FOREWORD

1. This training document is developed under the authority of the Commander Naval Training and Personnel Group (CNPTG) and in accordance with the following references:

a. NPTORD 4500-22 - Qualification Standard and Plan Production and Management;

b. NAVORD 4500-0 - Structured Delegation;

c. A-P9 – 050 Series, Canadian Forces Manual of Individual Training and Education (CFITES);

d. A-PD-055-002/PP-003 Canadian Forces Officer General Specification;

e. A-PD-055-002/PP-002 Non-Commissioned Member General Specification;

f. A-PD-055-003/PQ-001 Maritime Tactical Operator Draft Specialty Specification dated 24 Oct 14.

2. This QSP consists of specific Performance Objectives (POs) in Chapter 2 and Lesson Specifications and Enabling Objectives (EOs) in Chapter 4. A trainee will achieve the qualification when the standards listed in the POs have been met.

3. This QSP is effective upon approval and supersedes previous versions.

4. Suggestions for amendments to this QSP may be initiated by anyone and shall be forwarded in writing to the CCA for approval.

AIM

1. The aim of this Qualification Standard and Plan (QSP) is to train the Maritime Tactical Operator (MTO) in carrying out Force Protection and Boarding Operations. This QSP is designed to assist training establishments in developing, conducting, evaluating and validating the training.

COURSE DURATION

Course duration is calculated in accordance with NPTORD 4500-22 Individual Training Qualification Standard & Plan Mgmt (QSP). For this course, a period of instruction is 400 minutes in a training day. (See ANNEX G)

COURSE CAPACITY

Planning for the conduct of training is based on NPTORD 4500-22 Individual Training Qualification Standard & Plan Mgmt (QSP). Maximum capacity is based on instructor: student ratio of 1:3:

a. Maximum – 15;

b. Optimum – 15; and

c. Minimum – 10.

MITE

Loading. The authority to load members onto this course lies with the Training Establishment (TE). CNPTG is to be included as an INFO addressee on all loading messages.

2. Scheduling. Each session of this course shall be scheduled IAW NPTORD 4500-1 - Individual Training and Education Policy and NPTORD 4500-40 Quantity Control Management for the Naval Training System; in MITE by the Training Establishment conducting the training, and NPTG through the Quantity Control section. The course length in MITE is to be based on the course duration, planned annual leave, training breaks, weekends and training system holidays. Course sessions for Naval Reserve Force may be scheduled during training system holidays. When scheduling mods for the reserve components or out of area personnel, an admin day needs to be added to both prior and post course dates for course admin.

3. Prerequisites. To be selected for this course the loading authority must ensure that trainees have the following prerequisites:

a. Have met the minimum physical fitness standard;

b. Have met the minimum medical category (3/2/2/2/2/5);

c. Minimum security clearance of level I (confidential);

d. For NCMs be the rank of LS-MS (REG/RES ATR – Post-OFP)

e. For NCOs be the rank of PO2 – PO1 (REG/RES ATR);

f. For officers be the rank Lt(N) (REG/RES ATR, min NOPQ, preferably post D-level);

g. Current Military Standard First Aid;

h. Have successfully completed MTO selection; and

i. Be recommended by the Commanding Officer (CO).

j. Qualification. Successful completion of this course constitutes the primary means of attaining the Maritime Tactical Operator Qualification (NQual: ALJP). The following MITE Course ID will be granted MITE Course ID (121685) in conjunction with the qualification.

COURSE REPORTING

Upon passing this course, trainees shall receive a Course Report (CF 377) completed IAW CMP Instruction 01/06 - Course Reporting and Certificates and DAOD 5031-9 - Course Reporting and Certificates.

EVALUATION

4. Program evaluation shall be conducted IAW the guidance provided in A-P9-050-000 CFITES Vol. 11 - Evaluation and Validation Techniques.

VALIDATION

5. This training will be validated every five years IAW CFITES Vol. 8 - Validation of Instructional Programs and based on the task list in Annex B.

