QUALIFICATION STANDARD AND PLAN (QSP)

Officer of the Day Damage Control Course (OOD DC)

MITE ID
119517

MOSID: 00345 MS Eng, 00344 NCS Eng, 00328 Log – Sea, 00207 NWO

Training Authority (TA): Commander Naval Training Group (CNTG)
Curriculum Control Authority (CCA): NFS(P)

MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

RECORD OF AMENDMENTS

1. The following versions of this QSP have been approved for use in support of the conduct of training. Amendments detailed in Annexes D and/or L.

Revision	Change Description	Date	Authority
1.0 (Apr 2012)	New QSP	28 May 12	CFFSE CMDT
1.1	Added BDCS Requirement	08 Nov 16	CNPTG
2.0	Reformated into new format; removed PO001 and PO002 IOT put Fire/Flood Refreshers, ATL, and BDCS as co-requisites; updated training schedule; and merged Duty Cox'n and Duty Tech as DPO IAW SSOs.	24 Nov 23	CNTG
2.1	Minor amendments by HMCS *Venture*	25 Apr 24	CNTG

NOTE:

Personnel programming courses must ensure that their hard copy of this document is current and identical to the electronic copy on the NTG Website. See above for current changes.

FOREWORD

1. This QSP is issued on the authority of the Commander of the Royal Canadian Navy and managed by the Commander Naval Training Group (CNTG) on behalf of the Assistant Chief of Naval Staff Personnel and Training (A/CNS P&T).

2. This QSP is based upon the following references:

   a. Canadian Forces Manual of Individual Training and Education, A-P9-50 Series;

   b. Occupation/Job Specification (Officer) published 19 Apr 2011 A-PD-055/PP-001; and

   c. Occupation/Job Specification (NCM) published 09 Feb 2011 A-PD-055/PP-002.

3. This QSP publication is effective on receipt and supersedes previous QSP revision 1.1, dated 08 Nov 16. This QSP is designed to assist in developing, conducting, evaluating, and validating the Individual Training and Education (IT&E) required for training.

4. The QS and TP in Chapters 1 to 4 were developed by the Qualification Standard Plan (QSP) board convened 23 April 2012 at CFFSE DC Division working in collaboration with subject matter experts drawn from participating organizations. On 28 May 2012, the QSP Draft was sent to CFNES QAO by CFFSE QAO for CFNES endorsement. In Sep 2012, CFNES DC DIV/QA reviewed and endorsed this QSP for approval. Full details of the boards are contained within Annex D and L.

5. The criteria for major and minor amendments, and the approval process, are identified in NPTORD 4500-22.

6. In circumstances where the QS and/or TP cannot be adhered to, submission of a QSP Deviation Request is required.

QUALIFICATION STANDARD

MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

CHAPTER 1 QUALIFICATION STANDARD

AIM

1. The aim of this QSP is to establish the requirements and training for the Marine Systems Engineering Officers (MSEO), Naval Combat Systems Engineering Officers (CSEO), Logistics Officers (LogO) and Naval Warfare Officers (NWO) to perform their duties as an Officer of the Day (OOD) in response to a DC Event. Possession of this qualification will allow personnel to follow DC procedures as OOD when in possession of MITE ID 109030 and the ship's Commanding Officer (CO) delegates charge IAW NAVORD 3136-0.

GRANTING OF NQUAL

2. NIL.

3. MITE ID OOD DC course (119517) will be granted when the standards listed in the Performance Objectives (POs) have been met.

CO-QUALIFICATION

4. In addition to the performance objectives specific to this training, the following additional qualifications are included in this training program to meet the requirements of the job. The MITE and NQuals associated with these qualifications shall be granted upon completion of the training program and shall be listed within the course report and will be delivered IAW the following:

   a. Attack Team Leader (ATL), MITE 118787; and

   b. Battle Damage Control System (BDCS) Operator, MITE 120070.

PREREQUISITES

5. To be selected for this course the loading authority must ensure that trainees meet the following prerequisites:

   a. Sea Environmental Qualification: (e.g. OSQ AB, NETP, NETP-O, or equivalent);

   b. OOD Ashore Training – Distributed Training (DT) & classroom segment (108364);

   c. Fire Refresher, MITE 109369; and

   d. Flood Refresher, MITE 109370.

Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

CHAPTER 2 PERFORMANCE OBJECTIVES

PO 001 COORDINATE A DUTY WATCH RESPONSE TO A DAMAGE CONTROL EVENT

1. Performance: Coordinate a Duty Watch Response to a Damage Control Event.

2. Conditions:

   a. Given:

      (1) Operational Ship;

      (2) A complete Home / Away From Home Port Duty Watch; and

      (3) OOD Aide Memoire.

   a. Denied:

      (1) References;

      (2) Supervision; and

      (3) Assistance.

   b. Environment:

      (1) Aboard ship alongside.

3. Standard: The OOD shall coordinate the duty watch response to a damage control event, by:

   a. Muster a Duty Watch, including:

      (1) Turning over with the off-going OOD; and

      (2) Briefing the on-coming Duty Watch.

   b. Leading the Duty Watch's Initial Response for a shipboard fire or flood, by:

      (1) Responding to an alarm;

      (2) Directing the Rapid Response Team (RRT), including:

         (a) Directing an aggressive First Aid attack; and

         (b) Activating ship's fitted systems.

MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

(3) Clearing the immediate area;

(4) Confining the primary area; and

(5) Managing Casualties.

c. Safely Conducting an on-scene “O-group”;

d. Directing Duty Watch personnel, by:

(1) Confirming actions of the Brow staff;

(2) Briefing boundaries;

(3) Establishing boundaries;

(4) Briefing and attack / repair team;

(5) Briefing a sentry;

(6) Posting a sentry;

(7) Maintaining safety of ship’s:

(a) Personnel; and

(b) Equipment.

e. Briefing outside agencies / units, including:

(1) Civilian / DND Fire Teams;

(2) Civilian / Military Police;

(3) QHM; and

(4) Adjacent ships;

f. Directing post DC Event activities, by:

(1) Preserving Evidence;

(2) Conducting Adjacent Compartment Rounds;

(3) Overhauling the area;

(4) De-smoking / De-watering the area; and

(5) Ensuring compartmental safety:

(a) Electrically; and

(b) Structurally.

