CHAPTER 1: TRAINING MANAGEMENT DETAILS

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY COMMANDANT CFNOS

AIM

1. The aim of this Qualification Standard and Plan (QSP) is to establish the requirements and training for the Naval Boarding Party team member. This QSP is designed to assist training establishments in developing, conducting, evaluating and validating the training.

COURSE DURATION

2. Course duration is calculated in accordance with MARCORD 9-30 – Maritime Command Course Scheduling. For this course, a period of instruction is 50 minutes in duration.

Actual Training Days (ATT)	26
Training Administrative Time (TAT) (if required)	2
Base Administrative Time	0
Training Travel Time (if required)	0
Course Duration (total calendar days)	28

RESOURCES

3. Identify key resources required to conduct the training. Additional training establishment resources can be found at Annex H.

CHAPTER 3: ASSESSMENT OF TRAINEE

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY THE CFNOS COMMANDANT. APPROVAL AUTHORITY MAY BE DELEGATED TO THE STANDARDS DIVISION COMMANDER FOR THIS CHAPTER.

GENERAL

1. This is a pass/fail course. All Performance Checks (PCs) are based on Performance Objectives (POs) in Chapter 2 of this QSP and must be successfully completed to achieve this qualification.

ENABLING AND PERFORMANCE CHECKS

2. Enabling Checks (ECs). ECs are formative tests that help the trainee and the instructors recognize progress or gaps in learning, so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. They also reinforce learning, so that it will be better retained for longer periods. Formative tests are designed to give feedback to both the instructor(s) and trainees. Each EO must have at least one EC. Marks for ECs are not calculated in the trainee's final mark.

3. In the event of an EC failure, the trainee will be counselled and given (as appropriate):

a. Additional training;

b. Additional assignments;

c. Additional study; and

d. A rewrite for the EC.

4. Failure of 3 ECs and/or an EC rewrite will be handled IAW CFNOS SOs.

5. Performance Checks (PCs). PCs are summative tests used to determine if the trainee has met the standard under the conditions (where possible) of the PO. Summative tests can take the form of PCs or Critical ECs (reserved for safety related content). Supplemental PCs are administered upon failure of a PC or critical EC and must be in the same format and have the same standard as the original test.

6. PC failures/supplemental PC failures will be conducted IAW CFNOS SOs.

RESPONSIBILITY FOR TESTING

7. Standards cell provides a measure of quality control by confirming that POs are achieved according to the standards delineated in the QSP. They are responsible for the design, administration and scoring of all Performance Checks. Enabling Checks will be the responsibility of the Instructional Staff.

PROGRESS MONITORING

8. Trainee progress monitoring is done by instructors, instructor supervisors and if required, Standards and/or Quality Assurance. Monitoring, including unsatisfactory progress, is done IAW Training Establishment policy and CFITES Vol 6 - Conduct of Instruction Programmes. Trainee progress shall be continually monitored and recorded in order to:

a. Provide early warning of trainee difficulty;

b. Provide information to the PRB/TRB if required;

c. Provide information to assist in the completion of the CF 377 course report; and

d. Provide feedback on effectiveness of training.

9. The course officer shall maintain on file for 5 years the results of:

a. Enabling Checks (ECs);

b. PCs;

c. Instructor feedback;

d. Counselling sessions or interviews; and

e. Any significant incident that demonstrates the trainee's attitude or professionalism.

REVIEW BOARDS

10. Progress Review Boards (PRBs) are typically held for unsatisfactory course performance and are convened IAW CFNOSSO 306. However, they are not a pre-requisite for a Training Review Board (TRB).

11. All TRB requirements are contained in MARCORD 9-60 and are expanded upon in CFNOSSO 307.

12. Course removal for medical, compassionate, or other reasons will require the convening of a TRB as prescribed in MARCORD 9-60.

COURSE REPORTS

13. Course reports (CF 377) will be prepared IAW DAOD 5031-9 and current NTI. The narrative in block 17 will indicate the trainee's strengths and weaknesses in relation to specific POs and provide information of use to the trainee's Commanding Officer and Career Manager. Training limitations or incomplete training must be identified on the course report.

