ROYAL CANADIAN NAVY
QUALIFICATION STANDARD AND PLAN (QSP)

Naval Communicator (Nav Comm) 00299

Qualification Level 5A

Communications Systems and Networks Operator
(CISN Op)

QL5A – AIXC

MITE IDs
Module 1 – 122501
Module 2 – 122522

RECORD OF AMENDMENTS

The Training Authority (TA) designated for this qualification is the Commander Naval Personnel and Training Group (CNPTG). Naval Training Development Centre Atlantic (NTDC (A)) is the designated development centre responsible for the maintenance of training. Amendments to Performance Objectives (PO) are to be requested through NTDC (A) and approved by CNPTG. Amendments to Lesson Guidance (LG) are to be approved by the Commanding Officer (CO) of NTDC (A).

Revision	Approval Date	Authority

PO 001 – APPLY NETWORK INFRASTRUCTURE AND INTERCONNECTED CISCO NETWORK DEVICE THEORY 12
- EO 001.01 – Observe Network + Practices and Theory 14
  - 001.01.01 – Observe Network + Practices and Theory 14
- EC 001.01 – Observe Network + Practices and Theory 15
- EO 001.02 – Observe Interconnected Cisco Network Devices 1v3 Practices 16
  - 001.02.01 – Observe Interconnected Cisco Network Devices 1v3 Practices 16
- EC 001.02 – Observe Interconnected Cisco Network Devices 1v3 Practices 18
- EO 001.03 – Observe Interconnected Cisco Network Devices 2v3 Practices 19
  - 001.03.01 – Observe Interconnected Cisco Network Devices 2v3 Practices 19
- EC 001.03 – Observe Interconnected Cisco Network Devices 2v3 21
- PC 001 – Apply Network Infrastructure and Interconnected Cisco Network Device Theory 22

PO 002 – ADMINISTER INFORMATION SYSTEMS TECHNOLOGY 23
- EO 002.01 – Identify Information Systems Requirements 24

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

002.01.01 – Identify Information Systems Requirements 24
EC 002.01 – Identify Information Systems Requirements 25
EO 002.02 - Enforce Unit Compliance with Information Systems Security Orders and Directives 26
002.02.01 - Enforce Unit Compliance with Information Systems Security Orders and Directives 26
EC 002.02 – Enforcing Unit Compliance with Information Systems Security Orders and Directives 28
EO 002.03 - Implement Information Systems Disaster Response Plan 31
002. 03 - Implement Information Systems Disaster Response Plan 31
EC 002.03 - Implement Information Systems Disaster Response Plan 32
PC 002 – Administer Information Systems Technology 34

PO 003 – MAINTAIN NETWORK CONNECTIVITY 37
EO 003.01 – Administer Power Cycle Procedure 38
003.01.01 – Administer Power Cycle Procedure 38
EC 003.01 – Administer Power Cycle Procedure 39
EO 003.02 – Conduct Pre-sail Checks of Information Systems Equipment 40
003.02.01 – Conduct Pre-sail Checks of Information Systems Equipment 40
EC 003.02 – Conduct Pre-sail Checks of Information Systems Equipment 41
EO 003.03 – Monitor Network Connectivity 42
003.03.03 – Monitor Network Connectivity 42
EC 003.03 – Monitoring Network Connectivity 43
PC 003 – Maintain Network Connectivity 44

PO 004 – PERFORM CRYPTOGRAPHIC OPERATIONS 45
EO 004.01 – Utilize INFOSEC by Extracting General Instructions Information 46
004.01.01 – Utilize INFOSEC Extracting General Instructions Information 46
EC 004.01 – Utilize INFOSEC by Extracting General Instructions Information 47
EO 004.02 – Destroy Cryptographic Keymat 48
004.02.01 – Destroy Cryptographic Keymat 48
EC 004.02 – Destroy Cryptographic Keymat 49
EO 004.03 – Utilize the Simple Key Loader 50
004.03.01 – Utilize the Simple Key Loader 50
EC 004.03 – Utilize the Simple Key Loader 51
PC 004 – Perform Cryptographic Operations 53

PO 005 – CONDUCT ADVANCED FLEET MANEUVERING SIGNALS 54
EO 005.01 – Plot Multiple Line Formations and Advanced Maneuvers 55
005.01.01 – Plot Multiple Line Formations and Advanced Maneuvers 55
EC 005.01 – Plot Multiple Line Formations and Advanced Maneuvers 57
EO 005.02 – Plot Fleet Dispositions 64
005.02.01 – Plot Fleet Dispositions 64
EC 005.02 – Plot Fleet Dispositions 66

PC 005 – Conduct Advanced Fleet Maneuvering Signals 69

PO 006 – CONDUCT COMMUNICATION FOR MARITIME INTERDICTION OPERATIONS 77
EO 006.01.01 – Interpret OPTASK MIO Comm procedures 78
006.01.01 – Interpret OPTASK MIO Comm procedures 78
EO 006.02 - Establish Comms with Vessels of Interest 79
006.02.01 - Establish Comms with Vessels of Interest 79
EC 006.01 – Conduct Communication for Maritime Interdiction Operations 80
PC 006 – Conduct Communication for Maritime Interdiction Operations 81

PO 007 – ACTIVATE NAVAL MULTIBAND TERMINAL EQUIPMENT 82
EO 007.01 – Establish and Maintain Connectivity 84
007.01.01 – Establish and Maintain Connectivity 84
EC 007.01 – Establish and Maintain Connectivity 86
EO 007.02 – Configure MNT Operator Interface Software (OIS) 87
007.02.01 – Configure NMT Operator Interface Software (OIS) 87
EC 007.02 – Configure NMT Operator Interface Software (OIS) 89
EO 007.03 – Monitor NMT Network and Signal Flow 90
007.03.01 – Monitor NMT Network and Signal Flow 90
PC 007 – Activate NMT Equipment 91

PO 008 – MAINTAIN NAVAL MULTIBAND TERMINAL SECURITY 93
EO 008.01 – Oversee NMT Security 95
008.01.01 – Oversee NMT Security 95
EC 008.01 – Oversee NMT Security 96
EO 008.02 – Manage User Accounts 100
008.02.01 – Manage User Accounts 100
EC 008.02 – Manage User Accounts 102
PC 008 – Administrate NMT and Overseeing NMT Security 104