4. References: A1, A2, A3, A4, and A5.

5. Task Numbers: SA4.3.005, SA4.3.015, SA4.3.030, SA4.3.035, SA4.3.040, SA4.2.015, and SA4.2.035.

6. Remarks: Nil.

TRAINING PLAN

MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

CHAPTER 3 TRAINING MANAGEMENT DETAILS

TRAINING STRATEGY

1. The following training strategies were selected for this course:

   a. 2 days of fire / flood refresher prerequisite training;

   b. 4 days of BDCS / ATL co-qualification training; and

   c. 8 days of OOD DC training broken into 1 day of classroom lectures, ½ day of rapid response and O-group demos, 2.5 days of practice OOD DC scenarios, 3.5 days of assessed OOD DC scenarios, and ½ day of a written PC.

TRAINING DURATION

2. Based on existing resources and approved instructional design requirements, the approved Course Design authorizes 14 training days, inclusive of all pre-requisite and co-requisite training.

REQUIRED COURSE STAFFING

3. The following key personnel are required to conduct the training.

Course Director				
Rank	MOSID	Qualifications Required	Qty	PO / EO
Lt(N)	As per Ch 1 para 1	OOD Qualified	1	All
Instructors				
Rank	MOSID	Qualifications Required	Qty	PO / EO
PO2/PO1	Any RCN	Duty PO Qualified or person delegated by DC Training Chief	1	All
OS – MS	Mar Tech	MCR Watchkeeper Qualified	1	All
Any	Any	NIL – Safety Staff member	1	All
Any	Any	DCTF Control Room Operator Qualified	1	All

Guest Lecturers/Others (May be civilian)				
Lecturer	# Instructor	Subject	EO #	# period

TRAINING LIMITATION

4. A training limitation may be due to constraints of resources, personnel or equipment. A training limitation is the difference between what a qualified individual

MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

must be able to do and what training can prepare them to do. The following limitations are identified below:

a. East Coast DC1 – Bldg #1 and DCTF Bldg #37; and

b. West Cost DCTF – Bldg # C103/C104.

COURSE CAPACITY

5. The capacity per session is based on the guidelines in CFITES Vol 5 – Instructor to Learner Ratios:

a. Optimum – 20;

b. Maximum Load – 24; and

c. Minimum – 15.

DESIGNATED SCHEDULING AND COURSE LOADING

6. Training will be scheduled utilizing the HRMS Training (MITE) module to meet the training requirements (IAW NPTORD 4540-2).

7. The authority to load members onto this course will be IAW NPTORD 4540-43. NTG HQ is to be included as an info addressee on all loading messages. Course loading will be accomplished by:

a. NFS(P) for Pacfic and NFS(A) for Atlantic courses.

QUALIFICATION AND ASSESSMENT

8. This is a pass/fail course. Students must successfully complete all POs to achieve the qualification.

9. Students will be monitored and assessed both on performance and conduct throughout the course. Counselling, progress monitoring, and maintenance of student files will be in accordance with NPTORD 4500-51. Although not mandated specifically in the POs, the general demands of service members and the leadership demands of junior and senior leaders form an integral part of individual training. As such, students are presumed to possess the leader and/or follower attributes commensurate with their rank.

UNSATISFACTORY PROGRESS

10. Any student who fails to successfully complete all POs in the allocated number of attempts will be referred to the Commandant (Cmdt) or Commanding Officer (CO) of the training establishment (TE) to determine the requirement for a TRB IAW NPTORD 4500-54.

REMOVAL FROM TRAINING

11. A TE CO/Cmdt may direct that a student be removed from training for reasons of deficiency in performance, conduct (discipline, attitude, teamwork, safety, leadership), missed training, medical, and other non-performance/conduct related issues. In these cases, Cease Training Procedures are to be strictly adhered to IAW NPTORD 4500-29 or 4500-54.

RECERTIFICATION REQUIREMENTS

12. There are no additional requirements to maintain currency in this qualification.

LANGUAGE OF INSTRUCTION

13. The language of instruction shall be in accordance with the Delivery of Training and Education in Both Official Languages (DAOD 5039-6).

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

14. PLARs shall be conducted in accordance with DAOD 5031-1 Canadian Forces Military Equivalencies Program, through the RCN PLAR submissions coordinator.

POST COURSE REVIEWS (PCR)

15. PCRs are to be conducted on all steady state courses IAW NPTORD 4500-23.

COURSE REPORTING

16. Formal Course: A Canadian Forces Course Report, Form CF 377 shall be prepared and distributed in accordance with DAOD 5031-9. The Course Report shall be descriptive, identifying the student's strengths and weaknesses with specific comments on any PO for which the student demonstrated outstanding performance or had difficulty achieving the standard, any conduct relevant to course performance, and any conditions or situations that affected course performance. Additional comments must be provided on the following:

a. ability to work with others;

b. ability to work under pressure;

c. written and verbal communication;

d. organizational skills; and

e. leadership.

CHAPTER 4 LESSON SPECIFICATIONS

PO 001 – COORDINATE A DUTY WATCH RESPONSE TO A DAMAGE CONTROL EVENT

EO 001.01 MUSTER A DUTY WATCH

1. Performance: Muster a Duty Watch

2. Conditions:

   a. Given:

      (1) NIL.

   b. Denied:

      (1) NIL.

   c. Environment:

      (1) Classroom.

3. Standard: The trainee shall IAW references muster a DutyWatch, by:

   a. Identifying members of a Home / Away From Home Port DutyWatch:

   b. Describing the roles and responsibilities of Duty Watch personnel;

   c. Conducting an OOD Turnover; and

   d. Briefing the DutyWatch, including:

      (1) Describing external resources available to the OOD;

      (2) Describing shipboard hazards

      (3) Describing fitted systems; and

      (4) Describing methods of communication available to the duty watch.

4. Teaching Points:

Teaching Points		Instructional Strategies	Time	References/Remarks
1	Describe the Home Port Duty Watch	Method:Interactive Lecture Media: Instructor Environment: Classroom	45 min	A1 sections 2060, 2061 A5 para 20

7.5	Galley Fire Suppression			
7.6	Firemain			
7.7	Bildge Eductor			
8	Describe methods of communication available to the duty watch	Method: Interactive Lecture Media: Instructor Environment: Classroom	10 min	A3 Part 1 and 2
8.1	SHINCOM/Ship's telephone			
8.2	Main Broadcast			
8.3	Meet-Me-Nets			
8.4	PRC			
8.5	Runner			

5. Total EO Time: Total: 4 x 50 minute periods as follows:

   a. 3 x 50 min periods; and

   b. 1 x 50 min periods – EC 001.01 (homework review).

6. Training and Learning Aids:

   a. OOD student training guide handout.

