COURSE CAPACITY

4. Planning for the conduct of training is based on the RCN Training Production Cycle

a. Maximum – 12; and

b. Minimum – 6

MITE

5. Loading. The authority to load members onto this course lies with the Training Establishment (TE). NPTG is to be included as an INFO addressee on all loading messages.

6. Scheduling. Each session of this course shall be scheduled in MITE by the Training Establishment conducting the training. The course length in MITE is to be based on the course duration, planned annual leave, training breaks, weekends and training system holidays. Course sessions for Naval Reserve Force may be scheduled during training system holidays.

7. Prerequisites. To be selected for this course the loading authority must ensure that trainees have the following prerequisites:

a. Be selected for employment as a Chief Boatswain Mate aboard a Minor Warship;

b. Have met the minimum physical fitness standards and be free from any medical restrictions which would preclude full participation in all performance objectives;

c. Hold the minimum rank of MS;

d. PLQ Qualified (NQual AINR);

e. Hold the following qualifications:

(1) Bosn QL2-R (MITE 118233);

(2) Bosn QL5 (NQual AALD); or

(3) Bosn QL5 mods 1, 5, 7, 8 and 9 (MITE codes 119577, 119581, 120259, 120260 & 120261).

f. For Mod 1:

(1) DRMIS Maintainer (MITE 119096); and

(2) DRMIS Maint Supervisor (MITE 119097).

8. Qualification. Successful completion of the OJPR constitutes the primary means of attaining the USQ – CBM MWS (TBI) NQual. Prior to be allowed to attempt the OJPR, the trainee must either:

a. Have successfully completed mods 1 through 5 of this course; or

b. Have successfully completed Bosn QL6 (NQual AALE).

9. Additionally, the following MITE Course IDs will be granted:

a. Mod 1:

(1) DRMIS Manager (MITE 119098); and

b. Mod 3:

(1) C8 Carbine Refresher (MITE 118721);

CHAPTER 3: ASSESSMENT OF TRAINEE

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY COMMANDER OF THE TRAINING DEVELOPMENT CENTRE

GENERAL

1. All Performance Checks (PCs) are based on Performance Objectives (POs) in Chapter 2 of this QSP and the standard listed must be met to achieve this qualification. PCs will be administered in the form of examinations (practical or written) and the trainee must obtain a pass in all POs to successfully complete this course.

ENABLING AND PERFORMANCE CHECKS

2. Enabling Checks (ECs). ECs are formative tests that help the trainee and the instructors recognize progress or gaps in learning, so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. They also reinforce learning, so that it will be better retained for longer periods. Formative tests are designed to give feedback to both the instructor(s) and trainees. Each EO must have at least one EC. Marks for ECs are not calculated in the trainee's final mark.

3. Performance Checks (PCs). PCs are summative tests used to determine if the trainee has met the standard under the conditions (where possible) of the PO and hence can do the job. Supplemental PCs are administered upon failure of a PC and must be in the same format and have the same standard as the original PC.

RESPONSIBILITY FOR TESTING

4. Assessment of trainees is to be done IAW CFITES Vol. 7 – Evaluation

5. Standards provides quality control by designing, administering and scoring all Performance Checks. Any PC not administered or invigilated by standards staff will be administered by a non-involved instructor designated by the senior instructor. Criteria	Definition
A	**Previously qualified.** Task and knowledge already possessed by the candidate.
B	**Received on other courses.** Task and knowledge covered as part of other CF and/or RCN courses.
C	**Difficulty.** Task is not difficult to learn, formal training is not required.
D	**Importance.** Task is not important; it has no significant impact on mission success.
E	**Frequency.** Task is rarely performed, no formal training is required.
F	**Time allocated.** When the task is performed, relatively little time is required.
G	**Probability of deficient performance.** Trainees do not have a problem learning this task on the job.
H	**Skill Fade.** The time between completion of training and task performance implies a significant risk of skill fade / loss of competency.
L	**Lack of equipment.** Currently there is no equipment in the CF inventory to train this task.
M	**Theatre Mission Specific Training (TMST).** Task performance is specific to a given theatre of operations and training will take place prior to deployment into theatre.