PO 009 – OPERATE NAVAL MULTIBAND TERMINAL VIA ADVANCED EXTREMELY HIGH FREQUENCY AND WIDEBAND GLOBAL SATELLITE 107
EO 009.01 – Configure WGS 109
009.01.01 – Configure WGS 109
EC 009.01 – Operate the NMT - WGS 110
EO 009.02 – Manage KGV 136 Setup 112
009.02.01 – Manage KGV 136 Setup 112
EC 009.02 – Manage KGV 136 Setup 114
EO 009.03 – Apply AEHF Operations 115
009.03.01 – Apply AEHF Operations 115
EC 009.03 – Operate NMT - AEHF 116
PC 009 – Operating NMT – AEHF and WGS 118

PO 010 – OPERATE MARITIME SATELLITE CONTROL UNIT 120

EO 010.01 – Activate MSCU Equipment 122
010.01.01 – Activate MSCU Equipment 122
EC 010.01 – Activate MSCU Equipment 123
EO 010.02 – Configure MSCU Software 124
010.02.01 – Configure MSCU Software 124
EC 010.02 – Configuring MSCU Software 125
EO 010.03 – MSCU Start-up and Shutdown Procedure 126
010.03.01 – MSCU Start-up and Shutdown Procedures 126
EC 010.03 – MSCU Start-up and Shutdown Procedures 127
PC 010 – Operate MSCU 130

RECOMMENDED SCHEDULE 1

FOREWORD

1. This training is based on the specifications found at:

   a. A-P9 050 Series, Canadian Forces Manual of Individual Training and Education (CFITES);

   b. A-PD-055-002/PP-004, Canadian Armed Forces Military Employment Structure (MES), Volume 2 – General Specifications, Part 4 – Non-Commissioned Member General Specifications; and

   c. A-PD-055 / PP-002 Job-based Occupation Specifications (JBS) NAV COMM 00299 dated 20 Jan 2004 modified 22 Jul 2015.

2. A trainee will achieve the qualification AIXC when the standards listed in all Performance Objectives have been met.

3. A trainee will achieve the following MITE Course IDs when standards listed in the associated Performance Objectives have been met:

   a. Module 1 (PO 001 DL or GPTNET); and

   b. Module 2 (PO 002-010).

4. The designated TEs for this training are indicated below:

TE	Phase / Module	MITE course ID	NQual
NFS(A) / NFS (P)	Mod 1	122501	AIXC
NFS(A) / NFS (P)	Mod 2	122522	AIXC

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

CHAPTER 1: TRAINING MANAGEMENT DETAILS

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

AIM

1. The aim of this Qualification Standard and Plan (QSP) is to establish the requirements and training for the Nav Comm CISN Op. This QSP is designed to assist NTDC (A) in developing, Naval Fleet Schools in conducting and evaluating, and NPTG in validating the training.

COURSE CAPACITY

2. Planning for the conduct of training is based on the guidelines in NPTORD 4500-40.

   a. Maximum – 12;

   b. Minimum – 2; and

   c. Optimum – 8.

COURSE DURATION

3. Course duration is calculated in accordance with (IAW) NPTORD 4500-22, Annex B. For this course, a period of instruction is 50 minutes in duration.

Base Administrative Time (BAT)	
Allocation of ATT	**Periods**
Sum of all EOs/POs	266
Enabling Checks (ECs)	33
Performance Checks (PCs)	18
Actual Training Time (ATT) Sub-total	**39 trg days**
Allocation of BAT, TAT, TTT and PT IAW NPTORD 4500-22, Annex B Table 3.1	
Base Administrative Time (BAT)	11
Training Administrative Time (TAT)	11
Training Travel Time (TTT) (*included in PT periods*)	
Physical Fitness (PT)	27
Sub-total	**7 trg days**
Course Duration Calculation (ATT+BAT+TTT+TAT+PT) 400 minutes **Partial days must be rounded up**	**46 trg days**

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

REQUIRED COURSE STAFFING

4. Identify key personnel required to conduct the training.

Position	Rank	Qualifications	Qty	PO / EO
Course Director	MS or above	PLQ & QL5B Qualified	1	All
Senior Instructor	PO1	QL6 Qualified	1	All
Course Instructor	S1 or above	QL5A Qualified	1	All

PREREQUISITES

5. To be selected for this course, the loading authority must ensure that trainees have the following prerequisites:

a. BMQ;

b. ZAGH; and

c. Level II security clearance.

POST-REQUISITES

6. To receive the NQual AIXC for this course, the loading authority must ensure that trainees receive the following post-requisites:

a. KIV 7; AJKP

b. TAC LANE; ATVC

COURSE REPORTING

7. Upon completion of the course, Trainees shall receive a paper record of completion by means of form CF 377. Course Report and Form CF 289 (or locally produced equivalent) Certificate of Military Achievement IAW DAOD 31-9 and NPTORD 4500-51.

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

8. PLARs shall be conducted IAW NPTORD 4500-27, DAOD 5031-1 and CFITES Vol. 12.

SPECIAL INSTRUCTIONS

9. NAVRES will be allocated 25 percent of course seats. Personnel to be confirmed 30 calendar days prior to course start date, or allocated seats will be redistributed to the Training Manager.

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

CHAPTER 2: PERFORMANCE OBJECTIVES & LESSON GUIDANCE

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

PO 001 – Apply Network Infrastructure and Interconnected Cisco Network Device Theory

1. **Performance**: Apply Network Infrastructure and Interconnected Cisco Network Device Theory.

2. **Conditions**:

   a. Given:
      (1) References;
      (2) Workstations; and
      (3) Virtual Network Access

   b. Denied: Nil

   c. Environment:
      (1) Ship; and
      (2) Shore.

