QUALIFICATION STANDARD AND PLAN

Naval Communicator (NAV COMM) 00299

Signal Light Operator

MITE ID –123432

MARPAC RDIMS# 1378832
CO NTDC(A) Approval – 18/12/2020
CNPTG Approval – 08/08/2023
Version No: 3.1
Mite# 123432

RECORD OF AMENDMENTS

1. The Training Authority (TA) designated for this qualification is the Commander Naval Personnel and Training Group (CNPTG). Naval Training Development Centre Atlantic (NTDC(A)) is the designated development centre responsible for the maintenance of training. Amendments to Performance Objectives (POs) are to be requested through NTDC(A) and approved by CNPTG. Amendments to Lesson Guidance (LG) are to be approved by the Commanding Officer (CO) of NTDC(A).

2. Qualification Standard and Plan (QSP) versions with a 1 preceding the decimal indicate legacy 4 Chapter documents. QSP versions with a 2 preceding the decimal indicate Firefly 2 Chapter documents. QSP versions with a 3 preceding the decimal indicate 3 Chapter documents. Versions with a number followed by a bracketed number indicate a stray from this nomenclature. The number in brackets indicates the corrected version number.

Version Number	Amendment Type	Approval Date	Authority
3.0	QSP Approval	8 Aug 2023	CNTG
3.1	Pre-req change. Removed Occupational Function Point (OFP) as pre-course requirement.	10 May 2024	CNTG

FOREWORD

1. This training is based on the specification found at Director Personnel Generation Requirements (DPGR) website: **http://cmp-cpm.mil.ca/en/support/military-personnel/dpgr-index.page**.

2. A trainee will be granted the National Qualification (NQual) XXXX when the standards listed in all POs have been met.

3. A trainee will be granted the Military Individual Training and Education (MITE) identification (ID) 123432 when standards listed in all POs have been met.

4. The designated TEs for this training include all NFSs within NPTG.

MARPAC RDIMS# 1378832
CO NTDC(A) Approval – 18/12/2020
CNPTG Approval – 08/08/2023
Version No: 3.1

CHAPTER 1: TRAINING MANAGEMENT DETAILS

MARPAC RDIMS# 1378832
CO NTDC(A) Approval – 18/12/2020
CNPTG Approval – 08/08/2023
Version No: 3.1
Mite# 123432

AIM

1. The aim of this QSP is to establish the requirements and training for the Signal Light Operator. This QSP is designed to assist NTDC(A) in developing, NFSs in conducting and evaluating, and NPTG in validating the training.

COURSE DURATION

2. Course duration is calculated in accordance with (IAW) Naval Personnel and Training Order (NPTORD) 4500-22 Annex B Table 3.1. Partial days are rounded up. For this course, a period of instruction is 50 minutes in duration and each day has 8 instructional periods. The course duration calculation is based on maximum load.

Course Duration Calculation		
Allocation of Actual Training Time (ATT)	Periods	Days
Lesson Guidance (LG)	34	5
Enabling Checks (ECs)	4	1
Performance Checks (PCs)	8	1
ATT SUB TOTAL:	**46**	**7**
Allocation of BAT, TAT, TTT and PT	Periods	Days
Base Administrative Time (BAT)	1	
Training Administrative Time (TAT)	1	
Training Travel Time (TTT)	0	
Physical Fitness (PT)	3	
BAT, TAT, TTT, PT SUB TOTAL:	**5**	**1**
(ATT+BAT+TTT+TAT+PT) **TOTAL:** 400 minutes	**51**	**8**

REQUIRED COURSE STAFFING

3. The following personnel, including guest lecturers, are required to conduct this training:

Position	Rank	Quantity	Qualification(s)	Security Requirement(s)	PO/EO/LG
Course Instructor	S1 or above	1	QL5A Qualified	Enhanced Reliability	All
Course Director	MS or above	1	PLQ & QL5B Qualified	Enhanced Reliability	All
Senior Instructor	PO1	1	QL6B Qualified	Enhanced Reliability	All

MARPAC RDIMS# 1378832
CO NTDC(A) Approval – 18/12/2020
CNPTG Approval – 08/08/2023
Version No: 3.1
Mite# 123432

COURSE CAPACITY

4. Planning for the conduct of training is based on availability of resources; course capacities are as follows:

a. Maximum – 12;

b. Minimum – 4; and

c. Optimum – 8.