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

6. PLARs shall be conducted in accordance with, DAOD 5031-1 - Canadian Forces Military Equivalencies Program and CFITES Vol 12 - Canadian Forces Military Equivalencies Programme: Prior Learning Assessment.

SPECIAL INSTRUCTIONS

7. Nil.

CHAPTER 2: PERFORMANCE OBJECTIVES

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY CNPTG

PO 001

1. Performance: Execute Boarding Operations.

Conditions:

a. Given:

(1) MTO personal equipment;
(2) MTO team equipment;
(3) Medical equipment;
(4) Casualty evacuation equipment;
(5) MTO weapons and ammunition;
(6) MTO communication equipment;
(7) Support base; and
(8) Method of transportation.

b. Denied:

(1) Nil

c. Environmental:

(1) In any conditions;
(2) Day or night;
(3) At sea;
(4) Potential hostile threat; and
(5) Significant stress.

Standard: The MTO shall execute boarding operations IAW refs, by:

a. managing medical emergencies (T0018), by:

(1) establishing a casualty collection point;

(2) providing care for a casualty; and

(3) evacuating the casualty.

b. employing MTO weapons (T0026), by:

(1) maintaining MTO weapons; and

(2) employing MTO weapons.

c. employing MTO equipment (T0010, T0011), by:

(1) employing MTO team equipment;

(2) communicating using MTO equipment; and

(3) employing MTO individual equipment.

d. conducting “actions-on” vessels (T0010, T0011, T0012, T0016, T0020, T0021, T0022, T0023, T0025), by:

(1) securing vessels and structures, by:

(a) carrying out infiltration;

(b) carrying out insertion; and

(c) securing vessel, by:

i. controlling vessel; and

ii. controlling crew members/onboard personnel

(2) carrying out searches;

e. conducting personnel/vessel searches (T0012, T0015, T0016) by:

(1) carrying out SSE; and

(2) carrying out exfiltration;

(a) carrying out evacuation/extraction.

Standard: The MTO shall execute force protection operations IAW refs, by:

a. managing medical emergencies (T0018), by:

(1) establishing casualty collection point;

(2) providing care for casualty; and

(3) evacuating the casualty.

b. Employing MTO weapons (T0026), by:

(1) maintaining MTO weapons; and

(2) Employing MTO weapons.

c. Employing MTO equipment (T0026), by:

(1) Employing MTO team equipment;

(2) communicate using MTO equipment; and

(3) Employing MTO individual equipment.

d. conducting “actions-on” objective/own vessel (T0012, T0013, T0014, T0015, T0022, T0023), including:

(1) securing Controlled Access Zone (CAZ), by:

(a) carrying out force protection infiltration;

(b) carrying out force protection insertion;

(c) securing access control point, by controlling a CAZ;

(d) carrying out force protection searches;

(e) carrying out security patrols; and

(f) carrying out waterborne escort.

(2) carrying out Searches (T0012, T0015); and

(3) carrying out force protection exfiltration, by:

CHAPTER 3: ASSESSMENT OF TRAINEE

AUTHORIZATION FOR THIS CHAPTER AND AMENDMENTS MUST BE GRANTED BY COMMANDANT OF THE NTDC (A)

GENERAL

1. All Performance Checks (PCs) are based on Performance Objectives (POs) in Chapter 2 of this QSP and the standard listed must be met to achieve this qualification. PCs will be administered in the form of PRACTICAL examinations and the trainee must obtain a pass in all POs to successfully complete this course.

ENABLING AND PERFORMANCE CHECKS

Enabling Checks (ECs). ECs are formative tests that help the trainee and the instructors recognize progress or gaps in learning, so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. They also reinforce learning, so that it will be better retained for longer periods. Formative tests are designed to give feedback to both the instructor(s) and trainees. Marks for ECs are not calculated in the trainee's final mark. EC progress may be used to support Unsatisfactory Progress Monitoring and potential course removal. There is no requirement to formally re-test an EC.

Critical Enabling Checks (CECs). CECs are tests used to determine if the trainee has met the standard for a specific segment of instruction under the conditions (where possible) of the EO and hence can do the job. Supplemental CECs are administered upon failure of a CEC and must be in the same format and have the same standard as the original CEC. CECs will be treated in the same manner as PCs for tracking unsatisfactory training progress, and potential course removal.