3. **Standard**: The CISN Op shall Apply Network Infrastructure and Interconnected Cisco Network Devices by:

   a. Observing Network + Practices and Theory (ET0870) by:
      (1) Reviewing the OSI Model Basics;
      (2) Recognizing Common Cabling Practices;
      (3) Recognizing DHCP & Network/Server Protocols; and
      (4) Reviewing Network and IP Addressing.

   b. Observing Interconnected Cisco Network Devices 1v3 Practices (ET0880) by:
      (1) Recognizing Network Topologies;
      (2) Describing Basic Switch Operations;
      (3) Describing Basic Route Operations;
      (4) Recognizing Route Logic; and
      (5) Reviewing Port Config/Forwarding Security practices

   c. Observing Interconnected Cisco Network Devices 2v3 practices (ET0890)by:
      (1) Recognizing VLANs and Trunks;
      (2) Recognizing Types of Spanning Tree Protocols;
      (3) Identifying Static & Dynamic Routing Protocols;
      (4) Defining Neighbourhood Adjacencies; and
      (5) Defining Serial + Leased Lines.

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

4. **Training Limitations**: Network + and ICND courses are industry standard. Nav Comms are not historically responsible for these tasks. Networking training for Nav Comms is being introduced via this QSP.

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

EO 001.01 – Observe Network + Practices and Theory

001.01.01 – Observe Network + Practices and Theory

Conditions		Sequence
Classroom with individual GPNet workstations equipped with headset.		Start
Time	**Classification**	**Instructor**
2000 minutes	UNCLAS	S1 Nav Comm or above

Learning Objectives	Method
1) Review the OSI model basics 2) Recognize common cabling practices 3) Recognize DHCP & Network/Server protocols 4) Review Network and IP Addressing	Distributed Learning via StormWinds Studios

Commented [S1]: Remove 'ing' and PO list formatting from all LOs (as per this example)

Scenario	As an S1 onboard HMCS Calgary, you will be responsible to perform multiple Network Functions learned on Network+.
Activity Steps	1) Trainees will complete Network+ course via StormWinds Studios. 2) At the end of this course, trainees will be expected to pass an EC on content within the StormWinds course.

Resources	References
Nil	1) StormWinds Studios video courseware

Notes to Instructor
The Training Manager will be the POC to StormWinds Studios for account maintenance and accounts will be sent to the instructors with the loading messages. Instructors are to notify trainees that they do not receive certification upon the completion of these courses. Certification may be obtained at the member's discretion and expense through StormWinds Studios. Trainees are required to have individual DWAN accounts. Instructor to notify trainees to download and save the powerpoint presentations provided by StormWinds for each video. StormWinds video: CompTIA Network+ (N10-008) (Please note this course needs to be specifically requested from TM in order for StormWinds to upload to trainee profiles.)

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

EC 001.01 – Observe Network + Practices and Theory

Scope	Conditions	Sequence
EO 001.01	Unclassified Classroom with individual GPNet workstations equipped with headset	After EO 001.01
Time	**Classification**	**Instructor**
50 minutes	UNCLAS	S1 Nav Comm or above

Scenario	As an S1 onboard HMCS Calgary, you will be responsible to perform multiple Network Functions learned on Network+.
Assessment Steps	**Input:** Trainees will be directed to EC 001.01 on the DLN **Performance**: Trainees will have 50 minutes to complete this assessment. **Output**: Trainees must achieve 8/10 to pass this EC. **Feedback**: Trainees will receive feedback from instructional staff on or before the next training day.

Resources	References
Nil	Nil

Notes to Instructor
EC located through Defence Learning Network (DLN) Trainees may use PowerPoints provided by StormWinds as well as their personal notes to complete this assessment. Written assessments are also provided in the event of DLN access complications.

Limitations	Nil
Impact of Failure	Instructor shall meet with trainees within one training day to discuss assessment deficiencies. Trainees have unlimited attempts at this EC.

Commented [m2]: Font size

Commented [S3]: Has this EC been completed and submitted to Eli?

Commented [S4R3]: Completed on DLN

Commented [m5]: Font

Commented [m6]: Add Nil.if nil

PO 002 – Administer Information Systems Technology

1. **Performance**: Administer Information Systems Technology

2. **Conditions**:

   a. Given:
      (1) References;
      (2) Workstations; and
      (3) Virtual Network Access

   b. Denied: Nil

   c. Environment:
      (1) Ship; and
      (2) Shore.

3. **Standard**: The CISN Op shall Administer Information Systems Technology by:

   a. Identifying Information Systems Requirements (FT0190) to include:
      (1) Coordinating the Lifecycle of Assets (ET0270);
      (2) Life Cycling Information Technology Assets (ET0260); and
      (3) Maintaining Inventory of IT Assets (ET0250).

   b. Enforcing Unit Compliance with Information Systems Security Orders and Directives (FT0370) to include:
      (1) Describing a Technical COMSEC Inspection (TCI);
      (2) Recognizing Network Configuration Restrictions;
      (3) Enforcing Compliance of Information Systems Equipment with TCI Direction (FT0150);
      (4) Preparing TCI requests (FT0250);
      (5) Submitting Requests for TCI (FT0230); and
      (6) Submitting Requests for Information Systems Configuration Management Changes (RFC) (FT0200).

   c. Implementing Information Systems Disaster Response Plan (ET0490) to include:
      (1) Maintaining Information Systems Fault Log (ET0360);
      (2) Performing Information Systems Backup (ET0500); and
      (3) Restoring Information Systems from Backup (ET0500).

4. **Training Limitations**: Nil.

EO 002.01 – Identify Information Systems Requirements

002.01.01 – Identify Information Systems Requirements

Conditions		Sequence
NCITT		After PC 001
Time	**Classification**	**Instructor**
400 minutes	UNCLAS	S1 or above Nav Comm

Learning Objectives	Method
1) Coordinate the Lifecycle of Assets 2) Life cycle Information Technology Assets 3) Maintain inventory of IT Assets	• EDI • Guest Lecture

Scenario	As an S1 onboard HMCS Calgary you will be expected to Identify IS Asset requirements.
Activity Steps	1) Instructor to pass out the DND 2227 and CF 942 forms with the IT lifecycle plan and discuss what information is required to include: a. Identify what qualifies a requirement for lifecycle (Out of date/ Upgrades/Damaged); b. Identifying Asset numbers/serial numbers/Computer name (information required for DND 2227 and CF 942); c. Instructor to demonstrate the procedure for filing a DND 2227 and CF 942 using handout provided; d. Trainees to fill out the DND 2227 and CF 942 forms using exercise assets. e. Instructor to speak on the importance of maintaining accurate Inventory and tracking of IT assets; and f. Instructor to have trainees complete Lifecycle exercises

Resources	References
1) Stores brief 2) DND 2227 3) CF 942 4) IT Lifecycle plan	Nil

Notes to Instructor

Make arrangements for a representative from ship support as a guest speaker (N64 IT Inventory Manager).

