Chap 3 & 4 approved 04 09 2024

RECORD OF AMENDMENTS

1. The following versions of this QSP have been approved for use in support of the conduct of training. Amendments detailed in Annexes D and/or L.

Revision	Change Description	Date	Authority
1.0	QS creation by merging PID QL1 Mod 1 and Ship's Team Diver QSP	22 Apr 24	C NTG
1.01	CCA Approval 21 Aug 24	4 Sep 24	C NTG

NOTE:

Personnel programming courses must ensure that their hard copy of this document is current and identical to the electronic copy on the QSP SharePoint Site. See above for current changes.

FOREWORD

1. This QSP is issued on the authority of the Commander of the Royal Canadian Navy and managed by the Commander Naval Personnel and Training Group (CNPTG) on behalf of the Assistant Chief of Naval Staff Personnel and Training (A/CNS P&T).

2. This QSP is based upon A-PD-055-002/PP-002 - Occupation Specification, Port Inspection Diver published 10 May 2023;

3. This QSP publication is effective on receipt and supersedes PID QL1 Mod 1 (AHCU) QSP Version 1.0 dated 02 June 2018 (RDIMS #775379) and Ship's Diver / Supervisor (AHCU-AHCV) QSP Version 1.0 dated 29 June 2019 (RDIMS #979786). This QSP is designed to assist in developing, conducting, evaluating, and validating the Individual Training and Education (IT&E) required for training.

4. The QS at Chapters 1 and 2 were developed by the Qualification Standard Writing Board (QSWB) convened virtually over O365, 15 May – 9 June 2023, working in collaboration with subject matter experts drawn from participating organizations. The subsequent TP at Chapters 3 and 4 were developed by the Training Plan Writing Board (TPWB) convened 18 Mar-5 Apr 2024 at HMCS STADACONA working in collaboration with subject matter experts drawn from participating organizations. All aspects of this document were prepared in accordance with the concept of training outlined in A-P9-050 Series, Canadian Forces Manual of Individual Training and Education. Full details of the WBs are contained within Annex D and L.

5. The criteria for major and minor amendments, and the approval process, are identified in NPTORD 4500-22.

6. In circumstances where the QS and/or TP cannot be adhered to, submission of a Course Alteration Request iaw NTORD 4540-2 or individual Training Waivers to the CCA for individuals is required.

QUALIFICATION STANDARD

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

CHAPTER 1 – QUALIFICATION STANDARD

AIM

1. The aim of this QSP is to establish the requirements and training for the Shallow Water Diver (S/SWD) and Shallow Water Diver Supervisor (S/SWDS) to perform their duties as a Shallow Water Diver / Supervisor or Navy Diver Basic. Possession of this qualification will allow personnel to carry out assigned diving tasks. The main task activities are: dive as a member of a CABA dive team, conduct underwater searches, basic underwater engineering, and inspect jetty faces.

GRANTING OF NQUAL

2. A trainee will achieve the qualification (AHCU –Shallow Water Diver (SWD)) when the standards listed in the Performance Objectives (POs 001-005) have been met. A trainee will achieve the qualification (AHCV –SWD SUP) when the standards listed in the Performance Objectives (POs 001-006) have been met.

CO-QUALIFICATION

3. There are no additional qualifications included in this training program to meet the requirements of the job.

PREREQUISITES

4. To be selected for this course the loading authority must ensure that trainees meet the following prerequisites:

a. Be a Port Inspection Diver (PID) (MOSID 00226) or be a volunteer from any CAF occupation;

b. Be first aid qualified;

c. Have completed PSP swim test within a year of the course starting;

d. Occupations other than PID, be recommended by the member's Commanding Officer;

e. A completed DND 2939 Pre-screening Form – CAF Diver;

f. Language profile of C-B-C in English IAW DAOD 5039-6; and

g. For AHCV, hold a substantive rank of MS/MCpl or above; or hold the rank of S1 in the Port Inspection Diver (PID) MOSID 00226 occupation with PID RQS1 (NQual TBD) and CSQ AHCU.

Chap 3 & 4 approved 04 09 2024

CHAPTER 2 – PERFORMANCE OBJECTIVES

PO 001 CONDUCT NO-DECOMPRESSION DIVES USING COMPRESSED AIR BREATHING APPARATUS (CABA)

1. Performance: Conduct No-Decompression Dives using Compressed Air Breathing Apparatus (CABA).

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) Assistance;

      (6) Supervision; and

      (7) References.

   b. Denied: Nil; and

   c. Environment: Day and night within environmental limits established in ref A2.

3. Standard: The SWD shall conduct no-decompression CABA dives to 30 MSW (FT0150), with due regard to safety and environmental regulations IAW ref A2 to include:

   a. Preparing CABA diving equipment (FT0100) for diving;

   b. Completing diving worksheets to include:

      (1) repetitive worksheets; and

      (2) altitude worksheets;

   c. Applying Emergency Procedures (EPs) as required;

   d. Conducting a Lifeline Dive by:

      (1) Applying diving physics principles IAW ref A1;

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

(2) Applying diving rules and regulations;

(3) Tending CABA divers (FT0340); and

(4) Communicating to diver using line signals (FT0350).

e. Conducting a Jackstay dive;

f. Conducting a Deep dive;

g. Conducting CABA diving in moderately contaminated water (FT0165) to include:

(1) Preparing dive equipment for contaminated water diving (FT0160); and

(2) Conducting post dive routine on CABA diving equipment (FT0520).

h. Completing personal diving administration (FT0550).

4. Reference: A1, A2, A3.

5. Task Numbers: FT0100, FT0150, FT0160, FT0165, FT0340, FT0350, FT0520, FT0550.

6. Remarks: Nil.

Chap 3 & 4 approved 04 09 2024

PO 002 RESPOND TO DIVING EMERGENCIES

1. Performance: Respond to Diving Emergencies.

2. Conditions:

   a. Given:

      (1) An emergency scenario;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) Assistance;

      (6) Supervision; and

      (7) References.

   b. Denied: Nil; and

   c. Environment: Day and night within environmental limits established in ref A2.

3. Standard: The SWD shall respond to diving emergencies (FT0470) IAW ref A2 (Chapter 2 Medical Emergencies) by:

   a. Responding to diving emergencies as a member of the Dive Team by:

      (1) Describing diving physiology;

      (2) Identifying dive emergencies;

      (3) Assessing diver's condition (FT0490);

      (4) Conducting first aid for diving related aliments (FT0510); and

      (5) Performing dive emergency procedures.

   b. Performing the duties of a standby diver including:

      (1) Executing supervisor's instructions;

      (2) Conducting lost diver search (FT0480);

      (3) Recovering stricken diver (FT0500);

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

(4) Assisting in recovery of underwater casualty; and

(5) Debriefing supervisor.

4. Reference: A1, A2, A3.

5. Task Numbers: FT0470, FT0480, FT0490, FT0500, FT0510.

6. Remarks: Nil.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

PO 003 OPERATE DIVING SUPPORT EQUIPMENT

1. Performance: Operate Diving Support Equipment.

2. Conditions:

   a. Given:

      (1) Dive support equipment;

      (2) HP air compressor;

      (3) Compressed air cylinders;

      (4) Air sample cylinders;

      (5) Assistance;

      (6) Supervision; and

      (7) References.

   b. Denied: Nil; and

   c. Environment: Day and night within environmental limits established in ref A2.

3. Standard: The SWD shall operate diving support equipment by:

   a. Operating compressor and dive support equipment (FT0535) IAW ref A5;

   b. Conducting first line maintenance on CABA, compressors, and dive support equipment (FT0540) IAW ref A7 to include:

      (1) Filling out operators' maintenance log;

      (2) Checking POL statuses IAW ref A6;

      (3) Changing belts; and

      (4) Conducting air sample IAW ref A8.

   c. Carrying out first line maintenance on diving support equipment to include:

      (1) Inspecting overall currency and functionality of all safety equipment;

      (2) Ensuring floats and lines are correct for diving task; and

      (3) Conducting pre-sail check of small boats in support of dive ops.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

d. Conducting post dive routine on CABA diving equipment (FT0520) to include:

(1) Fresh water rinsing the dive equipment including the inside of the Buoyancy Compensator (BC);

(2) Disassembling the second stage regulators; and

(3) Lubricating the O-rings.

4. Reference: A2, A5, A6, A7, A8.

5. Task Numbers: FT0520, FT0535, FT0540.

6. Remarks: Nil.

PO 004 CONDUCT UNDERWATER INSPECTIONS

1. Performance: Conduct Underwater Inspections.

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) HMC Ship;

      (6) Assistance;

      (7) Supervision; and

      (8) References.

   b. Denied: Nil; and

   c. Environment: Day and night within environmental limits established in ref A2.

3. Standard: The SWD shall conduct underwater inspections (FT0230) of a ship's hull, a jetty, and seabed IAW ref A2 by:

   a. Conducting underwater searches (FT0240) including:

      (1) Locating underwater objects (FT0251);

      (2) Marking underwater objects (FT0251); and

      (3) Capturing underwater video and photos (FT0330).

   b. Conducting underwater preventative maintenance (FT0210) including:

      (1) Inspecting underwater hull fitting, outfits, and openings (FT0190);

      (2) Assessing hull damage; and

      (3) Conducting underwater cleaning (FT0280).

   c. Recovering underwater objects (FT0252).

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

4. Reference: A1, A2.

5. Task Numbers: FT0190, FT0210, FT0230, FT0240, FT0251, FT0252, FT0280, FT0330.

6. Remarks: Nil.

PO 005 NEUTRALIZE UNDERWATER ANTI-SHIP SABOTAGE DEVICES

1. Performance: Neutralize Underwater Anti-Ship Sabotage Devices.

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) Limped Mine Disposal Equipment (LMDE);

      (6) An exercise anti-ship sabotage device;

      (7) HMC Ship;

      (8) Assistance;

      (9) Supervision; and

      (10) References.

   b. Denied: Nil; and

   c. Environment: Day and night within environmental limits established in ref A2.

3. Standard: The SWD shall neutralize underwater anti-ship sabotage devices (FT0250) using LMDE IAW ref B1 to include:

   a. Preparing the LMDE IAW ref A4;

   b. Placing the LMDE on the hull;

   c. Firing the LMDE; and

   d. Conducting post use maintenance on LMDE IAW ref A4.

4. Reference: A2, A4, B1.

5. Task Numbers: FT0250.

6. Remarks: nil.

Chap 3 & 4 approved 04 09 2024

PO 006 CONDUCT RESCUE SWIMMER PROCEDURES

1. Performance: Conduct rescue swimmer (RS) procedures.

2. Conditions:

   a. Given:

      (1) A Rescue scenario;

      (2) In-water casualty;

      (3) Rescue equipment;

      (4) Recovery team;

      (5) SRS SAR suit and associated equipment;

      (6) Assistance;

      (7) Supervision; and

      (8) References.

   b. Denied: Nil; and

   c. Environment:

      (1) Day and night within environmental limits established in ref A2; and

      (2) At sea and/or alongside.

3. Standard: The SWD shall conduct rescue swimmer procedures (FT0460) IOT rescue an in-water casualty using safe rescue techniques IAW ref A2 (Chapter 1 Section 2 Diving Responsibilities Article 1208 Rescue Swimming) by:

   a. Preparing for casualty recovery to include:

      (1) Donning RS equipment;

      (2) Doffing RS equipment;

      (3) Maintaining RS equipment;

      (4) Communicating using rescue signals;

      (5) Entering water from rescue position;

      (6) Entering water from an elevated height; and

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

(7) Exiting water at the rescue position.

b. Recovering casualty to include:

(1) Using casualty recovery equipment;

(2) Surface swimming with rescue equipment;

(3) Assessing casualty condition; and

(4) Securing casualty in recovery equipment.

4. Reference: A1, A2.

5. Task Numbers: FT0460.

6. Remarks: XXXX or nil.

PO 007 SUPERVISE NO-DECOMPRESSION DIVES USING COMPRESSED AIR BREATHING APPARATUS (CABA)

1. Performance: Supervise No-Decompression Dives using Compressed Air Breathing Apparatus (CABA).

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) An emergency scenario;

      (3) A fully equipped dive team;

      (4) A diving platform;

      (5) Safety diving equipment;

      (6) Supervision; and

      (7) References.

   b. Denied: Assistance; and

   c. Environment: Day and night within environmental limits established in ref A2

3. Standard: The shallow water diver supervisor shall supervise no-decompression dives using CABA with due regard to safety and environmental regulations IAW ref A2 to include:

   a. Planning diving operations (FT0030);

   b. Conducting diving team administration (FT0560);

   c. Supervising CABA diving to 30 msw (HT0170) to include:

      (1) Supervising a Jackstay dive;

      (2) Supervising a deep dive;

      (3) Supervising neutralization of underwater anti-ship sabotage devices (HT0310); and

      (4) Supervising a diving emergency response (HT0050) to include:

         (a) Supervising first aid for diving related ailments (HT0240).

MARPAC RDIMS #1428073

Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

CHAPTER 3 – TRAINING MANAGEMENT DETAILS

TRAINING STRATEGY

1. The following training strategies were selected for this course:

   a. In person.

TRAINING DURATION

2. Based on existing resources and approved instructional design requirements, the approved Course Design authorizes 29 training days.