Board Objective:

Canadian Forces Naval Operations School (CFNOS) to convene a Qualification Standard and Plan Writing Board (QSPWB) for the Unique Specialty Qualification - Chief Boatswain's Mate Minor Warship (USQ-CBM MWS) at reference C. The QSPWB is to adhere to the following timelines, limitations and recommendations:

a. The new course shall be ready for instruction by June 2015;
b. The course shall be available to Regular and Reserve force BOSN s;
c. The completed QSP is to be submitted for NPTG approval no later than 30 May 2015;and
d. QSPWB is to propose options for modularization, distributed learning, and use of training technologies to achieve efficiency and effectiveness of training.

Specification Task – No Train Decisions:

As per annex B. Significant discussions WRT decisions were:

A0850 – Advise on WOD evolutions: Board could not reach a consensus on meaning of task as they were unsure of what “WOD evolutions” consisted of and who they would be advising. Different interpretation by each member, none of which lead to something trainable.

A0870 – Advise on VERTREP operations: Lengthy discussion WRT applicability to the job. Consensus that the CBM does not provide any advice WRT VERTREP, they conduct/supervise the evolution under direction from command and helicopter crew. Recommend delete task.

C0150 – Supervise engagement of targets with 40 mm deck gun: The deck gun is being removed from the MWS. The ships no longer carry ammunition for it. Further, it was covered on its separate course. Recommend delete task.

F0160 Enforce quality of BOSN training, F0320 Enforce quality of seamanship instruction and F0330 Manage quality of seamanship training: The board felt that these three tasks were indeed the responsibility of the CBM MWS, however the graduates would be prepared to complete these tasks by being trained to conduct and supervise the evolutions.

BT001 - Carry Out Divisional Administration: This task was listed in the narrative of the job description, however was not listed in the master task list. Board was of the opinion that this was an important aspect of the CBM MWS job. As they act as a senior head of department at the PO2 level, they have limited experience or training (ie. ILP).

BT002 – Perform Force protection duties: This is a task for all member’s of the ship’s company, however the CBM MWS has a lead role. Board agreed this required additional training.

Discussions / Decisions:

04 Feb 2015- Started the day at 11hrs. TDO gave his brief, CPO2 Osbourne gave his Brief. Commenced with the train/ no train. Removed section with regards to 40mm, and removed the section for “Advise Command on VERTREP”. Agreed that all information would be covered in the Supervise VERTREP Operation.

05 Feb 2015- Started the day 0845. TDO gave a recap of what was done and gone over yesterday. 0900 worked on PO for Boats. Split the Boats Po into two PO’s. 002 PO Lead Rescue at Sea Operations, another 001 Supervise Launch and Recovery of Non-Rescue Ship’s Boats (Hurricane).Took stand easy at 10hrs. Re-commenced working after stand easy at 1015.Began working on the PO for Supervising WOD. Broke for lunch at 12hrs and came back from lunch at 13hrs. Started looking at PO for weapons. Took break at 1416. Start working again at 1426. Continued to look at the remainder or the PO possibilities. Removed three more sections from MESIP as determined that they are learnt on the job. The three sections removed were Manage Quality of Seamanship

Training, Enforce Quality of Seamanship Instruction, and Enforce Quality of Bosn Training. Recapped everything that was discussed for the day. Discussed items that PO2 Haycock brought up from the west coast.

06 Feb 2015- Day started late due to a snow storm, so the day began at 13hrs. Continued with working on the PO's for the boards. Completed the preliminary PO's for the QSP. Discussed the points that were brought forward by PO2 Haycock. Finished for the day.