7. Remarks:

a. Formative: EO 001.01 will be assessed as part of EC 001.01 (Homework assignment). EC 001.01 will assess the trainee's knowledge of content based on the Teaching Points associated with EOs 001.01, 003.02 and 001.03.

b. Summative: EO 001.01 will be assessed as part of PC 001 parts A and B. PC 001 part A and B will be conducted upon completion of EOs 001.01, 001.02 and 001.03.

(1) PC 001 part A: will consist of a written exam to assess the trainee's knowledge of Coordinating a Duty Watch Response to a Damage Control Event.

(2) PC 001 part B will consist of a practical OOD DC scenario to assess the trainee's ability to Coordinate a DutyWatch Response to a Damage Control Event. Trainees will be required to demonstrate appropriate safety procedures during PC 001 part B. Safety shall be a critical requirement on PC 001 part B checklist.

MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

PO 001 – COORDINATE A DUTY WATCH RESPONSE TO A DAMAGE CONTROL EVENT

EO 001.02 LEAD A DUTY WATCH IN RESPONSE TO A FIRE AS THE OOD

1. Performance: lead a duty watch in response to a fire as the OOD

2. Conditions:

   a. Given:

      (1) A complete Home / Away From Home Port DutyWatch;

      (2) DC Fire Scenario;

      (3) OOD Aide Memoire; and

      (4) Supervision.

   b. Denied:

      (1) Assistance.

   c. Environment:

      (1) Operational DCTF.

3. Standard: The trainee shall IAW references and due regard to safety, lead a duty watch in response to a fire as the OOD by:

   a. Directing the Initial Response for a shipboard fire, including: :

      (1) Taking appropriate action upon discovery of a fire; and

      (2) Conducting rapid response.

   b. Conducting an O-Group;

   c. Directing Duty Watch personnel, including:

      (1) Confirming the actions of the DCC/MCCWatchkeeper;

      (2) Confirming the actions of BrowWatchkeeper;

      (3) Establishing boundaries;

      (4) Briefing the DND Fire Department attack team;

      (5) Utilizing available external resources; and

(6) Briefing and posting a sentry.

d. Directing post fire activities, including:

(1) Conducting adjacent compartment rounds; and

(2) Directing area overhaul.

e. Describing response to fires during working hours; and

f. Describing response to a fire on an adjacent ship or submarine.

4. Teaching Points:

Teaching Points		Instructional Strategies	Time	References/Remarks
1	Describe actions upon discovery of a Fire	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	10 min	A1 sections 3010, 3011, 3012 and Table 3-3
1.1	Indication of a Fire			
1.2	DCS Alarm Pipe			
1.3	Confirmation of a Fire			
1.4	Emergency Stations Pipe			
2		**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	5 min	A1 section 3011
2.1	Raising Alarm			
2.2	Actions of a Discoverer			
2.3	Briefing Rapid Response			
3	Conduct Rapid Response	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	40 min (IL) / 50 min (DP)	A1 section 115 para 10 b
3.1	Purpose of Rapid Response			
3.2	Rapid Response Team Composition			
3.3	Selecting and testing of First Aid Fire Extinguishers			
3.4	Arrival on Scene			
3.5	Conducting an aggressive attack			
3.6	Successful extinguishment of the fire			

Teaching Points		Instructional Strategies	Time	References/Remarks
3.7	Unsuccessful extinguishment of the fire			
3.8	Fitted Systems			
3.9	Clearing Remaining Compartments			
3.10	Primary Zone Confinement			
3.11	Secondary Zone Considerations			
3.12	Dealing with Casualties			
3.13	Utilizing Discoverers			
3.14	Rapid Response for Main Machinery Spaces			
4	Conduct an O Group	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	40 min (IL) / 50 min (DP)	A1 section 3011
4.1	Safe Location			
4.2	Confinement			
4.3	Hazards			
4.4	Boundary Priority			
4.5	Attack Route			
4.6	Fitted Systems			
4.7	Casualties			
4.8	DPO Duties			
4.9	BARRT Duties			
4.10	Communication Plan			
4.11	Keys			
4.12	OOD Location			
5	Describe the Actions of the DCC/MCC Watchkeeper	**Method:** Interactive Lecture **Media:** Instructor **Environment:** Classroom	5 min	A1 section 3011 A8 Part 6
5.1	Smoke Control			
5.2	Power Isolation			
5.3	MCR Pipe			
6	Describe the Actions of BrowWatchkeeper	**Method:** Interactive Lecture / Demonstration-Performance	5 min	A1 section 3011

MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

Teaching Points		Instructional Strategies	Time	References/Remarks
6.1	Pulling the Fire Box	**Media:** Instructor / Equipment **Environment:** Classroom / DCTF		
6.2	Calling Adjacent Ships			
6.3	Plotting			
6.4	Compartment Risk Folio			
6.5	Accounting for non military personnel			
6.6	Control of Brow Area			
7	Describe the OOD actions upon arrival at Brow	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	10 min	A1 section 3011
7.1	Confirm the actions of the Brow Watchkeeper			
7.2	Make an initial sit-rep pipe			
7.3	Consult Risk Folio for hazards			
8	Establish Boundaries	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	10 min	A1 section 3011
8.1	Determine priority for boundaries			
8.2	Brief and dispatch boundaries			
8.3	Personnel Accountability			
9	Brief the DND Fire Department attack team	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	15 min	A1 section 3011
9.1	Determine priority (Fire fighting/Search and Rescue)			
9.2	Casualties (found or compartments unsearched)			
9.3	State of Power Isolation			
9.4	Fitted Systems (activated or available)			

Teaching Points		Instructional Strategies	Time	References/Remarks
9.5	Hazards within the primary zone			
9.6	Attack Route and hydrant location			
9.7	DPO location			
10	Utilize Available External Resources	**Method:** Demonstration-Performance **Media:** Equipment **Environment:** Classroom / DCTF	15 min	A6 A7
10.1	Supernumerary Personnel			
10.2	DND Fire Department			
10.3	Adjacent Ships			
10.4	King's Harbour Master (KHM)			
10.5	Military Police			
10.6	Civilian Emergency Services (Ambulance, Fire Department and Police)			
11	Brief and Post a Sentry	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	10 min	A1 section 3011 A3 A4
11.1	Duties of a Sentry			
11.2	Preservation of Evidence			
12	Conduct Adjacent Compartment Rounds	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	10 min	
13	Conduct Area Overhaul	**Method:** Interactive Lecture **Media:** Instructor **Environment:** Classroom	15 min	A1 section 3013 A3 A4 A10
13.1	De-smoking and Gas Free			
13.2	De-watering			
13.3	Investigation			
13.4	Make compartment electrically safe			
13.5	Make compartment structurally safe			
13.6	Remove debris			

Teaching Points		Instructional Strategies	Time	References/Remarks
14	Describe response to fires during working hours	**Method:** Interactive Lecture **Media:** Instructor **Environment:** Classroom	5 min	A1 sections 3011, 3012 and 3013
15	Describe response to a fire on an adjacent ship or submarine	**Method:** Interactive Lecture **Media:** Instructor **Environment:** Classroom	5 min	A9

5. Total EO Time: Total: 24 x 50 minute periods as follows:

   a. 4 x 50 min periods (classroom); and

   b. 2 x 50 minute periods (demo/practice); and

   c. 18 x 50 min periods – EC.