REQUIRED COURSE STAFFING

3. The following key personnel are required to conduct the training.

Course Director				
Rank	MOSID	Qualifications Required	Qty	PO / EO
PO1 – Lt(N)	00207 00342 00226	CLDO; QL6B CL DVR; or PID QL4 IS (AHCJ) recommended	1	All

Instructors				
Rank	MOSID	Qualifications Required	Qty	PO / EO
PO2/PO1	00342 00226	CL DVR QL5B; or PID QL3 AIT (AIMU) recommended	1	All
S1/MS	00342 00226	CL DVR QL5A; or PID QL2 AIT (AIMU) recommended	2	All
S1/MS	00342 00226	CL DVR QL5A; or PID QL2 AIT (AIMU) recommended	3	EO001.01 EC001.01
S1/MS	00342 00226	CL DVR QL5A; or PID QL2 AIT (AIMU) recommended	1	EO001.02
S1/MS	00342 00226	CL DVR QL5A; or PID QL2 AIT (AIMU) recommended	2	PC005

Guest Lecturers/Others (May be civilian)				
Lecturer	# Instructor	Subject	EO #	# period
DMA	1	Physiology	EO001.01	3
DAN O_2 instructor	1	DAN O_2	EO001.01	1

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

TRAINING LIMITATION

4. A training limitation may be due to constraints of resources, personnel or equipment. A training limitation is the difference between what a qualified individual must be able to do and what training can prepare them to do. The following limitations are identified below:

a. Shotline decompression will be simulated;

b. Emergencies will be simulated;

c. Ships availability might influence the schedule; and

d. Weather conditions.

COURSE CAPACITY

5. The capacity per session is based on the guidelines in CFITES Vol 5 – Instructor to Learner Ratios:

a. Optimum – 14 (4 trainee supervisors);

b. Maximum Load – 20 (4 trainee supervisors); and

c. Minimum – 8 (4 trainee supervisors).

DESIGNATED SCHEDULING AND COURSE LOADING

6. Training will be scheduled utilizing the HRMS Training (MITE) module to meet the training requirements (IAW NPTORD 4540-2).

7. The authority to load members onto this course will be IAW NTORD 4540-43. NPTG HQ is to be included as an info addressee on all loading messages. Course loading will be accomplished by:

a. The Career Manager for career courses; or

b. Diving Officer.

QUALIFICATION AND ASSESSMENT

8. This is a pass/fail course. Students must successfully complete all POs to achieve the qualification.

9. Students will be monitored and assessed both on performance and conduct throughout the course. Counselling, progress monitoring, and maintenance of student files will be in accordance with TE SOPs. Although not mandated specifically in the POs, the general demands of service members and the leadership demands of junior and senior leaders form an integral part of individual training. As such, students are

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

presumed to possess the leader and/or follower attributes commensurate with their rank.

10. A Minimum exposure to diving environment – trainees must complete a minimum of 14 hours of dive time in an underwater environment.

UNSATISFACTORY PROGRESS

11. Any student who fails to successfully complete all POs in the allocated number of attempts will be referred to the Commandant (Cmdt) or Commanding Officer (CO) of the training establishment (TE) to determine the requirement for a TRB IAW NPTORD 4500-54.

12. This is a specialty course for most candidates, except for PIDs. As a result, a TRB would only be required for PID candidates.

REMOVAL FROM TRAINING

13. A TE CO/Cmdt may direct that a student be removed from training for reasons of deficiency in performance, conduct (discipline, attitude, teamwork, safety, leadership), missed training, medical, and other non-performance/conduct related issues. In these cases, Cease Training Procedures are to be strictly adhered to IAW NPTORD 4500-29 or 4500-54.

14. Candidates who are unable to satisfactorily demonstrate fundamental skills in the pool, especially emergency procedures, for safety reasons, are not to be allowed to challenge EC 001.01 (EPs in open water).

15. Trainees who, for medical or other reasons, are excused from EO 001.01 (pool time) or diving for periods exceeding 48 hours may be considered for RTU at the discretion of the FDU Commanding Officer.

RECERTIFICATION REQUIREMENTS

16. Currency and/or re-certification requirements for this qualification are detailed in Canadian Armed Forces Diving Manual Vol 2 Chap 1 section 4.

LANGUAGE OF INSTRUCTION

17. The language of instruction shall be in accordance with the Delivery of Training and Education in Both Official Languages (DAOD 5039-6).

PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)

18. PLARs shall be conducted in accordance with DAOD 5031-1 Canadian Forces Military Equivalencies Program, through the RCN PLAR submissions coordinator.

POST COURSE REVIEWS (PCR)

19. PCRs are to be conducted on all steady state courses IAW NPTORD 4500-23.

COURSE REPORTING

20. Formal Course: A Canadian Forces Course Report, Form CF 377 and/or CF289 Certificate of Military Achievement, shall be prepared and distributed in accordance with DAOD 5031-9. The Course Report shall be descriptive, identifying the student's strengths and areas for development with specific comments on any PO for which the student demonstrated outstanding performance or had difficulty achieving the standard, any conduct relevant to course performance, and any conditions or situations that affected course performance. Additional comments must be provided on the following:

a. Dive log will also be annotated by instructors.

SPECIAL INSTRUCTIONS

21. A minimum of 6-night dives will be completed throughout the course. The night dives, including pre and post-dive procedures, will last approximately four hours. Therefore, students on this course are not required to stand duty watches.

22. While under training and performing a diving cycle, the trainee is entitled to casual diving allowance for the duration of the course IAW CBI 205.345 Para 2b.

23. If an AHCV candidate does not meet the requirements of PO 007, then they may still retain the qual of AHCU if they meet the requirements in PO 001-006.

Chap 3 & 4 approved 04 09 2024

CHAPTER 4 – LESSON SPECIFICATIONS

PO 001 – CONDUCT NO DECOMPRESSION DIVE USING CABA

EO 001.01 – MASTER DIVING FUNDAMENTALS

24. Performance: Master diving fundamentals.

25. Conditions:

    a. Given:

        (1) A dive task;

        (2) A fully equipped dive team;

        (3) Diving platform;

        (4) Safety diving equipment;

        (5) Assistance;

        (6) Supervision; and

        (7) References.

    b. Denied:

        (1) Nil.

    c. Environment:

        (1) Pool;

        (2) Classroom; and

        (3) Filling station.

26. Standard: The trainee shall master diving fundamentals to include:

    a. (FT0100) Preparing CABA diving equipment for diving by IAW ref A02 by:

        (1) Building CABA equipment;

        (2) Conducting pre-dive inspection of personal equipment;

        (3) Dressing in dry suit for inspection;

        (4) Land marking equipment in dry environment; and

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

(5) Filling tanks.

b. Perform basic diving procedures to include:

(1) Val-Salva in shallow water;

(2) Half mask clearing;

(3) AGA clearing;

(4) Mask change drills;

(5) Loose regulator recovery;

(6) Maintaining Trim and Buoyancy; and

(7) Conducting a controlled ascent.

c. Applying emergency procedures to include:

(1) Demonstrating raising a stricken diver from the bottom;

(2) Demonstrating buddy breathing drills;

(3) Achieving positive buoyancy on surface;

(4) Demonstrating blowup drill; and

(5) Administrating O_2.

27. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks

Prepare diving equipment:
• Build CABA equipment
  ○ Tank connection
  ○ Hose configuration
  ○ Standard layout
• Pre-dive inspection of personal equipment
  ○ SPG reading
  ○ Exhaust valve functionality
  ○ Power inflator function
  ○ Mask integrity
  ○ BC integrity
• Dress in Dry suit
  ○ Seals integrity
  ○ Buddy check zippers
  ○ Sizing of neck and wrist seals
	Method: EDI / walk trough
	
	Media: Instructor and diving equipment
	
	Environment: classroom or dive site
		3 x 50 min	A2, A10, A11, A12, A13

Rules and regulation: • Role and responsibility of dive team • Job scope • Currency and maintaining currency • Diver qualification suspension • Requalification • Approving authority for dive • Diving in another country • Dive site set up • Required personnel • Chamber – distance from dive site • Diving lines • Life line markings • Max depth • Signals • DGM	Method: lecture Media: Instructor Environment: classroom	2x50 min	A2

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

Teaching Points	Instructional Strategies	Time	References/Remarks
Effect of Physic on diver: • Gas laws • Buoyancy (Archimedes' principal) • Relation between pressure and volume • State of matter • Partial pressure of gas • Solubility of gas	Method: lecture Media: Instructor Environment: classroom	2x50 min	A1
Effect of Physiology on diver: • Hyper/Hypothermia • Hypo and hyperoxia • CNS and pulmonary toxicity • Decompression sickness (type 1 and 2) • Nitrogen narcosis • Baro trauma • Cannabis and alcohol • Drowning	Method: lecture Media: Instructor Environment: classroom	3x50 min	A1
Filling tanks • Opening and closing tanks • filling restrictor below 35 bar • safety consideration • max filling pressure • pressure relief	Method: EDI / walk trough Media: Instructor Environment: filling station	1 x 50 min	A14, A15
Basic Diving procedure: • Val-salva • Half mask clearing • AGA clearing • Mask changing • Loose regulator recovery • Controlled ascent • Trim and Buoyancy	Method: EDI Media: Instructor Environment: pool	8 x 50 min	A2
Emergency procedures: • Stricken diver IAW checklist • Buddy breathing drill ○ Positive buoyancy	Method: EDI Media: Instructor Environment: Pool	6 x 50 min	A2 – fig 2-4-1

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

Teaching Points	Instructional Strategies	Time	References/Remarks
DAN O_2 Trainee will attend DAN O_2 online course as a homework during EO001.01. DAN O_2 Instructor	Method: virtual and practical course Media: computer and instructor Environment: online done at home and practical at the pool	1X50 min	C1
Blowup Drill: • Disconnecting source of the issue • Venting gas from suit and or BC • Correction of feet first ascent	Method: EDI Media: instructor Environment: pool with drysuit	4 x 50 min	A2

28. Total EO Time: Total: 36 x 50-minute periods as follows:

    a. 30 x 50 min periods; and

    b. 6 x 50 min periods – EC (total time).

29. Training and Learning Aids:

    a. Training aids:

        (1) Underwater communication device.

    b. Learning aids:

        (1) CABA equipment set up checklist.

30. Remarks:

    a. Instructor Note: Trainee shall only progress to conducting EPs the ocean if the instructor is confident in the trainee's ability to conduct EPs in the pool. Ref Chap 3 para 11.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

b. Note of development: the board recommend a scenario base quiz about effect of physic and physiology on diver. The quiz will not be part of the EC. Upon failure, instructor might recommend remedial study. The quiz shall be done individually with access to references. The quiz shall not take more than 30 min in class.

EO 001.02 – CONDUCT A JACKSTAY DIVE

31. Performance: Conduct a jackstay dive.

32. Conditions:

    a. Given:

        (1) A dive task;

        (2) A fully equipped dive team;

        (3) Diving platform;

        (4) Safety diving equipment;

        (5) Assistance;

        (6) Supervision; and

        (7) References.

    b. Denied:

        (1) Nil.

    c. Environment:

        (1) Dive site;

        (2) Weather IAW A2;

        (3) Sea state limitation IAW A2; and

        (4) Day time only.

33. Standard: The trainee shall conduct a jackstay dive by:

    a. Setting up dive site by mustering dive support equipment and safety equipment;

    b. Entering the water;

    c. Buddying up;

    d. Conducting leak check;

    e. Demonstrating buoyancy while swimming;

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

f. Surfacing under control; and

g. Exiting the water.

34. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks

Set up diving site:
• Collect dive support equipment IAW checklist
• Safety equipment
  ○ Day/night flare
  ○ Diver recall
• Knot (bowline, 2 half hitch)
• Personal diving equipment
• Boat
• Radio
• Kill switch
• Informing authorities
	Method: EDI
	
	Media: Instructor
	
	Environment: dive site
		1 x 50 min	A3

Dive:
• Entering the water
• Buddy Up
• Leak check
• Weight up
  ○ Full breath
  ○ Float eye level
• Float line management
• Diving on command
• Demonstrate trim and buoyancy
• Surfacing under control
• Exiting the water
	Method: EDI
	
	Media: Instructor
	
	Environment: dive site
		9 x 50 min	PADI, SSI, or online civilian dive school forums

35. Total EO Time: Total: 10 x 50-minute periods as follows:

a. 10 x 50 min periods.

36. Training:

a. Nil.

37. Remarks:

a. No more than 10 pairs on the Jackstay IAW A2;

b. Standby in the water with the trainee to monitor trim and buoyancy and no pulling on jackstay;

c. Material will be assessed during other EOs; and

d. Trainee must get a demonstration and deploy a day/night flare before conducting jackstay dive.

EO 001.03 – CONDUCT A LIFELINE DIVE

38. Performance: Conduct a lifeline dive.

39. Conditions:

    a. Given:

        (1) A dive task;

        (2) A fully equipped dive team;

        (3) Diving platform;

        (4) Safety diving equipment;

        (5) Assistance;

        (6) Supervision; and

        (7) References.

    b. Denied:

        (1) Nil

    c. Environment:

        (1) Dive site;

        (2) Weather IAW A02;

        (3) Sea state limitation IAW A02; and

        (4) Day or night.

40. Standard: The trainee shall conduct a lifeline dive by:

    a. (FT0350) communicating to diver using line signals by:

        (1) Demonstrating diving signals from diver to tender;

        (2) Reacting to diver signals; and

        (3) Conducting dive.

    b. (FT0340) Tending CABA diver by:

        (1) Assisting diver in dressing into kit;

(2) Escorting a diver to waters edge;

(3) Passing diving signals from tender to diver;

(4) Relaying signals to supervisor;

(5) Visually maintaining contact with diver; and

(6) Assisting diver in recovering from water.

41. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Diver: • Pass and received line signals • Respond to line signals	Method: EDI Media: Instructor Environment: Dive site	4 x 50 min With 2 stations	A2
Tender: • Assist diver with dressing • Assist diver into water • Pass and received line signals • Line management • Positive control of line (two hands) • Relay line signals to supervisors • Assist diver in exiting water	Method: EDI Media: Instructor Environment: Dive site		A2

42. Total EO Time: Total: 7 x 50-minute periods as follows:

a. 4 x 50 min periods; and

b. 3 x 50 min periods – EC (indicate total time).

43. Training aids:

a. Object to recover.

44. Remarks:

a. Trainee shall focus on buoyancy to prevent disturbing the bottom.

EO 001.04 – COMPLETE PERSONAL DIVING ADMINISTRATION

1. Performance: Complete personal diving administration.

2. Conditions:

   a. Given:

      (1) Computer;

      (2) Calculator;

      (3) Assistance;

      (4) Supervision; and

      (5) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Classroom.