Exercise assets can be the trainee's workstation.

Instructor to show Global Catalogue/DRMIS to the class.

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

Instructor to have trainees complete at least one lifecycle exercise.

EC 002.01 – Identify Information Systems Requirements

Scope	Conditions	Sequence
EO 002.01.01	Classroom	After EO 002.01.01
Time	**Classification**	**Instructor**
50 minutes	UNCLAS	S1 Nav Comm or above

Scenario	As an S1 onboard HMCS Calgary, you will be required to Identify assets that need life cycling and Maintain IT Asset inventory.
Assessment Steps	**Input:** Trainees will be given a blank CF 942 and DND 2227 forms as well as fictitious Asset Information Sheet **Performance**: Trainees will be expected to complete given forms IAW policy and instruction **Output**: This assessment is pass/fail **Feedback**: Trainees will receive feedback from the instructional staff on or before next training day.

Resources	References
1) DND 2227 2) CF 942 3) Asset Information Sheet 4) 20201011-U-XXX-0000-NTDC(A)-EC002.01 CF 942 5) 20201011-U-XXX-0000-NTDC(A)-EC002.01 DND 2227	Nil

Notes to Instructor
Nil

Limitations	Nil
Impact of Failure	Instructor shall meet with trainee within 1 training day to assess training deficiencies

EO 002.02 - Enforce Unit Compliance with Information Systems Security Orders and Directives

002.02.01 - Enforce Unit Compliance with Information Systems Security Orders and Directives

Conditions		Sequence
NCITT		After EC 002.01
Time	**Classification**	**Instructor**
400 minutes	UNCLAS	S1 or above Nav Comm

Learning Objectives	Method
1) Describe a Technical COMSEC Inspection (TCI) 2) Recognize network configuration restrictions 3) Prepare TCI requests 4) Submit Requests for TCI 5) Submit Requests for Information Systems Configuration Management Changes (RFC)	• Guest Lecturer • Guided Discussion

Scenario	As an S1 onboard HMCS Calgary you will be required to ensure that all IT Assets/Networks are TCI compliant.
Activity Steps	1) Instructor will describe a Technical COMSEC Inspection (TCI), to include: a. A guided discussion on trainees experiences with TCIs conducted at their respective units; b. Explaining the purpose; and c. Describe the duties of the organization responsible for TCI. 2) Instructor to lead a discussion on the preparation and submittal of a TCI request. 3) Instructor is to lead a discussion in recognizing network configuration restrictions, to include: a. Describing the distance requirements; b. Explaining the zone restrictions; and c. Explaining the access requirements. 4) Instructor to demonstrate measurements between networks residing in the same area (i.e. ShipLAN/CSNI). 5) Instructor to review the RFC guidelines with the class found on http://admim-smagi.mil.ca/en/it-services/request/rfc.page

Commented [S18]: Same as above

EC 002.02 – Enforcing Unit Compliance with Information Systems Security Orders and Directives

Scope	Conditions	Sequence
EO 002.02	Classroom	After EO 002.02
Time	**Classification**	**Instructor**
100 minutes	UNCLAS	S1 or above Nav Comm

Scenario	As an S1 onboard HMCS Calgary, you will be required to Enforce Unit Compliance with Information Systems Security Orders and Directives.
Assessment Steps	**Input:** *Part 1*: Trainees will be given a 10 question written assessment *Part 2*: Trainees will be provided a Non TCI compliant workstation. They will be expected to identify the faults. **Performance**: Trainees will have 90 minutes to complete parts 1 & 2 of the EC **Output**: *Part 1*: Trainees must achieve 8/10 to pass Part 1. *Part 2*: Trainees must achieve 5/7 SATs to pass part 2 **Feedback**: Trainees will receive feedback from the instructional staff on or before next training day.

Commented [S19]: There is no SAT criteria for written assessments. "Traineess must answer 8 out of 10 questions correctly to pass Part 1" (This change must be reflected for every instance applicaple)

Commented [S20]: 'must achieve' is used for all previous assessments. Be consistent

Resources	References
1) 20201126-U-XXX-000-NTDCA-EC 002.02 (PART 1) Student copy 2) 20201126-U-XXX-000-NTDCA-EC 002.02 (PART 2) Student copy	Nil

Notes to Instructor

Trainees are to complete Part 1 first. Once the class has completed Part 1. Instructor is to ensure faulty workstation is setup for Part 2

Faults chosen for Part 2 of this assessment are to be drawn from 20201126-U-XXX-000-NTDCA-EC 002.02 (PART 2) Instructor copy.

Once faults are chosen, it is to be annotated within this ECs Checklist.

Limitations	Nil
Impact of Failure	Instructor shall meet with trainee within 1 training day to assess training deficiencies

EO 002.03 - Implement Information Systems Disaster Response Plan

002. 03 - Implement Information Systems Disaster Response Plan

Conditions		Sequence
NCITT		After EC 002.02
Time	**Classification**	**Instructor**
400 minutes	UNCLAS	S1 or above Nav Comm

Commented [S21]: Should this lesson be conducted after the previous EC. Check that ALL sequence cells are correct and that the sequence is aligned with Recommended Schedule Annex

Learning Objectives	Method
1) Maintain Information Systems Fault Log; 2) Perform Information Systems Backup; and 3) Restore Information Systems from Backup.	• Lecture • Lab exercise • Guest Lecturer

Scenario	As an S1 onboard HMCS Calgary you may be required to Implement Information Systems Disaster Response Plan.
Activity Steps	1) Instructor to discuss importance of Backups and the importance of being able to recover accidently deleted files. 2) Review Unclas Backup Check and EMC NetWorker Administration V9.1.0.6 backup recovery SOP for Ship's ISA with the class. 3) Instructor to go through the backup and recovery process on projector screen, trainees will follow along on their workstations. 4) Then trainees will be then complete Networker Lab. 5) Instructor to address any issues that the class may have with this lab.

