period. The OJPR is to be completed within 6 months of completion of the final PO.

60. The board decided that the Pass/Fail criteria for written PCs should be 70%, with the exception of DC Div which uses a 75% pass mark for written PCs and Fall Arrest training which is 80%.

61. SMEs from DC Flood cell performed a QA check on the portion of the QSP specific to Flood training. Overall, they were satisfied with the construct of Initial Flood Control training designed for the NETP.

62. The board completed chapters 1 and 3.

Day 14 – February 25, 2010

63. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

64. LCdr Kouwenberg from Sea Training Pacific, Force Protection Officer, attended the Board and completed a QA check on the design and content of PO 002, Force Protection. Recommendations were made as to the wording of specific teaching points and guidance was provided as to the conduct and assessment of this portion of training.

65. SMEs from DC CBRN cell performed a QA check on the portion of the QSP specific to CBRN training. Overall, they were satisfied with the construct of CBRN training designed for the NETP. They discussed the issue regarding trainees who fail to pass the C-4 mask fit test. It was decided that trainees may be allowed to continue with training and coordinate a follow up fit test once an appropriate sized mask has be obtained from stores.

66. There are currently no Fire Fighting specific tasks identified in the NCMGS (Sea) Spec. NETP trainees require initial training in the following tasks as identified by DC Div Fire cell:

NCMGS TASK NO.	TASK ELEMENT	T / NT
BT0015	Initiate alarms/emergency pipes • NT because it is trained on NETP and does not require refresher	NT
BT0020	Respond to alarms & emergencies	T
BT0055	Execute firefighting team duties	T
QSPWB T001	Utilize safety equipment	T
QSPWB T002	Utilize water and foam fire fighting equipment	T
QSPWB T003	Utilize portable fire fighting equipment	T
QSPWB T004	Utilize fitted fire fighting equipment	T
QSPWB T005	Conduct duties of a discoverer	T
QSPWB T006	Conduct a search and rescue	T
QSPWB T007	Select appropriate First Aid Fire Extinguisher (FAFE)	T
QSPWB T008	Test fire extinguisher	T
QSPWB T009	Use door and hatch procedures	T
QSPWB T010	Conduct aggressive attack on fire	T
QSPWB T011	Overhaul a fire	T
QSPWB T012	Practice outside extinguisher use	T
QSPWB T013	Check team equipment	T
QSPWB T014	Receive initial brief	T
QSPWB T015	Complete pre-attack preparations	T

QSPWB T016	Identify attack methods	T
QSPWB T017	Select appropriate attack method	T
QSPWB T018	Appraise effectiveness of attack method	T
QSPWB T019	Advance to primary zone	T
QSPWB T020	Employ necessary door/hatch procedure	T
QSPWB T021	Conduct attack team handover	T
QSPWB T022	Apply turnover techniques	T
QSPWB T023	Conduct post fire procedures	T
QSPWB T024	Select search and rescue technique	T
QSPWB T025	Coordinate casualty evacuation	T

These tasks were identified with a “Train” requirement during the Attack Team Leader QSPWB conducted Dec 2009.

Day 15 – February 26, 2010

67. The board commenced the day with reviewing the ROP from the previous day and accepted as complete.

68. DMTE has given the board the following direction: “If the board wishes to re-number and adjust the PO's in current MODs, to reflect a numerical sequence, this would be supported, but as stated earlier, the present structure of each MOD having a MITE Code will remain in effect.” The current NETP structure is:

- MOD 1 Common Indoc - (PO 001, 002, 010) MITE Code 109340

- MOD 2 Common Sea - (PO 003, 007, 008, 009, 012) MITE Code 109341

- MOD 3 Specific Sea - (PO 004, 005, 006, 011) MITE Code 109342

- MOD 4 Force Protection - (PO 013) MITE Code 114522, and;

- MOD 5 OJT - MITE Code 109343.

69. The board discussed the above direction from DMTE. Because the content of the POs has been changed and restructured, new MITE tracking codes are required to reflect this. DMTE MASM will be contacted in order to ensure new MITE codes are created to track the training standard for NETP trainees.

70. SMEs from FSE attended the board to write EO 001.02 – Work Aloft. It was decided that the PC and EC for PO 001 be conducted in simultaneously, in order to minimize student down time and account for appropriate safety precautions. Therefore, 2 periods are allocated for the EC and PC combined. As a result, a full course of 20 NETP trainees will be divided into two groups: one will conduct the EC while the other conducts the written PC and trainees will rotate through as directed by course staff. PO1 Langager was opposed to including Fall Arrest training on the NETP.

Day 16 – March 1, 2010

71. The board commenced the day with reviewing the ROP from the previous day and accepted it as complete.

72. The board discussed the appropriate placement for SHINCOM training. It was decided that it should be included with EO 001.05 – Stand Sea Watches, since this is where trainees will first be introduced to Ship's Internal Communications Systems. This is aligned with the existing QSP.