PREREQUISITES

5. To be selected for this course, the loading authority must ensure that trainees have the following prerequisites:

a. Morse Code Signal Light Operator Placement test (MITE 123431).
   1) Candidates are to complete DLN course Signal Light Operator Placement Test;
   2) Trainees must achieve a passing grade of 80% or higher; and
   3) Signal Light Operator Placement Test shall be complete no earlier than 90 days prior to course commencement and no later than 30 days prior to course commencement.

PRIOR LEARNING ASSESSMENT AND RECOGNITION

6. Prior Learning Assessment and Recognition (PLARs) shall be conducted IAW Naval Order (NAVORD) 4500-2, Defence Administrative Orders and Directives (DAOD) 5031-1, and Canadian Forces Individual Training and Education System (CFITES) Volume (Vol) 12.

SPECIAL INSTRUCTIONS

7. NAVRES will be allocated 25 percent of course seats. Personnel to be confirmed 30 calendar days prior to course start date, or allocated seats will be redistributed to the Training Manager.

CHAPTER 2: PERFORMANCE OBJECTIVES & LESSON GUIDANCE

MARPAC RDIMS# 1378832
CO NTDC(A) Approval – 18/12/2020
CNPTG Approval – 08/08/2023
Version No: 3.1
Mite# 123432

PO 001 – CONDUCT DUTIES OF A SIGNAL LIGHT OPERATOR

1. **Performance**: Conduct Duties of a Signal Light Operator.

2. **Conditions**:

   a. Given:

      (1) References; and
      (2) Signal Light.

   b. Denied: Nil.

   c. Environment:

      (1) Day or night; and
      (2) Alongside or at sea.

3. **Standard**: The Signal Light Operator shall Conduct Duties of a Signal Light Operator by Transmitting Tactical Information by Flashing Light (AT0040) and Receiving Tactical Information by Flashing Light (AT0050) by:

   a. Adhering to Visual Signaling Theory by:

      (1) Utilizing Visual Call Signs;
      (2) Utilizing International Call Signs;
      (3) Employing OPSIGS;
      (4) Employing Prosigns; and
      (5) Utilizing INTERCO via Visual Means.

   b. Conducting an Exchange of Identities by:

      (1) Utilizing Double Flash Procedure, and
      (2) Exchanging Identities.

   c. Conduct Methods of Flashing Light to include:

      (1) Directional/Non- Directional Flashing Light;
      (2) Immediate Executive Method; and
      (3) Delayed Executive Method.

   d. Conducting Flashing Light Signal Supplements by:

      (1) Conducting Signal Supplements to include:

MARPAC RDIMS# 1378832

EO 001.01 – ADHERE TO VISUAL SIGNALLING THEORY
LG 001.01.01 – ADHERE TO VISUAL SIGNALLING THEORY

LG 001.01.01 – Adhere to Visual Signaling Theory		
Location Conditions		**Instructional Sequence**
Unclassified Classroom		Beginning of course
Time	**Classification**	**Instructor**
350 minutes	Unclassified	S1 Nav Comm or above
Learning Objectives		**Instructional Method(s)**
1) Utilize Visual Call Signs 2) Utilize International Call Signs 3) Employ OPSIGS 4) Employ PROSIGNS 5) Utilize INTERCO via Visual means		1) Guided Discussion 2) Quiz Activity
Scenario	As a Signal Light Operator onboard HMCS OTTAWA, you will be required to adhere to visual signaling theory in order to practice proper light signaling technique.	
Activity Steps	1) Trainees are given ACP 130, ACP 131 and INTERCO 2) Instructors are to have trainees read: a. ACP 130 Art. 102 - Visual Operators b. ACP 130 Art. 201 – 207 - Uses/Restrictions and transmission of Visual Call Signs c. ACP 130 Art. 209 – 210 – International Call Signs d. ACP 130 Art. 216 – Single letter type indicators 3) Instructor is to lead a guided discussion on the material covered above, generalizing concepts and answering any questions trainees may have on the read content. 4) Instructor is to have trainees read: a. ACP 130 Art. 302-303 Prosigns (Ensure trainees are aware descriptions of Prosigns found in Art. 304 – 344 b. ACP 130 Art. 301 OPSIGS c. ACP 131 Art. 106 – 118 – OPSIG instructions d. Instructor is to note to students that common OPSIGS pertaining to flashing light are found in ACP 131 pg. 2-50 to 2-52 (ZJ(X) OPSIGS) 5) Instructor is to have trainees read INTERCO Chapter 1 Section 6 – Flashing Light Signaling 6) Instructor is to conduct a quiz activity with the class. Trainees will be grouped up into pairs. Each pair will have one member searching through references, the other will be the member answering with found reference. Instructor will present an OPSIG, Prosigns or definition of one of the two to the class. First pair to find