6. Training and Learning Aids:

   a. OOD student training guide handout.

7. Remarks:

   a. Formative: EO 001.02 will be assessed as part of EC 001.01 (Homework assignment) and EC 001.02 (practical DC scenario). EC 001.01 will assess the trainee's knowledge of content based on the Teaching Points associated with EOs 001.01, 001.02 and 001.03. EC 001.02 will be conducted upon completion of the practical instruction associated with EOs 001.02 and 001.03.

   b. Summative: EO 001.02 will be assessed as part of PC 001 parts A and B. PC 001 part A and B will be conducted upon completion of EOs 001.01, 001.02 and 001.03.

      (1) PC 001 part A: will consist of a written exam to assess the trainee's knowledge of Coordinating a Duty Watch Response to a Damage Control Event.

      (2) PC 001 part B will consist of a practical OOD DC scenario to assess the trainee's ability to Coordinate a DutyWatch Response to a Damage Control Event. Trainees will be required to demonstrate appropriate safety procedures during PC 001 part B. Safety shall be a critical requirement on PC 001 part B checklist.

c. Following lectures and demonstrations, each student will act as the OOD for a damage control scenario and provided feedback to prepare for the practical Critical EC. The scenarios provided to each student is random, but overall scenarios consist of 75% fire scenarios and 25% flood scenarios. Therefore out of the 1200 minutes allocated for practice runs, 900 minutes are allocated for fire and 300 for flood scenarios.

PO 001 – COORDINATE A DUTY WATCH RESPONSE TO A DAMAGE CONTROL EVENT

EO 001.03 LEAD A DUTY WATCH IN RESPONSE TO A FLOOD AS THE OOD

1. Performance: Lead a duty watch in response to a flood as the OOD

2. Conditions:

   a. Given:

      (1) A complete Home / Away From Home Port DutyWatch;

      (2) DC Fire Scenario;

      (3) OOD Aide Memoire; and

      (4) Supervision.

   b. Denied:

      (1) Assistance.

   c. Environment:

      (1) Operational DCTF.

3. Standard: The trainee shall, IAW references and due regard to safety, lead a duty watch in response to a flood as the OOD by:

   a. Directing the Initial Response for a shipboard flood, including: :

      (1) Taking appropriate actions upon discovery of a flood;

      (2) Describing the actions of a discoverer; and

      (3) Conducting rapid response for a flood.

   b. Conducting an O-Group;

   c. Directing DutyWatch personnel, including:

      (1) Confirming the actions of the DCC/MCCWatchkeeper for a flood;

      (2) Confirming the actions of BrowWatchkeeper;

      (3) Describing the OOD actions upon arrival at the Brow;

      (4) Establishing Boundaries;

(5) Briefing repair team(s);

(6) Determining impact of fire main leak or rupture;

(7) Managing flood water;

(8) Utilizing available external resources; and

(9) Briefing a sentry.

d. Describing response to a flood during working hours; and

e. Describing response to a flood on an adjacent ship.

4. Teaching Points:

Teaching Points		Instructional Strategies	Time	References/Remarks
1	Describe actions upon discovery of a flood	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	2.5 min	A1 sections 3010, 3011, 3012 and Table 3-3
1.1	Indication of a flood			
1.2	DCS alarm pipe			
1.3	Confirmation of a flood			
1.4	Emergency stations pipe.			
1.5	Muster location			
2	Describe the actions of a discoverer	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	2.5 min	A1 sections 3010, 3011, 3012
2.1	Raising alarm			
2.2	Actions of a discoverer for a flood			
2.3	Briefing rapid response			
3	Conduct rapid response for a flood	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	5 min	A1 Section 2115 Para 10b
3.1	Rapid response team composition			
3.2	Arrival on scene			
3.3	Conducting an aggressive attack			

Teaching Points		Instructional Strategies	Time	References/Remarks
3.4	Primary zone confinement			
3.5	Successful rapid response			
3.6	Unsuccessful rapid response			
3.7	Dealing with casualties			
3.8	Utilizing discoverers			
3.9	Rapid response in main machinery spaces			
4	Conduct an O-Group	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	5 min	A1 sections 3011, 3012
4.1	Confinement			
4.2	Power isolation			
4.3	Hazards			
4.4	Flood boundary priority			
4.5	Repair team and equipment requirements			
4.6	Plan for flood water			
4.7	Fitted systems			
4.8	Casualties			
4.9	DPO Duties			
4.10	BARRT Duties			
4.11	Communication plan			
4.12	Keys			
4.13	OOD location			
5	Describe the actions of the DCC/MCC Watchkeeper for a flood.	**Method:** Interactive Lecture **Media:** Instructor **Environment:** Classroom	2.5 min	A1 sections 3011, 3012 A8 Part 6
5.1	Power Isolation			
5.2	MCR Pipe			

Teaching Points		Instructional Strategies	Time	References/Remarks
6	Describe the actions of BrowWatchkeeper	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	2.5 min	A1 sections 3011, 3012
6.1	Pulling the Fire Box			
6.2	Calling Adjacent Ships			
6.3	Plotting			
6.4	Compartment Risk Folio			
6.5	Accounting for non military personnel			
6.6	Control of Brow Area			
7	Describe the OOD actions upon arrival at the Brow	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	5 min	A1 sections 3011, 3012
7.1	Confirm the actions of the Brow Watchkeeper			
7.2	Make an initial sit-rep pipe			
7.3	Consult Risk Folio for hazards			
8	Establish boundaries	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	2.5 min	A1 section 3011
8.1	Determine priority for boundaries			
8.2	Brief and dispatch boundaries			
8.3	Personnel Accountability			
9	Brief repair team(s)	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	2.5 min	A1 section 3011
9.1	Type of repair required			
9.2	Location of repair equipment			
9.3	State of Power Isolation			