Commented [S22]: If this outlines a process for this performance, it should be a reference as well as a resource

Commented [S23R22]: Will discuss during future meeting

Resources	References
1) Training Opportunities – Networker Lab 2) UNCLASS_BACKUP CHECK 3) EMC NetWorker Administration V9.1.0.6 backup recovery SOP for Ship's ISA	Nil

Notes to Instructor
Recommended to Instructors to co-ordinate with support services to have a guest lecturer.

EC 003.03 – Monitoring Network Connectivity

Scope	Conditions	Sequence
EO 003.03	NCITT	After EO 003.03
Time	**Classification**	**Instructor**
50 minutes	UNCLAS	S1 or above Nav Comm

Scenario	As an S1 onboard HMCS Calgary, you will be required to Monitor Network Activity.
Assessment Steps	**Input:** Trainees will be given a 10 question written assessment **Performance**: Trainees will be given 50 minutes to complete the EC **Output**: Trainees must answer 8/10 questions correctly to pass this EC **Feedback**: Trainees will receive feedback from the instructional staff on or before next training day.

PO 004 – Perform Cryptographic Operations

1. **Performance**: Perform Cryptographic Operations

2. **Conditions**:

   a. Given:
      (1) References;
      (2) SKL; and
      (3) Classified Workplace.

   b. Denied: Nil.

   c. Environment:
      (1) Ship; and
      (2) Shore.

3. **Standard**: The CISN Op shall Perform Cryptographic Operations to include:

   a. Utilizing INFOSEC by Extracting General Instructions Information (DT0980-DT0990).

   b. Destroying Cryptographic Keymat (DT0250) by Adhering to Emergency and Routine Destruction (DT0970).

   c. Utilizing the Simple Key Loader (SKL) (DT0960) by:
      (1) Initializing SKL (DT0950);
      (2) Transferring Keymat (DT0940); and
      (3) Verifying Keymat Protocol/Edition IAW INFOSEC (DT0930).

4. **Training Limitations**: Access to cryptographic environments and equipment during training.

EO 004.01 – Utilize INFOSEC by Extracting General Instructions Information

004.01.01 – Utilize INFOSEC Extracting General Instructions Information

Conditions		Sequence
Classroom		After PC 003
Time	**Classification**	**Instructor**
200 minutes	UNCLAS	S1 or above Nav Comm

Learning Objectives	Method
1) Extract General Instructions Information.	• EDI

Scenario	As an S1 onboard HMCS Calgary, you will be responsible for utilizing INFOSEC in order to perform cryptographic operations.
Activity Steps	1) Instructor is to review INFOSEC_01203 TRAINING (A) general instructions with the class 2) Instructor is to demonstrate the use of INFOSEC by: • Confirming supersession dates • Confirming Edition • Confirmation of Crypto • Classification of Short/Long titles 3) Instructor then picks a piece of keymat to have the trainees use INFOSEC to find pertinent information

Resources	References
1) INFOSEC_01203 TRAINING (A)	1) INFOSEC_01203 TRAINING (A)

Notes to Instructor
Pertinent information (Activity step 3) to be of the criteria in Activity Step 2. INFOSEC_01203 TRAINING (A) is designated as Protected A. Classified Classroom is not required.

EC 004.03 – Utilize the Simple Key Loader

Scope	Conditions	Sequence
EO 004.03	Classroom	After EO 004.03
Time	**Classification**	**Instructor**
50 minutes	UNCLAS	S1 or above Nav Comm

Scenario	As an S1 onboard HMCS Calgary, you will be required to Utilize the Simple Key Loader.
Assessment Steps	**Input:** Trainees will break up into pairs; trainee 1 will have keymat on their SKL, trainee 2 will not. Trainee 1 will then be required to transfer keymat from one SKL to trainee 2. Once trainee 1 has transferred the keymat, they will destroy it. Instructor is to verify that trainee 2 now has the keymat. Once confirmed trainee 2 then destroys the keymat. **Performance**: Trainees will have 50 minutes to complete this assessment **Output**: Trainees will have successfully completed this EC when the instructor has verified both trainees have transferred and destroyed keymat **Feedback**: Trainees will receive feedback from the instructional staff on or before next training day.

Resources	References
1) SKL 2) Training Keymat 3) Fill Cables	Nil.

Notes to Instructor
Instructor should have own SKL with keymat.

Limitations	Nil.
Impact of Failure	Instructor shall meet with trainee within 1 training day to assess training deficiencies

SATCOM Trainer and Classroom		After PC 006
Time	**Classification**	**Instructor**
100 minutes	UNCLAS	S1 or above Nav Comm.

Learning Objectives	Method
1) Identify NMT Equipment to include: a) Communications Group b) Antenna Group c) Associated Equipment 2) Equipment Flash-up Procedures to include: a) Flash-up Procedures b) Terminal Reset c) Terminal Power Down (Controlled) d) Emergency Power Off	• EDI • Tactical Walkthrough • Interactive Lecture

Scenario	You are SHOW on board HMCS Calgary, proceeding to sea to participate in Ex. Joint Warrior. You will be required to power on equipment in preparation for communication checks prior to sailing.
Activity Steps	1) Instructor will introduce the Trainees in manageable groups to the NMT equipment located in the server room. Trainees will be given handouts of the equipment and will be required to take notes as the instructor is describing each piece of equipment. 2) Simultaneously, trainees not in the server room will be reading NAVGEN 008/17 - background information on the RCN SATCOM project. 3) After identifying NMT equipment to all Trainees, Instructor will again take Trainees in manageable groups into the server room, explain and visually show the trainees: • How to conduct a flash-up • A terminal reset • A controlled shutdown • Simulated emergency shutdown.