73. The board continued to build EOs 002.01, 002.02, 002.03, 002.04 and 002.05.

74. The board completed Annex J – Course Timings.

Day 17 – March 2, 2010

75. The board commenced the day with reviewing the ROP from the previous day and accepted it as complete.

76. The board started building Annex E – the NETP OJPR. The board discussed what the appropriate structure should be for the OJPR. The board also discussed whether or not there should be two OJPRs, one for MS and below and a second for PO2 and above. The decision was that only one OJPR package would be created with "N/A for PO2 and above" annotation in the remarks column for signatures not required by personnel of the rank PO2 and above. For example, PO2 and above are not required to obtain a signature for "Perform Cleaning Stations", "Bosnmate at Sea", etc…

77. Also discussed was what the structure should be for signing authority on the OJPR. It was decided that NETP should have a "mentor" assigned to them from within

their own department (of at least one rank above the trainee's) who will assist the NETP trainee in completing the OJPR. Details on who can be an NETP mentor are outlined in Annex E – the NETP OJPR. The mentor may be the signing authority for certain developmental signatures within the OJPR. The final signature for items within the OJPR will be as identified in the package.

Day 18 – March 3, 2010

78. The board commenced the day with reviewing the ROP from the previous day and accepted it as complete.

79. The board continued working on EC and PC checklists.

80. The board attempted to consult the Senior NBP instructor as part of this review. While he could not attend the review proceedings, he was briefed on the Force Protection content and was satisfied with the level of instruction being designed for the NETP.

Day 19 – March 4, 2010

81. The board commenced the day with reviewing the ROP from the previous day and accepted it as complete.

82. The board completed the NETP OJPR. It was decided that NETP trainees should be assigned a mentor from within their own department to assist in completing the OJPR.

83. The board recognizes the fact that the span of rank and military experience of NETP trainees will vary greatly. Therefore, as part of the OJPR, the board has recommended that trainees should be assessed commensurate with their rank, position and trade aboard ship. For example, when challenging the Ship's Environmental Policy signature, the UEO should identify the trade of the NETP trainee and tailor his/her questions to be specific to that trainee. A cook could be asked questions about garborater policies, a Bos'n could be asked about painting policies, Stokers about fuelling, etc…

Day 20 – March 5, 2010

84. The board commenced the day with reviewing the ROP from the previous day and accepted it as complete.

85. The board completed the instructions for the NETP OJPR. It was decided that signing authorities designated by the OJPR package will exercise professional

responsibility when granting signatures to trainees, and that the spirit and intent of this OJPR will therefore be met.

Day 21 – March 8, 2010

86. The board commenced the day with reviewing the ROP from the previous day and accepted it as complete.

87. The board completed a review of the entire document in preparation for an overall review by all SMEs on Wednesday 10 Mar 10.

88. The board recommends that EO 002.02 – Operate the Sig Sauer P225 be intermittently reviewed to ensure continuity and alignment to the NSAT QSP.

Day 22 – March 9, 2010

89. CFFSE QA cell used this day to compile all parts of the QSP document and annexes. As well, CFFSE QA cell performed a QA check on the document.

Day 23 – March 10, 2010

90. All SMEs who attended the board reconvened to review the QSP.

91. The board discussed the No-Train Knowledge item AK0020 History of the Canadian Navy. It was decided that this item should be trained on the NETP. It was decided to incorporate this knowledge as a signature item on the NETP OJPR as a history lecture to be delivered by the unit Cox'n (or delegate). This knowledge will be incorporated into EO 001.03: Carry Out Shipboard Drill and Ceremonial. The board decided that the Naval Museum/HMCS Sackville tour should be kept on the NETP and 4 x 50 min periods will be added to PO 001 for the Museum/Sackville tour.

92. The board chair identified the need for each unit to identify an "NETP coordinator". CFFSE Sea Div will communicate this need to Training Chiefs throughout the Fleet.

This direction is IAW MARCORD 09-28 vol. 1. As well, this direction should be identified in the NETP MARCORD 09-03.

93. The board discussed changing the pass mark for all written PCs on the NETP to 75%, with the exception of PO 001 Part A Fall Arrest which will remain at 80%. The reason for increasing the pass standard to 75% is to reflect the safety aspect of the NETP content. This also puts all POs on an equal level of importance.

94. All SME reviewed the QSP and accepted it as complete. The board adjourned.

Lessons Learned:

The following are the lessons learned from this process:

1. There was no convening order for this QSP review. Therefore, it was left to the SMEs to balance their regular work/instructional duties and this review board. All SMEs made themselves available for as much time as possible during the process. In the future, if CCA's are required to review and amend QSPs following this process, it is recommended that some form of a tasking order be promulgated to ensure personnel are not over tasked and are able to assist as required in the process.