EO 001.02 – CONDUCT AN EXCHANGE OF IDENTITIES
LG 001.02.01 – CONDUCT AN EXCHANGE OF IDENTITIES

LG 001.02.01 – Conduct an Exchange of Identities		
Location Conditions		**Instructional Sequence**
Unclassified Classroom		After EO 001.01
Time	**Classification**	**Instructor**
250 minutes	Unclassified	S1 Nav Comm or above
Learning Objectives		**Instructional Method(s)**
1) Double Flash Procedure 2) Exchanging Identities		1) Guided Discussion 2) Independent Study 3) Fishbowl
Scenario	As a signal light operator onboard HMCS OTTAWA you will be required to conduct an exchange of identities.	
Activity Steps	1) Instructor is to lead a guided discussion, asking trainees about their experiences with double flash procedures. 2) Trainees shall be given ACP 130 and ACP 113. 3) Instructor to have trainees read ACP 130 Art. 607(C). Upon completion, instructor is to provide students with 20211014-U-NTDC(A)-Signal_Light_Operator-EO_001.02-Double_Flash_Procedure.docx handout. 4) Instructor to demonstrate Double Flash procedures. 5) Trainees to be split into groups of two or three. Trainees are to be given a sample message. Each trainee will be responsible to send one phrase from the sample message. Trainees to conduct this exercise 5 times per student (ten times per pair). 6) Instructor to lead guided discussion outlining how units are to exchange identities. 7) Trainees to read ACP 130 Art. 607 and Art 604. 8) Each trainee is to be assigned a unit. Using ACP 113 they are to identify their international call sign. 9) Instructor sort trainees into groups of two (three if two not feasible). Trainees are to follow the exchanging identities procedure and exchange identities with one another.

EO 001.04 – ADHERE TO VISUAL SIGNALING THEORY
EC 001.04 – ADHERE TO VISUAL SIGNALING THEORY

EC 001.04 – Adhere to Visual Signaling Theory		
Scope	**Location Conditions**	**Instructional Sequence**
EO 001.04	Classroom	After LG 001.04.01
Time	**Classification**	**Instructor**
50 minutes	Unclassified	S1 Nav Comm or above
Scenario	As a Signal Light Operator onboard HMCS Ottawa, you will be required to Conduct Flashing Light Signal Supplements.	
Assessment Steps	Input: Trainees will be given a 10-question written assessment that requires them to demonstrate their knowledge of Visual Signaling Theory. Performance – Trainees will have 50 minutes to complete this assessment. Output – Trainee must attain 8/10 SAT to pass this assessment. Feedback – Trainees will receive feedback from the instructional staff on or before next training day.	
Instructor Resources		
1) 20211115-U-NAVCOMM-Signal-Light-Operator-EC_001.04(I).docx 2) 20211115-U-NAVCOMM-Signal-Light-Operator-EC_001.04(S).docx		
Note(s) to Instructor		
Trainees are permitted to use references to complete this assessment.		
Assessment Limitations	Nil.	
Impact of Failure	Instructor shall meet with trainee within 1 training day to assess training deficiencies. Retest if necessary.	

MARPAC RDIMS# 1378832

PC 001 – CONDUCT DUTIES OF A SIGNAL LIGHT OPERATOR

PC 001 – Conduct Duties of a Signal Light Operator		
Scope	**Location Conditions**	**Instructional Sequence**
PO 001	Classroom	After EC 001.04
Time	**Classification**	**Instructor**
400 minutes	Unclassified	S1 or above Nav Comm
Scenario	As a Signal Light Operator onboard the HMCS Ottawa, you will be responsible for conducting the duties of a Signal Light Operator	
Assessment Guidance	**Input** – Trainees will be given a signal scenario to perform the practical portions of this PC. Trainees will be placed in pairs; Part 1 will be conducted without a writer. Trainees will also perform Part 2 and 3 in pairs, one reader and one writer. Each person will be required to perform both roles for each Part. **Performance** – Trainees will have 400 minutes to complete this assessment. Part 1 - Unknown station/exchange identities using double flash procedures. Part 2 - Delayed executive signal with a repetition request, followed by a message cancellation. Part 3 - Immediate execute signal. **Output** –Trainee must attain all SATs to pass this assessment. **Feedback** – Trainees will receive feedback from the instructional staff on or before next training day.