3. Standard: The trainee shall (FT0550) complete personal diving administration to include:

   a. Completing CAFDITS upon completion of dive;

   b. Completing dive log (CF-849); and

   c. Completing diving worksheet to include:

      (1) Repetitive worksheet; and

      (2) Altitude worksheet.

4. Teaching Points:

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

Teaching Points	Instructional Strategies	Time	References/Remarks
Complete CAFDITS entries: • Level of access • Get an account • Entering dive • Generating reports	Method: EDI Media: instructor and software Environment: classroom	1 x 50 min	CAFDITS
Complete Dive Log CF-849 entries • Standby entry • Diver entry • Supervisor entry • Attention to details • Standard fields • Standard abbreviations	Method: EDI Media: Instructor and log Environment: classroom	1 x 50 min	Dive log
Complete Repetitive and altitude worksheet: • Dive tables • Table 1, 1S, 4A, 4B, 5 • Rule and regulation • Flying after diving • Delays	Method: EDI Media: Instructor and worksheet Environment: classroom	12 x 50 min	A2

5. Total EO Time: Total: 16 x 50-minute periods as follows:

   a. 14 x 50 min periods; and

   b. 2 x 50 min periods – EC (indicate total time).

6. Training aids:

   a. Supplemental study handout.

7. Remarks:

   a. Instructor must make sure all trainees are register on CAFDITS prior to the lesson.

EO 001.05 – CONDUCT A DEEP DIVE

1. Performance: Conduct a deep dive.

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) Assistance;

      (6) Supervision; and

      (7) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Dive site;

      (2) Weather IAW A2; and

      (3) Sea state limitation IAW A2; and

      (4) Day.

3. Standard: The trainee shall conduct a deep dive by:

   a. Setting up the dive boat IAW deep dive checklist;

   b. Setting up shotline IAW A2;

   c. Planning gas requirement for deep dive;

   d. Conducting dive to include:

      (1) Following lazy shot procedure; and

      (2) Maintaining prescribed accent and descent rates.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Boat set up: • Identify required equipment • Standard layout of equipment	Method: EDI Media: Instructor and boat Environment: dive site	1 x 50 min	A2
Setting up shotline: • Equipment IAW checklist in vol 2 fig 5-1-5 • Pluming the depth • Deploying shotline • Deploying lazy shot IAW Vol 2 para 7 • Dirt dive	Method: EDI Media: Instructor Environment: dive site	1 x 50 min	A2
Planning gas requirement: • Critical gas supply • Surface consumption breathing • Gas endurance calculations IAW vol 2 para 5105	Method: interactive lecture Media: Instructor Environment: classroom	1 x 50 min	GUE SOP A2
Conduct deep dive: • Lazy shot procedure • Ascent and descent rate • Signals associated with deep dive procedure • Dive depth: min 20m - max 30m • Decompression procedure	Method: EDI Media: Instructor Environment: dive site	11x50 min	A2

5. Total EO Time: Total: 21 x 50-minute periods as follows:

   a. 14 x 50 min periods; and

   b. 7 x 50 min periods – EC (indicate total time or per student).

6. Training aids:

   a. Worksheet for gas consumption calculations.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

7. Remarks:

a. Trainee will conduct 2 practices dives to include:

(1) 15m dive; and

(2) 20-30m dive.

b. Trainee can conduct task during the 15m practice dive as instructor see fit. Suggested tasks:

(1) Circle search;

(2) Plumber’s nightmare;

(3) Tools manipulation;

(4) Stricken diver recovery; or

(5) Knots.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

EO 001.06 – CONDUCT CABA DIVING IN MODERATELY CONTAMINATED WATER

1. Performance: Conduct CABA diving in moderately contaminated water.

2. Conditions:

   a. Given:

      (1) Assistance;

      (2) Supervision;

      (3) Decontamination equipment;

      (4) Dive equipment; and

      (5) References.

   b. Denied: Nil.

   c. Environment:

      (1) Classroom; and

      (2) Dive site.

3. Standard: The trainee shall (FT0165) conduct CABA diving in moderately contaminated water (MCW) by:

   a. Planning MCW dive by:

      (1) (FT0160) Preparing dive equipment for contaminated water; and

      (2) Conducting decontamination.

   b. Diving in MCW; and

   c. (FT0520) conducting post dive routine on CABA diving equipment by:

      (1) Cleaning equipment IAW MCW procedures.

4. Teaching Points:

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

Teaching Points	Instructional Strategies	Time	References/Remarks
Plan MCW: • Equipment • Plan decontamination • Precautions • Contamination exposure • Microbial hazard (effect on diver) • Chemical hazard (effect on diver)	Method: interactive lecture Media: Instructor Environment: classroom	1x50 min	A2 fig 5-7-1
Post dive MCW equipment: • Cleaning procedure • Conduct decontamination procedure			A2 Para 5706

5. Total EO Time: Total: 7 x 50-minute periods as follows:

   a. 1 x 50 min period; and

   b. 7 x 50 min periods – PC (total).

6. Training aids:

   a. Nil.

7. Remarks:

   a. Trainee will not conduct a MCW dive since, other than specialized equipment and pre and post dive precautions, the dive procedures are the same as the other dives; and

   b. This EO will not be tested since the tasks are basic.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

PO 002 – RESPOND TO DIVING EMERGENCIES

EO 002.01 – RESPOND TO DIVING EMERGENCIES AS A MEMBER OF A DIVING TEAM

1. Performance: Respond to diving emergencies as a member of a diving team.

2. Conditions:

   a. Given:

      (1) An emergency scenario;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) Assistance;

      (6) Rapid neurological exam checklist;

      (7) Kit quarantine checklist;

      (8) Supervision; and

      (9) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Dive site;

      (2) Weather IAW A2; and

      (3) Day or night.

3. Standard: The trainee shall respond to diving emergencies as a member of a diving team by:

   a. Identify diver emergencies;

   b. Raising the alarm to include:

      (1) Deploying lost diver marker; and

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

(2) Deploying diver recall.

c. Following supervisor's direction;

d. Getting casualty our of the water by:

(1) Removing dive equipment from diver; and

(2) Placing the diver on a stretcher.

e. (FT0510) Conducting first aid for diving related aliments by:

(1) (FT0490) Assessing diver's condition by:

(a) Conducting ABCs; and

(b) Conducting rapid neurological examination.

(2) Put casualty on O_2 as required.

f. Providing ongoing casualty care;

g. Seeking higher level of care; and

h. Quarantining the casualty's equipment.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Identify diver emergencies: • Lost diver • Lost communication • Diver performs emergency signals • Follow supervisor direction	Method: EDI Media: instructor Environment: dive site	1x50 min	A2, A3
Raise the alarm: • Verbally signal the dive team • Deploy Lost diver marker at last known position • Deploy diver recall			A2

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

Teaching Points	Instructional Strategies	Time	References/Remarks
Extract casualty out of water: • Positive control of casualty • Remove dive equipment form casualty • Using harness extract casualty from the water • Put diver on a stretcher if required	Method: EDI Media: instructor Environment: dive site	2x50 min	A2, A3
Conduct first aid: • Assessing diver condition • ABC • Neurological examination IAW checklist • Put casualty on O_2 • Ongoing casualty care • Seek higher level of care			A1, A2, A3
Quarantine diver gear IAW checklist Vol 2 para 1804			A2

5. Total EO Time: Total: 3 x 50-minute periods as follows:

   a. 3 x 50 min periods.

6. Training aids:

   a. Nil.

7. Remarks:

   a. Trainee will practice, in teams of two, extracting unconscious diver from water into the boat; and

   b. The EO will not have EC since these skills will be practice during EO002.02, PO001, PO 007.

EO 002.02 – PERFORM THE DUTIES OF A STANDBY DIVER

1. Performance: Perform the duties of a standby diver.

2. Conditions:

   a. Given:

      (1) An emergency scenario;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) Assistance;

      (6) Supervision; and

      (7) References.

   b. Denied:

      (1) Nil

   c. Environment:

      (1) Dive site;

      (2) Weather IAW A2; and

      (3) Day and night.

3. Standard: The trainee shall perform the duties of a standby diver by:

   a. Executing supervisor's instructions;

   b. (FT0480) Conducting lost diver search IOT locate the lost diver;

   c. (FT0500) Recovering stricken diver by freeing diver from entanglement (fouling) if required;

   d. Assisting in recovery of underwater casualty; and

   e. Debriefing supervisor.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Rules and Reg for standby diver: • Assist as directed by supervisor • Self preservation (safety) • State of readiness • Required equipment	Method: interactive lecture Media: instructor Environment: classroom	1x50 min	A2, table 2-4-1
Locate lost diver: • Lost diver search procedure • Line management	Method: EDI Media: instructor Environment: dive site	6x50 min	A2
Recovering stricken diver: • Fouling • Controlled ascent • Assist in zodiac drill			
Debriefing supervisor: • Informal discussion with supervisor • Concise			

5. Total EO Time: Total: 19 x 50-minute periods as follows:

   a. 7 x 50 min periods;

   b. 6 x 50 min periods – EC (total time); and

   c. 6 x 50 min periods – PC (total time).

6. Training aids:

   a. Oscar dummy in CABA.

7. Remarks:

   a. Recommended to use staff as fictive casualty;

   b. Suggestion to development:

      (1) Create scenario to make the practice more realistic.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

PO 003 – OPERATE DIVING SUPPORT EQUIPMENT

EO 003.01 – OPERATE COMPRESSOR AND DIVE SUPPORT EQUIPMENT

1. Performance: Operate compressor and dive support equipment.

2. Conditions:

   a. Given:

      (1) Dive support equipment;

      (2) HP air compressor;

      (3) Compressed air cylinders;

      (4) Air sample cylinders;

      (5) Assistance;

      (6) Supervision; and

      (7) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Dive site; and

      (2) Day and night.

3. Standard: The trainee shall (FT0535) operate compressor and dive support equipment by:

   a. Filling out operators' maintenance log;

   b. Verifying the equipment is in date for maintenance;

   c. Conducting start up procedure by:

      (1) Checking POL statuses IAW ref A6;

      (2) Confirming the location of air intake is clear of exhaust;

      (3) Starting compressor;

(4) Hooking up the tanks;

(5) Monitor tanks and compressor during filling;

(6) Disconnecting the tanks; and

(7) Conducting flash down procedure.

d. Conducting trouble shooting drills to include:

(1) Changing belts; and

(2) Changing filters.

e. Conducting air sample IAW A8; and

f. Seeking higher level of maintenance.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Conduct start-up procedure: • Fill maintenance log • Check POL statuses • Air intake location • Start compressor • CO analyzer • Flow rate • Hooking up the tanks • Fill the tanks • Disconnect the tanks • Conduct flash down	Method: EDI Media: Instructor Environment: dive site or compressor location	2x50 min	A5, A6, A7, A14, A15
Conduct trouble shooting drills: • Changing belts • Changing filters • Common issues • Report issues • Seek higher level of maintenance			A5, A6, A7, A14, A15

Teaching Points	Instructional Strategies	Time	References/Remarks
Conduct air samples: • Follow SOP • Admin form	Method: EDI Media: Instructor Environment: dive site or compressor location	1x50 min	A8

5. Total EO Time: Total: 6 x 50 minutes periods as follows:

   a. 3 x 50 min periods; and

   b. 3 x 50 min periods – EC (indicate total time or per student).

6. Training aids:

   a. Air sample kit;

   b. Step by step video (available for trainee in the future); and

   c. Step by step job aid (flash up checklist).

7. Remarks: Nil.

EO 003.02 – CONDUCT FIRST LINE MAINTENANCE ON CABA COMPRESSOR AND DIVE SUPPORT EQUIPMENT

1. Performance: Conduct first line maintenance on CABA compressor and dive support equipment.

2. Conditions:

   a. Given:

      (1) Dive support equipment;

      (2) Dry suit;

      (3) Wet suit;

      (4) Assistance;

      (5) Supervision; and

      (6) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Classroom.

3. Standard: The trainee shall (FT0540) conduct first line maintenance on CABA, compressor and dive support equipment by:

   a. Inspecting overall currency and functionality of all safety equipment to include:

      (1) Checking first aid kit; and

      (2) Checking O_2.

   b. Ensuring floats and lines meet A2 standards;

   c. Conducting pre-sail check of small boats in support of dive ops and ensuring dive support equipment is available as per A2 checklist;

   d. Dry/wet suit maintenance and storage to include:

      (1) Patching defective equipment; and

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

(2) Conducting preventive maintenance.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Inspecting currency and functionality: • First aid kit • O_2 kit	Method: EDI Media: instructor Environment: classroom	2x50 min	A2
Ensuring floats and lines meet standards: • Overall condition • Marking • Length			A2
Pre-sail check of small boats: • Availability of dive equipment			A2

Dry/wet suit maintenance and storage:
• Dry VS wet
• Long term storage VS short term storage
• Sanitizing agent on appropriate gear (Virkon)
• Patch holes
• Preventive maintenance:
  ○ Sunscreen, bug spray, POL
  ○ Seal replacement
  ○ Zipper wax
			A12, A13

5. Total EO Time: Total: 2 x 50-minutes periods as follows:

   a. 2 x 50 min periods.

6. Training aids:

   a. Students' individual dive suits.

7. Remarks: Nil.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

EO 003.03 – CONDUCT POST DIVE ROUTINE ON CABA DIVING EQUIPMENT

1. Performance: Conduct post dive routine on CABA diving equipment.

2. Conditions:

   a. Given:

      (1) Regulator;

      (2) BC;

      (3) Assistance;

      (4) Lubricant;

      (5) Supervision; and

      (6) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Location with freshwater access;

      (2) Classroom; and

      (3) Day and night.