Teaching Points		Instructional Strategies	Time	References/Remarks
9.4	Safe route to DPO's location			
9.5	Fitted Systems (activated or available)			
10	Determine impact of fire main leak or rupture	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	5 min	A6 A7
10.1	Impact of firemain isolation			
10.2	Assess repair ability			
10.3	Assess requirement to jump the firemain			
10.4	Recover lost capability			
11	Manage flood water	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	5 min	A8 Part 7 A10
11.1	Determine impact of flood water to ship and safety or personnel safety			
11.2	Assess the environmental impact of pumping water overboard			
11.3	Bilge eductor or Submersible Pump			
12	Utilize Available External Resources	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	2.5 min	A6 A7
12.1	Supernumerary Personnel			
12.2	DND Fire Department			
12.3	Adjacent Ships			
12.4	Queens Harbour Master (QHM)			
12.5	Military Police			

Teaching Points		Instructional Strategies	Time	References/Remarks
12.6	Civilian Emergency Services (Ambulance, Fire Department and Police)			
13	Brief and post a sentry	**Method:** Interactive Lecture **Media:** Instructor **Environment:** Classroom	2.5 min	A1 sections 3011 and 3012 A3 A4
14	Describe response to a flood during working hours	**Method:** Interactive Lecture / Demonstration-Performance **Media:** Instructor / Equipment **Environment:** Classroom / DCTF	2.5 min	A1 sections 3011, 3012 and 3013
15	Describe response to a flood on an adjacent ship	**Method:** Interactive Lecture **Media:** Instructor **Environment:** Classroom	2.5 min	A9

5. Total EO Time: Total: 33 x 50 minute periods as follows:

   a. 1 x 50 min period; and

   b. 6 x 50 min periods – EC;

   c. 1 x 50 min period PC 001 Part A; and

   d. 25 x 50 min periods PC 001 Part B.

6. Training and Learning Aids:

   a. Damage Control Training Facility (DCTF).

7. Remarks:

   a. Formative: EO 001.03 will be assessed as part of EC 003.01 (Homework assignment) and EC 001.02 (practical DC scenario). EC 003.01 will assess the trainee's knowledge of content based on the Teaching Points associated with EOs 001.01, 01.02 and 001.03. EC 001.02 will be conducted upon completion of the practical instruction associated with EOs 001.02 and 001.03.

b. Summative: EO 001.02 will be assessed as part of PC 001 parts A and B. PC 001 part A and B will be conducted upon completion of EOs 001.01, 001.02 and 001.03.

(1) PC 001 part A: will consist of a written exam to assess the trainee's knowledge of Coordinating a Duty Watch Response to a Damage Control Event.

(2) PC 001 part B will consist of a practical OOD DC scenario to assess the trainee's ability to Coordinate a DutyWatch Response to a Damage Control Event. Trainees will be required to demonstrate appropriate safety procedures during PC 001 part B. Safety shall be a critical requirement on PC 001 part B checklist.

c. Following lectures and demonstrations, each student will act as the OOD for a damage control scenario and provided feedback to prepare for the practical Critical EC. The scenarios provided to each student is random, but overall scenarios consist of 75% fire scenarios and 25% flood scenarios. Therefore out of the 1200 minutes allocated for practice runs, 900 minutes are allocated for fire and 300 for flood scenarios.

NOTE: If additional references are identified during the TPWB this annex can be updated secretarially through NTG HQ.

ANNEX B – TASK LIST

1. The task list includes all of the tasks associated with this qualification, and the outcome of the Train / No-train decisions. If a task is designated as requiring training, the PO where it is covered is indicated. If a task is designated as not requiring training, the justification for that designation is provided.

2. The following table defines some of the criteria used to support a no-train designation in the task list. Other reasons may be used if required.

CRITERIA	DEFINITION
A	**Previously qualified.** Tasks and knowledge already possessed by the student by CAF and/or RCN courses, training and/or experience.
B	**Will receive on future courses.** Tasks and knowledge will be covered as part of other CAF and/or RCN courses and/or training.
C	**Difficulty.** Task is not difficult to learn; formal training is not required.
D	**Importance.** Task is not important; it has no significant impact on mission success.
E	**Frequency.** Task is rarely performed, no formal training is required.
F	**Lack of equipment.** Currently there is no equipment in the CAF inventory to train this task.