Implementation Plan:

ITEM	DETAIL	OPI	EXPECTED DATE OF COMPLETION
1	Develop MLPs/PPTs/Case Studies, etc, as required (All EOs): • consult existing course content • Franco and Anglo	Sea Div & DC Div Instructors	Dependent on date of Trial session
2	Develop ECs and PCs based on QSP Ch 3, 4 and Annex K - Assessment Plan: • consult existing course content • Franco and Anglo	Sea Div & DC Div Standards/ Instructors	Dependent on date of Trial session
3	Sea Div Cdr endorsement of QSP amendments	Sea Div Cdr	17 Mar 10
4	Brief CFFSE Cmdt. Briefing Note to include: • Content changes from "old QSP" to "new QSP" • Changes to timings • Resource requirements • Funding requirements • Staffing (instructor) requirements • Other pertinent info as required…	Sea Div/CFFSE QA	25 Mar 10

5	CFFSE Cmdt endorsement	CFFSE Cmdt	25 Mar 10
6	Staff QSP amendment request to DMTE	CFFSE QA	2 Apr 10
7	Conduct “Trial” NETP Session. Possible session start date: • 10 May 10 • 24 May 10 • 14 Jun 10 • 28 Jun 10	Sea Div	TBD
8	Conduct “Trial” NETP Evaluation	CCA or designated authority	Concurrent with trial session
9	Complete Trial NETP Evaluation reports and implement changes as required	CCA or designated authority	31 Aug 10

Follow-up Action:

ITEM	ACTION	OPI	DATE COMPLETED
	SEAMANSHIP DIVISION		
1	Board Chair to review and confirm ROP	Board Chair	
2	Review and update MARCORD 09-03	CFFSE Sea Div	
3	Liaise with FSE for pilot course Fall Arrest training.	CFFSE Sea Div	
4	Identify costing requirements for Sea Div Fall Arrest Instructor qualifications	CFFSE Sea Div	
5	Qualify (minimum 1) NETP instructor for Fall Arrest Training	CFFSE Sea Div	

6	Liaise with NBP Cell for “Red Gun”, Simunition, CEASS, etc… requirements for pilot course	CFFSE Sea Div	
7	Liaise with FDU (P) regarding training aids for EO 002.05 - Bomb Threat	CFFSE Sea Div	
8	Contact CFSTG Match and Commission to ensure trainees receive message to draw required kit from stores prior to course start to include: • 2 X NCDs, • Wet Weather Gear, • C4 mask	Sea Div Stds/CFFSE Trg Coord	
9	Review Sea Survival “live sea” training options for PO 004	CFFSE Sea Div	
10	Investigate funding source for Simunition; and • Request increase in Simunition allotment based on Gold Book numbers (if required)	CFFSE Sea Div	
11	Investigate the allotment of DUMMY M.O.B. pyrotechnics for Sea Survival training.	CFFSE Sea Div	
12	Forward new CBRN, Flood and FP tasks to DGPR	Sea Div Stds/CFFSE QA	
NAVAL BOARDING CELL			
13	Identify new Force Protection tasks to be forwarded to DGPR for inclusion in NCMGS (Sea) spec.	NBP Cell Stds	
14	Investigate and Identify appropriate training locations (facility/area) for RBT/CEASS training (e.g. Drill Shed)	NBP Cell Stds	
15	Design and Develop a generic RBT/CEASS training scenario template for inclusion into NETP QSP.	NBP Cell Stds	
DAMAGE CONTROL DIVISION			
16	Info DGPR to change terminology: NBC to CBRN in NCMGS (Sea Spec)	CBRN Cell Stds	
17	Investigate moving C4 mask fit test to BMQ through CDA	CBRN Cell Stds	
18	Identify new DC (CBRN Control) tasks to be forwarded to DGPR for inclusion in NCMGS (Sea) spec.	CBRN Cell Stds	

19	Identify new DC (Flood Control) tasks to be forwarded to DGPR for inclusion in NCMGS (Sea) spec.	Flood Cell Stds	
CFFSE QA CELL			
20	Investigate with DGPR whether Fire Fighting tasks have been included in new NCMGS (Sea) spec.	CFFSE QA	
21	Obtain new MITE codes for NETP	CFFSE QA	
22	Prepare Cover Letter to DMTE	CFFSE QA/Board Chair	
23	Brief Cmdt	CFFSE QA/Board Chair	
24	Prepare L.O.A.s	CFFSE QA/Board Chair	

Other Considerations (if applicable): Nil.

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the QS is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted QS Amendment Form, thus ensuring the QSP has the most relevant information.