3. Standard: The trainee shall (FT0520) conduct post dive routine on CABA diving equipment by:

   a. Rinsing the diver equipment with fresh water including the inside of the buoyancy compensator (BC) by:

      (1) Ensuring regulator is pressurised for rinsing;

      (2) Rinsing interior of BC through power inflator;

      (3) Draining BC;

      (4) Drying and storing equipment; and

      (5) Rinsing all other equipment with fresh water.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

b. Disassembling/ reassembling the second stage regulators; and

c. Lubricating the O-rings.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Rinse dive equipment with fresh water: • Pressurized regulator • Rinse interior of BC through power inflator • Drain BC • Dry and store equipment • Rinse all other equipment with fresh water	Method: EDI Media: Instructor Environment: location with access to fresh water	1x50 min	A2, A10, A11
Disassemble and assemble the second stage regulator: • Inspect parts post disassembly • Lubricate the O-rings: ○ Non-POL lubricant	Method: EDI Media: Instructor Environment: classroom	1x50 min	A2, A10

5. Total EO Time: Total: 5 x 50-minute periods as follows:

a. 2 x 50 min periods; and

b. 3 x 50 min periods – PC (total time).

6. Training aids:

a. Nil.

7. Remarks:

a. Second teaching point will be taught during the last class on the first Friday of the course and be reinforced every Friday for the duration of the course.

PO 004 – CONDUCT UNDERWATER INSPECTIONS

EO 004.01 – CAPTURE UNDERWATER VIDEOS AND PHOTOS

1. Performance: Capture underwater videos and photos.

2. Conditions:

   a. Given:

      (1) 1 camera for every 4 trainees;

      (2) Underwater lighting (flashlight);

      (3) Assistance;

      (4) Supervision; and

      (5) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Classroom.

3. Standard: The trainee shall (FT0330) capture underwater videos and photos by:

   a. Operating action camera (GO-PRO) as per manufacturer manual; and

   b. Providing the video/photos to diver supervisor.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks

Operating the action camera:
• Follow manufacturer manual
• Basic video/photo theory:
  ○ Light
  ○ Distance
  ○ Framing
  ○ Moving
• Waterproofing housing
• Give video/photos to diver supervisor
	Method: EDI
	
	Media: Instructor
	
	Environment: classroom/dive site
		1x50 min	Manufacturer manual

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

5. Total EO Time: Total: 1 x 50-minute periods as follows:

   a. 1 x 50 min period.

6. Training aids:

   a. Nil.

7. Remarks:

   a. Practice underwater during EO004.02 and EO004.03; and

   b. Camera should have attachment for light.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

EO 004.02 – RECOVER UNDERWATER OBJECTS

1. Performance: Recover underwater objects.

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) 1 camera for every 4 trainees;

      (3) Underwater lighting (flashlight);

      (4) A fully equipped dive team;

      (5) Diving platform;

      (6) Safety diving equipment;

      (7) Search equipment;

      (8) HMC Ship/dive tenders;

      (9) Assistance;

      (10) Supervision; and

      (11) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Dive site; and

      (2) Day or night.

3. Standard: The trainee shall (FT0252) recover underwater objects by:

   a. (FT0251) locating underwater objects by:

      (1) Selecting search technique appropriate for the situation; and

      (2) Conducting underwater searches.

   b. (FT0251) Marking underwater objects.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks

Selecting/employing Search technique:
• Ship bottom searches
  ○ Free area aft
  ○ Search scheme alfa (neckless search)
  ○ Modified search scheme alfa (half neckless search)
• Seabed searches
  ○ Lifeline search
  ○ Circle search
  ○ Snag line search
• Jetty searches
• Communication while searching
• Recover object
	Method: EDI
	
	Media: Instructor
	
	Environment: dive site (white board)
		34x50 min (see remark)	A2
			
			For Ship's bottom search, trainees will only practice search scheme alfa and free area aft. Other searches will be discussed but do not need to be practiced

Locating/Marking underwater object: • Select types of marker floats: • Knots • Magnets • Effect of tide and current • Self adjusting line			A2

5. Total EO Time: Total: 35 x 50-minute periods as follows:

   a. 34 x 50 min periods.

6. Training aids:

   a. White board.

7. Remarks:

   a. Trainee will practice those type of search:

      (1) 1x day bottom search (7x50min);

      (2) 1x day jetty search (7x50min);

      (3) 1x day hull search (7x50min);

      (4) 1x day circle search (7x50min);

(5) 1x night dive – jetty or bottom search (3x50min); and

(6) 1x night dive – hull search (3x50min).

EO 004.03 – CONDUCT UNDERWATER PREVENTATIVE MAINTENACE

1. Performance: Conduct underwater preventative maintenance.

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) 1 camera for every 4 trainees;

      (3) Underwater lighting (flashlight);

      (4) A fully equipped dive team;

      (5) Diving platform;

      (6) Safety diving equipment;

      (7) Maintenance equipment;

      (8) HMC Ship/dive tenders;

      (9) Assistance;

      (10) Supervision; and

      (11) References.

   b. Denied:

      (1) Nil

   c. Environment:

      (1) Dive site;

      (2) Classroom; and

      (3) Day/night.

3. Standard: The trainee shall (FT0210) conduct underwater preventative maintenance to include:

   a. (FT0190) inspecting underwater hull fitting, outfits, and openings;

   b. Assessing hull damage; and

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

c. (FT0280) conducting underwater cleaning including selecting equipment for the task.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks

Inspect underwater hull fitting, outfits, and openings:
• Understand ships schematic
• Locating:
  ○ Discharge/inlet openings
  ○ Anode inspection
  ○ Dopler speed log
  ○ Echosounder
  ○ Sonar dome
  ○ Cathode
  ○ A-Frames
  ○ Gland seal
  ○ Sonar dome Ferring band
• Inspect using camera
	Method: demo and walkthrough/dive/3D model
	
	Media: Instructor
	
	Environment: drydock/dive site/classroom
		2x50 min walkthrough (including transport to dry dock)	A2

Assessing Hull damage: • Inspect damage site using camera			
Conduct underwater cleaning: • Select equipment • Clean			
Perform underwater maintenance task: • Poker gage • Assess pitch calibration • Sonar Dome routine • Plugging inlet/outlet fittings • Un-fouling props	Method: EDI Media: Instructor Environment: classroom and poker gage trainer	2x50min	

5. Total EO Time: Total: 12 x 50-minute periods as follows:

a. 4 x 50 min periods;

b. 1 x 50 min periods – EC (total time); and

c. 7 x 50 min periods – PC (total time).

6. Training aids:

a. Laminated flash card for ships fittings; and

b. Mock-up of a ship shaft for poker gage.

7. Remarks:

a. Trainee will conduct a walkthrough of ship in a dry dock, if available.

(1) Alternative options are guided dive under a ship with an instructor or a 3D representation of the ship's hull; and

(2) Timing will be affected by drydock availability. Dive walkthrough will take 7x50min to be conducted.

b. Trainee must enter water from quarter deck or equivalent elevation, at least once during this EO.

PO 005 – NEUTRALIZE UNDERWATER ANTI-SHIP SABOTAGE DEVICES

EO 005.01 – OPERATE LMDE

1. Performance: Operate LMDE.

2. Conditions:

   a. Given:

      (1) A dive task;

      (2) A fully equipped dive team;

      (3) Diving platform;

      (4) Safety diving equipment;

      (5) Limped Mine Disposal Equipment (LMDE);

      (6) An exercise anti-ship sabotage device;

      (7) HMC Ship;

      (8) Assistance;

      (9) Supervision; and

      (10) References.

   b. Denied:

      (1) Nil

   c. Environment:

      (1) Day/night;

      (2) Dive site; and

      (3) Classroom.

3. Standard: The trainee shall operate LMDE by:

   a. Preparing LMDE IAW Ref A4 by assembling LMDE parts IAW checklist;

   b. Placing the LMDE on the hull including preparing the hull; and

   c. Firing the LMDE by:

(1) Receiving permission to fire;

(2) Confirming all divers are out of the water;

(3) Initiating the shot; and

(4) Verifying effectiveness of the shot.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Understand threat of underwater anti-ship sabotage devices: • Limitation and capability of attacker	Method: interactive lecture Media: instructor Environment: classroom	1x50 min	AEDOPS
Safety precautions: • custody and use of cartridges • RADHAZ • grounding procedures • safety distances • pre-fire precautions • diving precautions			A4, A16
Preparing LMDE: • Identify LMDE parts • Put LMDE parts together • Loading procedures	Method: EDI Media: instructor Environment: dive site (not in the water)	2x50 min	A4, A16

Placing the LMDE on the hull:
• Prepare the hull (cleaning)
• Placement IAW checklist
  ○ Standoff distance
  ○ Angle
• Invert and flood the barrel
			A4, A16

Firing the LMDE: • Getting permission to fire • Confirm all divers are out of the water • Initiating the shot • Miss fire procedure • Verify effectiveness of the shot			A4, A16

5. Total EO Time: Total: 5 x 50-minute periods as follows:

a. 3 x 50 min periods; and

b. 2 x 50 min periods – EC (indicate total time or per student).

6. Training aids:

a. Variety of training limpet mines.

7. Remarks:

a. Trainees will practice setting up the LMDE on land for this EO, in groups of 3 to 4; and

b. Trainees will fire a practice cartridge by lowering the LMDE into the water.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

EO 005.02 – CONDUCT POST USE MAINTENANCE OF LMDE

1. Performance: Conduct post use maintenance of LMDE.

2. Conditions:

   a. Given:

      (1) Limped Mine Disposal Equipment (LMDE);

      (2) Assistance;

      (3) Supervision; and

      (4) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Day/Night;

      (2) Dive site; and

      (3) Classroom.

3. Standard: The trainee shall conduct post use maintenance on LMDE IAW ref A4 by:

   a. Disassembling the LMDE;

   b. Visually inspecting all parts;

   c. Rinsing, drying, and lubricating equipment; and

   d. Updating the log.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Post dive maintenance: • Disassemble • Visually inspect parts • Rinse • Dry • Lubricate • Update log	Method: EDI Media: instructor Environment: classroom/dive site	1x50 min	A4

5. Total EO Time: Total: 1 x 50-minute periods as follows:

   a. 1 x 50 min period; and

   b. 3 x 50 min periods – PC (total).

6. Training aids:

   a. Nil.

7. Remarks: Nil.

PO 006 – CONDUCT RESCUE SWIMMER PROCEDURES

EO 006.01 – RECOVER CASUALTY

1. Performance: Recover casualty.

2. Conditions:

   a. Given:

      (1) A Rescue scenario;

      (2) In-water casualty;

      (3) Rescue equipment;

      (4) Recovery team;

      (5) SRS SAR suit and associated equipment;

      (6) Assistance;

      (7) Supervision; and

      (8) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Day and night; and

      (2) At sea and/or alongside.

3. Standard: The trainee shall conduct rescue swimmer procedure (FT0460) to recover a casualty by:

   a. Preparing for casualty recovery;

   b. Communicating using rescue signals;

   c. Entering water from rescue position including entering the water from an elevated height;

   d. Surface swimming with rescue equipment;

   e. Assessing casualty condition;

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

f. Using casualty recovery equipment to secure the casualty; and

g. Exiting water at the rescue position.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks

Closing up for rescue station:
• Pipe
• Time limit IAW SSO
• Rescue signals
  ○ Haul in
  ○ Haul up
  ○ Flags
	Method: EDI
	
	Media: instructor
	
	Environment: dive site
		3x50 min	A2

Conduct rescue:
• Enter water under direction from elevated height
• Surface swimming to casualty
• Assess casualty:
  ○ Conscious (compliant VS noncompliant)
  ○ Unconscious
• Approach casualty
  ○ Front approach
  ○ Rear surface approach
  ○ Noncompliant approach
• Rescue carries
  ○ Cross chest carry
  ○ Controlled cross chest carry
  ○ Collar/equipment tow carry
• Release and escape
  ○ Front hold release/escape
  ○ Rear hold release/escape
• Exit water
			B2

5. Total EO Time: Total: 7 x 50-minute periods as follows:

a. 3 x 50 min periods;

b. 2 x 50 min periods – EC (total time); and

c. 2 x 50 min periods – PC (total time).

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

6. Training aids: Nil.

7. Remarks: Nil.

PO 007 – SUPERVISE NO-DECOMPRESSION DIVES USING COMPRESSED AIR BREATHING APPARATUS (CABA)

EO 007.01 – PLAN DIVING OPERATION

1. Performance: Plan diving operation.

2. Conditions:

    a. Given:

        (1) A dive task;

        (2) A fully equipped dive team;

        (3) A diving platform;

        (4) Safety diving equipment;

        (5) Supervision; and

        (6) References.

    b. Denied:

        (1) Nil

    c. Environment:

        (1) Day/night;

        (2) Any weather; and

        (3) Dive site.

3. Standard: The trainee shall (FT0030) plan diving operation by:

    a. Identifying the task;

    b. Contacting port authority to allow for dive;

    c. Identifying location of outside resources to include:

        (1) Hospital; and

        (2) Recompression chamber.

    d. Selecting and assigning tasks to team members;

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

e. Making sure all equipment is prepared and available;

f. Conducting dive brief that includes emergency evacuation plan; and

g. Verifying ship's safe to dive checklist has been completed.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Contact port authority: • Informing authority of intention • Confirm safe to dive Locate resources: • Hospital • Recompression chamber	Method: EDI Media: instructor Environment: dive site	1x50 min	A2
Give dive brief following template • Identify the task • Select team member considering previous divers • Emergency evacuation plan • Location • Depth limitations • Dive profile • Time limitations • Environment of dive site • Weather • Foreign country considerations • Hazards • Rule and reg			A2
Verify safe to dive checklist is completed: • Communicate with officer of the day • Type of checklists	Method: interactive lecture/ EDI Media: instructor Environment: classroom/ ship	1x50 min	A2 chap 6

5. Total EO Time: Total: 2 x 50-minute periods as follows:

a. 2 x 50 min periods (concurrent with EO002.01).

6. Training aids:

a. Brief template handout.

7. Remarks:

a. This EO will be taught only to supervisor trainees;

b. This EO will be taught concurrently with the other POs; and

c. The trainees will be mentored through this EO.