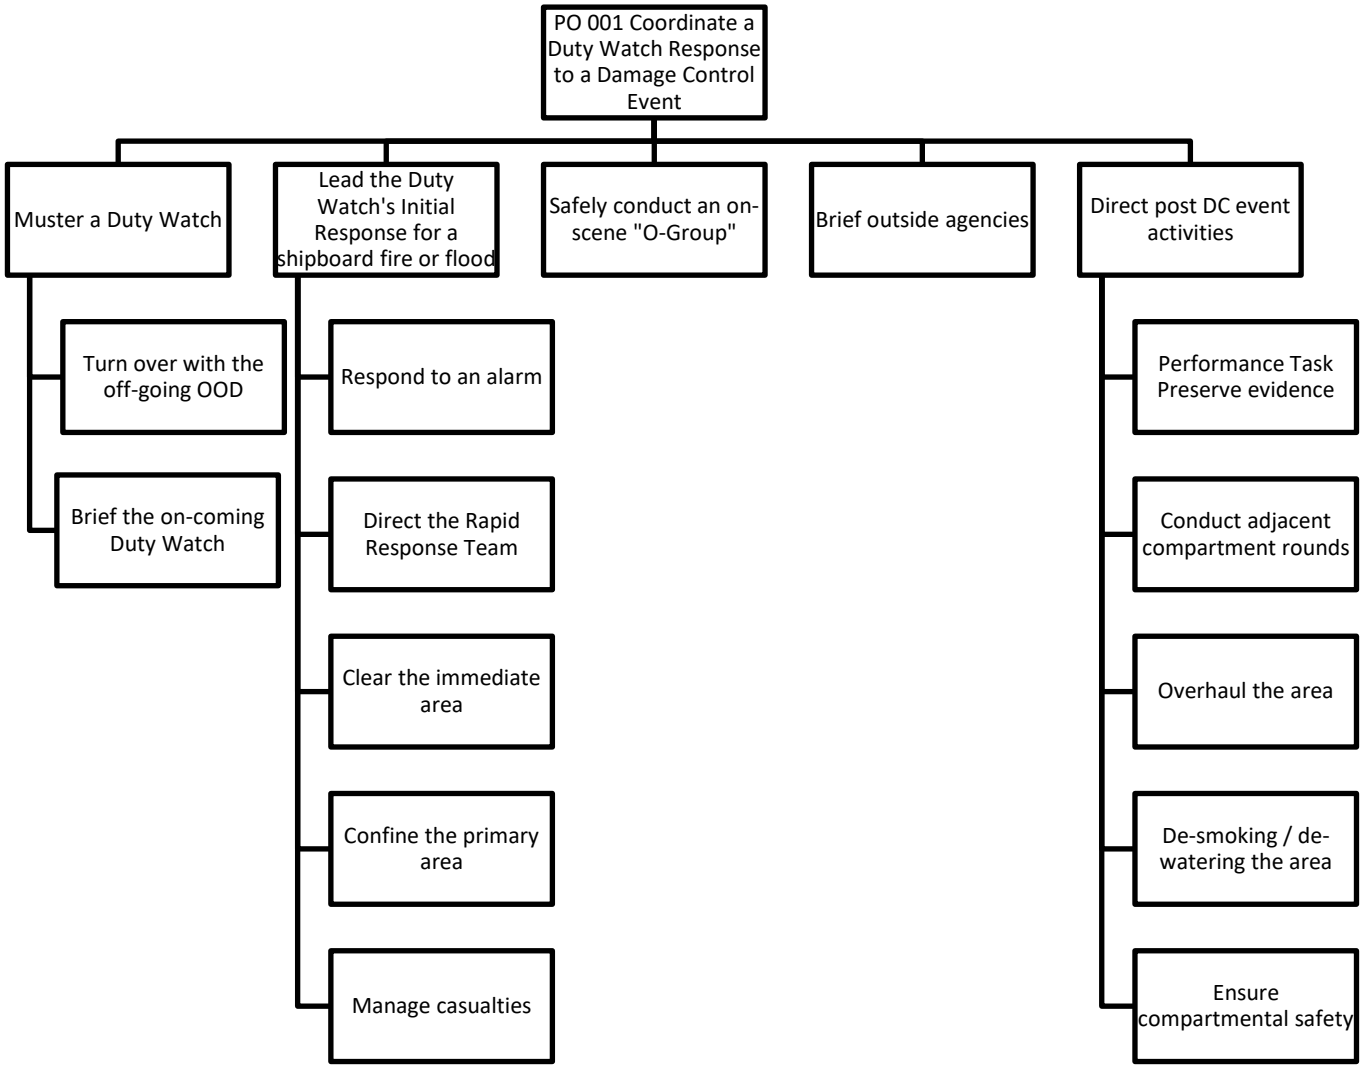
3. At the time of the QSP Board, the Officer General Specification (OGS) tasks were as listed below. However, since then, the OGS Annex C Work Requirements Table (WRT) has been updated. Similar and equivalent tasks from the new OGS have been written in the comments column.

Task #	Task Statement	Train / No Train	PO #	Substantiation/Comments
SA4.3.005	Administer Duty Watch Requirements (e.g. OOD Turnover, maintain ship's log, key board control)	TRG	001	A0110 - Direct Naval Duty Watch
SA4.3.015	Conduct OOD rounds	TRG	001	A0060 - Conduct responsibilities of a Naval Duty Watch

Task #	Task Statement	Train / No Train	PO #	Substantiation/Comments
SA4.3.030	Direct ship's response to harbour emergencies (e.g. fire, flood, HAZMAT, fuel spill and man overboard)	TRG	001	A0020 - Initiate damage control (DC) procedures in Naval environment A0070 - Initiate firefighting procedures in Naval environment
SA4.3.035	Implement ship's DC condition	TRG	001	A0020 - Initiate damage control (DC) procedures in Naval environment
SA4.3.040	Control ship's engineering services (e.g. ship/shore power, shore water, telecom)	TRG	001	A0160 - Supervise seamanship and shipboard evolutions alongside in harbour
SA4.2.015	Perform ship's action and emergency station procedures	TRG	001	A0030 - Execute damage control (DC) duties in Naval environment
SA4.2.035	Perform as a member of the DutyWatch	TRG	001	A0360 - Execute Maritime emergency response plans A0060 - Conduct responsibilities of a Naval Duty Watch
SA1.1.005	Act as a member of a ship's Flood Control Team	No TRG	See Note	A0030 - Execute damage control (DC) duties in Naval environment
SA1.1.010	Act a as a member of a ship's Fire Fighting Team	No TRG	See Note	A0080 - Execute firefighting duties in Naval environment
Note: The two non trained tasks, SA1.1.005 and SA1.1.010, are initially instructed during the NETPO course which is a prerequisite for this QSP. Given that it may have been several years since the student has taken their NETPO or equivalent, a one day Fire Fighting Refresher (MITE 109369) and a one day Ship's Flood Control Refresher Training (MITE 109370) course are conducted during the two days immediately prior to this QSP. The two non trained tasks				

Task #	Task Statement	Train / No Train	PO #	Substantiation/Comments
will therefore be fresh in the students' minds which will provide a foundation for the new trained tasks to build on. For further information, refer to Chapter 1 of this QSP. **Update (Nov 2023): Pre-requisites have been updated to require a current (within 1 year) fire/flood refresher prior to this course.**				

ANNEX C – QS SCALAR



MARPAC RDIMS #1411902
Chap 1 & 2 approved 26/04/2024
Chap 3 & 4 approved 08/11/2016

ANNEX D – RECORD OF DECISIONS QSWB

1. This record summarizes the conduct of the QSWB including major activities, important discussions and contentious issues, as well as all decisions and recommendations made by the Board. A description of the reasoning which supports a decision or recommendation is provided when required.

COURSE HISTORY

2. In September, 2003, a QSP writing board was convened to produce an Officer of the Day (OOD) Damage Control (DC) course. The QSP was never completed or added into QSP MS. Since 2003, both DC Divisions were conducting the course using the draft QSP. In 2009, during the Attack Team Leader QSP writing board, DMTE gave approval for the DC Divisions to use the draft QSP.

3. In 2011, NOTC requested that the OOD course loading be increased from 20 to 24 students. In order to accomplish this, the course had to be reworked. Given that the course was going to have to be reviewed, it was decided by both DC Divisions that a QSP Review should be conducted with the goal of finishing the OOD DC QSP.

4. In order to accomplish this, the CFNES DCTO observed an OOD Course conducted at CFFSE from 16-27 April, 2012. The CFFSE DCTO then subsequently observed an OOD DC Course conducted at CFNES from 7-21 May, 2012. During these courses it became apparent that the two schools taught the courses slightly differently, yet both achieved the desired result in the end. In order to approve this QSP, a new teaching plan was created that incorporated the strengths from both methods.