Version:	**7.0**
Date: Nov 2024	**Who Initiated Change: NTG HQ**
Requirement for the Amendment: Apply direction given by DNP and capture all the minor changes approved since the last update.	
Description of Changes: - Update to new QSP template; - Removal of OJPR (Mod 5) to align with new NQUAL; - Removal of C7 requirements; - Updating Sig Sauer P225 9mm to Service Pistol (C22); - Adding Jumping Ladder requirements to PO 001 and EO 001.04; - Adding Rescue chute and FELB to reflect AOPV and JSS platform to PO 004 and EO 004.02	
Change Tracking number: 2024-196	
Trg Mgr: PO1 Nicolas Ferraro	

COURSE HISTORY

This annex is to record course history issues such as explanations of amendments, pertinent findings, trends, resource problems and modifications. Focus should be given to both excellent and questionable issues of the course. Capturing important course history information is a useful managerial tool for amendment considerations by future course developers.

Note: This annex shall NOT be deleted. This annex must be annotated with every update / modification to this QSP. This is in addition to making the appropriate entry in the Record of Amendments table. Detail as to the nature and reasons for amendments are to be provided here.

COMMENTS

Sept/Oct 2000

- QSP writing board conducted in Halifax
- To investigate updating and combining all training related to the maritime environment into a simpler delivery mechanism to be known as the NETP
- Intended to be successor of OSQ/AB, OSQ/AN, OSUT and ADSST programme
- Each were separate courses, aimed at one particular audience, exclusive to all others
- Modularization, mix of classroom/OJT was desired
- Board conducted a detailed Task and Training Needs Analysis
- Received input from MARLANT, MARPAC, MAC(A) and NAVRESHQ
- Returned a recommendation for the formation of two new courses named NEQ-Basic and Intermediate and NEQ-Advanced

Jan 2001

- DNPP 2 (now DMTE 2) summarized Boards' findings, clarified its position and solicited further input from Formation N1 staffs and MAC (A) as to the potential for further reduction to a single course with tailored OJT requirements.
- Numerous discussions/Emails ensued which culminated in the submission of a 3rd QSP for an NETP Basic-Intermediate Air course.

Oct 2001

- QSP Working group at DMTE. Chaired by LCdr Costello. Reps from CFFSE, CFNOS, NAVRESHQ, 1 CAD MAC (406 SQN), D Mar Pers
- Mandate: to further consider the evolution of NETP
- To further investigate the potential for combination of environmental training into a single formal shore course that meets the requirements of all
- Modular structure specified- from common to hard-sea specific, taking into account

limited training availability of AIRDET personnel
- To agree on PO's, divide course into modules, design OJPR's and agree on single
- MARCORD for NETP
- Developed requirements of sea-going vs. shore-based NETP
- Developed requirements of maritime vs. aircrew NETP
- Accepted as valid the bulk of previously developed PO's
- ROP released in Feb 02

April 2002

- QSP Board- developed NETP chapters 3 and 4; 1 Oct 2002: date NETP QSP promulgated;

13 Nov 2002

- Letter from DMTE governing Implementation

Jan-March 2003

- Pilot courses run at CFNOS/CFFSE

May 2003

- Pilot course assessments sent to DMTE
- NETP found to be workable and sufficiently comprehensive by CFNOS and CFFSE
- Some PO's too long, some PO's too short; matrix provided; recommended module 3 be reduced by one day
- Some students arriving not STL part 1 qualified
- Questioned whether STL part 2 was appropriate standard for NETP FP Qualification Shoot
- Summer 03- need for follow-up meeting confirmed
- September 03 – CDR Gijzen (DMTE 2) states "strategic" direction is for NETP to be directed toward regular force. May be supplemented with MCDV training.

Feb 2004

- Message from DMTE- Policy and Administration Update
- Provided direction re: distributed learning/delivery of Module 1 to Reservists at NRD's
- Direction on Module 4 training (FP) for Reserves
- Provided clarification of STL II failure policy

April 2004

- CFNOS, CFFSE meet at DMTE to discuss NETP
- Discussed returning to two environmental core courses- one for LS/below, one for
- MS/above. Idea later abandoned
- Discussed delivery of Module 1 by CBT- idea later abandoned (too labour intensive relative to training benefit; idea not supported by NAVRESHQ as it would shorten paid training days for Reservists)
- Pressure from NAVRESHQ to shorten module lengths to fit with C-OJT scheme
- Part task trainer discussed- closed
- Naval qualification shoot will replace STL part 2
- Mask fitting for CHEMOX
- Discussion of OJPR – more specific direction of what is required of trainee
- OJPR sign-off authorities amended

Nov 2004

- QSP Review Board held in Esquimalt.

8 February – 11 March 2010

- QSP Review Board held in Esquimalt.
- Key issues addressed:
    - Review course length.
    - Improve Force Protection training on NETP.
    - Add Sig Sauer P225 IWT to NETP.
    - Review requirement for C7 training on NETP.
    - Update DC training to include Draeger equipment training.
    - Move simple content to the OJPR (e.g. cleaning stations, storing ship, painting ship, etc).
    - Fall arrest training to be included in NETP or not.
    - CBRN qualification extended to 3 years: align training with BMQ.
    - C4 mask fit.
    - Damage Control equipment re-fit on HMC ships.
    - PLARs for personnel with sea time.
    - S.O.L. issues.
    - Alignment of NETP and NETP(O).