EC 007.01 – Establish and Maintain Connectivity

Scope	Conditions	Sequence
EO 007.01	SATCOM Trainer and Classroom	After EO 007.01
Time	**Classification**	**Instructor**
50 minutes	UNCLAS	S1 or above Nav Comm

Scenario	During EX. Joint Warrior, in preparation to utilize satellite communications, flash up of the equipment is required.
Assessment Steps	**Input:** Trainees will be given an EC with snap shots of NMT equipment to identify. **Performance:** Trainees will have 50 minutes to complete this assessment. **Output:** Trainees must achieve 7/9 SATs to pass this assessment. **Feedback:** Trainees will receive feedback from the instructional staff on or before next training day.

Resources	References
1) 20191024-U-XXX-0000-NTDC(A)-EC-007.01_Activate_NMT_Equipment_Nav_Comm_SATCOM(S)	Nil

Notes to Instructor
No references are to be used during EC 007.01 Instructor will go through the answers of the EC with the trainees as a group.

Limitations	This is a theory based assessment due to resource limitations.
Impact of Failure	Instructor shall meet with trainee within 1 training day to assess training deficiencies.

EO 007.02 – Configure NMT Operator Interface Software (OIS)

007.02.01 – Configure NMT Operator Interface Software (OIS)

Conditions		Sequence
SATCOM Trainer and Classroom		After EO 007.01
Time	**Classification**	**Instructor**
100 minutes	UNCLAS	S1 or above Nav Comm

Learning Objectives	Method
1) Log on to the NMT 2) Applying functions of the NMT OIS to include: a) Top level window b) EHF protected GUI screens c) WGS GUI screens d) General GUI screens for NMT Operators 3) Current operating system used by NMT OIS to include: a) Log on process b) Password complexity requirements c) Account creation authority d) Account lock-out procedures e) Validity of generic/shared accounts	EDI

Scenario	You have been tasked to shadow your Watch Supervisor and learn how to operate the NMT. You will be required to log-on, be familiar with the NMT OIS functions and Operating system.
Activity Steps	1) Instructor go through the Power Point presentation for EO 007.02; viewed on the overhead projector. 2) The instructor will describe the layout of the NMT OIS. 3) Instructor will explain the following: • Operating system used by NMT OIS • Log on process • Password complexity requirements • Account creation authority • Account lock-out procedures • Validity of generic/shared accounts 4) Trainees to follow along with their own NMT virtual trainer.

Commented [S53]: This is a good job task specific scenario. Consider implementing more like these throughout

EO 009.01 – Configure WGS

009.01.01 – Configure WGS

Conditions		Sequence
SATCOM Trainer and Classroom		After PC 008
Time	**Classification**	**Instructor**
100 Minutes	UNCLAS	S1 or above Nav Comm

Commented [S70]: Same as previous

Commented [S71R70]: See above

Learning Objectives	Method
1) Establish and Maintain WGS connectivity a) Antenna b) Settings c) Mode 2) WGS Operations a) Power Balancing b) Status Updates c) EMCON d) Terminal Shutdown	• Guided Discussion • Simulation • Demonstration

Scenario	As an S1 onboard HMCS Calgary, you are responsible to operate the NMT using a WGS satellite. You need to configure the settings for antenna, power balance, be aware of EMCON states and other critical tasks.
Activity Steps	1) Instructor will open the lesson with a guided discussion on the topic of power balancing, giving each trainee an opportunity to share their experiences with the task. 2) Instructor will review accompanying Ppt. Trainees will follow along on their virtual terminals. 3) Trainees will simulate a power balance, using the instructor as the SOC. Proper procedures shall be followed such as ensuring that actions are only taken when directed by the SOC/WSOC.

PC 010 – Operate Maritime Satellite Control Unit

Scope	Conditions	Sequence
PO 010	SATCOM Trainer and Classroom	After EC 010.03
Time	**Classification**	**Instructor**
200 minutes	UNCLAS	S1 or above Nav Comm

Scenario	As an S1 onboard HMCS Calgary, you are responsible for the operation of various SATCOM equipment, including MSCU.
Assessment Steps	**Input:** Trainees will be required to flash-up terminal, connect to satellite and perform shutdown procedures on the MSCU. **Performance:** Each trainee will be given 15 minutes to complete this assessment. **Output:** Trainees must achieve 17/17 SATs to pass this assessment. **Feedback:** Trainees will receive feedback from the instructional staff on or before next training day.

Resources	References
Nil	Nil

Notes to Instructor
Recommend 2 instructors, 1 to invigilate the PC in the equipment room, 1 to invigilate in the classroom.

Limitations	Nil
Impact of Failure	IAW NPTORD 4500-54.

Commented [S106]: Same as previous

Commented [S107R106]: See above

Commented [S108]: This is the same Input as EC 010.03. Does this PC assess all content from this PO?

Commented [S109R108]: Yes ma'am. Will discuss

Commented [S110]: Align with Time cell and recommended Schedule

Commented [S111R110]: Will discuss at future meeting

Commented [S112]: Are there PC instructions for the students?

Commented [S113R112]: Same as previous EC

Commented [S114]: TRB NPTORD is 4500-54. Ensure this is reflected throughout

CHAPTER 3: ASSESSMENT OF TRAINEE

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

GENERAL

1. All Performance Checks (PCs) are based on POs in Chapter 2 of this QSP. Trainees must achieve the standard to be awarded the qualification. PCs will be administered in the form of practical or written assessments and the trainee must pass all POs to successfully complete this course.

ENABLING AND PERFORMANCE CHECKS

2. Enabling Checks (ECs) are formative assessments that help the trainee and the instructors recognize progress or gaps in learning, so that confirmation or corrective action (such as additional practice or remedial instruction) can be provided. ECs also reinforce learning and increase the retention of material for longer periods in preparation for the PC. EC results do not factor into a trainee's successful completion of the PO.

3. PCs are summative assessments used to determine if the trainee has met the standard under the conditions (where possible) of the PO. Supplemental PCs are administered upon failure of a PC and must be in the same format and have the same standard as the original PC.