07 Feb 2015- Day kicked off at 0830. Joined by LCdr DeVita. The board gave the Ma'am a briefing on everything that has been discussed and put in place over the last week. The ma'am suggested touching on being able to think of the box, ie. How to take fishing gear out of the water, being able to launch the new side scan equipment, and OP Carrib considerations. LCdr DeVita asked to have something brought in to the QSP about Artic operations, to include beaching, as well as cold weather expectation's. Also to have something put in about being able to launch the boats at night. A point was brought up to have something put in the course regarding EOD teams, and bomb issues. LCdr DeVita departed for the day, after discussing all the PO's with the board. Took lunch at 1130 to start back up for 1300. Started back up at 1300. The board took all the points from LCdr DeVita into consideration. Finalized all the QSP PO's and set up all the Modules for the course.

08 Feb 2015- Commenced for the day at 0830. Started out with a discussion about the possibilities of doing some of the course online as a DL. An issues has been brought forward by the board at the realization that the school is losing qualified personnel who can teach DRIMIS. And then are trying to figure out how to figure out how to get people qualified to teach personnel at their home unit. The board has decided that they will try and get the main instructor to come out and teach a course to personnel at the home units so as to be able to have the home units teach at their units. Started to discuss teaching points for each PO and EO. Began working on putting together the QSP itself. Working on PO 001. Completed the QSP section for PO 001. Break for lunch at 12hrs. Came back from lunch at 13hrs. Continued working on the QSP. Started working on the PO 002. Completed PO 002. Started working on PO 003. Finished for the day at 1515.

11 Feb 2015- The day began at 0830. Commenced working on the PO 003. Completed PO 003. Started working on PO 004. Completed PO 004. Removed the Force protection section from the Watch and Station Bill section. The board decided to make the Watch and Station Bill into an EO under the Admin section instead of making it a PO. Broke for lunch at 12hrs. Re-commenced from lunch at 13hrs. Went back and brought PO1 Harrison up to speed on the events of this morning. Began working on PO 005. Completed PO 005. Started PO 006. Completed PO 006. Started PO 007. Completed PO 007. Started PO 008. Completed PO 008. Started PO 009. Completed for the day at 1515.

12 Feb 2015- Day started at 0830. Recommenced EO for PO's. Broke for lunch at 12hrs. Then started at 13hrs. The board finished the remainder of the PO's, and moved onto starting the EO. They began working on the EO's for the PO Admin. Finishing off with the EO 001.2 Completed the day at 1530.

ANNEX E – ON JOB PERFORMANCE RECORD (OJPR)

(Certificate of Qualification)

_____

Name and Initials Rank SN

_____

Date Training Started Expected Date of Completion

THE OJPR MUST BE COMPLETED IN ACCORDANCE WITH THE INSTRUCTIONS BELOW. INCORRECT OR INCOMPLETE OJPR WILL BE RETURNED FOR RE-SUBMISSION.

INSTRUCTIONS

1. One copy of this OJPR, hereinafter referred to as the master copy, shall be made up for each individual beginning OJT. It shall be kept and maintained by the supervisor. The Training Establishment shall make a duplicate copy for retention by the trainee for the purpose of recording and reviewing individual progress. The CCA for the OJPR must maintain Training Tracker fields as outlined in Monitor Mass.

2. As the trainee completes each Performance Objective (PO) to the required standard, the Training PO or Officer will date and sign the applicable item on the master and duplicate copies of the OJPR sheet and inform the individual of the action taken.

3. It may not be possible to conduct OJT for some POs if, for example, the necessary equipment is not fitted on a ship, is not on issue to the unit, or is otherwise unavailable. If the training PO or Officer encounters any of these issues they are directed to contact Standards at the appropriate TE for guidance.

4. If an individual demonstrates the ability to perform additional duties not specified in this QSP, an appropriate entry shall be made under “Additional Duties” at the end of the OJPR.

PROGESS REVIEW

5. Progress review shall be carried out quarterly by the Divisional Officer and Section Head,