- See Annex C – ROP for further detail on discussions and decisions.
- “Trial” session of redesigned NETP tentatively scheduled for May/June 2010.

30 January 2012

- Tasks in NETP QSP updated to align with tasks in NCMGS SER (17 Jan 2012).
- Secretarial updates to reflect CFFSE CMDT as approving authority for Ch 1 and 2.

March 2013

- Two – Tiered NETP created
- Rewording to CH 1 for DC course loading (IOT facilitate 1 or 2 extra pers in DC training)
- Inclusion of Fall Arrest MITE ID

MARPAC-#250167-v1 NETP_QSP_Change

MARPAC-#256817-v1-CFFSE_QA_-_QSP_

MARPAC-#252661-v1-QSP_Change_Requ

15 January 2016

OJPR updated to reflect BMNQ signing authorities and French translation. (Request: RDIMS 446147, approval RDIMS 474863)

MARPAC-#446147-v2-QSP_Change_Req_

30 January 2017

Version control error Identified. Document amended to include changes which should have been reflected as V3.1. New document re-numbered to V5.0

TRAINING PLAN ANNEXES

ANNEX E – RESOURCES, EQUIPMENT, SUPPLIES, AND ANCILLARIES

1. The following resources, equipment, supplies, and other elements are required in support of training. Resources are described in terms of formed organizations and are to arrive equipped with all personnel, vehicles, weapons, communications, and ancillary equipment required for conduct and integral support of operations described in the POs.

TRAINING RESOURCES	NO. OF DAYS
Associated equipment for fall arrest training	0.5 days
2 x 5 point safety harness	0.5 days
Lineman's belt	0.5 days
CEASS converted weapons	5.5 days

2. Facilities/Trainers

ANNEX G – SUGGESTED SEQUENCING AND TIMINGS

1. This annex is to be used to properly schedule all required classrooms, trainers, ships, personnel, etc. for the duration of the course. Admin and PT periods are accounted for IAW NTORD 4500-22 Annex B (QSP Instructions).

2. The tables are completed in the preferred sequence for lessons and resources. Special instructions to schedulers shall be included as "Notes" following the applicable PO or Module.

3. The table below is available to use as a template for calculations.

Tier One – NETP Course:

ITEM	50 min periods	Days (8 pds / day)
Actual Training Days (ATT)	**142.0**	**18.0 days**
Base Administrative Time (BAT)	**2.0**	**0.25**
Training Administrative Time (TAT)	**5.0**	**0.625**
Training Travel Time (TTT)	**0.0**	**0.0**
PT **Note: minimal PT time is scheduled since CEASS, DC and Sea Survival training are considered as PT.**	**1.0**	**0.125**
Course Duration (total training days)	**150.0 periods**	**19 days**

MARPAC RDIMS #1495961
Chap 1 & 2 approved 02-12-2024
Chap 3 & 4 approved DD MM YYYY

4. Duration Calculation for each Performance Objective is indicated below:

a. PO 001: Perform General Duties in the Naval Environment

Actual Training Days (ATT)	**2.675 days**
Base Administrative Time (BAT)	**0 x 50 min period**
Training Administration Time (TAT)	**2.0 x 50 min period**
Training Travel Time (TTT)	**0 x 50 min periods**
PT	**1.0 x 50 min periods**
PO 001 Duration (total training days)	**3.0 days**

b. PO 002: Perform as a Member of the Force Protection Team

Actual Training Days (ATT)	**6.0 days**
PO 002 Duration (total training days)	**6.0 days**

c. PO 003: Perform as a Member of the Damage Control Organization

(1) DC Division is responsible for scheduling the sequencing of PO 003. It is necessary to instruct EO 003.01 – Describe shipboard DC organization and markings first, as this EO provides foundational knowledge and skills to trainees that is applicable to all

subsequent EOs in PO 003.

(2) Once EO 003.01 is instructed, the remaining EOs may be delivered in any sequence, so long as EO 003.03 - Carry out Shipboard CBRN protective measures is not taught last. This will facilitate scheduling of the written PC (PC 003 Part C) and any required re-writes.