Performance Checks (PCs). PCs are summative tests used to determine if the trainee has met the standard under the conditions (where possible) of the PO and hence can do the job. Supplemental PCs are administered upon failure of a PC and must be in the same format and have the same standard as the original PC.

Upon completion of EO CEC, a skills assessment sheet for shooting, CQB, and ICQB will be introduced IOT assess trainees ability to maintain the standard achieved/required.

RESPONSIBILITY FOR TESTING

Assessment of trainees is to be done IAW CFITES Vol. 7 – Evaluation

Naval Training Development Center (NTDC (A)) will provide quality control by designing all Performance Checks. All PCs will be administered, scoring and invigilated by a non-involved instructor designated by the senior instructor. Enabling Checks are the responsibility of the Instructional Staff.

PROGRESS MONITORING

Monitoring learning is the responsibility of all instructional and standards staff and instructional supervisors. Monitoring, including unsatisfactory progress, is done IAW CFITES Vol 6 - Conduct of Instruction Programmes, and TE SOs/SOPs.

Continuous monitoring of candidate progress is required on this course in order to provide the following:

a. Early warning of trainee difficulties;

b. Feedback on the effectiveness of training;

c. Information for the TRB or PRB (if required); and

d. Information to assist in completion of the CF 377 Course Report.

Trainees experiencing difficulty in any area of performance are to be counselled with regard to the nature of their shortcomings and suggested corrective action IAW Establishment SOs or SOPs.

PC/CEC failures and supplemental PC/CEC failures are to be handled IAW NPTORD 4500-54. Supplemental CECs and PCs shall not normally be given prior to 24 hours having elapsed since trainee was informed of their CEC or PC failure. Situations may arise (i.e. CEC 001.03-001.05- Fire arms training) that may require a shortened time due to resources. In the event these happen, students shall be afforded every opportunity to rectify their deficiency before re-test.

TRAINING REVIEW BOARD

e. Nil

COURSE REPORTS

Course reports (CF 377) shall be prepared and distributed IAW CFAO 26-12, NTI 014/2010 or applicable Training Establishment training directives.

Trainee will be graded pass or fail. IAW NTI 1/08 Course Reporting and Certificates, students will not be ranked.

Trainees will be observed throughout the duration of the MTOC for key attributes which could potentially impact their position within a team. The following attributes are considered critical in an MTO:

a. Leadership;

b. Critical Thinking;

c. Self-correcting;

d. Problem solving;

e. Teamwork; and

f. Situational Awareness.

FORMAT FOR FINAL ASSESSMENT

The final assessment for the MTOC boarding operations (focused around the planning and actual conduct of boarding operations) will be conducted at a minimum, 3 times, in 3 phases to allow for the max load of 15 students to be assessed by 5 instructors. The breakdown of phases is as follows:

a. Phase 1 – Planning (PC 003). Students will be individually assessed throughout the duration of the boarding operations PC with remedial assessments being conducted during the Force Protection assessment or if possible, during the boarding operations phase (time permitting);

b. Phase 2 – Execution (PC 001). Students will be individually assessed throughout the duration of the boarding operations PC with remedial assessments being conducted during additional scenarios; and

c. Phase 3 – Post-Operations Procedures (PC 004). Planning. Students will be individually assessed throughout the duration of the boarding operations PC with remedial assessments being conducted during the Force Protection assessment or if possible, during the boarding operations phase (time permitting).

The final assessment for the MTOC FP operations will be conducted at a minimum, 3 times, in 3 phases to allow for the max load of 15 students to be assessed by 5 instructors. The breakdown of phases is as follows:

d. Phase 1 – Planning (PC 003 if remedial required). Students will be individually assessed throughout the duration of the Force Protection PC as remedial assessments if required from the boarding Operations PC.

e. Phase 2 – Execution (PC 002). Students will be individually assessed throughout the duration of the Force Protection PC with remedial assessments being conducted during additional scenarios.

f. Phase 3 – Post-Operations Procedures (PC 004 if remedial required). Planning. Students will be individually assessed throughout the duration of the Force Protection PC with remedial assessments being conducted during additional scenarios.