EO 007.02 – SUPERVISE CABA DIVING TO 30 MSW

1. Performance: Supervise CABA diving to 30 msw.

2. Conditions:

   a. Given:

      (1) Supervisor dive brief handout;

      (2) A dive task;

      (3) A fully equipped dive team;

      (4) A diving platform;

      (5) Safety diving equipment;

      (6) Watch or stopwatch;

      (7) Supervision; and

      (8) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Day/night;

      (2) Any weather; and

      (3) Dive site.

3. Standard: The trainee shall (HT0170) supervise CABA diving to 30 msw for jackstay dive, deep dive and (HT0310) neutralization of underwater anti-ship sabotage devices by:

   a. Inspecting all divers including standby diver;

   b. Conducting dive IAW A2;

   c. Recording all times;

   d. Calculating repetitive group (RG); and

   e. Conducting post dive brief.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks
Inspect all divers: • Safety check • Equipment checks • Standby diver check	Method: EDI (shadowing) Media: instructor Environment: dive site	1x50 min	A2

Conducting dive:
• Order diver in water
• Confirm buddy up and leak check
• Direct diver to leave surface
• Record times
• Check condition as diver reach surface
• Record max depth
• Calculate RG
• Conduct post dive brief:
  ○ Are all divers ok?
  ○ Review task
  ○ Provide diver with their RG
  ○ Informal AAR
• Secure dive site
• Close all diving call			

5. Total EO Time: Total: 5 x 50-minute periods as follows:

   a. 1 x 50 min period (concurrent with EO004.02); and

   b. 1 x 50 min period – EC (per trainee supervisor) (concurrent with EO004.02).

6. Training aids:

   a. Nil.

7. Remarks:

   a. This EO will be taught only to supervisor trainees;

   b. This EO will be taught concurrently with the other POs; and

   c. The trainees will be mentored through this EO.

EO 007.03 – SUPERVISE A DIVING EMERGENCY RESPONSE

1. Performance: Supervise a diving emergency response.

2. Conditions:

   a. Given:

      (1) Dwan access;

      (2) A dive task;

      (3) An emergency scenario;

      (4) A fully equipped dive team;

      (5) A diving platform;

      (6) Safety diving equipment;

      (7) Supervision; and

      (8) References.

   b. Denied:

      (1) Nil.

   c. Environment:

      (1) Day/night;

      (2) Any weather;

      (3) Classroom; and

      (4) Dive site.

3. Standard: The trainee shall (HT0050) supervise a diving emergency response by:

   a. Identifying the emergencies;

   b. Stopping all diving and recalling all divers;

   c. Recovering divers as required by:

      (1) Directing the boat;

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

(2) Deploying standby as required; and

(3) Recording time of key events.

d. Requesting support as required by:

(1) Informing the CoC of the emergency; and

(2) Contacting emergency services.

e. (HT0240) supervising first aid for diving related ailments by:

(1) Directing the dive team; and

(2) Recording time when casualty is on O_2.

f. Getting the casualty to a higher level of care;

g. Passing on relevant information to medical personnel;

h. Directing team member to quarantine the gear;

i. Completing emergency report; and

j. Initiating CF-98.

4. Teaching Points:

Teaching Points	Instructional Strategies	Time	References/Remarks

Identify emergencies:
• Medical
  ○ Dive related
  ○ Trauma related
• Non-medical
  ○ Equipment failure
  ○ Lost diver
  ○ Unplanned deco
  ○ Boat issues
  ○ Weather issues
  ○ Animals
  ○ Other
	Method: EDI (Shadowing)
	
	Media: instructor
	
	Environment: dive site
		1x50 min	A2

Teaching Points	Instructional Strategies	Time	References/Remarks

React to emergency:
• Stop all diving
• Recall all divers
• Recover divers
• Direct the boat
• Deploy standby diver
• Record time
• Request support
  ○ Inform CoC
  ○ Emergency services
• Supervise first aid
  ○ Direct dive team
  ○ Record time on O_2
• Get casualty to higher level of care:
  ○ Max depth
  ○ Reach surface time
  ○ Repetitive group
  ○ Other info about the dive
• Directing team to Quarantine the gear
	Method: EDI (shadowing)
	
	Media: instructor
	
	Environment: dive site
		2x50 min	A2

Emergency admin: • Complete emergency report (DND4490) • Witness statement (DND4489) • Initiate CF-98 (overview) • Where to find it • Submission	Method: interactive lecture Media: instructor Environment: classroom	1x50 min	A2

5. Total EO Time: Total: 8 x 50-minute periods as follows:

   a. 4 x 50 min periods (Concurrent with EO002.02); and

   b. 1 x 50 min periods – EC (per trainee supervisor) (concurrent with EO004.02).

6. Training aids:

   a. Nil.

7. Remarks:

   a. This EO will be taught only to supervisor trainees (except Tpt 3);

   b. This EO will be taught concurrently with the other POs (except Tpt 3); and

c. The trainees will be mentored through this EO.

EO 007.04 – CONDUCT DIVING TEAM ADMINISTRATION

1. Performance: Conduct diving team administration.

2. Conditions:

    a. Given:

        (1) Dwan access;

        (2) Supervision; and

        (3) References.

    b. Denied:

        (1) Nil.

    c. Environment:

        (1) Classroom.

3. Standard: The trainee shall (FT0560) conduct diving team administration by:

    a. (HT0290) Maintaining operation readiness of the diving team to include:

        (1) Ensuring diver currency;

        (2) Requesting waivers;

        (3) Conducting check out dives;

        (4) Signing dive logs; and

        (5) Generating quarterly reports.

    b. (HT0300) maintaining operation readiness of the diving stores.

4. Teaching Points:

MARPAC RDIMS #1428073

Teaching Points	Instructional Strategies	Time	References/Remarks

Operational readiness of dive team:
• Ensuring diver currency:
  ○ Medical
  ○ Dental
  ○ Force test
  ○ Dive currency
• Request waiver
  ○ Where to find
  ○ Submission
  ○ Rescinding/suspending diver
• Conduct check-out-dive
  ○ Schedule check out dive
  ○ Fill out form IAW vol 2, 1-4-3
• Singing dive logs:
  ○ Annotate dive log as required
• Generate quarterly reports
• Update DGM
• Update DTI
• Update CFTO
	Method: interactive lecture
	
	Media: Instructor
	
	Environment: classroom
		1x50 min	A2
			DND 4059-E

Maintaining operation readiness of the diving stores: • Review D Dive S inspection checklist • Request D Dive S inspection • TMI			A2

5. Total EO Time: Total: 5 x 50-minute periods as follows:

   a. 1 x 50 min period; and

   b. 1 x 50 min period – PC (per trainee supervisor) (concurrent with PC001).

6. Training aids: Nil

7. Remarks:

   a. This EO will be taught to all trainees.

ANNEX B – TASK LIST

1. The task list includes all of the tasks associated with this qualification, and the outcome of the Train / No-train decisions. If a task is designated as requiring training, the PO where it is covered is indicated. If a task is designated as not requiring training, the justification for that designation is provided.

2. The following table defines some of the criteria used to support a no-train designation in the task list. Other reasons may be used if required.

CRITERIA	DEFINITION
A	**Previously qualified.** Tasks and knowledge already possessed by the student by CAF and/or RCN courses, training and/or experience.
B	**Will receive on future courses.** Tasks and knowledge will be covered as part of other CAF and/or RCN courses and/or training.
C	**Difficulty.** Task is not difficult to learn; formal training is not required.
D	**Importance.** Task is not important; it has no significant impact on mission success.
E	**Frequency.** Task is rarely performed; no formal training is required.
F	**Lack of equipment.** Currently there is no equipment in the CAF inventory to train this task.

Task #	Task Statement	Train / No Train	PO #	Substantiation / Comments
FT0030	Plan diving operations	Train	PO007	
FT0100	Prepare CABA diving equipment	Train	PO001	
FT0110	Load equipment in vehicle	No Train		Task Too Simple
FT0120	Stow equipment in boat	No Train		Task Too Simple
FT0140	Transport dive equipment to dive site	No Train		Task Too Simple
FT0150	Conduct CABA diving to 30 msw	Train	PO001	
FT0160	Prepare dive equipment for contaminated water diving	Train	PO001	
FT0165	Conduct CABA diving in moderately contaminated water	Train	PO001	
FT0190	Inspect underwater hull fittings, outfits, and openings	Train	PO004	
FT0210	Conduct underwater preventative maintenance	Train	PO004	
FT0230	Conduct underwater inspections	Train	PO004	
FT0240	Conduct underwater searches	Train	PO004	
FT0250	Neutralize underwater anti-ship sabotage devices	Train	PO005	
FT0251	Locate and mark underwater objects	Train	PO004	
FT0252	Recover underwater objects	Train	PO004	
FT0260	Recover bodies	No Train		Task rarely performed
FT0280	Conduct underwater cleaning	Train	PO004	
FT0330	Capture underwater video and photos	Train	PO004

ANNEX D – RECORD OF DECISIONS QSWB

1. This record summarizes the conduct of the QSWB including major activities, important discussions, and contentious issues, as well as all decisions and recommendations made by the Board. A description of the reasoning which supports a decision or recommendation is provided when required.

Title	**SWD/Supervisor QS**			
Location of Board	**Virtual O365**			
Dates	**15 May – 9 June 2023**			
Board Composition				
	Surname	Initials	Rank	Unit
Co-Chair (content)	Gavin	ML	PO2	QCH
Co-Chair (process)	Keezer	JD	PO2	SCO
TM	Gauvin	D	PO1	NPTG
SME				
SME/Secretary				
Advisor	Khabian	S	Lt(N)	NTDCA

Details	Action
The official QS board for SWD course did not take place. Given the fact that this course is effectively an amalgamation of PID QL1 MOD1 and Ships Diver courses, and NPTG DEV SCHED being fully booked up, a discussion was had between the TM and Maj Murray on forgoing the official QS board and instead conducting a clerical/administrative amalgamation of the two QSPs identified above.	IOT ensure that the SWD QS meets all of the PID and Ships Diver requirements, members identified in the table above conducted regular MS TEAMS meetings and collaborated on creation of this document.
PO 001 – Board members were not clear on what is meant by “diving worksheets”. Original intention was to remove the line from the PO altogether. After referencing SD QSP, it became clear that Diving Worksheets refers to repetitive and altitude worksheets which are a critical part of dive safety.	Added completing repetitive and altitude worksheets to PO 001 para 3b.
PO 001 – Board discussed the necessity of including task “conduct post dive routines on CABA equipment” in this PO. While the task is a part of a regular dive cycle, it will be addressed in depth in PO 003.	Task will be covered in PO 003.
PO 001 – Board discussed whether the task of conducting a deep dive should be broken down into series of subtasks. However, when developing the subtasks, we came to the realization that we were listing teaching points that belong in Chapter 4 of this document.	The details pertaining to the conduct of deep diving will be covered Chapter 4.
PO 001 – Board discussed the necessity of including task “conduct first line maintenance on diving equipment” in this PO. This task is not a part of every regular dive cycle and is	Task will be covered in PO 003.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

Details	Action
only performed on the dive site in extenuating circumstances. It is more appropriate to include it in PO 003	
PO 003 – Board noticed that the task “Operate and Maintain diving support equipment” from the MTL should be really broken down into more manageable chunks by separating it into operating the equipment and maintaining the equipment.	The task is separated into two chunks in the Standard statement (para 3).
PO 004 – Discussion on the appropriate title for the PO. The PO was originally named “conduct underwater inspections and searches”. While searches and inspections are closely related, the two can be broken down into separate tasks. As a result, the PO was renamed to “conduct underwater inspections” and the conduct of searches was included in para 3 of this PO.	Change completed and now reflected in PO4 para 3.
PO 004 – Originally, LMDE was included in PO 004. However, the operation of LMDE is a complex task. Board discussed on whether it should be removed from PO 004 and whether another PO should be dedicated to the operation of LMDE.	PO 005 Neutralize Anti-Ship Sabotage Devices was created.
PO 006 – Original title “Perform duties of a rescue swimmer” was changed to “Conduct Rescue Swimmer Procedures”. Even though the board preferred the original phrasing, “conduct rescue swimmer procedures” is a verbatim transfer from the MTL. Keeping the original title would necessitate pasting “conduct rescue swimmer procedures” as a sub-para into the Standard statement making the entire statement redundant.	PO 006 renamed to “Conduct Rescue Swimmer Procedures” to align with naming convention of the MTL
PO 007 – The board members discussed the necessity of expanding para 3a “Planning diving operations” to include multiple subtasks. However, it was decided that it would be more appropriate to include the proposed subtasks in the teaching points of Chapter 4	Planning Diving Operations will be broken down into multiple subtasks in Chapter 4
Updated Scalar to reflect the changes that were made to the POs	Updated and verified by Co-Chairs.

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the QS is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted QS Change Request (QSCR), thus ensuring the QSP has the most relevant information.

ANNEX E – RESOURCES, EQUIPMENT, SUPPLIES, AND ANCILLARIES

1. The following resources, equipment, supplies, and other elements are required in support of training. Resources are described in terms of formed organizations and are to arrive equipped with all personnel, vehicles, weapons, communications, and ancillary equipment required for conduct ar integral support of operations described in the POs.