Actual Training Days (ATT)	**7.8125 days**
DC Administrative Time (TAT)	**1.5 x 50 min period**
PO 003 Duration (total training days)	**8.0 days**

d. PO 004 Carry Out Sea Survival Drills

Actual Training Days (ATT)	**1.375 days**
Base Administrative Time (BAT)	**2.0 x 50 min period**
Training Administration Time (TAT)	**3.0 x 50 min periods**
Training Travel Time (TTT)	**0 x 50 min periods**
PT	**0 x 50 min periods**

PO 004 Duration (total training days)	**2.0 days**

Tier Two – Basic Ship Safety Course:

The Basic Ship Safety course comprises of NETP Performance Objectives: 001 (no ATT), 003, and 004. Course duration is calculated in accordance with MARCORD 9-30:

ITEM	**50 min periods**	**Days (8 pds / day)**
Actual Training Days (ATT)	75	9.37
Base Administrative Time (BAT)	2	0.25
Training Administrative Time (TAT)	4.5	0.562
Training Travel Time (TTT)	0	0.0
PT Note: minimal PT time is scheduled since DC and Sea Survival training are considered as PT.	0	0.0
Course Duration (total training days)	**81.5 Periods**	**10 Days**

5. Duration Calculation for each Performance Objective is indicated below:

a. PO 001: Perform General Duties in the Naval Environment

Basic Ship Safety – Reading Package	N/A
Basic Ship Safety - ATT (PC 001 issued prior to commencement of PO 003)	NIL
PO 001 Duration (total training days)	**0**

b. PO 003: Perform aas a Member of the Damage Control Organization

Actual Training Days (ATT)	7.8125 days
DC Administrative Time (TAT)	1.5 x 50 min period
PO 003 Duration (total training days)	**8.0 days**

c. PO 004: Carry Out Sea Survival Drills

Actual Training Days (ATT)	1.375 days
Base Administrative Time (BAT)	2.0 x 50 min period
Training Administration Time (TAT)	3.0 x 50 min periods

Training Travel Time (TTT)	0 x 50 min periods
PT	0 x 50 min periods
PO 004 Duration (total training days)	**2.0 days**

		Number of 50 min periods		
PO/EO	**OBJECTIVE (EO / PO Title)**	**EO**	**EC**	**PC**
EO 001.01	Enforce Shipboard Safety	2.0		
	Ship's Tour	3.0		
EO 001.02	Work Aloft Using a Fall Arrest Harness	3.0	1.0	1.0
EO 001.03	Carry Out Shipboard Drill and Ceremonial	2.0

ANNEX H – ASSESSMENT PLAN

PO/EO	PC/EC	PURPOSE	HOW	TIME	P/F CRITERIA	IMPACT OF FAILURE
EO 001.01	EC 001.01	To assess the student's ability to enforce shipboard safety	**Formative:** End of lesson confirmations, including instructor review, fill in the blank worksheets and homework assignments. **Summative:** Assessed as part of PC 001 Part B on NETP OJPR.	As required for HW	Trainee must complete homework assignments	Student Debrief Remedial training/counselling as required.
EO 001.02	EC 001.02	To assess the student's ability to work aloft using a fall arrest harness	**Formative:** End of lesson confirmations, including instructor review, homework assignments. Practical: confidence test. **Summative:** Assessed as part of PC 001 Part A.	As required for HW **Practical:** harness confidence test (approximately 5 minutes is required per trainee) 2 x 50 min periods	Trainee must complete homework assignments Practical: IAW EC 001.02 checklist. Trainee must observe all safety precautions and procedures IAW instructor direction.	Student Debrief Remedial training/counselling as required.
EO 001.03	EC 003.01	To assess the student's ability to carry out shipboard drill and ceremonial	**Formative:** End of lesson confirmations, including instructor review, homework assignments. **Summative:** Assessed as part of PC 001 Part B on NETP OJPR.	As required for HW	Trainee must complete homework assignments	Student Debrief Remedial training/counselling as required.

PO/EO	PC/EC	PURPOSE	HOW	TIME	P/F CRITERIA	IMPACT OF FAILURE
EO 001.04	EC 001.04	To assess the student's ability to handle lines and fenders	**Formative:** End of lesson confirmations, including instructor review, homework assignments. **Summative:** Assessed as part of PC 001 Part B on NETP OJPR.	As required for HW	Trainee must complete homework assignments	Student Debrief Remedial training/counselling as required.
EO 001.05	EC 001.05	To assess the student's ability to stand sea watches	**Formative:** End of lesson confirmations, including instructor review, homework assignments and a SHINCOM practical exercise (CBT lab). **Summative:** Assessed as part of PC 001 Part B on NETP OJPR.	As required for HW	Trainee must complete homework assignments and SHINCOM tutorial	Student Debrief Remedial training/counselling as required.
PO 001	PC 001 Part A	To assess the student's ability to perform general duties in a naval environment.	**PC 001 Part A (written):** to assess trainee knowledge related to working aloft using a fall arrest harness.	PC 001 Part A (written): to be administered in conjunction with EC 001.02. 1 x 50 min period	Trainees must achieve 80% in order to pass PC 001Part A.	Pass = Continue with training; 1st fail = supplemental PC; 2nd failure = TRB IAW MARCORD 9-60.
	PC 001 Part B		**PC 001 Part B:** Assessed as part of NETP OJPR.	IAW OJPR	IAW OJPR	
EO 002.01	EC 002.01	To assess the student's ability to operate the C7	**Formative:** End of lesson confirmations, including instructor review. **Summative:** C7 WHT and PWT Assessed as part of PC 002 Part A.	As required for HW	Trainee must complete homework assignments	Student Debrief Remedial training/counselling as required.