BREAK

Review of Maritime Command Qualification Standard and Plan Naval Boarding Party Basic

Background discussion on the decision to remove OC trg from NBPB/NBPS.

Due to restrictions on NATO/UN deployment regarding the use of chemical irritants the board has decided that the trg will be removed from QSP.

Decision was made to drop the minimum rank for NBPS course to MS from PO2, to enable units to have a qualified A2 as MS are being used in this position in some units.

Decided by the board that a pre-requisite to attending a NBPB course a mbr be capable of ascending and descending a jumping ladder to the height of a CPF missile deck in full NBP gear.

Decided by the board that following CRR 2T29 (team trg) is considered sufficient to re-qualify a person for NBPB if they have been off the team between 2 and 5 years.

Meeting Adjourned

27 March 2012

Continued Review of Maritime Command Qualification Standard and Plan Naval Boarding Party Basic

Reviewed PO 001 and amended training limitations:

a. Lack of Civilian Pattern Target Vessel limits the trg realism for the following reasons;

   (1) Merchant vessel's are distinctly different in layout and construction

   (2) No outside interference due to normal ship's work related activities

   (3) Allow the ability to employ CEASS and force on force scenarios in realistic environment

   (4) Ability to allow existing NBP teams a platform to conduct supporting CRR's alongside.

Reviewed and amended the list of References for the PO

Reviewed PO 002 and amended training limitations:

Bedford Rifle Range due to reduced template does not allow shooting of 5.56mm under 100m.

Bedford Rifle Range not licensed for employment of CEASS ammunition

Reviewed and amended the list of References for the PO

LUNCH

LS Laphen joined the Board.

Guest Speaker – CPO2 Simon ST(A) CBM

Discussed lessons learned including:

- Removal of OC
- Adding First Aid
- Adding Conduct After Capture
- CEASS OIC to NBPS
- Availability and suitability of training facilities
- Future vessel search procedures
- Future NBP weapon configuration

Commenced designed PO 003 deliver incident support which includes Conduct After Capture and Naval Combat Related First Aid.

Amended pre-requisite list to include, being current in Standard First Aid.

CPO2 Barnes carried upon completion of Chapter 1 and 2.

Remainder reviewed Chapter 3

Commence review Chapter 4 EO 001.01

Meeting Adjourned at 15:35.

28 March 2012

Guest Speaker – CPO2 Wyatt – Conduct After Capture

- brief on Conduct After Capture what is included in the training
- training validity, reasoning behind requirement for CAC Level B.
- Instructor support availability.
-

Review continued on EO 001.01 thru 001.09.

Decision was made to amend QSP to include distance learning portion for the course including EO 001.01, 001.04 and 001.09.

LUNCH

Created a tentative timeline proposal, requesting extending the course from 25 days up to 28 - 30 days, to present to the Commandant CFNOS.

Decision was to remove EC 001.09 combined EC for EO 001.07 and 001.09 and moved assessment to PC 001.

Meeting Adjourned 15:35.

29 March 2012

Review continued on EO 002.01

BREAK

Presentation to Commandant CFNOS

- requesting to increase training days from 25 to 28 – 30 days on the NBPB
- removing OC from the training, request more information to make decision on removal of OC
- discussed Opposed Boarding Party whether this QSP board should be happening now

- requested math on increase course dates with availability of instructors
- requested email to coastal F3's an N3's for notification purposes of possible course length increases to NBPB and NBPS
- for planning purposes for the board tentatively approved 28 and 12 days courses
- fully supportive of training video requested Lt Robinson to provide further details

Commandant CFNOS departed at this time.

Discussion regarding the training video creation process with Formation Imagining MCpl Murphy.

Discussion with Deck O Course Instructor with respects to the proposed changes in both QSPs, Deck O Course Officer is fully supportive of changes.

Review continued on EO 002.02

LUNCH

Discussion regarding West coast has some hesitation to include CEASS OIC qual in NBPS.