2. Facilities/Trainers

DESCRIPTION	QTY	REMARKS
Classroom	1	Accommodate for 20 Trainees
Jetty/Dive site (at water level)	1	
Change room	2	Number of change room may vary IAW gender specificity.
Equipment storage facility	1	To include: • Wet side • Dry side • Shelving • Electrical for drying units • Lockers of sufficient size for diving gear • Rinsing station • Sanitising station
Pool	1	Minimum 3M depth To accommodate 12 divers
Recompression chamber (RCC): • CDS • Sub SAR • DART • Main RCC • YDT11	1	Fleet Diving Unit main RCC is preferred but, if unavailable, other RCC could be used.
Breathing Gas storage facility	1	
Ammunition/pyrotechnic locker	1	

3. Ammunition

UN #	DESCRIPTION	QTY	REMARKS
0430/21-884-6779	Diver recalls	60	
0191/99-406-3426	Day/night flares	2x Trainees	
99-965-8425	N2 Cart	1x 2 Trainees	Expect up to 20% misfire rate

4. Weapons

SER	NSN	DESCRIPTION		QTY	REMARKS
a.	XXX-XX-XXX-XXXX	LMDE		2	

5. Specialized/Technical Equipment

DESCRIPTION	QTY	REMARKS
HP air system	1	To include compressor, filtration, gas banks, filling station and sample kits.
Booster pump	3	
CABA equipment set	1x Trainee	
Underwater light	1 x Trainee	
Marker Floats	1x 2 Trainees	
Dry Suit	1x Trainee	
Wet Suit	1x Trainee	
Neoprene hood	1x Trainee	
Neoprene gloves	1x Trainee	
Neoprene boots	1x Trainee	
Depth gauge	1x Trainee	
Fins	1x Trainee	
Stretcher	2x	
Shackles	20x	various sizes
Underwater camera and light equipment	1 x 2 Trainees	
Micro SD card	1 x camera	
Handheld depth sounders	1 x supervisor trainee	
Pelican case	1 x supervisor trainee	For supervisor kit
Danforth anchors	2	

6. Transport/Vehicles

DESCRIPTION	QTY	REMARKS
Dive boat	2	Equipped to support diving ops
Passenger vehicle	2	Used to transport Trainees
Utility truck	2	Used to transport equipment to dive site
Yard Dive Tender	1	To support LMDE and Rescue Swimmer phases

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

Boat trailer	2	
Dive support vehicle	1	

7. Communication Equipment/Frequencies

NSN	DESCRIPTION	QTY	REMARKS
01-497-5335	VHF radio	2	
	Underwater speaker	1	Used during pool phases

8. Training Aids

DESCRIPTION	QTY	REMARKS
Oscar dummy	2	
Shaft bearing mock-up	2	
Virtual model of HMCS hulls	1	
Dummy Limpet Mine for LMDE training	2	

9. POL Products

DESCRIPTION	QTY	REMARKS
Petrol	$1000	For outboard engines, compressors, various small engines, and vehicles
Marine distillate	1000 L	Used for dive support vessels

10. General Purpose Stores

DESCRIPTION	QTY	REMARKS
Batteries	40x	AA
	40x	AAA
Glow sticks	240	Various colors
Zip ties	5 Boxes	
Dish soap	1 bottle	
Snoop	1 jug	
Christol lube	1 tube	
DOW corning	1 tube	
Gun tape	3 rolls	
Electrical tape	3 rolls	
Duct tape	3 rolls	
Dive safety gear	2 set	To include: • Emergency Oxygen • Spare parts kit • Lost diver marker

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

DESCRIPTION	QTY	REMARKS
		• First aid kit • 2 x Search reels
Lines	2 sets	To include: • 45m shot line • 30m shot line • 9m lazy shot line • 2x concrete clumps • 105m lifeline • 75m lifeline • 60m lifeline • 45m lifeline • 2x 30m lifeline • 4 x 15m lifelines • 10x 15m float line • 10 x 3m buddy line
Laptops	1x Trainees	Dwan Wi-Fi
Poker Gauges	2x sets	
Necklace Search line	2	
Industrial paper (Kimtuff)	5 rolls	

11. Stationary

DESCRIPTION	QTY	REMARKS
Blue pens	40	
Pencils	40	
Note pads	2x Trainees	Waterproof, pocket size
Note pads	2x Trainee	Waterproof regular size
Permanent markers	10	Various sizes
Dry erase markers	10	Various sizes and color
Erasers	20	
Paint markers	1x Trainee	
Laminating sheets	200	
Scissors	1x Trainee	
Highlighter	20	Various colors
Printer paper	2 cases	Letter size
Grease pencils	1 box	

12. Personal Equipment - All students will have in their possession the personal equipment detailed in the course joining instructions. All personal equipment to be assigned to the students are accounted for in the resource tables above.

ANNEX I – ASSESSMENT CHECKLISTS

EC001.01 – MASTER DIVING FUNDAMENTALS

Time: 6x50 min (15min per trainee)

Assessment Activity: Trainee will conduct fundamental diving procedures including emergency drills in the ocean by:

- Performing basic diving procedures; and
- Applying emergency procedures.

Environment:

- Dive site (3 stations)
- Day
- Any weather

Assessment Resources:

- 1 supplementary instructor in the water per station
- 2 instructors on the surface
- References

Invigilator Notes:

Pass/fail criteria: 5/5

Impact of failure: If a trainee fails this EC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

Shallow Water Diver and Supervisor – EC001.01 Assessment Checklist			
Trainee Name:	**Assessor Name:**	**Date:**	**Session:**

ITEM	PASS	FAIL	COMMENTS
Perform stricken diver drill to include: • Tap diver shoulder to assess level of consciousness. • Open casualty airway • Face the casualty • Hold the stricken diver BC • Ensure regulator is in the divers mouth (use octopus if necessary) • Make a controlled ascent to the surface using stricken diver BC			Trainee must complete all points to pass this item.

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

ITEM	PASS	FAIL	COMMENTS
• ditch the stricken diver weight if necessary (landmark for training) • Ensure diver exhale through diaphragm compression • If diver regain consciousness, make positive contact, continue ascent, and prepare for a panicked diver • Once on the surface, ensure both BC are inflated • Signal the supervisor • Follow direction from supervisor			
Clear their AGA mask			
Revert to second stage and clear half mask			
Conduct Regulator recovery			
Conduct Buddy breath			

ADDITIONAL COMMENTS

Assessor	Name:	Date:	Signature:
Trainee	Name:	Date:	Signature:

EC001.02 – CONDUCT A LIFELINE DIVE

Time: 3 x 50 min (20min per trainee per role)

Assessment Activity: Trainee will conduct a lifeline dive as a diver (part A) and as a tender (part B). Trainees will be assessed simultaneously.

Part A: Diver

- Set up dive site
- Dive using lifeline

Part B: Tender

- Communicating using line signals
- Tending CABA diver

Environment:

- Dive site
- Day/Night
- Any weather

Assessment Resources:

- Object to find
- References

Invigilator Notes: Nil

Pass/fail criteria:
Part A: 9/11 (including all critical)
Part B: 4/6 (including all critical)

Impact of failure: If a trainee fails this EC, they will be given a second attempt (only the part failed). If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

Shallow Water Diver and Supervisor – EC001.02 Assessment Checklist			
Trainee Name:	**Assessor Name:**	**Date:**	**Session:**

ITEM	**PASS**	**FAIL**	**COMMENTS**
Part A – Diver			
Dress with the following: items: • Leg Knife • Safety knife • Strobe Light • Half mask			

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

ITEM	PASS	FAIL	COMMENTS
• Depth gauge • Harness			
Configure CABA equipment			
Enter water (thumb up)			
Conduct leak check			
Leave surface on command			
Respond to signals as per direction			
Manage the lifeline			
Reach surface (thumb up)			
Inflate BC upon surfacing			Critical
Exit water			
Report condition and max depth			
Part B – Tender			
Assist diver with dressing			
Assist diver into water			
Pass and respond to lifeline signals			Critical
Report to supervisor			
Maintain control of lifeline (two hands)			Critical
Assist diver in exiting water			

ADDITIONAL COMMENTS	
Strengths:	**Areas for development:**

The trainee has received a debrief and seen the content of this assessment

EC001.03 – COMPLETE PERSONAL DIVE ADMINISTRATION

Time: 2x50min total

Assessment Activity: Trainee will complete a written test including multiple choices and worksheets.

Environment:

- Classroom

Assessment Resources:

- References

Invigilator Notes:

Pass/fail criteria:
SD trainees must achieve an overall pass mark of 80% and SDS trainees must achieve an overall mark of 80% however require 100% on repetitive diving worksheets. Test will be comprised of 20 multiple choice and 5 dive worksheet questions.

Impact of failure: Remedial Training / Re-test

EC001.04 – CONDUCT DEEP DIVE

Time: 6x50 min (including transit and setup) (30min diver per pair)

Assessment Activity: Trainee will conduct a deep diver (20-30m) following shotline procedures.

Environment:

- Dive site
- Depth (20-30m)
- Day
- Any weather

Assessment Resources:

- References
- 2 dive support vessels

Invigilator Notes: Nil.

Pass/fail criteria: 12/15 (including all critical)

Impact of failure: If a trainee fails this EC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

PC001 – CONDUCT NO DECOMPRESSION DIVE USING CABA

Time: 6x50 min (including transit and setup) (30 min dive per pair)

Assessment Activity: trainees will dive using CABA and conduct a task. This PC will be concurrent with PC007. Suggested tasks, but not limited to:

- Jetty search
- Hull search
- Bottom search
- Compass swim
- Wreck survey
- Ecological survey
- Film production

Environment:

- Dive site
- Any weather
- Day/night

Assessment Resources:

- Object to find (as required)
- References
- Diving equipment

Invigilator Notes: The instructor will choose a task and brief the trainee supervisor (PC007). The task can be different for each team.

Pass/fail criteria: 11/13 (including all critical)

Impact of failure: If a trainee fails this PC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

EC002.01 – PERFORM THE DUTIES OF A STANDBY DIVER

Time: 6x50 min

Assessment Activity: Trainee will perform the duties of a standby diver during a simulated emergency. Suggested emergencies:

- Lost diver
- Unconscious diver

Environment:

- Dive site
- Depth max 15m.
- Day/night
- Any weather

Assessment Resources:

- Casualty (staff recommended could also be a trainee)
- Oscar (optional)
- References

Invigilator Notes: Nil.

Pass/fail criteria: 5/6 (including all critical)

Impact of failure: If a trainee fails this EC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

Shallow Water Diver and Supervisor – EC002.01 Assessment Checklist			
Trainee Name:	**Assessor Name:**	**Date:**	**Session:**

ITEM	PASS	FAIL	COMMENTS

EC003.01 – OPERATE COMPRESSOR AND DIVE SUPPORT EQUIPMENT

Time: 3x 50 mins (15 min per trainee)

Assessment Activity: Trainee will individually operate the compressor to fill tanks, conduct air sample and fill out administration forms.

Environment:

- Compressor location (room/facility)
- Dive site

Assessment Resources:

- Compressors
- Air sample test kit

Invigilator Notes: Nil.

Pass/fail criteria:
Part A: 5/6
Part B: 4/5

Impact of failure: If a trainee fails this EC, they will be given a second attempt (only the part failed). If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

EC003.02 – CONDUCT POST DIVE ROUTINE ON CABA SECOND STAGE REGULATOR

Time: 1x50min

Assessment Activity: Trainee will dissemble and assemble a second stage regulator.

Environment:

- Classroom or dive site

Assessment Resources:

- Lubricant
- Second stage regulator
- CABA cylinder
- References

Invigilator Notes: The disassemble will be conducted the Friday prior to the reassembly (assess on the Monday).

Pass/fail criteria: 4/5 (including all critical).

Impact of failure: If a trainee fails this EC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

PC003 – OPERATE COMPRESSOR AND DIVE SUPPORT EQUIPMENT

Time: 3 x 50 mins (15 min per trainee)

Assessment Activity: Trainee will individually operate the compressor to fill tanks, conduct air sample and fill out administration form.

Environment:

- Compressor location (room/facility)
- Recommend 3x compressors for the assessment
- Dive site

Assessment Resources:

- Compressors
- Air sample test kit
- References

Invigilator Notes: the vent wait time are waived for the assessment.

Pass/fail criteria:
Part A: 5/6
Part B: 4/5

Impact of failure: If a trainee fails this PC, they will be given a second attempt (only the part failed). If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

Shallow Water Diver and Supervisor – PC 003 Assessment Checklist			
Trainee Name:	**Assessor Name:**	**Date:**	**Session:**

ITEM	**PASS**	**FAIL**	**COMMENTS**
Part A: Fill dive cylinders			
Perform Pre-Start Checks: • Check logs • Check Belts • Check fuel and oil level(s) • Check for proper electrical connection (if applicable) • Open charging lines • Position the intake hose • Open Compressor Drain valves • Calibrate flow meter, if required			

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

ITEM	PASS	FAIL	COMMENTS
Part A: Fill dive cylinders			
Don PPE			
Start Compressor			
Connect dive cylinders			
Monitor tanks while filling			
Disconnect dive cylinders when full			Cylinders do not have to be fully filled during this EC
Part B: Conduct an air sample			
Connect air sample cylinder			
Monitor flow rate			
Disconnect air sample cylinder			
Shut down compressor			
Complete compressor log

EC004.01 – CONDUCT UNDERWATER MAINTENANCE TASK

Time: 1x50 min total (in pairs)

Assessment Activity: Trainees will conduct poker gauge test on a mock-up of a shaft bearing in pairs.

Environment:

- Dry land
- Day or night

Assessment Resources:

- Shaft line bearing mock-up for the conduct of a poker gauge test.
- Poker gauges
- Calipers

Invigilator Notes: Nil.

Pass/fail criteria: 5/6

Impact of failure: If a trainee fails this EC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

PC004 – CONDUCT UNDERWATER MAINTENANCE TASK

Time: 7x50 min total (in pair)

Assessment Activity: Trainees will conduct poker gauge test on an HMC Ship in pairs.

Environment:

- Dive site
- Day
- Any weather

Assessment Resources:

- HMC Ship
- Poker Gauge
- Calipers
- References

Invigilator Notes: Each trainee will take two readings of either port or starboard shaft line.

Pass/fail criteria: 9/11 including all critical.

Impact of failure: If a trainee fails this PC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

PC005 – NEUTRALIZE UNDERWATER ANTI-SHIP SABOTAGE DEVICES

Time: 3x50 min

Assessment Activity: Trainees will be divided into 2 teams (search and LMDE) of 4-7 divers given a dive task IAW a scenario and safety brief. Team will have 40 minutes to complete hull search and mark any suspected object(s) (dummy limpet). One diver to place LMDE on suspected object. Same diver to conduct confirmation dive o/c of LMDE firing. Each team to receive debrief o/c of each dive.