PO/EO	PC/EC	PURPOSE	HOW	TIME	P/F CRITERIA	IMPACT OF FAILURE
EO 002.02	EC 002.02	To assess the student's ability to operate the Sig Sauer P225	**Formative:** End of lesson confirmations, including instructor review, **Summative:** Sig Sauer WHT and PWT assessed as part of PC 002 Part B.	As required for HW	Trainee must complete homework assignments	Student Debrief Remedial training/counselling as required.
EO 002.03	EC 002.03	To assess the student's ability to perform as a member of the force protection team	**Formative:** End of lesson confirmations, including instructor review and homework assignments. **Summative:** Assessed as part of PC 002 Part C and on NETP OJPR.	As required for HW	Trainee must complete homework assignments	Student Debrief Remedial training/counselling as required.
EO 002.04	EC 002.04	To assess the student's ability to protect the jetty	**Formative:** End of lesson confirmations, including instructor review, homework assignments and practical CEASS scenarios. **Summative:** Assessed as part of PC 002 Part D on NETP OJPR.	As required for HW **CEASS scenarios:** 8 x 50 min periods.	Trainee must complete homework assignments. Scenarios: IAW EC 002.04 checklist. Trainee must observe all safety precautions and procedures IAW instructor direction	Student Debrief Remedial training/counselling as required.
EO 002.05	EC 002.05	To assess the student's ability to conduct shipboard	**Formative:** End of lesson confirmations, including instructor review, homework assignments and a practical bomb search scenario.	As required for HW **Bomb Search scenario:**	Trainee must complete homework assignments. Scenario: IAW EC	Student Debrief Remedial training/counselling as required.

PO/EO	PC/EC	PURPOSE	HOW	TIME	P/F CRITERIA	IMPACT OF FAILURE
		bomb searches	**Summative:** Assessed as part of PC 002 Part D on NETP OJPR.	2 x 50 min periods	002.05 checklist.	
PO 002	PC 002 Part A	To assess the student's ability to enforce ship's security	**PC 002 Part A:** C7 WHT and PWT	1 x 50 min pd	IAW PC 002 Part A PC Checklist	Pass = Continue with training; 1st fail = supplemental PC; 2nd failure = TRB IAW MARCORD 9-60.
	PC 002 Part B		**PC 002 Part B:** Sig Sauer WHT and PWT	1 x 50 min pd	IAW PC 002 Part B PC Checklist	
	PC 002 Part C		**PC 002 Part C**: (written): to assess the trainee's knowledge of Rules of Engagement & Use of Force.	1 x 50 min pd	Pass = 75%	
	PC 002 Part D		**PC 002 Part D:** Assessed as part of NETP OJPR.	IAW OJPR	IAW OJPR	
EO 003.01	EC 003.01	To assess the student's ability to describe the shipboard damage control organization and markings.	**Formative:** Assessed thorough HW assignments, end of lesson confirmation questions, fill in the blank worksheets and practical DC exercises. **Summative:** Assessed as part of PC 003 Parts A through E.	As required for HW	Trainee must complete homework assignments.	Student Debrief Remedial training as required on an individual basis.
EO 003.02	EC 003.02	To assess the student's ability to execute Damage Control party duties	**Formative:** Assessed thorough HW assignments, end of lesson confirmation questions, fill in the blank worksheets and practical DC exercises. **Summative:**	As required for HW **Practical DC exercises:** 3.5 x 50 min periods	Trainee must complete homework assignments. Member must observe all safety precautions and procedures IAW	Student Debrief Remedial training as required on an individual basis.

PO/EO	PC/EC	PURPOSE	HOW	TIME	P/F CRITERIA	IMPACT OF FAILURE
			Assessed as part of PC 003 Part A and B.		instructor direction.	
EO 003.03	EC 003.03	To assess the student's ability to carry out CBRN shipboard protective measures	**Formative:** Assessed through end of lesson confirmation questions and homework and the C-4 mask fit test **Summative:** Assessed as part of PC 003 Part C.	As required for HW **Fit Test:** 1.5 x 50 min periods	Trainee must complete homework assignments.	Student Debrief Remedial training/counselling as required. Trainee's unit to reschedule fit test if incomplete.
EO 003.04	EC 003.04	To assess the student's ability to execute fire fighting team duties.	**Formative:** Assessed thorough HW assignments, end of lesson confirmation questions and practical FF exercises. **Summative:** Assessed as part of PC 003 Part D and E.	As required for HW **Practical FF exercises:** 3.5 x 50 min periods	Trainee must complete homework assignments. Trainee must observe all safety precautions and procedures IAW instructor direction. Trainee must successfully navigate the Smoke Maze in order to continue with training.	Student Debrief Remedial training/counselling as required. Failure to complete the Smoke Maze will result in TRB IAW MARCORD 9-60.