5. After discussions, all instructors unanimously agreed that conducting a one day Fire Fighting Refresher and a one day Ship's Flood Control Training refresher would greatly benefit all students, and many of them have not completed any damage control training in the recent future. In order to accomplish this, the OOD DC Course is scheduled for an eleven day period. The first two days consist for the damage control refreshers, and the following nine days are taught as outlined in this QSP.

6. On 28 May 12, the QSP (Draft) was sent to CFNES QAO by CFFSE QAO for CFNES endorsement. On Sep 12, CFNES DC Div / QA reviewed and endorsed this QSP for approval.

Title	**OOD Damage Control QSP Board**

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the QS is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted QS Amendment Form, thus ensuring the QSP has the most relevant information.

Version:	**1.0**
Date: 28 May 2012	**Who Initiated Change: CFNES / CFFSE**

Requirement for the Amendment:

In 2003, a QSP board was stood up to produce a OOD Damage Control QSP to improve the ability of OODs to lead a duty watch in response to an alongside emergency. That QSP was never completed and as a result never uploaded into QSPMS. This board convened to review the previous draft QSP and produce a finished QSP for use on both coasts.

Description of Changes:

This new QSP would not only account for changes in duty watch damage control procedures since the previous QSP writing board, but also ensure that both coasts are instructing the same course. One key issue discussed was the request from NOTC to increase the course loading from 20 students to 24.

The tasks selected for training are detailed at Annex B. Tasks not selected for training are listed below with substantiation:

TASK SERIAL	TASK ELEMENT	SUBSTANTIATION
SA1.1.005	Act as a member of a ship's Flood Control Team	A detailed explanation of why these tasks are non trained is found in Annex B.

SA1.1.010	Act a as a member of a ship's Fire Fighting Team	A detailed explanation of why these tasks are non trained is found in Annex B.

Assessment Plan[2]: There are two critical ECs that the student must complete in order to successfully complete this course. They are outlined in Annex H (previously annex K in old QSP format).

Note 2: May be done prior to the design phase

Change Tracking number:

NIL

Trg Mgr:

Not Listed

Version:	**1.1**
Date: 08 Nov 2016	**Who Initiated Change: NPTG**

Requirement for the Amendment:

Halifax Class Frigate were outfitted with Battle Damage Control Systems (BDCS) to replace marker board plotting. This requires that dutywatch personnel know how to operate the BDCS. A BDCS Operator course (MITE 120070) was created to train this requirement, but it was not listed as a co-requisite of the OOD qualification.

Description of Changes:

BDCS was added as a co-qualification to obtain the OOD Qualification (109030).

Change Tracking number:

NIL

Trg Mgr:

Not Listed

Version:	**2.0**
Date: 24 Nov 2023	**Who Initiated Change: NTG**

Requirement for the Amendment:

The DC school was trying to inject the BDCS course into the OOD DC course and extend the duration of the OOD DC by 1 day to accommodate the new BDCS requirement. Since the OOD DC course uses the students to simulate a full duty

watch and crew, there was a requirement that BDCS be completed prior to this course, so that the BDCS can be used in the DCTF. But injecting a day of BDCS into the OOD DC course didn't grant the BDCS Operator qualification, still requiring students to come back to DC school at a later date and it also risked detracting training time as allocated in the OOD DC training plan. NTG and the DC School decided to amend the QSP in order to clearly identify the proper scheduling of BDCS with OOD DC.

Since the BDCS Operator course is 2 days, but only has capacity for half of the OOD DC students, two BDCS sessions will have to be run for every OOD DC. Since there is only one BDCS classroom, this would mean that half of the students would have to wait for the other half to complete the BDCS training.

It is also a best practice that the 2 day ATL be completed by all senior members of a ship's crew in order to ensure enough qualified personnel are available on ship. Before this amendment, officers in training would have to come back to the DC school in order to complete ATL at some point in the future also.

The 2 days that one half of the OOD DC course would have to wait to train on the BDCS is time that can be used to train the 2 day ATL course and therefore ensure officers in the BTL can arrive on ship with all DC training requirements met. This should reduce Course Alteration Requests (CAR) and allow for the consolidation of training resources at the DC schools.

Another requirement was that SSOs AL11 changed the Duty Tech and Duty Cox'n positions to Duty Petty Officer (DPO) and a new Breathing Apparatus Rapid Response Team (BARRT). This update accounts for this change.

The QSP format has been updated since the QSP Board was held. This update was formatted to the new standard by the TM. This QS amendment also required TP changes. The TP portion was copied from the previous version by the TM and then sent to the CCA for review and approval. The TM tried to address formatting, DPO/BARRT, and ATL/BDCS scheduling issues during the process.

The Officer General Specification (OGS) was updated to include PaCE competencies since the QS Board was held. The new Work Requirement Table (WRT) tasks need to be matched to the tasks that are being turned into PO/EOs and trained in this QSP. This update will make a mapping from the old task list to the new one in annex B.

During the update to this QSP, it has been noted that the OOD Qualification QSP (108364 and 109030) does not list the OOD DC course as a requirement, beyond a vague and short mention about an "OOD DC qualification" in PO 002 training limitations. It isn't good practice to have one QSP tell another what to do as updates to QSPs should be made within themselves. This issue will have to be addressed through a review of the OOD Course QSP separately from this QSP. Right now as it

stands, this course is required for officer ranks to achieve the OOD Qualification as per historical precident.
Description of Changes: BDCS was clearly marked as a co-qualification to obtain the OOD DC Qualification (119517). ATL (118787) added as a co-qualification. The suggested sequencing was edited by the TM split the OOD DC course into two groups with one doing ATL while the other does BDCS before they swap. This way trainees get both ATL and BDCS qualfications during the OOD DC Course. PO 001, act as a member of a ship's fire fighting team, and PO 002, act as a member of a ship's flood control team were removed. These POs were merely a place holder to add a requirement to complete the Fire/Flood refresher training prior to completing the OOD DC. This requirement didn't actually come from the OOD tasks as the OOD needs to direct others to do these tasks. This can be confirmed as they were listed as "No Train" in the original Annex B Task list. But since the training requires students form complete duty watches and simulate ship's crew, it was deemed a requirement for OOD DC. These POs were removed and relocated to be pre-requisites which is a better location for them. PO 003 was re-numbered to PO 001 and all associated EOs/ECs/PCs re-numbered to match. Duty Tech and Duty Cox'n were removed and replaced with DPO and BARRT in order to account for duty watch changes since SSOs AL11. The task list in Annex B, was modified to include a new column listing the new tasks from the Officer General Specification (OGS). This table can act as a mapping from the old tasks to the new ones as they are essentially the same, but worded differently in the new OGS to account for the PaCE competencies.