CHAPTER 3: ASSESSMENT OF TRAINEE

MARPAC RDIMS# 1378832
CO NTDC(A) Approval – 18/12/2020
CNPTG Approval – 08/08/2023
Version No: 3.1
Mite# 123432

GENERAL

1. All PCs are based on POs in Chapter 2 of this QSP. Trainees must achieve the standard to be awarded the qualification. PCs will be administered in the form of practical or written assessments and the trainee must pass all POs to successfully complete this course.

ENABLING AND PERFORMANCE CHECKS

2. All ECs are formative assessments that help the trainee and the instructors recognize progress or gaps in learning so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. ECs also reinforce learning and increase the retention of material for longer periods in preparation for the PC. Non-critical EC results do not factor into a trainee's successful completion of the PO.

3. The process for critical ECs and PCs is outlined in NPTORD 4500-54. For administrative purposes, a Critical EC has the same importance as a PC.

4. PCs are summative assessments used to determine if the trainee has met the standard under the conditions (where possible) of the PO. Supplemental PCs are administered upon failure of a PC and must be in the same format and have the same standard as the original PC.

RESPONSIBILITY FOR TESTING

5. Assessment of trainees is to be completed IAW the standards delineated in this QSP, NPTORD 4500-54, and CFITES Vol. 7 – Evaluation.

PROGRESS MONITORING

6. Monitoring learning is the responsibility of all instructional staff and supervisors. Monitoring, including unsatisfactory progress, shall adhere to CFITES Vol. 6 – Conduct of Instructional Programmes.

7. Continuous monitoring of trainee progress is required to provide the following:

   a. Early warning of trainee difficulties;

   b. Feedback on the effectiveness of training;

   c. Information for the Training Review Board (TRB) (if required); and

   d. Information to assist in the completion of the CF 377 Course Report.

8. Trainees experiencing difficulty in any area of performance are to be counselled with regard to the nature of their shortcomings and suggested corrective action IAW TE SOs/SOPs and DAOD 5516-5.

MARPAC RDIMS# 1378832
CO NTDC(A) Approval – 18/12/2020
CNPTG Approval – 08/08/2023
Version No: 3.1
Mite# 123432

9. PC failures and supplemental PC failures are to be handled IAW TE SOs/SOPs and NPTORD 4500-54. Supplemental ECs and PCs shall not be administered within 24 hours of the trainee being informed of their EC or PC failure. Trainees will have 24 hours at minimum to prepare for a retest.

TRAINING REVIEW BOARD

10. The aim of the TRB process is to review a trainee's suitability for continued training and education, while ensuring that the trainee is afforded a fair and just assessment of all relevant information before a decision is made. TRBs shall be convened and conducted IAW NPTORD 4500-54.

COURSE REPORTS

11. Trainees shall be graded pass or fail IAW NPTORD 4500-51.

12. Course reports (CF 377) shall be prepared and distributed IAW NPTORD 4500-51. If applicable, training limitations and/or incomplete training must be included in the course report.

13. Narratives shall indicate trainee's strengths and weaknesses based on PC results to provide information to the Career Manager.

14. A record of trainee counselling shall be maintained for 2 years by the TE IAW Information Management Standard (IMS) 6001-2-1 and Defence Subject Classification and Disposition System (DSCDS) Primary Number 4500.

ANNEX A – REFERENCES

This table lists all references used within this QSP.

#	Short Title	Long Title
A – Official Allied Force and Allied Government Publications		
A1	ACP 113	Call Sign Book for Ships
A2	ACP 130	Signalling Procedures in the Visual Medium
A3	ACP 131	Operating Signals
A4	ATP 1 Vol. II	Allied Maritime Tactical Signal and Maneuvering Book
B – Commercial Publications

ANNEX C – RECORD OF DECISIONS

The following summary provides insight to the decisions and reasoning resulting in this QSP.