ANNEX J – ON JOB PERFORMANCE RECORD (OJPR)

(Certificate of Qualification)

Version	Revision Date	Remarks
OJPR Version 1.0	DD / MM/ YYYY	New OJPR

Name and Initials	Rank	Service Number

Date Training Started	DD MMM YYYY
Date of Completion	DD MMM YYYY

THE OJPR MUST BE COMPLETED IN ACCORDANCE WITH THE INSTRUCTIONS BELOW. INCORRECT OR INCOMPLETE OJPR WILL BE RETURNED FOR RE-SUBMISSION.

INSTRUCTIONS

1. One copy of this OJPR, hereinafter referred to as the master copy, shall be made up for each individual beginning OJT. It shall be kept and maintained by the supervisor. The Training Establishment (TE) shall make a duplicate copy for retention by the trainee for the purpose of recording and reviewing individual progress. The TE for the OJPR must maintain Training Tracker fields as outlined in Monitor Mass.

2. As the trainee completes each Performance or Enabling Check to the required standard, IAW the associated checklist in ANNEX I, the Training PO or Officer will date and sign the applicable item on the master and duplicate copies of the OJPR sheet and inform the individual of the action taken.

3. It may not be possible to conduct OJT for some POs if, for example, the necessary equipment is not fitted on a ship, is not on issue to the unit, or is otherwise unavailable. If the training PO or Officer encounters any of these issues they are directed to contact Standards at the appropriate TE for guidance.

4. If an individual demonstrates the ability to perform additional duties not specified in this QSP, an appropriate entry shall be made under "Additional Duties" at the end of the OJPR.

PROGRESS REVIEW

5. Progress review shall be carried out quarterly by the Divisional Officer and Section Head (NCMs) or Training Officer (Officers).

Example OJPR record:

PO/EO	Description	Remarks	Rank/Name/ Signature	Date	OPI and Unit
PC/EC XXX.XX				DD/MM/YYYY	

OJPR Reviewed By OJT Supervisor (Rank, Position, Name)	Signature	Date
Section Head (NCMs) or HOD (Officers)		

TRAINING COMPLETION CERTIFICATE

Date training completed:	
Div Officer (NCMs) or CO (Officers)	Date

CERTIFICATION OF QUALIFICATION

I certify that _____ has completed the OJT to the standards stated in the Name of QSP.

TE Cmdt/CO	Date

ANNEX K – TT PLAN

EO	COA 1 TEL Delivery	COA 2 Interim Delivery	**Impact if TEL not implemented** - Realized benefits - E/W Coast Delta

Advisor				

Day #	Details	Action
	The following information on target population was compiled during the initial steps of the TPWB to give context for design and development: (rank, experience, entry level education, etc.).	
1		
2		

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the TP is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted TP Amendment Form, thus ensuring the QSP has the most relevant information.

ANNEX M – ACRONYMS AND ABBREVIATIONS

1. This annex is to be utilized only to identify uncommon abbreviations used within this QSP.

ACRONYM / ABBREVIATION	TERM / DEFINITION
AIT	Advanced Instructional Techniques
APS	Access Point Sentry
BIT	Basic Instructional Techniques
BM	Boatswain Mate (Bosnmate)
CAL	Computer Assisted Learning
CBRN	Chemical Biological Radiological Nuclear
CEASS	Close Engagement Ammunition Simulation System
CFFSE	Canadian Forces Fleet School Esquimalt
CFITES	Canadian Forces Individual Training and Education System
CFNOS	Canadian Forces Naval Operations School
DC	Damage Control
DCTF	Damage Control Training Facility
FF	Fire Fighting
FP	Force Protection
FSO	Fleet Formation Standing Orders
HDLJ	Hazardous Duty Life Jacket
IED	Improvised Explosive Device
IWT	Initial Weapons Training
JS	Jetty Sentry
MARCOM	Maritime Command
MARCORD	Maritime Command Orders
NBCD	Nuclear, Biological and Chemical Defence

NCMGS	Non-Commissioned Member General Specification
NQS	Naval Qualification Shoot
OIC	Officer In Charge
PFD	Personal Flotation Device
PML	Personal Marker Light
PPE	Personal Protection Equipment
QM	Quarter Master
RBT	Reality Based Training
RIB	Rigid Inflatable Boat (also referred to as RHIB)
ROE	Rules of Engagement
RPPA	Respiratory Protection Policy Administrator
RSO	Range Safety Officer
SAS	Ship Abandonment Suit
SCBA	Self Contained Breathing Apparatus
SEMS	Ship’s Environmental Management System
SME	Subject Matter Expert
SSOs	Ship’s Standing Orders
UDS	Upper Deck Sentry
UoF	Use of Force