EC / PC	Scope	Purpose	How	When	Time	Resources	Limitations	Pass/Fail Criteria	Impact
			The scenario may be a fire or flood.						
PC 001 part A	EOs: 001.01, 001.02, 001.03.	To assess the trainee's ability to coordinate a duty watch response to a damage control event.	PC 001 part A is an individual written exam based on content from EO 001.01 – 001.03. PO 001 is also assessed as part of the OOD qualification Board.	On completion of PC 001 part B.	PC 001 part A: 1.0 x 50 minute periods.	Classroom		PC 001 part A: Pass = 75%.	Pass = Continue with training; 1st failure = supplemental PC; 2nd failure = TRB.
PC 001 part B	EOs: 001.01, 001.02, 001.03.	To assess the trainee's ability to coordinate a duty watch response to a damage control event.	PC 001 part B is a practical exam based on content from EO 001.01 – 001.03. Trainees will act as OOD. Trainees will be required to demonstrate appropriate safety procedures during PC 001	On completion of EC001.02	PC 001 part B: 25.0 x 50 minute periods. (including trainee debriefs)	Operational DCTF and related equipment; Safety Equipment; and Safety Staff.		PC 001 part B: Pass = 100% of the CRITICAL items IAW PC 001 part B checklist.	Pass = Continue with training; 1st failure = supplemental PC; 2nd failure = TRB.

EC / PC	Scope	Purpose	How	When	Time	Resources	Limitations	Pass/Fail Criteria	Impact
			part B. Safety shall be a critical requirement on PC 001 part B checklist. PO 001 is also assessed as part of the OOD qualification Board.						

ANNEX I – ASSESSMENT CHECKLISTS

ENABLING CHECK 001.02

EC 001.02 Time: 24 x 50 mins (for all trainees as a group including debriefs)

ASSESSMENT ACTIVITY: The goal of the EC 001.02 is to develop the student's basic skills to respond to an emergency alongside and prepare candidates to challenge PC 001 part B and the subsequent OOD OJPR. For assessment of EC 001.02, an assessment sheet has been created which highlights the required actions of the OOD. The sheet, located below, is divided into three sections: Rapid Response, O Group and Brow Actions. The student is scored on all of the criteria based on a Satisfactory (SAT) or Unsatisfactory (UNSAT) scoring. Numerous UNSAT scorings, even if not on any critical tasks, can result in a failed overall assessment at the discretion of the instructor. Comment areas are provided for the instructor to elaborate on the SAT/UNSAT scoring.

<u>Rapid Response</u>
Under the Rapid Response section there are five tasks, of which two are critical. The candidate is assessed on their ability to respond to an alarm and to lead the Rapid Response Team in accordance with the procedures taught during lectures and practiced during the practice runs.

<u>O-Group</u>
Under the O-Group section there is an overall assessment which is critical. During the O-Group the candidate must develop a safe plan to respond to the emergency that considers the factors listed in the section. Failure to develop a safe plan will result in an automatic failure of the EC.

<u>Brow Actions</u>
In this section, the candidate is assessed on their ability to lead personnel while carrying out the plan developed during the O-Group. The critical performance factors are confirmation of the Brow Watchkeeper's actions, maintaining effective communication, briefing and establishing boundaries, briefing the attack or repair team, and leadership.

The final critical assessment criterion is whether the OOD's actions unnecessarily place someone or the ship at risk. Any major safety infractions at any point in the assessment will result in an automatic fail.
The OOD student will be debriefed following each assessed run and provided a copy of the assessment sheet to aid in preparation for PC 003 part B.

Pass/fail criteria: Assessed IAW EC 001.02 checklist. Trainees must achieve 100% of the critical checklist items in order to pass this EC. Failure of a critical item constitutes a failure of the EC.

ASSESSMENT RESOURCES:

- OOD Aide memoire;
- Operational DCTF;
- Safety equipment; and
- Safety personnel.

IMPACT OF FAILURE: Remedial Training / Re-test

PERFORMANCE CHECK 001 PART B

PC 001 Part B Time: 25 x 50 mins (concurrent) + ## min debrief

ASSESSMENT ACTIVITY: The goal of the PC 001 part B is to evaluate if the student has the basic skills to respond to an emergency alongside. Despite successful completion of this PC, the student will still have to complete an assessed exercise onboard their ship IAW the OOD OJPR.

For assessment of PC 001 part B, an assessment sheet has been created which highlights the required actions of the OOD. The sheet, located below, is divided into three sections: Rapid Response, O Group and Brow Actions. Within each section, there are criteria denoted with a (*) which signifies a critical performance task. Failure of the student to complete a critical task will result in an automatic failed assessment. The student is scored on all of the criteria based on a Satisfactory (SAT) or Unsatisfactory (UNSAT) scoring. Numerous UNSAT scorings, even if not on any critical tasks, can result in a failed overall assessment at the discretion of the instructor. Comment areas are provided for the instructor to elaborate on the SAT/UNSAT scoring.

Rapid Response

Under the Rapid Response section there are five tasks, of which two are critical. The candidate is assessed on their ability to respond to an alarm and to lead the Rapid Response Team in accordance with the procedures taught during lectures and practiced during the practice runs.

O-Group

Under the O-Group section there is an overall assessment which is critical. During the O-Group the candidate must develop a safe plan to respond to the emergency that considers the factors listed in the section. Failure to develop a safe plan will result in an automatic failure of the PC.

Brow Actions

In this section, the candidate is assessed on their ability to lead personnel while carrying out the plan developed during the O-Group. The critical performance factors are confirmation of the Brow Watchkeeper's actions, maintaining effective communication, briefing and establishing boundaries, briefing the attack or repair team, and leadership.

The final critical assessment criterion is whether the OOD's actions unnecessarily place someone or the ship at risk. Any major safety infractions at any point in the assessment will result in an automatic fail.

The OOD student will be debriefed following each assessed run and provided a copy of the assessment sheet to aid in preparation for a supplementary attempt at the PC.

Pass/fail criteria: Students must achieve 100% of the CRITICAL PC checklist items in order to pass this part of the PC.

ASSESSMENT RESOURCES:

- OOD Aide memoire;
- Operational DCTF;
- Safety equipment; and
- Safety personnel.

IMPACT OF FAILURE: Remedial Training / Re-test

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the TP is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted TP Amendment Form, thus ensuring the QSP has the most relevant information.