Environment:

- Dive site
- HMC Ship
- Day or night

Assessment Resources:

- HMC Ship
- LMDE
- Dummy limpet mine
- 1 extra assessor

Invigilator Notes: This PC will be a team-based assessment. Each trainee to be assessed on an individual checklist. Not every trainee has to act in every position on the team. However, they are required to be a member of the team. Each trainee will be assessed on part A and B.

Pass/fail criteria:
Part A - Search team: 7/8 including all critical
Part B - LMDE team: 6/6

Impact of failure: If a trainee fails this PC, they will be given a second attempt (only the part failed). If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

EC007.02 – SUPERVISE A DIVING EMERGENCY RESPONSE

Time: 1 x 50 min per trainee supervisor (concurrent with other dives)

Assessment Activity: Trainee supervisors will supervise a diving emergency response. This EC is done concurrently with EO004.02 jetty search. Instructor will choose (and circle) an emergency from the following:

- Lost diver
- Stricken diver
- Equipment malfunction
- Medical emergency on surface post dive
- Blowups
- Traumatic injury while in the water

Environment:

- Dive site
- Max depth 15m
- Day/night
- Any weather

Assessment Resources:

- Reference

Invigilator Notes: Performance of the other trainees will not affect the result of the EC.
The trainee is mostly assessed on their control of the dive site.

Pass/fail criteria: 22/22

Impact of failure: If a trainee fails this EC, they will be given a second attempt. If still unsuccessful, it is at the instructor's discretion if the trainee is safe enough to continue with training. The instructor should record trainees progress using counselling sheets. Removal from course IAW QSP Chap 3 para 11 and NPTORD 4500-29 and 4500-54.

ANNEX J – ON JOB PERFORMANCE RECORD (OJPR)

(Not Applicable

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

ANNEX K – TT PLAN

EO	COA 1 TEL Delivery	COA 2 Interim Delivery	Impact if TEL not implemented - Realized benefits - E/W Coast Delta
All	Fitness program from PSP	Training Staff led PT program	PSP program would better suit most students.
004.03	Mock-up of a Ship's Shaft for Poker Gage test.	PowerPoint	Mock-up of a shaft enables hands on training and allows for an accurate assessment of trainee's ability to perform the task.
004.03	A 3D model of a ship's hull fittings	Tour of a ship in Dry Dock or diagrams from Engineering Manual	3D model would enable students to familiarise themselves with the exact layout of the platform they will sail on.

ANNEX L – RECORD OF DECISIONS TPWB

1. This record summarizes the conduct of the TPWB including major activities, important discussions and contentious issues, as well as all decisions and recommendations made by the Board. A description of the reasoning which supports a decision or recommendation is provided when required.

Title	**USQ Shallow Water Diver/Supervisor**			
Location of Board	**HMCS Stadacona**			
Dates	**18 March – 5 April 2024**			
Board Composition				
	Surname	Initials	Rank	Unit
Co-Chair (content)	Khabian	V	Lt(N)	NFS(A)
Co-Chair (process)	Brisebois-Vouligny	H	Capt.	NFS(A)
SME	Keezer	J	PO1	NFS(A)
SME	Speare	AM	S1	FDU(P)
SME	Warren	DW	PO2	FDU(A)
SME	Theriault	JEF	PO1	NCSM D'Iberville
SME/Secretary	Ward	C	Lt	NFS(A)

#	Details	Action/Decision
1	Presentation and TDO brief Board members discuss the previous QSWB. As mentioned in the QS ROD, the QS was not done by a board but as a discussion and virtually. Reason was that this course is an amalgamation of two courses and a formal board was not relevant.	
	Board reviewed the Occ Spec and the QS. Member Canadian Standards Association (CSA Z275.4:22) to the board as a reference for the QSP.	
	The board completed the Target Population Analysis: • NCM and Officer • Basic training/RMC/NEP • S3-Lt(N) • 0-20 Years in the CAF • Hands on • Reg and reserve • Some members are not from the Navy and will not go back to the fleet • Highschool to university • No diving experience • Comfortable with technology • 20% woman	

#	Details	Action/Decision
	Courses loading: • Max: 20 • Opt: 14 • Min 10 • Instructor ratio will vary IAW content and will be captured in the required course staffing in Chapt 3. Course expectation: • 5-6 Weeks course • 4 courses East coast and 3 Courses West coast per Year • Recertification 3 years • Dive time 15hrs Min over 25 Dives (open water and pool)	
	The board discussed the ladder procedure regarding weight drop.	The board will look into the reference to standardise the training.
	The board discussed the necessity of the Swimming pre-requisite and/or test the swimming on the course: • Trainee must be comfortable in water for safety. • Testing swimming capability on the course does not require a lot of resources (time, staff, facility, etc.) • Having a swimming pre-requisite force the trainee to consider their ability before applying for the course • A PSP standard test done prior to the course (1 year) would allow the staff to feel comfortable with the trainee	The board suggest amending the Pre-requisite to be a standardise PSP test done inside 1 year prior to the course.
2	Review of PO001 work from day 1 Discussion of PO001, and other PO, assessments throughout entire course. Not a linear progression but build on each other Discussion of order of EO and EC spread throughout the course with combined PC assessed at end of course with Deep Dive Scheduling of EO and EC assessment throughout the course once order is agreed on	

#	Details	Action/Decision
	Discussion of inadequate time given for some EO, ex maintenance PO003	
	Issues brought up from PO2 Theriault regarding new STDs on OJT. Students not adequately taught - Stand by Diver - Equipment maintenance - Compressor PO 003 is on Maintenance and will be discussed later	
	PO 001 Confirmation of order of EO and Teaching Points for each EO WEEK 1/ EO1: Diving fundamentals - Classroom and Pool instruction - Labelled EO 1 Discussion of EC 1 given during week 2 in Open Water. Agreed EC should be given prior to open water dive EO 2: Conduct Dives using CABA Jackstay Dive: No assessment, but it's practice for diving fundamentals. No EC as they will apply skills during later EOs Physiology Scenario Quiz EO 3: Conducting Lifeline Dive - EC EO 4: Completing Personal Diving Administration - EC EO 5: Conducting Deep Dive - EC and PC EO 6: Conduct CABA Dive in contaminated water - No EC	
3	EO 001.04 CAFDITS – Discussion of who has access to CAFDITS. Instructors have access, limited access for candidates. Students will have ongoing access to CAFDITS. Not tested but instructors will teach and arrange access for students to input information	CAFDITS Class time: 1x50 mins Dive Log and Worksheets Class time: 12 x 50mins Standard written and practical tests. 2 x 50 mins periods

#	Details	Action/Decision
	Discussion on: Dive Log: CF849 Repetitive and altitude worksheets Clear guidelines on how to grade tests required DAN O_2 course is a requirement for the course. The board discuss having this course given as a homework. The TDO mention that homework is not recommended but also understand the mentality of "putting the work" into this voluntary course. The board also discuss the option of using night dive time of the first week for the trainee to complete the DAN O_2 at home.	
	EO 001.01 The board discuss NPTOR 4500-54 (TRB) since this course is a speciality course for some trainee and a RQ for other. Therefore, TRB should not be conducted. The board discuss the safety issues and the need to be able to remove students that are unsafe from the course. Chap 3 para 11 mention that CO can remove a trainee for safety reason. Discussion on Physics and Physiology Teaching points and when to teach	TPs Added Class time: Physics: 2 x 50 mins Physiology: 2 x 50 mins Board recommends a quiz, but it will not be counted in assessment. Quiz: 1 x 50 mins period
	EO 001.05 Conducting a Deep Dive Reviewed Standard. No changes Board discussed what material is required for each Teaching Point - Boat set up - Equipment set up - Shotline set-up: As per Vol 2 SOPs - Emergency Procedures - Gas Endurance Calculation: Board discussed requirement for SOPs. IAW Vol 2 para 5105 - Conducting Deep Dive: Board discussed max depth of dive Conditions and Denied: No Change Environment: Discussed night dive Board Discussed Class time: Dive in pairs. Time to include transit to dive site and set up. Required 2 dive support vessels.	TPs added with material required Shotline: IAW Vol 2 SOPs Planning Gas Requirement: IAW GUE SOPs and Vol 2 para 5105 Conducting Deep dive: min 20m, max 30m Environment: Removed Night Dive Class time: 6 x 50 mins. 30 min dive per pair
	Discussion of EO 001.05 limitations. Should they simulate decompression stop procedures. Is there a requirement. To be discussed further.	Parking lot Review ECL

MARPAC RDIMS #1428073
Chap 1 & 2 approved 22 04 2024
Chap 3 & 4 approved 04 09 2024

#	Details	Action/Decision
	Is shotline required since the equipment is not available on the job. Is this a good to know or a need to know? Board members are divided in need or good to know.	
	Discussion of instruction for EO 001.05 Method Environment Class time Training Aids. Worksheet required Tasks students can conduct during 15 m practice dive; - Search - Plummer nightmare - Circle search - Knots	Method: EDI Media: Instructor Environment: Dive site/ Dirt Dive Class time: 1 x 50 each for set up and Planning Gas requirement Practice Dive time: 14 x 50 mins EC Time: 6 x 50 Tasks added as instructor sees fit Trainee conducts 2 practice dives prior to EC
	EO 001.06 Board discussed TPs for teaching diving in contaminated water. IAW Vol 2 fig 5-7-1 and para 5706 - Equipment - Plan Decontamination - Procedures - Precautions - Contamination exposure - Microbial and Chemical Hazard - Conduct procedures Discussion of definition for moderately contaminated water and what is required What equipment and decontamination procedures are required and long term	TPs added Standards updated No dive is required as all dive procedures are the same as regular dives. Method: Lecture Media: Instructor Environment Classroom Class time: 1 x 50 No Assessment
	PO 002 Respond to Diving Emergencies EO 002.01 Responding to diving emergencies as a member of a diving team Board discussion on which TPs to include or remove from EO. Are some of the points redundant as they are covered in PO 001 during physics and physiology and PO 007, Supervising Dive Emergency. Discussion on difference between recognising and identifying dive emergencies. What are the	TPs changed to following: - Diver Emergencies - Raise the alarm - Follow supervisors directions - Getting casualty out of the water Tasks within TPs updated Instructional Strategies updated to reflect new TPs Method: EDI

#	Details	Action/Decision
	emergencies a team member could be confronted with? Discussion on should the PO 002 be focused on duties of Standby Diver Discussed concurrent EC and PC for Supervisor and Stand by diver. Board listed duties SWD team member would be required to do during an emergency situation. EO 002.01 TPs discussed and evaluated based on Vol 2 Discussed and agreed this EO will not have an EC as skills will be practiced during PO 007 and EO 002.02	Media: Instructor Environment: Dive Site Diver Emergency and Raise Alarm taught during 1 x 50 mins period Follow Sup and Casualty TPs taught during 2x50 mins period Total Time: 3 x 50 mins. EC assessed during PO007
	EO 002.02 Perform Duties as Standby Diver Board discussed what the focus of PO 002 should be. Concluded that it is to familiarize and test the duties of the standby diver which involve responding to Supervisors instructions and emergencies as per supervisor. As well, confirmed that team members will continue to be assessed as per EO 002.01 TPs discussed and listed. IAW Vol 6	002.02 TPs Changed to - Executing Supervisors Instruction - Conducting lost diver search - Recovering Stricken Diver - Assisting in the recovery of underwater casualty - Debriefing supervisor
4	PO 001 Board discussed requirements for PC 001. What task does a SWD do when posted to a ship.	PC task is up to instructor as long as candidates conduct a no decompression dive using CABA PC Time: 6 x 50 (including transit) 30 min per dive pair
	PO 002 EO 002.02 Continued discussion on tasks required for TPs. Rules and reg for Stand by diver, locate lost diver. Ref: Vol 2 for checklists.	TPs - Locate Lost Diver - Rules and Reg for Stand by diver. Ref Vol2, table 2-4-1 - Recover a Stricken Diver - Debriefing the supervisor Chapter 4 and ANNEX H assessment plan updated
	PO 001 EO001.01 Board discussed Rules and Reg TP. Questions on whether all rules and regs should be taught at beginning of course (info dump) or throughout the	Added Rules and Regulation TP to EO with many subjects from Vol 2.

#	Details	Action/Decision
	course. Board agreed on what important points should be included at beginning of course. Further rules and regs will be added to subsequent POs	
	PO 003 Operate Diving Support Equipment Board discussion regarding all EOs and TPs within. Brainstorming on what should be included. Discussion on how much class time should be dedicated to compressor maintenance. Can it be done through OJT? Discussion parked but agreed that it's important as it is a requirement for Port inspection divers. Discussion on Conducting pre sail checklist. SWD are not qualified to perform maintenance on boats. But EOs will reflect ensuring dive equipment is onboard. This is reflected in Dive Site TP in PO 001. Discussion on if an EC should be included.	3 EOs - Operating Compressor and dive safety equipment - Conduct First line maintenance on CABA equipment and compressor - Conduct post dive routine on CABA equipment
	PO003 EO 001 Operate compressor and dive support equipment Discussion on if EC should be included	TPs added - Filling out Operators maintenance log - Conducting start up procedure - Conduct Trouble Shooting Drills - Conducting air sample test IAW A8 - Seeking Higher level of maintenance Tasks added for each TP above as per established regulations and manufacturers manual. Method: EDI Media: Instructor Environment: Dive site or location of equipment Chapter 4 and ANNEX H Assessment Plan updated to reflect EC to be given as equipment maintenance has been deemed important.