Reviewed EO 002.02 thru 002.04

Contacted Captain J.F.Young, Section OIC, of CTC Gagetown Infantry School of Small Arms. Requested clarification on the requirements for the initial training on the C7 and the C8. Result of discussion was that initial training on either weapon qualifies member to initial training on both weapons. If a change of sight is required for the tasking, member must be briefed on sight but there is no requirement for a further initial training.

Meeting Adjourned 15:35.

March 30

Lt Robinson departed and Lt Leslie joined the Board as Board TDO.

Created email on behalf of Commandant CFNOS to N3 and F3.

Reviewed EO 002.04 thru 002.07

Changes to course endorsed by DMTE:

FW Proposed Changes to NBP Basic

Aug - Oct 2013

QA of QSP by Capt N.L. Calkins, Sea Stds TDO. Made following amendments:

CFA Qual: Liaised w/ Stwds to confirm the CFA trg being delivered. Essentially, they teach as per the army Training Plan (TP). Therefore, NBP QSP will link to CFA TP as to resolve any issue with quals.

CAC Lvl B: Created a new PO, to link to CAC TP.

PO 001: Creating a combined EC for the PIP content. PC 001 was then combined into PC 004, as the checklist already had items from PO 001 (ie ROE, comms, etc.).

PO 002: Changed weapon ECs to mirror PLQ / NSAT ECs. EC for OC spray and baton updated to be a written EC. Created two-part PC; Part 1 is NQS for the weapons, Part 2 is baton and OC spray handling.

EO 002.04 (C8): Although members are previously qualified on the weapon, this duplication of training was intentionally kept IOT address skill fade of the weapon.

Fixed multiple internal consistency changes WRT timings, PO/EO details & assessment checklists.

Identified further timing inconsistencies between schedule & EO details. Added schedule to QSP, with schedule (annex G) to be considered the more valid one. For clarification, discuss with CFNOS Snr NBP Instr, at 902-427-3042.

Nov 2013

Concurrence from CFFSE: 26 Nov 13

Jan 2014

Approval by CFNOS Cmdt: 17 Jan 14

Follow-on actions

1. Submit SPQR change request
2. Request new MITE code
3. Publish to QSPMS.
4. Review Schedule & timings for alignment.

5. Review Teaching points for EO 002.04

ANNEX G – SUGGESTED SEQUENCING AND TIMINGS

Note: During the container searches the course is split in half, with the other half carrying out CEASS. This is done because only one stack of sea cans is avail.

ANNEX H – TRAINING RESOURCES

In accordance with Chapter 1 paragraph 3 add any extra tables or paragraphs used for Resources in this annex. (**Not** to be deleted.)

ANNEX I – COSTING INFORMATION

There will be a TD requirement for Conduct after Capture Instructor to come from Kingston ON to instruct CAC Level B estimate max 2 days required.

ANNEX J – COURSE HISTORY

This annex is to record course history issues such as explanations of amendments, pertinent findings, trends, resource problems and modifications. Focus should be given to both excellent and questionable issues of the course. Capturing important course history information is a useful managerial tool for amendment considerations by future course developers.

Note: This annex shall NOT be deleted. This annex must be annotated with every update / modification to this QSP. This is in addition to making the appropriate entry in the Record of Amendments table. Detail as to the nature and reason for amendments is to be provided here.

Course History

Upon direction from Commandant CFNOS QSP Board was held to review both NBPB and NBPS courses as QSP Boards were last held in 2005 and 2000 respectively. These reviews were also needed to provide a baseline standard for development of potential Expeditionary Opposed Boarding course to be developed at a later date

Additions to the NBPB course include Conduct After Capture Level B, Naval Combat First Aid and return of live agent OC training. A PIP was designed to cut down on training days to keep the course at a reasonable length

Additions to the NBPS course include CEASS OIC qualification and more in depth witnessing Training.

In both courses the PO's were re-organized to better reflect the way training is conducted.

20 June 2016: Shotgun and MP5 removed IAW message.