RESPONSIBILITY FOR TESTING

4. Assessment of trainees is to be completed IAW the standards delineated in this QSP and IAW CFITES Volume 7 (Evaluation).

PROGRESS MONITORING

5. Monitoring learning is the responsibility of all instructional staff and supervisors. Monitoring, including unsatisfactory progress, shall adhere to CFITES Volume 6 Conduct of Instruction Programmes.

6. Continuous monitoring of trainee progress is required to provide the following:
   a. Early warning of trainee difficulties;
   b. Feedback on the effectiveness of training;
   c. Information for the Training Review Board (TRB) (if required); and
   d. Information to assist in the completion of the CF 377 Course Report.

7. Trainees experiencing difficulty in any area of performance are to be counselled with regard to the nature of their shortcomings and suggested corrective action IAW Training Establishment (TE) SOs or SOPs.

8. PC failures and supplemental PC failures are to be handled IAW TE SOs and SOPs. Supplemental ECs and PCs shall not be administered within 24 hours of the trainee being informed of their EC or PC failure. A re-test shall be scheduled, at minimum, 24 hours after the trainee is informed of the EC or PC failure.

TRAINING REVIEW BOARD

9. The aim of the TRB process is to review a trainee's suitability for continued training and education, while ensuring that the trainee is afforded a fair and just assessment of all relevant

information before a decision is made. TRBs shall be convened and conducted IAW NPTORD 4500-54 Training Review Board Process.

COURSE REPORTS

10. Trainees shall be graded pass or fail IAW NPTORD 4500-51.

11. Course reports (CF 377) shall be prepared and distributed IAW NPTORD 4500-51. If applicable, training limitations and/or incomplete training must be included in the course report.

12. Narratives shall indicate trainee's strengths and weaknesses based on PC results to provide information to the Career Manager.

13. A record of trainee counselling is to be maintained by the TE.

Record of Decisions

Dates: 15 Sep 20 – 16 Dec 20

Location: CFB Halifax Stadacona Building S-15 Rm 323

Working Group Members:

Surname	Initials	Rank	MOSID	Unit
Scheller	L	CPO2	00299	NTDC(A)
Theriault	M	PO1	00299	NTDC(A)
Bunleon	K	PO2	00299	NTDC(A)
MacDonald	M	MS	00299	NTDC(A)
Aikens	G	MS	00299	NTDC(A)
Schmidt	D	S1	00299	NTDC(A)
Spencer	C	Lt	00211	NTDC(A)

Working Group Objectives:

1. This group was initialized as the result of a Tiger Team meeting between coasts that took place in Jan 2020.

2. Legacy and consistent stop gap training program modifications have caused revisionist QSPs which incorporated legacy MTL tasks, updated MTL tasks, draft MTL tasks, and unique tasks that have never been approved for addition. As such, CNPTG authorized Nav Comm Draft MTL V.5 as the baseline for all Nav Comm QSPs until such time that tasks are reorganized following a Combat Operator OA.

3. This document is the second in a series of revisions of Nav Comm QSPs that aims to improve, modernize, and standardize training for the trade.

Specification Task – No Train Decisions:

Task #	Task Statement	Substantiation
BT0010	Configure Military Satellite Circuits	Vagueness of Task. Taught throughout POs 7-10.
BT0020	Configure Civilian Satellite Circuits	Vagueness of Task. Taught throughout POs 7-10.
BT0030	Monitor Military Satellite Circuits	Vagueness of Task. Taught throughout POs 7-10.
BT0040	Configure Civilian Satellite Circuits	Vagueness of Task. Taught throughout POs 7-10.
BT0050	Troubleshoot Military Satellite Circuits	Vagueness of Task. Taught throughout POs 7-10.

ANNEX C – RECORD OF DECISIONS

BT0060	Troubleshoot Civilian Satellite Circuits	Vagueness of Task. Taught throughout POs 7-10.
CT0110	Plot Formations	Covered in QL3
CT0120	Plot Screens	Covered in QL3
CT0130	Report Tactical Signals	Vagueness of Task. Taught throughout QL5A
DT0190	Direct Tx/Rx of information by Comms Circuits	Task above this QL
DT0220	Conduct Over the Air Distribution/Rekeying of Crypto Mat	Covered in QL4 Course
DT0230	Configure Cryptographic Equipment	Covered in QL4 Course
DT0240	Load keymat into Cryptographic Equipment	Covered in QL4 Course
DT0260	Perform Comm Checks	Vagueness of Task
DT0270	Direct Comm Checks	Task above this QL
DT0280	Supervise Comm Checks	Task above this QL
DT0330	Troubleshoot Comm Circuits	Covered in QL4 Course
DT0340	Direct Troubleshooting Comms Circuits	Task above this QL
DT0350	Manage Troubleshooting Comm Circuits	Task above this QL
DT0360	Restore Comm Equipment after a Power Failure	Covered in QL4 Course
DT0390	Draft Communication Status Messages	Process of Message Drafting is Taught. Not specific messages.
DT0410	Advise Command on RADHAZ Safety	Task above this QL
DT0450	Monitor Ship's Comm Performance	Vagueness of Task. Covered in many different forms throughout QL3s/QL4s/QL5s
DT0460	Identify Unit Communication Capabilities and Deficiencies	Vagueness of Task
DT0470	Draft Communications Deficiency Messages	Process of Message Drafting is Taught. Not specific messages.
DT0480	Provide Input to Deployment Reports (mid/post)	Vagueness of Task. Opinion Based.
DT0540	Prepare Unit Frequency Clearance Requests	Process of Message Drafting is Taught. Not specific messages.

Discussions / Decisions:

4. Upon the convening of this Working Group (WG), Subject Matter Experts (SMEs) felt strongly that the KIV 7 and TAC LANE Common Specialty Qualifications (CSQ), as well as the SATCOM Unique Specialty Qualification (USQ) training should be incorporated into this course. It was investigated and ultimately decided that KIV 7 and TAC LANE will remain CSQs, however the completion of these two courses will be mandated before the AIXC NQual is granted as reflected in the Post Requisite section of

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

this document. The SATCOM USQ has been injected into Nav Comm QL5A training and will be phased out as a USQ.