#	Details	Action/Decision
	PO 003 EO 002 Conduct first line maintenance on CABA, Compressor and dive support Equipment Discussion of if there should be an EC Board member suggestion that EO 002 be dropped from course if candidates are only STDs. Compressor maintenance required for PIDs. No final decision made.	TPs added - Inspecting Currency and functionality. - Ensuring floats and lines meet standards - Pre sail check of small boats - Dry/ wet suit maintenance No EC required as material and skills will be used throughout the course. Tasks added for each TP above as per established regulations. Chapter 4 and ANNEX H Assessment Plan updated to reflect changes
	PO003 EO 003.03 Conduct Post dive routine on CABA Diving Equipment Board discussion on what maintenance candidates can do on BCs. Decision made to remove TP Discussion on how much class time to be dedicated to PO003	Removal of “Conduct BC maintenance”. Spare parts are not readily available. TPs added - Rinsing Diver equipment with fresh water - Disassemble and reassemble the second stage regulator Tasks added for each TP above as per established regulations. Chapter 4 and ANNEX H Assessment Plan updated to reflect changes Method: EDI Media: Instructor Environment: On location with fresh water

#	Details	Action/Decision
		No EC required as material and skills will be used throughout the course.
	PO 006 Conduct Rescue Swimmer Procedure Board discussion on how much to change from previous course material.	EOs Not included in PO 003 as they are covered in PO 001, 003 - Donning RS Equipment - Doffing RS Equipment - Maintaining RS Equipment Included in PO - Preparing for casualty recovery - Entering water from rescue position - Surface swimming with rescue equipment - Assessing casualty condition - Securing casualty in recovery equipment - Exiting water at rescue position Tasks added for each TP above as per established regulations. Chapter 4 and ANNEX H Assessment Plan updated to reflect changes Method: EDI Media: Instructor Environment: dive site Ref: US Coast Guard Rescue Swimmer Manual
5	PO 004 Underwater Inspection Board discussion of EOs and what tasks should be included. Some tasks are covered in other PO 002. Such as Standby diver and searchers. Search procedures as per Vol 2 Board discussion on Capturing Underwater Photo and how in depth to go. Should it be it's own EO	EO 001 Locating Underwater Objects TPs - Conduct Underwater Searchers - Marking objects

#	Details	Action/Decision
	What order should the EOs and tasks be.	- Capturing underwater photos Re: Photos. Diver handed camera to capture imagery and will hand off to Supervisor. No Tested. Capture Photo separate EO Re: Order - Recover Object Then - Locate Object - Marking Object Decision: EO 001 Recover Underwater Object EO 002 Capturing Underwater Imagery EO 003 Conduct Underwater preventative maintenance
	PO 004 EO 001 Locating Underwater Objects Discussion on TPs, their order, and tasks required within each TP TP Select and employ Search Technique	EO 001 TPs 1. Select Search Technique - Ship Bottom Searches - Seabed Searches - Jetty Searches Searches detailed in ANNEX H. Not Practicing other searches as they are the least effective methods. Usually individually conducted Chapter 4 and ANNEX H Assessment Plan updated to reflect changes Method: EDI Media: Instructor Environment: classroom and dive site
	EO 004.001 (cont'd) TP Locating/ Marking Underwater Object Discussion on methodology and what tasks to include	

#	Details	Action/Decision
	Discussion on how and how long to teach it. Agreed this PO should be one week.	
	EO 004.02 Capture underwater videos and photos	TP Operate the action camera - Follow manufacture instruction - Basics of imagery light and theory - Waterproof housing - Give imagery to supervisor Chapter 4 and ANNEX H Assessment Plan updated to reflect agreed on changes Method: EDI Media: Instructor Environment: dive site and classroom
	EO004.03 Conducting Underwater Preventative Maintenance Discussion of TPs and how the tasks within each are broken down. Board discussion on the availability of virtual or video references to teach the underwater hull of the ship. It might be more efficient. What are alternatives to familiarization of hull Discussion on how much class time to be given for each type of underwater search.	TPs - Inspect Underwater hull fitting outfits and openings. - Assessing Hull Damage - Conduct Underwater Cleaning Chapter 4 and ANNEX H Assessment Plan updated to reflect agreed on changes Method: EDI. Walkthrough in dry dock or on guided dive Media: Instructor Environment: dive site and classroom Added to remarks: Use VR or video of underwater hull if available Class time for searches 1 day each/ 7 x 50 mins periods Total Class time reflected in Chapter 4 and ANNEX
	EO 004.03 (Cont'd)	Added TP

#	Details	Action/Decision
	Discussion of performance of underwater maintenance	Performance of underwater maintenance task Tasks required added
	Board discussion of the order of EO 004	New Order of EO004 01 Capture underwater Imagery 02 Recover Underwater Objects 03 Conduct Underwater Maintenance
	PO004 (Cont'd) Discussion on ANNEX h H Assessment Plan. Which EO will require EC or PC Discussion on Recovery of Objects. Can STD recover large objects.	Decisions reflected in ANNEX H. EC for each EO PC to encompass all EOs Re: Recovery. Decision that candidates to recover objects that do not require extra equipment such as lifting devices
	PO 005 - Neutralize underwater ship sabotage devices using LMDE TP discussed by board members. - Preparing the LMDE IAM ref A4 - Placing the LMDE on the hull - Firing the LMDE - Conducting post use maintenance on LMDE IAW Ref A4. Board discussed tasks and subjects for each TP Discussion on combining PC 005 with PC 003 as it can be combined with ships inspection activities Discussion on what EOs should be included and how TPs are split up	Decision EO 1 Operate LMDE - Preparing the LMDE - Placing the LMDE - Firing the LMDE EO 2 Conduct Maintenance on LMDE - Conducting post use maintenance
	EO005.01 TPs discussed by board including what tasks should be included Discussion on how many per group to practice Discussion on what is required for EC and PC and where it should be tested	TPs - Understand the threat of underwater anti-ship sabotage device - Safety precautions - Preparing LMDE - Placing the LMDE on the hull Tasks for each TP reflected and updated in Chap 4 Practice in groups of 3-4

#	Details	Action/Decision
		EC conducted on Dry Land PC conducted in Water
	EO005.02 Conduct Post Use Maintenance of LMDE TPs as per manual and checklist Discussion on EC and PC.	No significant changes from previous Instructional Methods and ANNEX H Chapter 4 updated Trainees will simulate firing LMDE during PC. Live ammo will be used for EC
6	PO 007 Supervising no decompression dive using CABA Board discussion on which EOs to include and the TPs for each.	Decisions EOs EO 007.01 Planning Diving Operations EO 02 Supervising CABA dive EO 03 Supervising Emergency Response EO 04 Conducting diving team administration
	EO007.01 Plan Diving Operation Board in depth discussion on individual TPs Decisions and updates based on prior QSPs and board knowledge and Vol 2. Board discussion about when to teach Dive Supervisor theory. No specific classroom studies, much of lessons are taught concurrently during other dives through mentoring and coaching throughout the course.	TPs - Identifying the task - Contacting port authority - Locate Resources - Selecting Team Members - Ensure availability of equipment - Conduct Dive Brief - Sa Chapter 4 and ANNEX H Assessment Plan updated to reflect agreed on changes Method: EDI (shadowing) Media: Instructor Environment: dive site and classroom Updated class times reflected in ANNEX EO 007.01 Assessed as part of EO 007.02
	EO 007.02 Supervise CABA diving to 30 MSW	TPs

#	Details	Action/Decision
	Board in depth discussion on individual TPs Decisions and updates based on prior QSPs, board knowledge and experience, and Vol 2.	- Inspecting all divers - Conducting dive IAW Vol 2 - Recording Dive Times - Calculating repetitive group (RG) - Conduct post dive brief Chapter 4 and ANNEX H Assessment Plan updated to reflect agreed on changes Method: EDI (shadowing) Media: Instructor Environment: dive site and classroom Updated class times reflected in ANNEX.
	PO 007 PC discussion Board discussion on what EC can be included in during the PO 007 EC. Many aspects of EO can be run concurrently with other EO	
	EO 007.03 Supervise a dive emergency response Board in depth discussion on individual TPs Decisions and updates based on prior QSPs, board knowledge and experience, and Vol 2.	TPs - Identify the emergencies - Stop all diving - Recover divers as required - Requesting support as required - Supervising First Aid for diving ailments - Getting casualty to a higher level of care - Directing team member to quarantine - Completing Emergency report Chapter 4 and ANNEX H Assessment Plan updated to reflect agreed on changes and updates to material Method: EDI (shadowing)

#	Details	Action/Decision
		Media: Instructor Environment: dive site and classroom Updated class times reflected in ANNEX.
	EO007.04 Diving Team Administration Board in depth discussion on individual TPs Decisions and updates based on prior QSPs, board knowledge and experience, and Vol 2.	TPs - Ensuring diver currency - Request waivers - Conduct check-out-dive - Signing dive logs - Generating quarterly reports Chapter 4 and ANNEX H Assessment Plan updated to reflect agreed on changes and updates to material Method: EDI (shadowing) Media: Instructor Environment: classroom Updated class times reflected in ANNEX.
	PO007 Assessment Plan Board discussion on how much time required for each EO. IE how many periods required for practice and EC. Some EOs and ECs will be run concurrently with other EOs and ECs. Planning the times will be up to training staff to ensure candidates are given enough time to practice prior to testing. EC007.01 Supervising Dive EC007.02 Supervising the response to dive emergency PC007	EO007.04 Not assessed as process is a simple task and follows a standard format. It is an overview and will not be tasked when candidates return from course. EC007.01- Can be any CABA dive EXCEPT deep dive. No decompression dives. EC007.02 – Assessment mock emergency up to instructor but should be within the scope of EO.01 and EO .02. ECs will be run concurrently with other dives, EO, and ECs PC007 – Run concurrently with PC001. Supervisor candidate can supervise dives
	CHAPTER 3: Training Management Details	Staffing: Additional instructors added for EO 001.01 pool dive.

#	Details	Action/Decision
	Required Course Staffing: Board discussion on how many additional instructors beyond 1 head (PO2/PO1) and 2 lead (S1/ MS), and 2 standby divers (LS/MS). Training Limitations: Cont'd discussion of decompression dive: will they allow real or simulated decompression dive. Emergencies will be simulated. Course Capacity	Other additional instructors and guest lecturers reflected in Chapter 3 Decompression procedures will be simulated Optimum 14, Max 20, Min 8
	REVIEW OF ANNEXES ANNEX G Suggested Sequencing Optimum Training Schedule	
7	Board discussion on Decompression Dive. Should it be left in? Valuable knowledge for Supervisors, but not required STDs. Is it a need or a good to know?	Decompression dive: Put in parking lot for further discussion
	Optimum Training Schedule Board discussed optimal schedule and factors in order to keep schedule at 29 days. Days will include night dives which will factor into periods per day. Night Dive discussion Admin EO 001.04 Worksheet EO001.02 Jackstay discussion EO004.03 Discussion on the possibility of not having a ship available to teach and conduct EC.	DLN Portion can be completed at home during evening. Pool time to be increased to 3 days. More material can be covered prior to diving in the ocean. More practice and familiarization time to be better prepared for ocean diving Night Dive to begin week 2 Night Dives will be 3 periods EO001.04 12 periods split between 3 days, morning or afternoon. Added 4 hours Reduced periods. Instruction, practice, and EC will be done on land using mock up of ships hull. This will save time and eliminate the requirement for a ship as ships may not always be available
	Optimum Training Schedule (Cont'd) EO001.05	EO007 instruction, EC, and PC do be conducted concurrently

#	Details	Action/Decision
	Discussion on reducing class periods as material covered can be taught in short period of time. EO007. 01,02 Instructed concurrently with other EO except 2 period of instruction for supervisors EO07.03 Emergencies PO007 PC	during other EOs. Ongoing mentoring from course instructors Emergencies practice and EC conducted concurrently with other dives Conducted during last week concurrently with other dives ANNEX G Training schedule updated based on board discussion
8	ANNEX I Assessment Checklist Board discussion on what to include in checklist, what are critical tasks, and what is required to pass.	ANNEX I reflect changes and updates made by the board. References based on board members experience, past course checklist, and Vol 2 and Vol 6 checklist
9	ANNEX 1 Assessment Checklist (cont'd) Chapter 1 Prerequisites Chapter 3 Required staffing	Completed PSP swim test Recommended AIT courses

RECORD OF AMENDMENT & AMPLIFICATION

1. The record of amendment and amplification will be filled in whenever a change to the TP is initiated. This section is used to provide amplification details and provide a history of the changes made. In the requirement for the amendment section, the member inputting the changes will transpose the information from the submitted TP Change Request (TPCR), thus ensuring the QSP has the most relevant information.

ANNEX M – ACRONYMS AND ABBREVIATIONS

1. This annex is to be utilized only to identify uncommon abbreviations used within this QSP.

AAR	After Action Review
ABC	Airway, Breathing, Circulation
AGA	Aktiebolaget Gas Accumulator (Swedish company)
BC	Buoyancy Compensator
CABA	Compressed Air Breathing Apparatus
CAFDITS	Canadian Armed Forces Dive Inventory Tracking System
CFITES	Canadian Forces Individual Training and Education System
CFTO	Canadian Forces Technical Orders
CNS	Central Nervous System
COA	Course of Action
COC	Chain of Command
D Dive S	Directorate Diving Safety
DAN	Divers Alert Network
DGM	Diving General Memoranda
DRP	Diver Recovery Position
DTI	Diving Technical Instructions
EC	Enabling Check
EO	Enabling Objective
EPs	Emergency Procedures
F2F	Fit 2 Fight
HMCS	His Majesty Canadian Ship
HOD	Head of Department
HP	High Pressure
HRMS	Human Resource Management System
IAW	In Accordance With
IOT	In Order To
LMDE	Limped Mine Disposal Equipment
MCW	Mildly Contaminated Water
MSW	Meters of Sea Water
NCM	Non-Commissioned Member
NFS	Naval Fleet School
O_2	Oxygen
OJPR	On Job Performance Record
OJT	On the Job Training
PADI	Professional Association of Diving Instructors
PCR	Post Course Review
PID	Port Inspection Diver
PLARs	Prior Learning Assessment Recognition
POL	Petroleum Oil Lubricants
POs	Performance Objective
PPE	Personal Protective Equipment
PT	Physical Training
QSCR	Qualification Standard Change Request
QSWB	Qualification Standard Writing Board

RADHAZ	Radiation Hazards
RG	Repetitive Group
RS	Rescue Swimmer
SAR	Search And Rescue
SME	Subject Matter Expert
SOP	Standard Operating Procedures
SPG	Submersible Pressure Gauge