In the event a trainee is on one of the last runs in the final assessment for PC 002 (FP Ops) and fails one of the PCs, the risk associated with conducting a supplemental run is minimal as there are limited key resources required.

The 6 runs associated with 2 scenarios should be scheduled on the 2nd last week of training to account for any potential supplemental PCs/reassessments

ANNEX J – COURSE HISTORY

This annex is to record course history issues such as explanations of amendments, pertinent findings, trends, resource problems and modifications. Focus should be given to both excellent and questionable issues of the course. Capturing important course history information is a useful managerial tool for amendment considerations by future course developers.

Note: This annex shall NOT be deleted. This annex must be annotated with every update or modification to this QSP. This is in addition to making the appropriate entry in the Record of Amendments table. Details as to the nature and reasons for amendments are to be provided here.

CRCN_Tasking_Direc
tive_-_Development_

In the attached letter (RDIMS# 325601), CRCN directed MARPAC to create an ENBP as phase one of the new boarding capabilities desired in the RCN. In order to accomplish this, CNPTG ordered a QSP WB to create an MTO Course to generate personnel to make up the new Boarding Unit (working name NBP 3.0 Project).

PC 002 - Execute Force Protection Operations .	PO 002	PO 002 PO 003 PO 004	To assess the student's ability to execute FP operations	Practical individual assessment to incorporate content from PO 002, 003, and 004, and tested in conjunction with PC 003 and PC 004. RBT scenario Individual checklist (Tick sheet) (90min/scenario)	10x50 min	Critical items: Safety, Speed, Accuracy, Application of ROE, search techniques, identifying and securing ACP, CQB, ICQB, Insert/Extract, TCCC	1st Failure results in a TED and an automatic re-test, 2nd failure will result in a TRB
EC 003.01	EO 003.01		To assess the student's ability to describe planning theory	Theory Short answer series of questions focusing on steps of BP, boarding, & FP planning (1 period, 3 questions)	1 x 50 min	80%	TED and Follow-up. Marks will be retained on student file for use in unsatisfactory student progress if needed.
EC 003.02	EO 003.02		To assess the student's ability to conduct mission analysis by delivering a Warning Order	Individual take-home scenario, students will need to conduct mission analysis and draft a Warning Order	1x50 min, take-home assignment	Students must create and hand in warning orders	TED and Follow-up. Marks will be retained on student file for use in unsatisfactory student progress if needed.
EC 003.03	EO 003.03		To assess the student's ability to evaluate factors	Individual in-class scenario, students will need to evaluate factors for the scenario provided in EC 003.02	1x50 min, take-home assignment	Students must create a detailed time estimate/map study and prepare outline plan	TED and Follow-up. Marks will be retained on student file for use in unsatisfactory student progress if needed.
EC 003.04	EO 003.04		To assess the student's ability to develop COAs	Individual in-class scenario, students will need to develop COAs for the scenario provided in EC 003.02	1x50 min, take-home assignment	Students must create a recce plan and complete the estimate	TED and Follow-up. Marks will be retained on student file for use in unsatisfactory student progress if needed.
EC 003.05	EO 003.05		To assess the student's ability to issue orders	Individual in-class scenario, students will need to issue orders for the scenario provided in EC 003.02	1x50 min, take-home assignment	Students must create and issue orders	TED and Follow-up. Marks will be retained on student file for use in unsatisfactory student progress if needed.
PO 003 - - Plan MTO Operations	PC 003	PO 001/2 PO 003 PO004	To assess the student's ability to plan operations	Individual practical scenario, assesses concurrent with PC 001 or PC 002, students must plan operations for scenarios as presented	2x50min per student (includes 15 min/student debrief for PC 001/2, 003, &	Students must carry out Battle Procedure planning for scenarios to be exercised as PC 001 and PC 002	1st Failure results in a TED and an automatic re-test, 2nd failure will result in a TRB