5. This course was widely agreed to be in the best shape of the legacy Nav Comm trade courses and thus much of the QSP content was updated rather than re-envisioned. This QSP reflects the shift from a four chapter document which included Master Lesson Plans (MLPs) to a three chapter document that includes Lesson Guidance (LGs) giving the instructor more flexibility when incorporating some of the Alternate Instructional Techniques (AIT) that are included throughout.

6. Task analysis resulted initially in six performance objectives. With the inclusion of four SAT COM Performance Objectives (POs), the total number of POs is ten.

7. PO 001 is delivered via StormWind Studios with trainees being directed to the Defence Learning Network (DLN) for formative and summative assessments of this content.

8. The Naval Communication Information Technology Trainer (NCITT) is heavily utilized throughout this course where applicable and several Technology Enabled Learning (TEL) Development Opportunities have been identified in the TEL Development Opportunities Annex in an effort to increase performance-based learning and assessments.

9. Course Piloting procedures will be arranged prior to course implementation and improvement amendments will be incorporated to ensure this course meets the requirements for a Steady State Declaration.

<u>Guidance to Instructional Staff</u>:

10. The procurement of the StormWind Studios Distributed Learning content in PO 001 will require user accounts. The accounts will be sent to the instructors with the loading messages. The Training Manager will be the Point Of Contact to StormWind Studios for account maintenance.

11. Instructional staff on both coasts are encouraged to liaise with CCD Analysts, TDOs and/or working group personnel if, at any time, content clarity is needed.

Assessment Plan

EC/PC	Scope Covered	Purpose	How	Pass/Fail Criteria
EC 001.01	EO 001.01	To assess trainee competence in Observing Network + practices and theory	Written	Trainees must achieve 80% to pass
EC 001.02	EO 001.02	To assess trainee competence in Observing ICND1v3 practices	Written	Trainees must achieve 80% to pass
EC 001.03	EO 001.03	To assess trainee competence in Observing ICND2v3 practices	Written	Trainees must achieve 80% to pass
PC 001	PO 001	To assess trainee competence in Applying Network Infrastructure and Interconnected Cisco Network Devices	Written	Trainees must achieve 80% to pass
EC 002.01	EO 002.01	To assess trainee competence in Identifying Information Systems Requirements	Practical	Trainees must achieve 100% to pass
EC 002.02	EO 002.02	To assess trainee competence in Enforcing Unit Compliance with Information Systems Security Orders and Directives	Written + Practical (2 parts)	80% pass for written with critical criteria for practical
EC 002.03	EO 002.03	To assess trainee competence in Implementing Information Systems Disaster Response Plan	Practical	Trainees must achieve 100% to pass
PC 002	PO 002	To assess trainee competence in Administering Information Systems Technology	Practical	Trainees must achieve 80% to pass
EC 003.01	EO 003.01	To assess trainee competence in Administering Power Cycle Procedure	Written	Trainees must achieve 80% to pass

MARPAC RDIMS # 1378816
NTDC(A) Approval – 18/12/2020
NPTG HQ Approval – 08/08/2023
Version No: 2.0
MITE Course ID: 122501, 122522

EC 003.02	EO 003.02	To assess trainee competence in Conducting Pre-sail Checks of Information Systems Equipment	Practical	Trainees must achieve 80% and all Critical Criteria to pass
EC 003.03	EO 003.03	To assess trainee competence in Monitoring Network Connectivity	Written	Trainees must achieve 80% to pass
PC 003	PO 003	To assess trainee competence in Maintaining Network Connectivity	Written	Trainees must achieve 80% to pass
EC 004.01	EO 004.01	To assess trainee competence in Utilizing INFOSEC by Extracting General Instructions Information	Written	Trainees must achieve 80% to pass
EC 004.02	EO 004.02	To assess trainee competence in Destroying Cryptographic Keymat	Written	Trainees must achieve 80% to pass
EC 004.03	EO 004.03	To assess trainee competence in Utilizing the Simple Key Loader	Practical	Trainees must achieve 100% to pass
PC 004	PO 004	To assess trainee competence in Performing Cryptographic Operations	Written	Trainees must achieve 80% to pass
EC 005.01	EO 005	To assess trainee competence in Plot Multiple Line Formations and Advanced Maneuvers	Practical	Trainees must achieve 80% and all Critical Criteria to pass
EC 005.02	EO 005	To assess trainee competence in Plot and Report Fleet Dispositions	Practical	Trainees must achieve 80% and all Critical Criteria to pass
PC 005	PO 005	To assess trainee competence in Conduct Advanced Fleet Maneuvering Signals	Practical	Trainees must achieve 80% and all Critical Criteria to pass
EC 006.01	EO 006.01-006.02 (inclusive)	To assess trainee competence in Conduct Communication for Maritime Interdiction Operations	Written	Trainees must achieve 80% to pass
PC 006	PO 006	To assess trainee competence in Conduct Communication for Maritime Interdiction Operations	Written	Trainees must achieve 80% to pass

TEL Development Opportunities

Title	Type	Description of Requirement	Lesson	LSR #
Network +	Virtual Training	Obtain Network server equipment similar to the Ship's network	EO 00.01	
Identifying Network System Requirements	Video	Create a tutorial video conducted by a SME.	EO 002.01	
Monitoring Network Connectivity	Equipment	Obtain Cisco Packet Tracer course	EO 003.03	
Plot Multiple Line Formations and Advanced Maneuvers	Simulation/Videos	Create CGI simulation of ships maneuvering/Utilize Nav Sim	EO 005.01	
Plot and Report Fleet Disposition	Equipment	Create a large metal backed Disposition/Screen maneuvering board, with magnetic miniature warships.	EO 005.02	
MIO	Video	Create a scripted video on MIO hail procedures	EO 006.02	
MIO	Emulator	Develop MIO emulator that simulates MIO voice procedures	EO 006.02	
Activate NMT Equipment	Equipment	Obtain KGV 136 for NMT equipment	EO 007.01	
Operate the NMT	Simulator	Create and connect EBEM portion of NMT with trainee workstations to better simulate on the job performance	EO 009.01/ 009.03