Dates: 16 Nov 21

Location: CFB Halifax, Stadacona, Building S-15, Room 323

Working Group Members:

Surname	Initials	Rank	MOSID	Unit
Scheller	L	CPO2	00299	NTDC(A)
Theriault	M	PO1	00299	NTDC(A)
Bunleon	K	PO2	00299	NTDC(A)
Aikens	G	MS	00299	NTDC(A)
Schmidt	D	S1	00299	NTDC(A)

Working Group Objective:

1. The purpose of convening this working group was to create a separate USQ course for the purpose of training all interested Parties in the practice of Tactical and non-tactical flashing light

Specification Task – No Train Decisions:

Task #	Task Statement	Substantiation

Discussions / Decisions:

2. It was decided in conjunction with the Training Manager (CPO2 Stohl) that a prerequisite would be implemented requiring members taking the course to be able to read Non-Directional flashing light at 80% accuracy at a speed of 6 WPM (Words per minute), as well as completing a Morse Code threshold test.

3. The working group conducted task analysis and once completed, creating a scalar dividing content into a singular PO containing 4 EOs. The majority of the ECs are to be practical assessments in keeping with the highly performance based nature of the job. The PC will also be a practical assessment.

4. The working group then consulted TDOs to further refine the proposed scalar and review of the groups Task Analysis process.

Follow Up Action:

Item	Action	OPI	Expected Date of Completion

Course History:

5. Previous to the creation of this USQ QSP, flashing light training was contained within the legacy QL3 course taught prior to the new QL3 QSP approved in 2020.

ANNEX D – TASK ANALYSIS DIAGRAM

This diagram represents the recreation or original task analysis (scalar) used to define the job.

ANNEX E – COSTING INFORMATION

This table provides an estimated cost to deliver this training. Considered costs include Temporary Duty (TD), material, and personnel costs. TD costs include Rations & Quarters (R&Q) costs for relevant TE, and National Joint Counsel factors (meals & incidentals). Material costs are best estimates. Personnel costs are IAW the Cost Factors Manual for the current fiscal year for all instructors identified in Chapter 1 - Required Course Staffing.

TD Costs	# Trainees + Instructors /	Unit Price	# Days	Initial Course	Each Successive Course	5 Year Total
Airfare (Return)	13	$0	n/a	$0.00	$0.00	$0.00
R&Q	13	$0	8	$0.00	$0.00	$0.00
Incidentals	13	$0	8	$0.00	$0.00	$0.00
Subtotal				**$0.00**	**$0.00**	**$0.00**
Material Costs	**Quantity**	**Unit Price**	**# Days**	**Initial Course**	**Each Successive Course**	**5 Year Total**
PP&S (Estimate)	X	$0.00	X	$0.00	$0.00	$0.00
Classroom (square meters)	X	$0.00	X			
Computer requirements	X	$0.00	X	$0.00	$0.00	$0.00
IT Equip (Smart board, etc.)	X	$0.00	X	$0.00	$0.00	$0.00
DWAN connection (Setup)	X	$0.00	X	$0.00	$0.00	$0.00
Link Toolkit (on DVD)	X	$0.00	X	$0.00	$0.00	$0.00
Instructional Materials (Printed / Handouts etc.)	X	$0.00	X	$0.00	$0.00	$0.00
Subtotal				**$0.00**	**$0.00**	**$0.00**
Personnel Costs	**Quantity**	**Cost/day**	**# Days**	**Initial Course**	**Each Successive Course**	**5 Year Total**
PO1	X	$0.00	X	$0.00	$0.00	$0.00
Civilian Instructor						
Subtotal				**$0.00**	**$0.00**	**$0.00**
Total Estimated Costs				**$0.00**	**$0.00**	**$0.00**

ANNEX F – ASSESSMENT PLAN

This table summarizes assessment (EC & PC) details contained within this QSP.

EC/PC	Scope	Purpose	How	Pass/Fail Criteria
EC 001.01	EO 001.01	To assess trainee's competence in adhering to visual signalling theory.	Written	Trainee must obtain 8 / 10 SATs IAW EC 001.01 checklist.
EC 001.02	EO 001.02	To assess trainee's competence in conducting an exchange of identities.	Written	Trainee must obtain 4 / 5 SATs IAW EC 001.02 checklist.
EC 001.03	EO 001.03	To assess trainee's competence in conducting methods of flashing light.	Written	Trainee must obtain 5 / 6 SATs IAW EC 001.03 checklist.
EC 001.04	EO 001.04	To assess trainee's competence in conducting flashing light signal supplements.	Written	Trainee must obtain 8 / 10 SATs IAW EC 001.04 checklist
PC 001	PO 001	To assess trainee's competence in conducting duties of a signal light operator.	Practical	Trainee must obtain 12 / 12 SATs IAW PC 001 checklist
